WARDENS' UNIT

Neighbourhood Warden Area Assembly Update

▪ Graffiti

The Wardens continue to remove graffiti across the area and are still requesting that graffiti that has been missed be reported to the Wardens or through Streetpride number 336003

Street pride are still continuing negotiations with statutory bodies such as British Gas, BT, Cable and YEDL to allow removal of graffiti on their properties.

▪ National Conference

The Wardens have been selected with one other Warden scheme out of 320 Warden schemes across the country to appear in a video on good practice with relation to graffiti.

The video will be shown at the National Conference for Neighbourhood Wardens at Harrogate on the 14th November and is a sign that Rawmarsh Wardens have been recognised nationally, which is an honour for the Wardens.

On the subject of honours Warden Philip Padfield has been selected as a finalist for an award at the National Conference for Warden of the year (Youth Category) for his work within Rawmarsh. I am sure you will join me in wishing Philip the best of luck with this award.

▪ Kilnhurst Road Clean up project.

You may recall in previous meetings that a clean up of Kilnhurst Road took place on the 3rd 4th and 5th June this year involving various council agencies, local business, community members and schoolchildren.

It is my pleasure to inform you that the Kilnhurst Road Clean up project has been selected as 1 of 7 other finalists in the final of a National ENCAMS Clean and Safe Award.

Winners will be announced on Thursday evening just prior to the Wardens national conference.

Again further recognition of what working together can achieve.

Kilnhurst Road is still clean with only minor rubbish being dumped, which is quickly removed by the Wardens.

▪ Running totals

Please read the Wardens complaints running totals which is attached.
Please feel free to ask questions either in person or call the Wardens
