

TRANSPORTATION ADVISORY GROUP

Date:- Wednesday 17 May 2023 Venue:- Microsoft Teams Meeting
Time:- 10.00 a.m.

AGENDA

1. Apologies for Absence
2. Minutes of the previous meeting held on 1st February, 2023 (Pages 3 - 9)
3. Matters arising from the previous minutes (not covered by the agenda items)
4. Questions on Transport Issues (Pages 11 - 13)
5. South Yorkshire Mayoral Combined Authority Transport, - Update
6. Bus Operators - Update
 - (1) First Group
 - (2) Stagecoach
 - (3) Rotherham Community Transport
7. Railway Operators - Update
8. RMBC Transportation Unit - Updates (Pages 15 - 27)
9. Any other business
10. Date and time of the next meeting
Wednesday, 26th July, 2023, commencing at 10.00 a.m. via Microsoft Teams

Sharon Kemp,
Chief Executive.

This page is intentionally left blank

TRANSPORTATION ADVISORY GROUP
1st February, 2023

Present:- Councillor Cusworth (in the Chair); Councillors Aveyard, Bennett-Sylvester, Bird, Browne, Castledine-Dack, T. Collingham, Griffin, Keenan, McNeely, Sansome, Wilson, Wyatt and Mr. C. Jepson (Anston Parish Council).

Also present were Steve Grant (Stagecoach, Worksop Depot), Sam Millington, Lisa Maloney (Northern Railway), Andy Wright (SYMCA) and John Young (Stagecoach).

Apologies for absence were received from Councillors Beck, Alam, Baker-Rogers, Burnett, Cooksey, Elliott, Hunter, Lelliott, Mills and Mrs. J. Hart (Dinnington St. John's Parish Council).

31. MINUTES OF THE PREVIOUS MEETING HELD ON 26TH OCOBER, 2022

Consideration was given to the minutes of the previous meeting held on 26th October, 2022.

Agreed:- That the minutes of the meeting held on 26th October, 2022, be approved as a true record.

32. MATTERS ARISING FROM THE PREVIOUS MINUTES (NOT COVERED BY THE AGENDA ITEMS)

There were no matters arising from the previous minutes.

33. QUESTIONS ON TRANSPORT ISSUES

The Transportation Advisory Group noted the questions and answers on transport matters that had been submitted in advance of the meeting that had been included in the agenda pack.

In response to the question submitted and answer received, Councillor Griffin asked if the planned consultation would be station by station or a single consultation exercise for the whole country. Issues varied depending upon the station.

Lisa Maloney (Northern Rail) reported that, despite much in the media, as yet there were no plans to close any ticket offices. However, the role of staff who worked in them was being looked at with a view to widening and upskilling the role

In response to the question submitted by Councillor Cooksey, there was a rolling programme of cabling by City Fibre which narrowed the carriageway when safety barriers were erected resulting in bus services having to divert, often at short notice. It was suspected that this may well be the case with service No. 115 as referred to in the question.

In response to the question submitted by Councillor Sheppard, Lisa Maloney (Northern Rail) reported that it was down to the ticket machine available at the particular station. Some ticket machines gave an option to purchase an advance ticket which was cheaper than the standard fare. It was hoped that a software update would resolve this issue.

In response to the question submitted by Councillor Sheppard, Andy Wright (SYMCA) stated that it was not a statutory obligation for the operators to provide such information and it would be their decision as to what information was shared with customers. The information provided to the SYMCA was subject to a data sharing agreement.

Steve Grant, Operations Manager, Worksop, stated that Stagecoach tried to get as much information out as possible via Twitter but acknowledged that it was only a select group of passengers that would access it.

Agreed:- That Lisa Maloney, Northern Rail, provide an update to the next meeting on ticket machines and the ability to purchase advance tickets.

34. **SOUTH YORKSHIRE MAYORAL COMBINED AUTHORITY TRANSPORT - UPDATE**

Andy Wright gave the following verbal update:-

- SYPTE was still the statutory body until it was devolved at the end of March, 2023. Services would be going out to tender shortly with a start date of July
- The tender round would be challenging for both operators and the SYMCA. The Government had provided additional funding either directly to the operators and SYMCA to help support bus services throughout Covid whilst patronage had been significantly declined. Patronage was now 80% “normal” fare payers but ENCTS customers that benefited from subsidised fares had reduced to 60% of pre-Covid numbers
- SYMCA funded additional social necessary services that could not be funded by the commercial operators
- No clear statement of intent had been made of what Government funding would be available for the next financial year. It was an uncertain future in terms of what the impact would be on the network services
- Desire to work with all stakeholders to get back to a healthy and sustainable commercial and supported service
- Initial indications were that Mayor’s £2 fare scheme and now the Government scheme, suggested that it had been successful and

generated some patronage. It was challenging to indicate how the passenger numbers may have varied because of seasonal variation. It was felt to have been worthwhile and brought focus to the transport but as to what degree it generated new customers was difficult to ascertain

35. BUS OPERATORS - UPDATE

First Group

No representative was in attendance.

Stagecoach

Patronage

- Approximately 73% of pre-Covid level which was a slight uplift linked to the £2 fare; the test would be as to whether that new business could be retained when the scheme finished at the end of March

Fare Increase

- Increase from 2nd January, however, for many that increase had effectively not take place due to the £2 fare. Options were being worked through as how to possibly minimise the impact

Staffing

- The situation was still quite delicate and in particular Rawmarsh Depot. There had been a few challenges recently but things had improved but there was still some work to do
- In terms of reliability, approximately 96-97% of all journeys were run but it did vary from day-to-day. Another factor impacting was sickness on the day with sickness levels having increased generally since Covid. It was recognised that this was a national trend with people more likely to be concerned about coming to work if they had a cold particular in roles where they mixed with the public. This was reflected in the new establishment figures
- The number of leavers had slowed down and looking at changes to rosters to try and better match staff to the hours they wanted to work

Funding

- It was still unclear what would happen at the end of March when the funding ceased but there was close work with the SYMCA. Attempts would be made to maintain and protect the network as much as possible given the significant increased costs and rider numbers

Electric Buses

- Rawmarsh Depot would receive 23 new electric buses in 2024 and would operate the 22X and 221 services
- There would be a rigorous training programme over the next few months for engineers and drivers

Rotherham Community Transport

No representative was present

Andy Wright, SYMCA, reported that the community sector's patronage had struggled throughout Covid. The SYMCA would be working with them on an annual business plan to encourage that patronage to return.

There would also be investment in 2 electric vehicles for the community transport area. They were being tested in the real environment to ascertain how they featured in that type of operation. They were currently in the procurement stage.

Elected Members were encouraged to remind their constituents that community transport was there for those with less accessibility and not able to access the core network.

Agreed:- That the update be noted.

36. RAILWAY OPERATORS - UPDATE

Lisa Maloney, Northern Rail, gave the following verbal update:-

- Current performance data included the period of striking. On time performance was 55%, within 3 minutes 77%, within 15 minutes 97% and cancellation rate of 3.8%
- Within 3 minutes was just below target (80%), cancellation target just over target and on time should be higher than 55%. However, the latter had been heavily impacted by industrial action, weather, engineering issues etc. and hopefully it would improve as the weather improved
- RMT – had been presented with an offer from the Department of Transport which they were considering and discussing
- ASLEF – on strike today with further strike action planned for the 3rd. They had been presented with an offer that had been rejected. The matter was with the Department of Transport. As an operator, Northern Rail, could not speak to the unions
- An engineering issue had been identified just after Christmas at the Harbridge Junction between Wakefield Kirkgate and Barnsley. A temporary fix had been sourced with a new part now secured and would be fixed by an overnight position in March

Agreed:- That the update be noted.

37. RMBC TRANSPORTATION UNIT - UPDATES

Andrew Moss, Head of Transport Infrastructure, gave an update with the aid of the following powerpoint presentation:-

Delivery 2022 Update

- Parkway Scheme – complete
- Greasbrough Junction – complete
- Bellows Road Clean Air Zone Scheme – complete

- Other Schemes/Developments
College Road NPIF junction improvement – to completion
Cumwell Lane – approaching Section 278 sign off
Motorway Service Area – Section 278
- Programmes
Cycle Hub and Schools Road Safety Training – ongoing
Cycling Strategy Delivery Plan – in draft for March 2023 approval
Traffic Management Act Part 6 – ready for submission to Government
- Clean Air Zone Schemes – complete
- Transforming Cities Fund Programme – scheme now in consultation, detailed design and awaiting FBC ahead of construction to March 2024
- City Region Sustainable Transport Settlement (CRST) – funding allocated, revenue funding approved, programme of scheme development in hand
- Local schemes – Local Neighbourhood Road Safety (LNRS) Programme brought to completion. New concept introduced and engagement started
- Centenary Way Viaduct Slab Failure Scheme – Responded immediately, made safe. TTM amended November back to 2 lanes. Full scheme to get funding approval. Delivery Spring/Summer 2023
- Service Management Processes – Service planning. Budget bids submitted

Year Ahead 2023

- January – Application for Traffic Management Act (TMA) Part 6 Powers
- CRST into feasibility (early 2023)
- Sheffield Clean Air Zone to go live 27th February, 2023
- April – Cabinet report – Transport Capital Programme and finalisation of Cycling Delivery Plan
- TCF into construction (early 2023-early 2024)
- Local Transport Plan 4 – DfT consultation early 2023 for completion early 2024 (includes quantifiable carbon reduction)
- The Whins into construction Spring 2023
- LNRS tranche 1 delivery
- TMA Part 6 Designation Order from Government (expected)
- LNRS tranche 2 prioritisation Winter 2023/24
- Bus service improvement plan and enhanced partnership working

Policy Update

- DfT indicate broadly similar direction of travel notwithstanding changes of Government i.e. improved tone on active travel and impact of spending review
- SYMCA Transport Strategy and implementation plans to be renewed under LTP4
- Bus Recovery Grant/£2 single cap ends March

Wider Picture – current key issues – progress since previous update

- Strategy/Policy/Funding
 - Funding
 - CRSTS
 - Central Government Financial Statement
 - Active Travel Fund 4
 - Integrated Rail Plan – ongoing lobby
 - Active Travel England up and running
 - Great British Railways – deferral of go live
 - Local Transport Plan
 - Review to 2024
- Carbon Reduction
 - Climate – now post COP26
 - Global events continue to pressure
 - Decarbonisation of transport
- Active Travel
 - Health
 - Increased focus on active travel, lower speeds and improve air quality
 - Air quality
 - Sheffield City Council CAZ Scheme go live end of February
 - Completion of RMBC CAZ schemes
 - Active Travel progress on current schemes to March 2024
- Public Transport and Covid Recovery
 - Covid – no new travel data as yet
 - BSIP and Public Transport Recovery – enhanced partnerships
 - Economy
 - Inflation %
 - Supplier shortages

South Yorkshire Safer Roads Partnership Update

- Strategy “VISION Zero” Launch
- Governance and resourcing changes
- Greater devolved responsibilities to member authorities

Rail Travel

- There were proposals for Rotherham main line and a new station at Waverley – both had £1M scheme development funding to enable them to be designed, business cases submitted to Government and then funding to be allocated by Government. There was regional optimism as to the successful outcome of the bids which would hopefully be delivered in 2027-2030
- Work was taking place on the delivery of a joint tram station and the travel benefits that would be derived from such

Discussion ensued with the following issues raised:-

- The need for road safety measures in Anston due to the number of accidents and traffic backlogs
- The proposed tram train station at Magna was behind programme due

to technical issues that needed to be addressed with regard to signalling in compliance with the main line signalling for trains and tram train signalling and how they dovetailed together. These issues needed resolving with Network Rail.

Agreed:- (1) That the update be noted.

(2) That an update be provided to the Panel on the current situation with the tram train station at Magna.

38. ANY OTHER BUSINESS

There was no other business to be considered.

39. DATE AND TIME OF THE NEXT MEETING

Agreed:- That a further meeting be held on Wednesday, 17th May, 2022, commencing at 10.00 a.m.

This page is intentionally left blank

Questions to Transport Advisory Group – 17th May, 2023**Question 1 – Councillor C. Carter**

There has been reports of anti-social behaviour relating to Brinsworth Academy students at the Bonet Lane bus stop for the 208 service at 14:54. Can this service be re-routed to have an additional stop during term-time to have a pickup in the layby at Brinsworth Academy (on Brinsworth Road), which is accessible on the current route, has much bigger capacity for students, and also would help the Academy manage their students better?

Question 2 – Councillor Griffin

Could the Stagecoach representative give an explanation with regard to the decision to end the number 21 service (which goes along Greystones Road in Whiston) from the beginning of May 2023. It would be good to receive at least an explanation and preferably something about planned developments which might reduce the impact of this decision.

Residents and others with disabilities will struggle to get to such places as doctors surgeries and pharmacies and isolated people will find further difficulties in getting to a variety of places.

Response:- (Stagecoach) Service 21 is operated by Stagecoach and is financially supported by SYMCA. The route has been retendered, along with almost all other tenders. Any decision will be for SYMCA, but we have bid for the route and hope it will continue.

Response:- (SYMCA) We believe that this was mis-information that occurred in the community a while ago that the No. 21 was no longer going to run. There are no changes to the 21 with the current contract extension agreed until the 22nd July, 2023, to retain service continuity. SYMCA are currently tendering for replacement service to the ones already provided from the 23rd July, 2023.

A response from First, the operator, with regard to the request for another stop.

Question 3 – Councillor Wyatt

A question to Northern Rail.

We see frequent cancellations of services from Swinton. For example, during week commencing 10th April, I understand every direct York service was cancelled along with numerous services to Doncaster.

What steps are Northern Rail taking to address the issues which are leading to so many on the day cancellations and an inability to fulfil the timetable.

I hope the consequent drop in recorded passenger numbers will not be used as evidence of lack of demand leading to reduced services going forward.

People cannot travel if there are not trains to travel on.

Response:- Awaited from Northern Rail

Question 4 – Councillor Bennett Sylvester

To RMBC Transportation

Following the fall through of the scheme to reduce congestion on the A630 at Mushroom Roundabout a number of residents have suggested that confusing and poorly maintained road markings on the roundabout may be contributing to poor traffic flows.

Is this something that can be looked into and any remedial action taken please?

Response:-

In respect of maintenance of the existing road markings, the representation made will be passed to the Highways Team for consideration as part of their road marking maintenance programme.

In respect of the clarity of the existing layout, at face value markings appear to be in accordance with national guidance, and there are no issues officers are aware of that would suggest the congestion situation might be improved by re-lining. If we are provided with further detail as to the specific concern we may be able to consider this further. We would also observe that re-lining at the roundabout could not be expected to have any impact on the issue the original scheme was intended to address (that of blocking back from the downstream merge on the Doncaster Road exit). Whilst there may be complaints from some members of the public regarding the layout, this is not atypical at multi-lane roundabouts as a proportion of drivers do find these challenging owing to the relatively busy and complex nature of these junctions - this is typically not something that can be wholly addressed within lining changes.

Question 5 – Councillor Bennett Sylvester

According to visitor surveys 25% of people travelling to Rother Valley Country Park do so by public or sustainable transport while only 11% do so to Thrybergh Country Park.

On the bus route map in Rotherham Interchange Rother Valley is on it Thrybergh is not.

Can this be sorted but also given the X78 routes connectivity to major interchanges and deprived communities across South Yorkshire what is being done to encourage more usage of the bus route to Thrybergh Country Park?

Councillor 6 – Councillor Atkin

When buses are diverted, as they are at moment in Wath, why can passengers not get off at stops on diverted route?

Transport Advisory Group

Briefing

17th May, 2023

Agenda

- Update since February meeting
- Current government position
- Capital schemes in / nearing delivery
- Ongoing revenue activity
- Forward look

Since last meeting...

- Sheffield Clean Air Zone went live 27th Feb
- Broom Road and Wath to Manvers cycleways schemes into construction
- All of RMBC TCF programme received FBC approval
- Successful bids –
 - A.6022 Road Safety Fund

Current government position

- Key objectives –
 - driving growth and productivity
 - decarbonising transport
 - *including quantifiable carbon reduction*
 - levelling up services and areas
- Primary focus in local transport remains active travel and buses – *all Govt funded schemes now expected to contribute*
- Bus recovery grant and £2 fare cap extended
 - both expire end June '23
- LTP4 guidance & development

RMBC capital schemes in delivery

- **Broom Road cycleways**
 - Mar '23 – Jan '24
- **Wath to Manvers cycleway**
 - Apr '23 – Jul '23
- **Sheffield Road cycleways**
 - May '23 – Jul '24
- **Rotherham – Maltby bus corridor**
 - May '23 – Feb '24

RMBC capital schemes to commence delivery 2023

- **The Whins / Cinder Bridge Road passing bay**
 - Summer '23 forecast commencement
- **Morthern Rd crossing at Wickersley R'about**
 - Summer '23 forecast commencement
- **Upper Wortley Road crossing at Gt Parks Rd**
 - Summer '23 forecast commencement

RMBC capital schemes to commence delivery 2023

- **Local Neighbourhood & Road Safety tranche 1**
 - Schemes approved in 6 of 13 wards
 - Remainder subject to ongoing engagement
- **A.6022 Safer Roads Fund scheme**
- **Bus corridor hotspots work**
 - At earliest stage, potential projects to be identified in liaison with SYMCA and bus operators.

Ongoing revenue activity

- Cycle hub
- Active Travel Officer schools work
- Schools road safety training
- Development of active travel links to Mainline Station
- Commencement and early engagement regarding City Region Sustainable Transport Settlement schemes

City Region Sustainable Transport Settlement

- £46.6 million capital investment to 26-27
- Public transport, walking and cycling improvements leading into Rotherham town centre
- Contribution to two new stations
 - Rotherham Mainline
 - Waverley

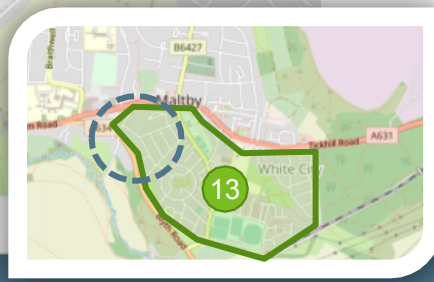

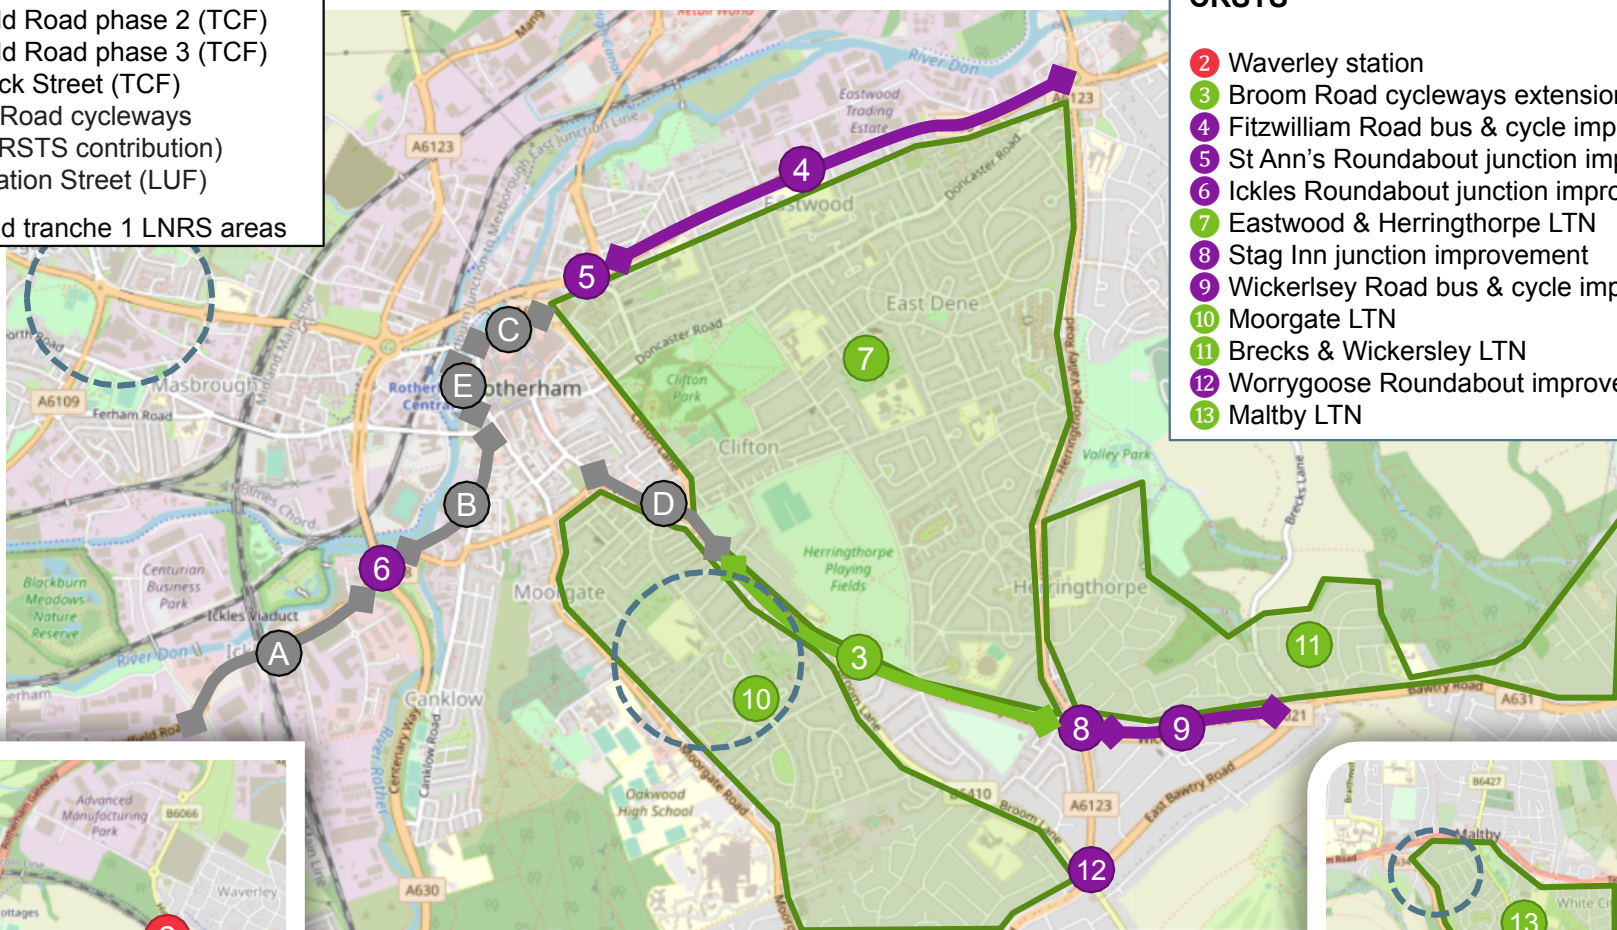

Selected other schemes

- Ⓐ Sheffield Road phase 2 (TCF)
- Ⓑ Sheffield Road phase 3 (TCF)
- Ⓒ Frederick Street (TCF)
- Ⓓ Broom Road cycleways (ATF, CRSTS contribution)
- Ⓔ Corporation Street (LUF)

○ Selected tranche 1 LNRS areas

CRSTS

- Ⓐ Waverley station
- Ⓑ Broom Road cycleways extension
- Ⓒ Fitzwilliam Road bus & cycle improvement
- Ⓓ St Ann's Roundabout junction improvement
- Ⓔ Ickles Roundabout junction improvement
- Ⓕ Eastwood & Herringthorpe LTN
- Ⓖ Stag Inn junction improvement
- Ⓗ Wickerlsey Road bus & cycle improvement
- Ⓙ Moorgate LTN
- ⓫ Brecks & Wickersley LTN
- ⓬ Worrygoose Roundabout improvement
- ⓭ Maltby LTN

Integrated Mainline & Tram Train Station

- £1m CRSTS to develop Outline Business Case
 - station & tram train stop design, timetable capacity analysis and modelling work
- £10m Town Fund investment to acquire land
- Station masterplan currently being prepared
- OBC programme for completion March 24

Looking further forward

- Local Neighbourhood & Road Safety tranche 2
 - Members' feedback to be invited from the Summer
- Eastwood footbridges improvement
- Junction 33 services – construction commencement mid '23
- First CRSTS Strategic Outline Cases ready late summer '23
- Local Transport Plan refresh
 - For finalisation from Summer '24
- Initial announcement of CRSTS2
 - Potential significant funding opportunity after 26-27

Any questions?
