

CABINET MEMBER FOR LIFELONG LEARNING, CULTURE AND LEISURE

Venue: Town Hall,
Moorgate Street,
Rotherham.

Date: Tuesday, 21st March 2006

Time: 9.00 a.m.

A G E N D A

1. To determine if the following matters are to be considered under the categories suggested in accordance with the Local Government Act 1972.
2. To determine any item which the Chairman is of the opinion should be considered as a matter of urgency.
3. Minutes of previous meetings held on 28th February and 7th March, 2006
(Pages 1 - 4)
- to receive minutes
4. Transfer of Hosting Arrangements - South Yorkshire Sports Partnership (Pages 5 - 7)
- to consider the proposal to transfer the hosting arrangements for Rotherham MBC to Barnsley MBC
5. Single Plan (Pages 8 - 118)
- to approve the final version
6. GCSE Examination Results 2005 (Pages 119 - 136)
- to receive the report
7. More People More Often, Culture and Leisure Marketing Strategy 2006-2008
(Pages 137 - 194)
- to accept the Plan and refer to Tourism Panel for information
8. Culture & Leisure Services Events Plan 2006-09 (Pages 195 - 213)
- to accept the Plan and refer to Tourism Panel for information

(The Chairman authorised consideration of the following items in order to process the matters referred to without delay)

9. New Name for Green Arbour Special School (Pages 214 - 215)
- to request approval be given to the new name for Green Arbour Special School
10. Annual Determination: The Local Authority (Post-Compulsory Education Awards) Regulations 2000 (Pages 216 - 217)

- to consider the annual determination of exercising powers to make financial awards to the new HE and FE students

11. Date and Time of Next Meeting

CABINET MEMBER FOR LIFELONG LEARNING, CULTURE AND LEISURE
Tuesday, 28th February, 2006

Present:- Councillor Boyes (in the Chair); Councillors Austen and Littleboy.

Apologies for absence:- Apologies were received from (none).

175. MINUTES OF A PREVIOUS MEETING HELD ON 7TH FEBRUARY, 2006

The minutes of a meeting held on 7th February, 2006 were agreed as a correct record.

176. CULTURE AND LEISURE SERVICES - BUDGET MONITORING REPORT AS AT JANUARY, 2006

Consideration was given to a report of the Strategic Finance Officer which showed the budgetary position as at January, 2006.

This is the seventh Budget Monitoring report for Culture and Leisure Services in 2005/06 and the fourth separate report, reflecting the organisational change that resulted in the formal cessation of the Education, Culture and Leisure Services Programme Area and the creation of the Children and Young People's Services Programme Area on 1st October, 2005.

The current forecast is for the service to achieve a balanced budget by the end of the financial year. This is in line with the forecast outturn reported at the end of December, 2005.

Resolved:- That the forecast outturn for 2005/06 based on actual costs to 31st January, 2006 and forecast costs to the end of March, 2006 be noted.

177. BUDGET MONITORING REPORT AS AT JANUARY, 2006 - EDUCATION ELEMENT

Consideration was given to a report of the Strategic Finance Officer which showed the budgetary position as at January, 2006.

This is the seventh Budget Monitoring report for Children and Young People's Services in 2005/06 and the third separate report, reflecting the organisational change that resulted in the formal cessation of the Education, Culture and Leisure Services Programme Area and the creation of the Children and Young People's Services Programme Area on 1st October, 2005.

The current forecast is for the former Education element of the service to achieve a balanced budget by the end of the financial year.

Reference was made to:-

- the reporting of costs and savings relating to the strategic partnership with RBT;
- recurrent budget pressures (eg: the costs of the placement of out-of-area pupils in Rotherham schools);
- the future, detailed reporting of main code costs from 1st April, 2006 onwards.

Resolved:- That the forecast outturn for 2005/06 based on actual costs to 31st January, 2006 and forecast costs to the end of March, 2006 be noted.

CABINET MEMBER FOR LIFELONG LEARNING, CULTURE AND LEISURE
Tuesday, 7th March, 2006

Present:- Councillor Boyes (in the Chair); Councillors Austen and Littleboy.

178. MINUTES OF PREVIOUS MEETING HELD ON 28TH FEBRUARY 2006

The minutes of a previous meeting held on 28th February, 2006 were agreed as a correct record.

179. EXCLUSION OF THE PRESS AND PUBLIC

Resolved:- That, under Section 100A(4) of the Local Government Act 1972, the press and public be excluded from the meeting for the following items of business on the grounds that they involve the likely disclosure of exempt information as defined in those paragraphs indicated below of Part 1 of Schedule 12A to the Local Government Act 1972.

180. LONGDENDALE OUTDOOR EDUCATION CENTRE - PROPOSED REFURBISHMENT AND EXTENSION

In accordance with Minute No. 129 of a meeting of the Cabinet Member, Lifelong Learning, Culture and Leisure held on 22nd November 2005, consideration was given to a report of the Young People's Services Manager which contained details of the final outcome, and confirmed costs of the Partnering negotiations, in respect of a contract to refurbish and extend Longdendale Outdoor Education Centre.

Work started on 14th February, 2006 with a completion date during mid October, 2006.

The scheme involved refurbishment of the existing two storey house, demolition and rebuild of the boiler house, remedial works to the existing equipment store and construction of a new two storey extension, and all associated works.

In addition, the report gave an update on progress around the development of the management partnership with the Youth Hostel Association, together with the anticipated current spending profile.

A draft contract will be agreed by July 2006 in readiness for agreement by August 2006.

The new outdoor education centre will provide a facility for outdoor educational needs and pursuits which will benefit all Rotherham schools. A publicity exercise would take place at an appropriate stage of the project.

Once the work had been completed and bookings re-commenced, and in

response to a request from the Manager, it was noted that the name of the facility would revert to its old name of Crowden.

- Resolved:- (1) That the final tender costs be noted.
- (2) That the progress in developing the management partnership with the Youth Hostel Association be noted.
- (3) That a further progress report be submitted to a future meeting.

(Exempt under Paragraph 3 of the Act – information relating to the financial or business affairs of any particular person (including the Council)

181. CULTURE AND LEISURE SERVICES - FEES AND CHARGES 2006/ 07

Consideration was given to a report of the Head of Culture and Leisure which outlined the annual review of fees and charges for 2006/07.

The proposed charges are with effect from 27th March, 2006 (25th March, 2006, for Country Parks and 1st September, 2006 for Civic Theatre).

In the main, and whilst there are several exceptions, increases range from 0% to 5%.

It was noted that several core services still remain free of charge, e.g. public library service, museum service, archives and local studies service and casual access to green spaces and children's play areas. Where there is a charge there is often a concessionary rate and, particularly related to leisure activities, a junior rothercard rate. Concessionary customers are not restricted to access at off-peak times as is the case in many other local authorities.

A new concessionary use policy has been adopted for the hire of Culture and Leisure premises by local organisations. As from April 2006 eligibility for concessionary hire will be determined by whether the activity helps deliver one or more corporate (and hence Culture and Leisure) priorities.

Resolved:- That, with the exception of specific amendments, as discussed, the fees and charges, as set out in Appendix A now submitted, be approved.

(Exempt under Paragraph 3 of the Act – information relating to expenditure and recipients of service provided by the Authority).

ROOTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | |
|---------------------------|--|
| 1. Meeting: | Lifelong Learning, Culture & Leisure Cabinet Member and Advisors |
| 2. Date: | 21st March 2006 |
| 3. Title: | Transfer of Hosting Arrangements – South Yorkshire Sports Partnership |
| 4. Programme Area: | Children and Young People's Services |

5. Summary

This report identifies the proposal to transfer the South Yorkshire Sports Partnership hosting arrangements from Rotherham Metropolitan Borough Council to Barnsley Metropolitan Borough Council. Rotherham MBC has acted as host agency for the Partnership since its conception in 2001. Given the length of time that Rotherham has operated in this role it is proposed that Barnsley MBC take on the responsibility at least for the next 3 years.

6. Recommendations

Members are asked to consider the proposal to transfer the hosting arrangements for Rotherham MBC to Barnsley MBC.

7. Proposals and Details

Rotherham Metropolitan Borough Council, along with the three other South Yorkshire Local Authorities, has been a member of the South Yorkshire Sport and Physical Activity Partnership (SYSPAP) since it was established in 2001. The Partnership, which includes other sport and physical activity stakeholders (e.g. health, regeneration, and voluntary sector), plays a leading role in the co-ordination and delivery of a wide range of sport and physical activity opportunities across the sub region. Rotherham MBC contributes both financially and in officer time to SYSPAP and in return benefits from external funding directed into the partnership by Sport England and other funders, as well as the work carried out by Partnership Officers centrally and in the Borough itself.

Partnership successes to date include a number of programmes and initiatives (e.g. stakeholder engagement, community clubmark and the Community Coach Scheme in Eastwood) that have been identified nationally as examples of good practice and as such adopted by other Sports Partnerships. In addition thousands of adults and young people in Rotherham have benefited from the programmes and opportunities developed and delivered through the Partnership.

As part of a national review process, initiated by changes in the structure of Sport England (the major funding body), the Partnership is currently going through a process of restructure in order to meet new Sport England criteria; establish itself as 'Fit for New Purpose' and consequently secure funding for the next 3 years. As part of this process and due mainly to the length of time Rotherham has acted as host, Barnsley MBC has made an offer to take on the host responsibility. This is supported by the SYSPAP Executive Board and the proposal is to commence the new arrangement from 1st April 2006.

Whilst officers in Rotherham MBC, Culture and Leisure and other service areas have made an effective contribution to the hosting arrangements, it is felt that this transfer will allow others to make a similar contribution, whilst at the same time enable RMBC officers to play a more supportive role.

8. Finance

There are no direct financial implications of transferring the hosting arrangements, although a degree of officer time will be needed to ensure correct procedures are followed. RMBC officers will continue to work with SYSPAP colleagues to ensure proper financial monitoring procedures are adhered to, as part of the ongoing work of the Partnership.

9. Risks and Uncertainties

As Barnsley MBC have accepted in principle, the responsibility for acting as host organisation to the SYSPAP, no risks are anticipated other than possible delays in the transfer deadline, which may be caused by any procedural difficulties. In this event the transfer date would need to be extended, with Rotherham MBC continuing to act as host in the interim period.

10. Policy and Performance Agenda Implications

The SYSPAP makes a significant contribution to the work of Cultural and Leisure services, particularly in the area of Sport and Physical activity development. As such it contributes to all of the corporate priorities identified in the Cultural and Leisure business plan and Rotherham's Sport and Active Recreation Plan.

11. Background Papers and Consultation

None.

ROTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | | |
|-----------|------------------------|--|
| 1. | Meeting: | Cabinet Member for Lifelong Learning, Culture and Leisure |
| 2. | Date: | 21st March 2006 |
| 3. | Title: | Single Plan |
| 4. | Programme Area: | Children and Young People's Service |

5. Summary

This report presents the final draft version of the Single Plan. The plan has been developed by a multi agency steering group and has been the subject of broad engagement and consultation. This final draft incorporates feedback received.

The presentation is being worked on by the Design Studio to convert the document into an attractive, children and young person friendly format.

Publication must take place by 1st April to meet the statutory deadline.

6. Recommendations

- **That the Cabinet Member approves the final version for the publication to go ahead.**

7. Proposals and Details

The plan has been drafted by a multi agency steering group and wide consultation and engagement has been ongoing throughout the development stage as well as when the plan reached draft format.

We have incorporated as much of the feedback as possible, recognising that this is a strategic plan and that operational detail will follow as locality plans are developed. There will be a locality plan for each Area Assembly, which will be based on the strategic plan, but will be designed to meet the specific needs for that area.

The priorities in the plan are based upon sound research, using the Audit of Need, Children and Young People's Visioning, stakeholder meetings and events and other recent feedback from consultation.

8. Finance

The cost of publication is limited and is contained within existing budgets. We will publish the plan on the Council's website and Intranet, and publicise it using poster campaigns. We will produce the plan on CD Rom and a summary version will be produced.

Printed publication will be limited in this first instance, as we are conscious that the plan will need to be reviewed and revised following the Joint Area Review.

9. Risks and Uncertainties

Without a single plan our capacity to deliver better outcomes for children and young people will be hindered as the plan sets out shared objectives for all agencies across the Borough. We would also fail to meet our legislative duties.

10. Policy and Performance Agenda Implications

We are able to demonstrate that our priorities in the plan are based on sound evidence and research about the needs within the Rotherham Borough. The single plan will be a key document in the Joint Area Review, demonstrating the link between needs, priorities, actions and outcomes.

The Joint Area Review will feed into the Comprehensive Performance Assessment.

11. Background Papers and Consultation

Consultation drafts of the single plan

Audit of Need

Children and Young People's Visioning

Steering Group and Stakeholder Meetings

DfES Guidance on the content of the Single Plan

Rotherham Children and Young People's Services

Children and Young People's Plan and Well-Being Strategy 2006-2009

April 2006

Young people will be directly involved in developing a young person friendly version of the Plan and further work will be taking place in order to produce a summarised document.

A feedback facility has been included at the back of this document in order for you to submit any comments or suggestions on the content of this Plan. The Plan will be reviewed on a regular basis to reflect ongoing developments and issues identified through consultation with all of Children and Young People's Services' stakeholders, including children and young people. Performance against targets/ measures will be reported to the Children and Young People's Board, in addition to existing reporting to the Lead Member and Council's Cabinet. An annual progress report will also be published in June each year, with effect from 2007, this will follow our Annual Performance Assessment.

Strategic Plans have also being developed for each Area Assembly which cross reference to the Children and Young People Plan. In addition, operational locality plans will contain more detailed information about how this strategic Children and Young People's Plan will be implemented in each neighbourhood. If you would like to participate in developing these plans please contact Emma Heyes at the above address.

If you would like this document in another format or language please contact us and we will do our best to accommodate you.

Welcome to the Children and Young People's Plan

Insert picture of Councillor Wright (Design Studio)

This is our first strategic plan for children and young people in Rotherham. It tells a story about the journey towards developing excellent integrated services and transforming them through multi agency delivery, in the right place at the right time.

It covers services for children and young people 0-19, those aged 20 or over who are leaving care and those up to 25 who have learning difficulties.

Since the Every Child Matters framework was established we have been doing an enormous amount of preparation for the integration agenda. We have already done a great deal and are proud of what we have achieved so far. We intend to build on this success and continue to take our passion and commitments further.

Children, young people, parents and carers have helped us to shape this plan, together with staff from all our partner organisations. We will continue to involve our stakeholders in the ongoing revision, improvement and development of the Plan ensuring that the opportunity to contribute is inclusive and open to all.

We carried out a study of the needs of Rotherham communities and have published a report about our findings. During the Summer we also carried out a visioning exercise with children and young people and we have used this, together with other consultation and events, to inform our priorities for this plan. Key themes arising from these can be found throughout the Plan, however, full details of the Analysis of Need can be found by visiting: <http://www.rotherham.gov.uk/singleplan>

We clearly demonstrate links to our Community Strategy, Corporate Plan and other more detailed plans and strategies, together with the plans and strategies of our partners. For example, there is a clear connection and consistency between this plan and the National Service Framework for Children, Young People and Maternity Services and the Primary Care Trust's Local Delivery Plan, and our Local Area Agreement. We are also committed to ensuring that we play a full part in responding to and supporting the Council's equalities agenda including a commitment to the Corporate Equality Strategy and Action Plan and the Race Equality Scheme 2 and Action Plan. We have conducted an Equality Impact Assessment throughout the production of this plan and will address issues arising from this work.

The plan has been developed by a multi agency steering group and whilst it is a three year plan, we will review our progress regularly and produce an Annual Report. We will also continue to refine our Analysis of Need and to obtain the views of children and young people and these, together with the recommendations from our Joint Area Review, will feed into our first review.

We hope that you enjoy reading this plan and that you join us on this exciting journey.

How we are Organised to Deliver Services for Children and Young People

As you have seen in the welcome message, we have a Children's Board, chaired by Councillor Wright, and membership of the Board ranges across all partners. This is supported by a multi agency group of managers who form the Children's and Young People's Strategic Partnership in 2005 we established our Safeguarding Board.

We have a dedicated Cabinet Member for Children and Young People's Services and a Director of Children and Young People's Services, and both of these positions were established well ahead of our statutory duty. All of the progress to date is a demonstration of our shared commitment to the children, young people and families of Rotherham.

We are committed to increasing the voice and influence children and young people have on all of our services. We will build on our visioning exercise to ensure that children and young people increasingly take part in our strategic thinking, the design of services, the commissioning of services, service delivery, the quality assurance of services and in the recruitment and selection of our staff.

A multi agency leadership team forms the first layer of governance for children and young people's services. The Analysis of Need, the children and young people's visioning work and this plan are being used by them to inform the transformation of our workforce, to maximise the use of resources and create multi agency teams to match the needs of the community in which they are based. Our schools and children's centres play a crucial role in the community, and we already have one full service school, and are in the process of rolling out our extended services programme in schools. As part of the reform agenda the N.H.S. are restructuring and delivering services through our children's centres and extended services in order to deliver services closer to where child lives.

The success of our vision is reliant upon continued strong partnership and governance, to ensure that the Every Child Matters framework helps us to touch the lives of all children and young people in Rotherham, in the most positive way.

Our delivery of this plan is based upon clear timescales but some of our more aspirational and developmental plans need to retain some flexibility.

Some of our key achievements to date include:

Service Pathways

- Electronic service pathways have been developed in order to provide direct access for service users to completed pathways and any other supporting information, via the internet.
- Work has been completed in relation to:
 1. The transition process for children requiring extra support when moving from primary to secondary school (Dinnington Special Educational Needs Department)
 2. Preventative practice for young children experiencing difficulties emotional wellbeing issues at primary school has been completed (Maltby Behaviour in Education Support Team, (BEST)).
 3. An anti-bullying pathway is currently being developed by the whole school community at Maltby Comprehensive School (Maltby BEST Team).

Common Assessment Framework (CAF)

The Common Assessment Framework (CAF) focuses on the early identification of children and young people's needs and improved multi-agency working. It's focus is on providing a simple, non-bureaucratic process for the holistic assessment of a child or young person's needs, taking account of the individual, family and community. Rotherham has played an influential role in the development of this national framework. In addition, our Children's Rights representatives have carried out further work to produce a Children and Young People version of this assessment. The CAF has been developed for use by practitioners in all agencies so that they can communicate and work more effectively together. Within Rotherham the progress made in this area includes:-

- Training has been developed, with relevant partners, to ensure that Rotherham has a coherent approach to Common Assessment Framework (CAF), Lead Worker and Information Sharing Guidance.
- A Common Assessment Framework (CAF) and Lead Worker Implementation Plan have been developed.
- Draft Guidance in relation to the Lead Worker Role has also been devised.

Information Sharing Protocols

- Rotherham's joint confidentiality agreement has been reviewed and extended to include Mental Health Services.
- A draft overarching Children and Young People's information sharing protocol has been written and formal consultation has been completed. Formal approval is expected in Summer 2006.
- Draft service level agreement protocols have been developed.

Clifton Project

- A pilot multi-agency team has been established and has now moved into purpose built accommodation.
- Workers from a range of services are committed to an integrated collaborative way of working.
- The Multi-Agency Support Team's (MAST) function is effectively producing clearer, more direct actions for local children and families.

- Development of an incorporated Children's Centre will form part of a more effective delivery of services to local families.

Adoption and Fostering Inspections

- In 2004 Inspectors confirmed that Adoption Services are 'Safe' and 'Well Managed'.
- In 2005 Inspectors confirmed that Fostering Services are 'Safe' and 'Well Managed'.
- Excellent progress is being made in relation to the educational achievement of Looked After Children, with an increase in the number of children and young people gaining five or more GCSEs.
- Rotherham have established and developed its Local Safeguarding Children Board.

Exclusions

- A combination of partnership working, multi agency working and quick response enabled us to almost halve the number of permanent exclusions of young people from Rotherham schools in the last school year.
- For the first time for at least 6 years there were no permanent exclusions from primary schools.
- Direct work with parents and parenting support courses have helped parents of teenage children and young children to improve their parenting skills and provide appropriate boundaries and structures for their children.
- Behaviour Improvement Programme schools were successful in reducing the number of permanent exclusions with 18 of them meeting their target. Schools also had success in reducing their fixed term exclusions with 13 meeting their target. The number of days lost to fixed term exclusion was reduced in 16 schools.

Attendance

- Attendance in both primary and secondary schools has significantly improved over the last 3 years and Rotherham is one of only 50 authorities without any identified attendance concerns.
- Rotherham's primary school attendance is only 0.05% away from the national average whilst Rotherham's secondary school attendance is only 0.02% away.
- The practice of Rotherham's Education Welfare Service is cited on the DfES's Good Practice web site and other authorities have been invited to carry out some of Rotherham's initiatives to tackle poor performance.

- Rotherham's Education Welfare Service was one of the first in the country to issue fixed penalty notices under the Education remit of the Anti Social Behaviour Act 2003.
- The attendance of Looked After Children has also improved since the 2005/6 outturn. Action plans have been put in place for 15 young people which are monitored by a Member Education Panel.

School Performance

- In 2005 pupil performance at the end of all Key Stages has risen. In many cases the level of improvement is greater than the national rate of improvement.
- Overall performance in external tests and examinations is the highest in South Yorkshire.
- For the second year running the Minister of State for Schools and 14-19 Learners has written to congratulate Rotherham on the excellent performance of our schools in the achievement of Key Stage 2 pupils. The results show that children in Rotherham, at KS 2, have sustained the most consistent improvement in English and Mathematics since 2002.

Youth Offending Services (YOS)

- According to the most recent National Performance Tables, Rotherham Youth Offending Services are the 5th best performing Youth Offending Service in England and Wales.
- Intensive Supervision and Surveillance Programmes, the Home Office's 'flagship programme' for managing serious and persistent young offenders in the community, was first devised and delivered in Rotherham
- Rotherham Youth Offending Service has developed a unique Voice and Influence Officer post which has been described by the Youth Justice Board as an "excellent initiative".
- Additional mental and emotional health support is provided by a clinical psychologist working with both the STEPS Team (Support, Therapy, Education, Prevention Service) and the Youth Offending Service.

The Respect Agenda is a national initiative that has been put in place to tackle a range of issues which are associated with anti-social behaviour by individuals. The initiative offers; support for parents to address poor parenting skills and early involvement in crime or anti-social behaviour, works with schools to address truancy and exclusion and works with groups and individuals living in deprived areas where there is disorder, drug and alcohol misuse.

Teenage Pregnancies

- Rotherham has achieved a 9.1% reduction in teenage pregnancies over the 1998 baseline.
- Rotherham has the second lowest rate of teenage pregnancies in South Yorkshire (51.5%), the South Yorkshire rate is 55.3%.
- Specific project work has been undertaken in order to improve this from the 1998 baseline, including youth clinics, Sexual Relationships Education in schools and the baby doll project in Rawmarsh.

Voluntary and Community Sector

We have a good track record of working in partnership with agencies and are very proud of the contributions made by the voluntary and community sector. A couple of examples of work taking place include;

- Al Muneera run a girls only multi-sports activities project at Ferham School to make sports more accessible in a culturally appropriate manner and have female coaches and support staff.
- The Chantry Young Men's Christian Association (YMCA) runs a developing Dads (DVD) project which provides advice, support and informal education opportunities for fathers, fathers to be and father figures aged 16-25 years. This project currently covers all of Rotherham and consists of one to one support and group activities. Young fathers are referred directly to the project from a variety of other services, particularly those working in the field of teenage pregnancies.

There are far too many examples of good work to detail within this plan so for further details about a whole range of community and voluntary activities please go to www.yarotherham.org.uk

You will find further examples of particular projects, initiatives and areas of good practice under each of the five Every Child Matters outcomes later in this document. These include 'Breakthrough Projects' which originated from the Community Strategy and highlight how particular areas of work contribute to the five themes. In addition, there are details of 'Making a Difference' projects which demonstrate how we will measure the impact of our work and integrate into our policies and procedures.

Local Public Service Agreement (LPSA)

March 2006 was the end of our public service agreement and the following targets were set in relation to Children and Young People.

- Improving the Educational Attainment of Children and Young People in Care (National).
- Maximising the contribution adoption can make to providing permanent families for children and young people.
- Increase the percentage of 14 year olds at or above the standard of literacy, numeracy, science and information and communication technology for their age.
- Improve the attainment and progress of pupils in the Foundation Stage (period end Summer 2006).

Currently, we have achieved our LPSA target, which is the increase in average SAT (Standard Attainment Tests) results for Looked After Children aged 11 years, we are on target to achieve the number of young people leaving care with 5 or more passes at grades A*-C and we are aiming to achieve the adoption targets at the end of the LPSA period. Whilst we are not on target to meet the Key Stage 3 attainment, there has been significant improvement at a rate which is higher than the improvement rate nationally.

The Vision for Children and Young People in Rotherham

During the development phase of services for children and young people in Rotherham, a great emphasis has been placed on the real involvement and engagement of children and young people. Traditionally, consultation, engagement and participation of children and young people has more usually been confined to a replication adult ways of working, but in Rotherham we are striving to turn things on their head by involving children and young people in our thinking, and actions, at a much earlier stage and at all stages of the process.

Young People's Services (Youth Service) has, with partners and young people, developed this into a much broader and deeper framework, where children and young people of all ages and abilities are encouraged to contribute at all stages of the process. In Rotherham this has evolved into the concept of giving 'real Voice and real Influence' in such a way that it

ensures children and young people have real impact on decisions that affect their lives. Recent activity has included young people's contribution to the scrutiny process, with Looked After Children young people involved in scrutiny of the Local Authority's role as Corporate Parent, and the Youth Cabinet's involvement in the scrutiny of Citizenship Education in Schools.

Rotherham's Youth Cabinet has, during four or five years, developed from an adults led forum to one where young people very much determine their own agenda. They meet formally six times a year; in November they unanimously referred 'Bullying' as an issue for scrutiny and at their training session in February, following peer education work on anti-fascism they considered issues relating to the British National party (BNP) impact on politics in Britain. Representation from secondary schools, colleges and special schools continues to grow. Similarly Rotherham's United Kingdom Youth Parliament representatives have developed innovative practice, this year their manifestos had simply a letter, no age, no gender, no picture and for the first time Electoral Services were involved in the count, next year the target will be to increase the number of young people involved in voting.

During the summer of 2005, Rotherham Young People's Services and partners conducted a Visioning Exercise involving in excess of 5,500 children and young people from 50+ organisations, and a variety of age ranges. 35 young people spent 4 days over the summer bringing feedback together as a vision, this was presented at the Rotherham Show by 95 young people to children , young people and the wider public. This has enabled us to use the analysis of need study, and cross reference it with what children and young people told us. It has informed the shaping of our key priorities, and the overarching vision for children and young people in Rotherham.

The Borough of Rotherham is experiencing a renaissance and in another recent event to launch this, children and young people from Rotherham's voluntary sector Get Sorted Academy of Music wrote and performed a song which was called "a new beginning". Words in the chorus included "Let's make a change, let's make a future for our young". (*[Hyperlink to MP3 of the song](#)*)

To capture this new beginning our overarching vision statement is:

VISION

Changing lives – working together to build a brighter future for all children and young people in Rotherham.

Core Principles

We have also developed a number of core principles. These principles have been adopted and will be embedded as widely as possible across the full range of our services.

Children and Young People's Services are committed to:

- ensuring the child and young person's wellbeing is paramount.
- creating a service that ensures fair access and best possible outcomes for all children and families.
- championing children and young people's rights and responsibilities.
- ensuring that the thoughts, views and experiences of children and families inform the development of our services.
- being innovative, flexible and adaptable to create services which are good enough for all children and young people.
- Recognizing and celebrating equality and diversity.

We will continually check the quality of our work by asking ourselves the question:

- If this were my child, would it be good enough for them?

And we will challenge the focus of our work by asking ourselves:

- Will it really make a difference for children and young people?

We place trust in each other because through working together we will make the greatest difference:

- We will listen, learn and improve.
- We will value and respect children, young people, families and each other.
- In order to achieve the best for all children and young people, we will recognise that we need to look after ourselves and care for each other.

Strategy for the well being of Children and Young People

Rotherham and all of its partner organisations are committed to enabling the well being of its communities and individuals. This strategic plan is the contribution to a broad approach to well-being, which specifically relates to children and young people. In 2005 we launched our revised Community Strategy and Corporate Plan, with the following priorities:

- Rotherham Alive
- Rotherham Safe
- Rotherham Learning
- Rotherham Proud
- Rotherham Achieving

We can demonstrate clear links from these priorities to the outcomes framework for Every Child Matters.

EVERY CHILD MATTERS – BE HEALTHY

- Physically healthy
- Mentally and emotionally healthy
- Sexually healthy
- Healthy lifestyles
- Choose not to take illegal drugs
- Parents, carers and families promote healthy choices

ROTHERHAM ALIVE

- Rotherham will be a place where people feel good, are healthy and active, and enjoy life to the full. Health services will be accessible and of high quality for those that require them.
- Rotherham will celebrate its history and heritage – building on the past, and creating and welcoming the new. People will be able to express themselves and have opportunities to be involved in a wide range of high quality cultural, social and sporting activities.
- The media, arts, literature and sport will flourish. As a society, we will invest in the next generation by focusing on children and young people.

EVERY CHILD MATTERS – STAY SAFE

- Safe from maltreatment, neglect, violence and sexual exploitation
- Safe from accidental injury and death
- Safe from bullying and discrimination
- Safe from crime and anti-social behaviour in and out of school
- Have security, stability and are cared for
- Parents, carers and families provide safe homes and stability

ROTHERHAM SAFE

- Rotherham will be a place where neighbourhoods are safe, clean, green and well maintained, with well-designed, good quality homes and accessible local facilities and services for all. There will be attractive buildings and public spaces. Communities will be peaceful but thriving, relatively free from crime and the fear of crime, drugs and anti-social behaviour. Environments, people and businesses will be protected and nurtured. Children will be safe from harm and neglect. A preventative approach will be taken to minimise crime, accidents and hazards, and to further strengthen resilience and thus safeguard all Rotherham citizens.

ENJOY AND ACHIEVE

- Ready for school
- Attend and enjoy school
- Achieve stretching national educational standards at primary school
- Achieve personal and social development and enjoy recreation
- Achieve stretching national educational standards at

ROTHERHAM LEARNING

- Rotherham people will be recognised as being informed, skilled and creative, innovative and constructively challenging. They will be self-confident and have a sense of purpose. They will aspire to develop and achieve their full potential in their chosen careers, work, leisure and contributions to local life. Learning and development opportunities will be available and accessible to all. Through this enabling, learning environment, involvement and entrepreneurship will be encouraged.

| <p>secondary school</p> <ul style="list-style-type: none"> • Parents, carers and families support • Learning | <p>EVERY CHILD MATTERS – MAKING A POSITIVE CONTRIBUTION</p> <ul style="list-style-type: none"> • Engage in decision-making and support the community and environment • Engage in law-abiding and positive behaviour in and out of school • Develop positive relationships and choose not to bully and discriminate • Develop self-confidence and successfully deal with significant life changes and challenges • Develop enterprising behaviour • Parents, carers and families promote positive behaviour <p>ROOTHERHAM PROUD</p> <p>Rotherham people, businesses and pride in the Borough are at the heart of our vision. The Borough will have a positive external image and its people will be renowned for their welcome, friendliness and commitment to the values of social justice. Active citizenship and democracy will underpin how Rotherham works. Achievements and diversity will be celebrated. Rotherham will be a caring place, where the most vulnerable are supported. It will be made up of strong, sustainable and cohesive communities, both of place and interest and there will be many opportunities for people to be involved in civic life and local decision making. The means to do this will be clear, well known and accessible.</p> | <p>EVERY CHILD MATTERS – ACHIEVE ECONOMIC WELLBEING</p> <ul style="list-style-type: none"> • Engage in further education, employment or training on leaving school • Ready for employment • Live in decent homes and sustainable communities • Access to transport and material goods • Live in households free from low income • Parents, carers and families are supported to be economically active <p>ROOTHERHAM ACHIEVING</p> <p>Rotherham will be a prosperous place with a vibrant, mixed and diverse economy and flourishing businesses. Inequalities between parts of the Borough and social groups will be minimised. There will be an excellent town centre known for the high-quality design of its public spaces and buildings, specialist and quality shops, markets and cultural life for all age groups. Rotherham will be accessible from other areas and will have a wide choice of integrated transport options available. Villages and rural areas will be revitalised and provide high quality of life amongst Rotherham's beautiful countryside.</p> |
|--|---|--|

FAIRNESS (cross cutting)

All individuals in Rotherham will have equality of opportunity and choice. Rotherham will provide open and accessible services. We will treat each other with fairness and respect and our diverse needs and strengths will be understood and valued. Rotherham will actively challenge all forms of prejudice and discrimination and ensure that all the priorities encompass an equalities approach.

SUSTAINABLE DEVELOPMENT (cross cutting)

Rotherham will be a place where the conditions are right to sustain economic growth, the well being of its citizens is prioritised and there is a high quality living environment sustained through minimising harm from development. Rotherham will be recognised locally, nationally and internationally for the positive impact of all organisations being excellent in sustainable development best practice.

Our work with partners in developing our Local Area Agreement, has also informed this plan. The key areas of our Local Area Agreement are detailed later in this plan. We would have expected similar issues to emerge, but all of these activities running separately but in parallel, has served to affirm that these are the right priorities. We have shared these with wider consultative groups. Rather than new consultation, we have built upon what we have already been told, as much of it is very recent. We have used this to shape our priorities and then carried out "verification" sessions with stakeholders, to double check that we have got it right.

In addition the National Service Framework for Children, Young People and Maternity Services (NSF) has a direct influence on the delivery of this plan. (Department of Health 2004)

The NSF is a ten-year plan that has clear links to and with the Every Child Matters outcomes and frameworks. It carries an explicit commitment from Government to improving the lives of children and young people and is intended to lead to a cultural shift in developing and providing services, resulting in services which are designed and delivered around the needs of children and families, not around the needs of organisations.

Key messages in the NSF set national standards for the first time for children's health and social care, which promotes high quality, woman, child and young person centred personalised care.

The standards in the National Service Framework require services to:

- Give children, young people and their parents increased information, power and choice over the support and treatment they receive, and involve them in planning their care and services.
- Introduce the new Child Health Promotion Programme designed to promote the health and well being of children from pre birth to adulthood.
- Promote physical health, mental health and emotional well being by encouraging children and their families to develop healthy lifestyles.
- Focus on early intervention, based on timely and comprehensive assessment of a child, young person and their families needs.
- Improve access to services for all children according to their needs particularly by co-locating services and developing Local Clinical Networks for children who are ill or injured.
- Tackle health inequalities, addressing the particular needs of communities and their families who are likely to achieve poor outcomes.
- Promote and safeguard the welfare of children and young people, and ensure all staff are suitably trained and aware of action to take if they have concerns about a child or young persons welfare.
- Ensure that pregnant women receive the highest quality care throughout their pregnancy, have a normal childbirth wherever possible, and are involved in decisions about what is best for them and their babies, and have choices about how and where they give birth.

Children and young people enjoy better health today than previous generations; however inequalities still impact on children and young people. The practical challenge is how to ensure that children's services locally are coherent in design and delivery, with good co-ordination, effective joint working between and across sectors and agencies, with smooth transitions where necessary for children, young people and families. This plan provides a unique opportunity for the priorities derived from the 5 outcomes of Every Child Matters, The Local Area Agreement and the National Service Framework to merge and give direction to organisations and staff who work in partnership to improve the lives of all children, young people and families.

The Rotherham Context

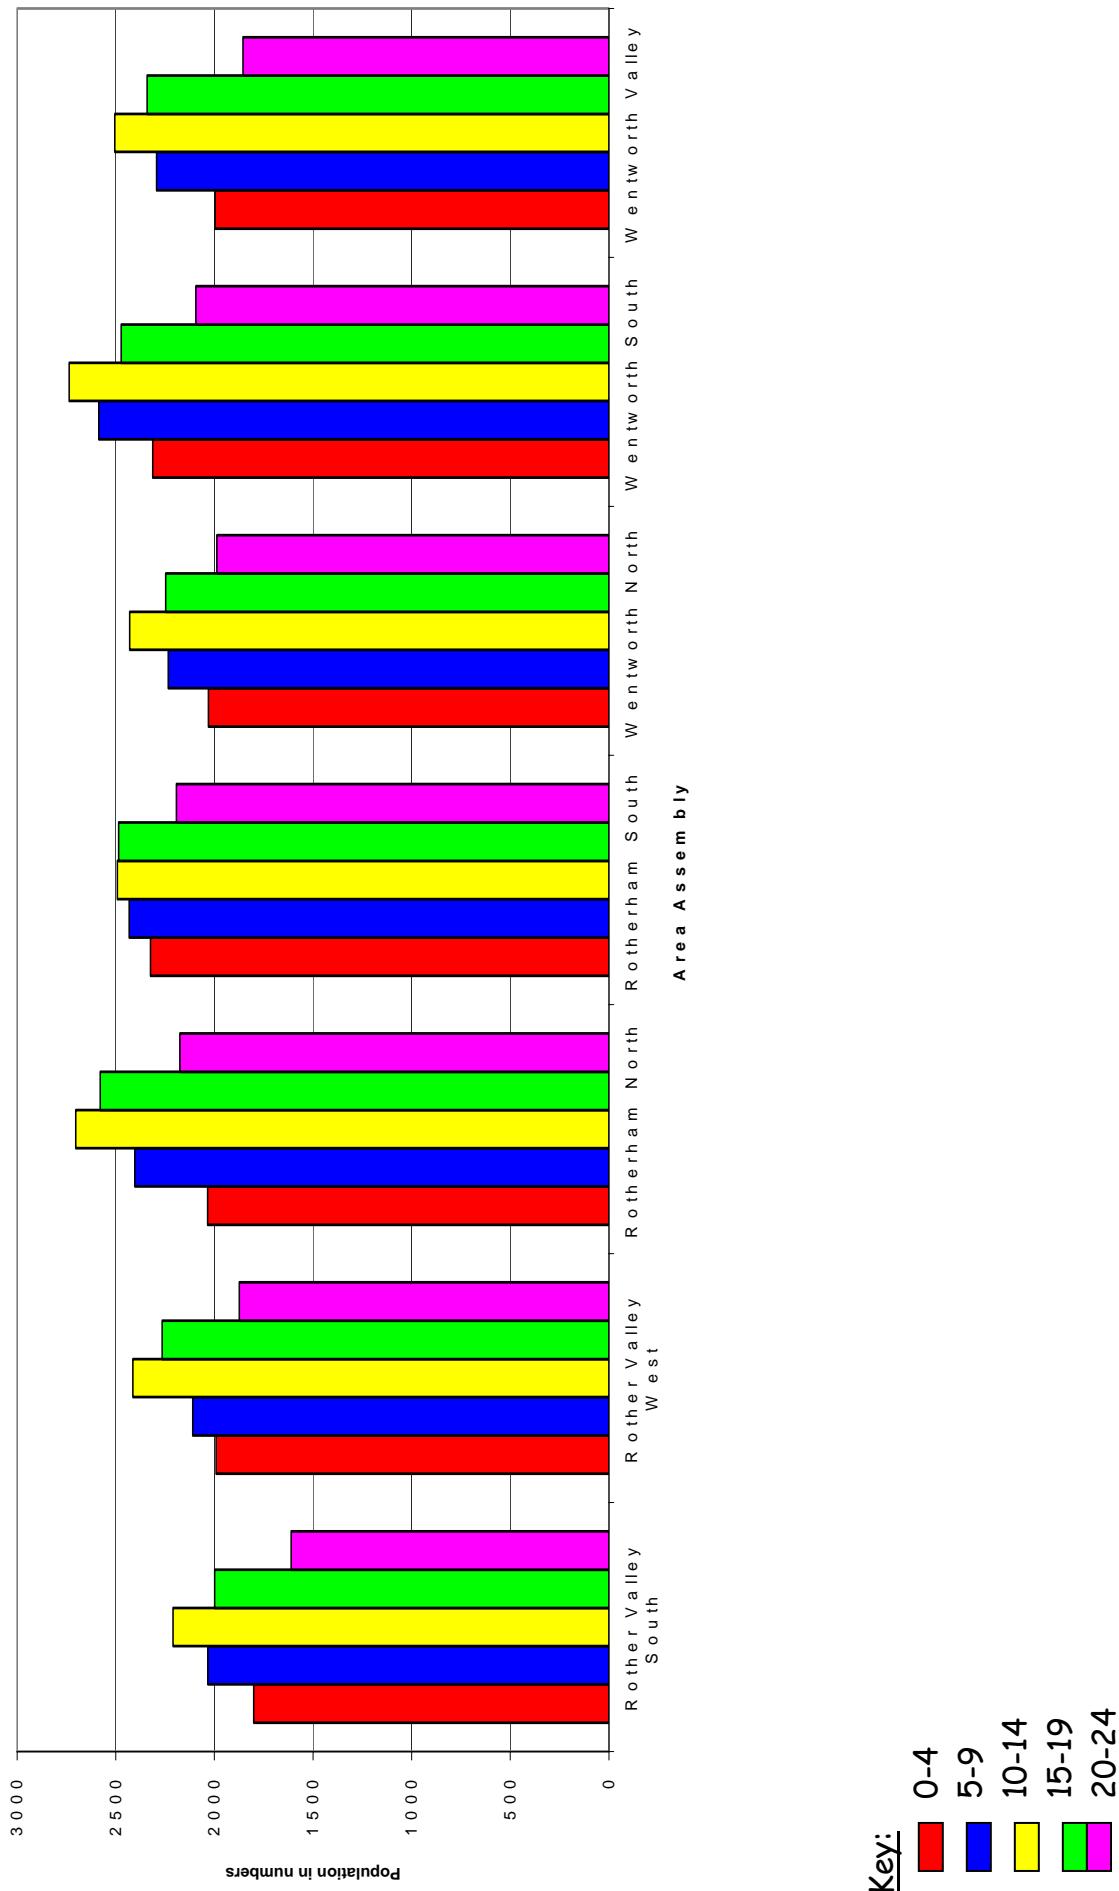

The following information is drawn from our Comprehensive Analysis of Need, which also shows data within a National Context.

Rotherham is a diverse Borough consisting of 110.3 square miles of rural and urban areas and has an overall population of 252,300. There is a history of heavy industry including coal mining and steel works, and this has left Rotherham with a legacy of long term limiting illness, particularly affecting the adult population. As this heavy industry fell into decline, this saw the increase of unemployment and as a result there are some pockets of high deprivation. There are also cycles of deprivation with many children in workless households. There is also an increase in the number of children who have complex needs.

There are 78,245 children and young people under the age of 25 in Rotherham, which makes up 31% of the Borough's total population. Table 1.1 and Chart 1.1 give the population breakdown into five age groups, for all seven area assemblies. However, in relation to pupils attending Rotherham's Schools, almost 2465 live outside the Borough, in neighbouring Local Authority areas. In contrast there are 1191 Rotherham pupils attending schools in our neighbouring authorities.

Table 1.1 - Area Assembly Population Breakdown including numbers for Rotherham

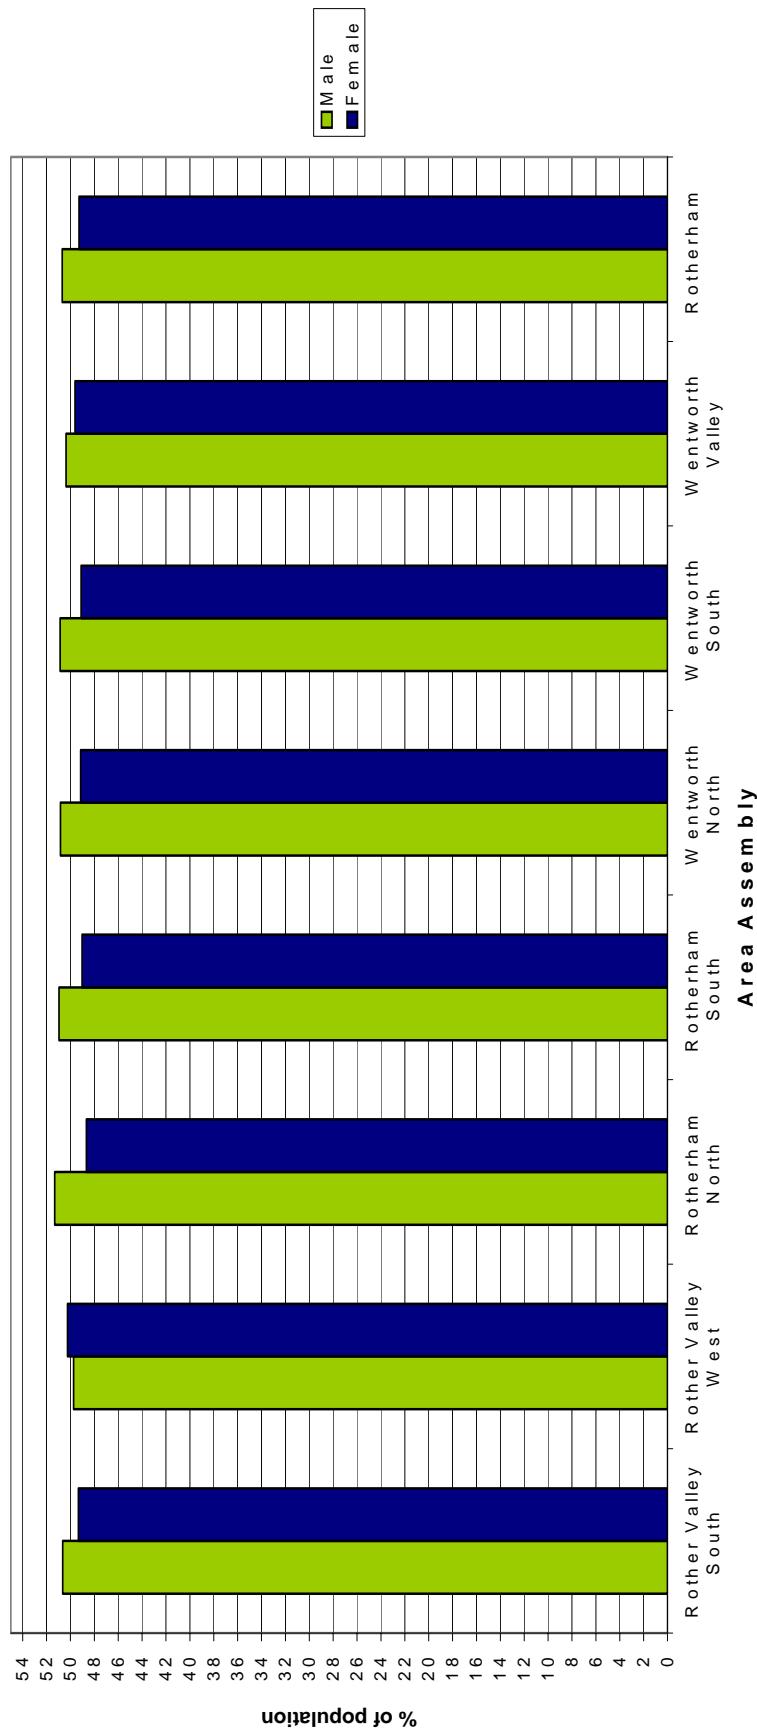

| Area Assembly Name | 0 - 4 Years | 5 - 9 Years | 10 - 14 Years | 15 - 19 Years | 20 - 24 Years | Total |
|---------------------|-------------|-------------|---------------|---------------|---------------|-------|
| Rother Valley South | 1801 | 2032 | 2210 | 1999 | 1611 | 9653 |
| Rother Valley West | 1991 | 2109 | 2413 | 2265 | 1874 | 10651 |
| Rotherham North | 2035 | 2403 | 2703 | 2579 | 2175 | 11895 |
| Rotherham South | 2324 | 2431 | 2492 | 2485 | 2193 | 11926 |
| Wentworth North | 2031 | 2234 | 2430 | 2247 | 1987 | 10929 |
| Wentworth South | 2312 | 2586 | 2736 | 2473 | 2094 | 12201 |
| Wentworth Valley | 1996 | 2293 | 2505 | 2341 | 1855 | 10990 |
| Rotherham | 14489 | 16089 | 17489 | 16389 | 13789 | 78245 |

Chart 1.1.0 - 24 Population Breakdown by Area Assembly (Source: 2003 mid year population estimates)**Key:**

- 0-4
- 5-9
- 10-14
- 15-19
- 20-24

Gender

Information taken from the 2003 Population Model indicates that 51% (39, 672) of Children and Young People in the Borough were male and 49% (38, 572) were female. There is a similar trend across most of the individual area assemblies, with the exception of Rother Valley West, as can be seen in chart 1.2 below.

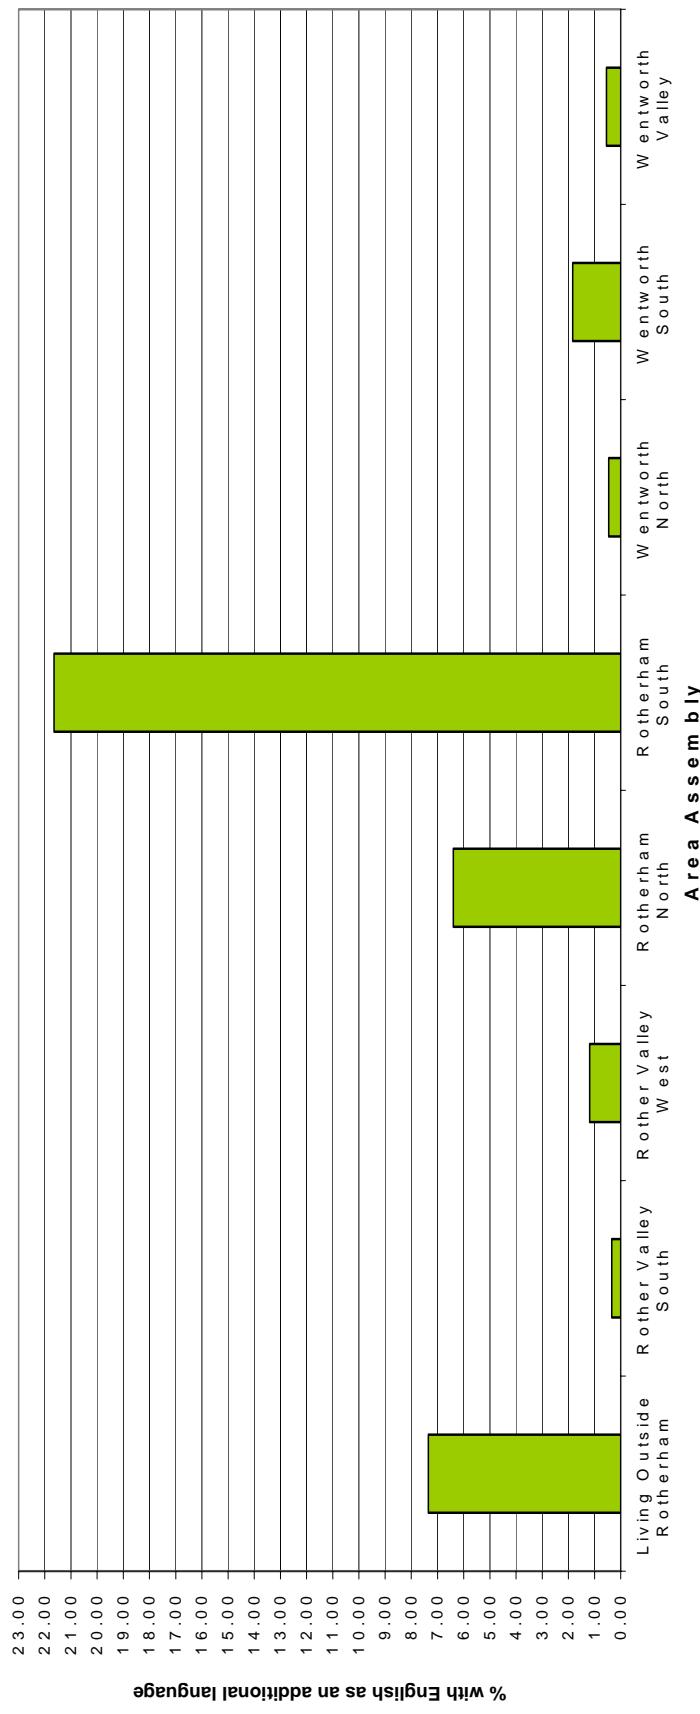

Chart 1.2 - Gender trends across Area Assemblies and Rotherham

Ethnicity

91.7% of Rotherham's children and young people are from a White British background and 7.7% from a Black or Minority Ethnic background (data taken from 2005 Annual School Census) of whom the majority of children and young people are Pakistani. A full ethnicity background for Rotherham and its Area Assemblies can be found within Appendix B. Two assemblies have a higher population from Black and Minority Ethnic groups, than the 7.7% Rotherham average - Rotherham North 10.1% and Rotherham South 26.4%.

Chart 1.3 Indicates the percentage of school aged pupils that have English as an additional language. The area assembly with the highest English as Additional Language (EAL) population is Rotherham South.

Chart 1.3 - % of School aged pupils who have English as an additional language by Area Assembly

When looking at the relationship between educational attainment and pupil residency analysis shows that there is some, although not significant, correlation between the Area Assemblies with a higher proportion of BME children and young people and the lower Key Stage 1 and 2 results. Although this is evident at the early stages of education the results even out by the time GCSE's are taken. A breakdown of this information is available on Table 1.3, within Appendix C.

We have a history of addressing needs arising from our increasingly diverse population in Rotherham. This includes specific support for communities of interest such as Asylum Seekers, Migrant Workers, Travellers and a support network for Lesbian, Gay and Bi-Sexual young people.

Self Assessment and Review

In 2005 we experienced our first Annual Performance Assessment, which was a combined assessment conducted by Ofsted (Office for Standards in Education) and CSCI (Commission for Social Care Inspection), following our self assessment submission. We are proud to have achieved real improvements in both education and social care over recent years and this was reflected in our score of 3 out of 4. This is described as "a service that consistently delivers above minimum requirements for users". We were also judged to have good and promising prospects for improvement. These final judgements were consistent with our own self assessment.

The Annual Performance Assessments identified strengths and areas for improvement and these are summarised below.

| Strengths | Areas for Improvement | Progress |
|---|--|--|
| Be Healthy: <ul style="list-style-type: none"> • Strong partnership approach with the PCT and schools towards health and well being • Referral of acute and non acute mental health issues to CAMHS within timescales is 100% • Education on smoking, substance abuse and | Be Healthy: <ul style="list-style-type: none"> • Teenage pregnancy rates are above the national average • Monitoring of health of looked after children has declined from good to average | Improving Improving Under |

Following the Annual Performance Assessment we developed an improvement plan and we are on track to achieve our goals as detailed above.

Every three years the inspection services related to children and young people, combine to carry out a Joint Area Review. This is a very detailed process which builds on the self assessment, and includes an onsite analysis week, surveys, followed by two weeks onsite inspection. Case files will be examined to ensure that standards are being met and young people will be asked to take the inspectors on a tour of a neighbourhood, so that they get to see things from the young people's perspective.

We know that our Joint Area Review will take place in June 2006, and our plans are underway to prepare for this. We will be assessed on a number of judgements but focus will be on how effectively we work in partnership to deliver improved outcomes for children and young people. The Council will also have a corporate assessment (part of the Comprehensive Performance Assessment which gives a judgement about the whole Council) at the same time, and our judgement on Children and Young People's Services will impact on the overall score for the Council.

High Impact Priorities for Children and Young People

We have used all of the information from our analysis of need, results from consultation and surveys together with the visioning exercise to inform our priority setting. We have also taken into account those things which we need to improve, as identified in our Annual Performance Assessment.

The Every Child Matters framework contains a wide range of aims, indicators, targets, and judgements. All of the partners involved in delivering services for children, young people and their families will continue to aim for the best possible achievement against all of these measures. We have decided to focus our aligned, pooled resources on a small number of high impact priorities, where by doing this we could add more value and achieve even better outcomes, making a significant improvement.

We have been developing our plans through a steering group and a task group for each of the five outcomes in the Every Child Matters framework. These task groups have worked up a series of key issues that are seen to be important, based on the information above. An event was held for all key stakeholders to rank these priority areas, so that we could identify a smaller number of high impact priorities per outcome for the life of this plan. The priorities identified were as follows:-

Be Healthy - Promote Healthy Lifestyles by:-

- Improving emotional and mental health
- Improving physical health
- Improving sexual health
- Reducing smoking rates
- Reducing obesity and improving advice on nutrition
- Reducing the misuse of alcohol and drugs
- Increasing breastfeeding rates
- Increasing the support where a child or young person has a lifelong or life limiting condition.

Stay Safe - Ensure that children are protected from harm and that those who are most vulnerable receive timely coordinated multi agency services by:-

- Improving multi agency assessments, achieved through a comprehensive training programme
- Improved protocols for thresholds of intervention
- Bringing together services for those young people who are at risk of sexual exploitation

- Improving safe recruitment practices
- Reducing bullying by implementing robust protocols, systems and through sharing best practice
- Improving the support provided at points of transition in the lives of all children and young people

Enjoy and Achieve - Improve the quality of learning and achievement by:-

- Raising attainment across the Borough in all assessment phases
- Raising the attainment of boys, looked after children, children from black and minority ethnic backgrounds and those with complex needs
- Reducing the number of children and young people excluded from school
- Improving school attendance levels in all year groups, including Looked After Children
- Improving access to sport, leisure, cultural heritage and recreational facilities

Make a Positive Contribution - Increase the opportunities for children & young people to influence decisions that affect their lives by:-

- Achieving the Hear by Right standards
- Promoting positive images of young people
- Increasing the number of children and young people who volunteer
- Increasing the number of schools with school councils
- Improving support to parents, carers and families
- Ensuring fairness, equal opportunity and treating everyone with respect and dignity
- Increasing the number of Looked After Children and young people with Special Educational Needs (SEN), who contribute to their review.
- Reduce the number of children and young people who offend and re-offend

Achieve economic well being by:-

- Increasing the number of young people in Education, Employment and Training
- Increasing the number of young people with enterprise skills
- Improving basic skills of parents, carers and family members
- Assisting economically inactive parents, carers and family members, including those on Incapacity Benefit and lone parents, back into work.

- Ensuring that all children and young people live in Decent Homes
- Developing a sustainable multi agency workforce that will enable our priorities and outcomes to be achieved

In Rotherham, the role of parents and families is recognised and valued in helping every child achieve. The outcomes for every child can only be achieved in partnership with their parents and families by establishing mutual priorities and trust. The most recent research has concluded that for all children the quality of the home learning environment and their involvement in their child's learning is important for intellectual and social development and therefore achievement. We recognise that more work needs to be done to engage parents/carers in our work and we are committed to developing mechanisms to increase their inclusion and involvement.

Links with the Local Area Agreement (LAA)

Local Area Agreements (LAAs) are made between central and local government in a local area. Their aim is to achieve local solutions that meet local needs, while also contributing to national priorities and the achievement of standards set by central government.

Local Area Agreements seek to:

- provide intelligent and mature discussion between local and central government, based on a clear framework and shared understanding of national and local priorities
- improve local performance, by allowing a more flexible use of resources, to achieve better outcomes and devolve responsibility
- enhance efficiency by rationalising non-mainstream funding and reduce bureaucracy to help local partners to join up and enhance community leadership

The Local Area Agreement vision is to meet the needs of every young person from 0-25 years, through the provision of high quality universal services and targeted services for those who experienced barriers to life chances. The priorities of the LAA (also called key outcomes) are derived from the 5 outcomes of Every Child Matters and are very closely in line with the priorities set out within the Children and Young People's Single Plan.

The Local Area Agreement's priorities include:

- Improved access to a wide range of knowledge, support and services, ranging from early intervention and prevention to acute services, which promote emotional and social well being and address mental health issues
- Raising the levels of attainment for all children and young people with a particular focus on reducing the gap for groups such as Looked After children, and children from black and minority ethnic groups
- Maximising enterprise and economic opportunities for all young people by providing high quality advice and guidance, enterprise skills and training
- Raising the aspirations and achievement levels of all children and young people by increasing access to information, support and learning opportunities for families and communities

Whilst Children and Young People's Services aim to provide high quality services for all young people and their families, the Local Area Agreement intends to add value by a focus on reducing inequalities and disadvantage experienced by some children and young people.

ROOTHERHAM'S JOURNEY TOWARDS BETTER OUTCOMES

Children and Young People's Services Commitment to 'Being Healthy':

"In Rotherham we will ensure that children and young people will have access to healthy lifestyles and will be able to access support and services to help in choosing such lifestyles."

Mental Health and Emotional Well-Being

What children and young people in Rotherham have told us:

We need counsellors in school who can have a one-to-one with every pupil so no one gets singled out.

What we are doing now:

In 2005, 6 Secondary Schools have Rotherham Mind and Young People's Services providing drop-ins every week. 7 Secondary Schools have a School Nurse and/or Youth Worker led drop-in, which provides support for young people on a weekly basis.

Young People's Services' Youth Start currently provide 49 hours of counselling support for young people across the borough at a non stigmatising venue in central Rotherham.

Facilitating peer counselling in a number of schools.

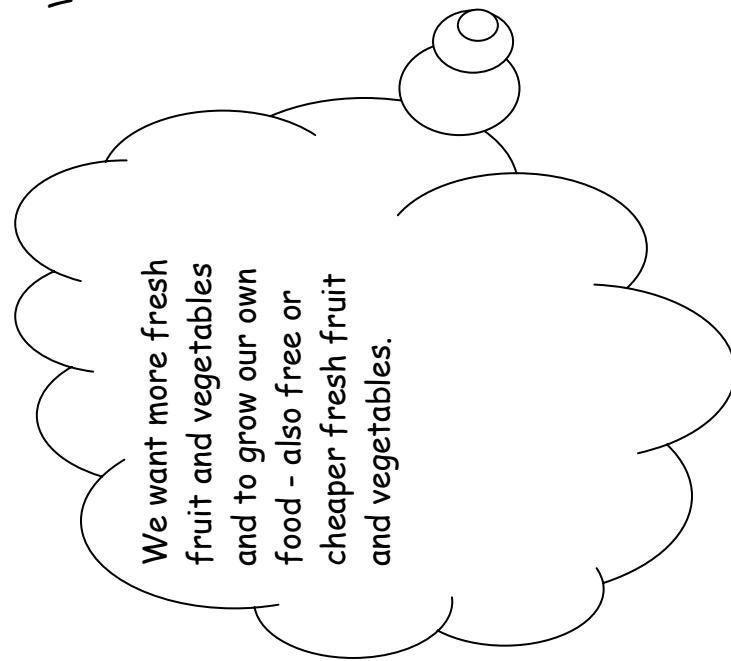

What we are going to do:

- Continue to increase the provision of mental health workers in secondary schools, aiming for 100% by 2008/09.
- Reduce the average waiting times for CAMHS appointments.
- Review the criteria for access to CAMHS for the most vulnerable
- Provide timely accessible mental health support to children and young people, particularly in young people's settings and have single points of access
- Ensure consistency in the quality of counselling support for children and young people across the Borough
- Develop training and development for staff to enable them to identify early signs and promote mental health and emotional well-being through daily practice
- Develop Service Level Agreements for Special Schools with Young Minds

Page 42

Healthy Lifestyles

What children and young people in Rotherham have told us:

What we are doing now:

100% of Rotherham Primary Schools are taking part in the Fruit and Vegetable in School Scheme. This scheme ensures that all children aged 4-6 years are offered a free piece of fruit or vegetable each school day.

Many Children's Centres and Schools have created small allotment projects.

Valley Allotment Project engages vulnerable children in allotment based activities from the Valley area.

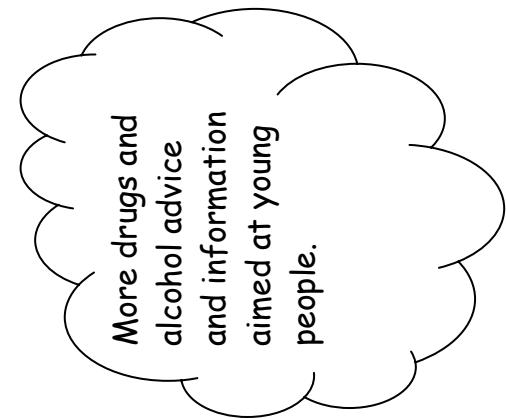

Carrying out a lifestyle survey in seven secondary school Years 7 and 10.

What we are going to do:

- Improve the diet of children and young people and their families by ensuring that all schools have the 'Food in Schools' Toolkit embedded within schools systems and structures.
- We will extend the lifestyle survey to primary and special schools in 2007/08.
- Conduct lifestyle surveys on a three year rolling programme to assess impact of our strategies and activities.
- Encourage an uptake of the "Food in Schools" policy so that at least 50% of schools have a policy by December 2006.
- Discuss with local supermarkets and retailers approaches to ensure a local supply for affordable, high quality fruit and vegetables.
- Increase the number of schools offering 'healthy option' breakfast clubs and after school clubs
- Increase the number of schools who offer walking buses and the number of children and young people walking to school.

Drugs and alcohol

What children and young people in Rotherham have told us:

What we are doing now:

All schools can access appropriate training to support the teaching of drug education (including alcohol and tobacco) subject to funding.
Healthy schools keep schools up to date through regular updates on patterns of drug use, changes in law and new resources so that staff have up-to-date information to deliver to pupils.

Know the Score provide drop-ins at the request of the secondary school, special school or Pupil Referral Unit (PRU). This supports the Lifestory work - where ex-drug users are trained to deliver sessions with staff in schools.

Rotherham Healthy Schools PSHE (Personal Social Health Education) scheme of work which includes ideas for drug education from Y1 through to Y6 in order to strengthen the delivery of drug education in the primary phase.

Continuation of Free 2B Me Project - a specific initiative targeting children of drug using parents - 80 in 2005/06.

Crucial crew is completed with most year 6 children on a yearly basis providing scenarios and information on safety, drugs and alcohol.

What we are going to do:

- All secondary schools, Special Schools, Primary and Pupil Referral Units will deliver drug education as part of a planned programme of PSHE (Personal Social Health Education).
- Increase the treatment interventions for young substance misusers by 50%
- Continue to expand the role of the Looked After Children's Nurse with an increased focus on reducing drugs and alcohol.
- Work with the Drug Action Team to ensure that we work with drug abusing parents to minimise the impact on their children
- Re-launch awareness initiatives so that parents are alerted to the signs of drug/alcohol misuse

General Health

What children and young people in Rotherham have told us:

What we are doing now:

Health advice for young people from youth workers, school and college.
Services for young people need to be varied, e.g. local and town centre, opening times to suit young people, confidentiality, different methods, different venues - school, youth clubs, doctors.

Young People's Services' Youth Start is a central Rotherham service which provides a young person led approach to the provision of information and support (including counselling, drop in sessions, one to one support) on all issues that affect young people.

10 Youth Clinics established across the Borough provide sexual health support. These are open between 1 and 2 days a week.

We are providing a smoking cessation advice and support.

We are developing a Young People Friendly Accreditation Scheme to increase take up of health services.

What we are going to do:

- Provide and improve generic confidential information and advice in secondary schools staffed by a Youth Worker and/or a School Nurse.
- Reduce smoking from 19% to 9% or less by 2010 by provision of cessation support for young people. (Lifestyle Survey to monitor.)
- Implement Young People Friendly Accreditation Scheme to improve health and particularly sexual health advice.
- Have 145 health services accredited as Young People Friendly by 2009.
- Introduce baseline assessments to assess weight at school entry and Year 6 and target resources to obese and malnourished children and young people.

Rotherham is the only area to have achieved a 100% sign up of primary schools to the "Fruit and Vegetable in Schools" programme. Now, all children aged 4-6 years in infant or primary schools are offered a free piece of fruit or vegetable daily. This is part of the 5 A DAY programme promoting increased consumption of fruit and vegetables.

The successful Sure Start programmes have been implemented across Rotherham working with parents-to-be, parents and children. Additionally the Sure Start Plus project (which focuses its attention on teenage parents) has offered a diverse range of services, including information and advice on housing, benefits, health, childcare, training and education. It has: provided personal support for teenagers who discover they are pregnant; co-ordinated an innovative support package for new parents and their families; enhanced and re-shaped existing services; and has addressed gaps in provision. Teenage Childcare Project supports teenage parents to access childcare to continue their learning or to take up employment opportunities.

Children and Young People's Services Commitment to 'Staying Safe' in Rotherham

'In Rotherham services will work together to ensure that children and young people feel safe at all times; on the street, in school/college, in training, in the workplace and in their home. Children and young people should be safe from maltreatment, neglect, violence and exploitation.

Bullying

What children and young people in Rotherham have told us:

What we are doing:

It should be compulsory for teachers to respond to bullying, one person should be trained to deal with bullying in schools and support victims

We would like a way of reporting bullying in school that is anonymous and access to someone on line who would give us advice. This would help as we often don't say because we are embarrassed or worried about what will happen. We often don't feel listened to and nothing is done about the problem.

We have provided 'Guidance to Address the Bullying of Children & Young People' to support practice has been provided to all schools and a number of other agencies.

After consultation with young people about their experience of bullying the Anti-Bullying Policy for Looked After Children and young people has been revised and will be re-launched. Additional strategies have been identified to support both the victim and perpetrators of bullying

The Anti-Bullying officer role has been evaluated and reviewed to address strategic, training and development needs in relation to policy, procedure and practice. The role will also include listening to and working with young people.

We have developed an anti-bullying service pathway.

The Maltby Anti-bullying project has worked with young people who have been the victims of bullying. The group have looked at strategies to try when being bullied and have raised awareness in schools about how it feels to be bullied

What we are going to do:

- We will refresh our anti-bullying strategy, intensifying our efforts to reduce all forms of bullying.
- We will share good practice and guidance on bullying prevention and intervention across all schools and establishments.
- We will introduce a database to record incidents of harassment, bullying and hate crime which will be piloted across 20 schools from April 2006.
- We will conduct a project involving children and young people to measure the impact of our policies and practice to reduce levels of bullying.
- Take forward the referral from Children and Young People regarding bullying which was presented to our CYP Scrutiny Panel.

Making a Difference Project

Although we have a number of initiatives in place to target bullying we acknowledge that we need to continue to develop measures to see if we are actually having a positive impact for children and young people. We recognise the importance of demonstrating, over a period of time, that the projects we have in place are making a difference. Rotherham MIND already have a recording system in place detailing the percentage of children and young people who have accessed their service and who are no longer bullied or are bullied less. The new monitoring and recording system being introduced, as from 1st April 2006, for bullying, racial incidents and harassment will incorporate a feedback facility for children and young people to state whether they feel their incident has been dealt with effectively so we will be able to utilise this information and identify areas for improvement. The Lifestyle Survey will also provide us with baseline information around being both the victim and perpetrator of bullying that we can periodically monitor.

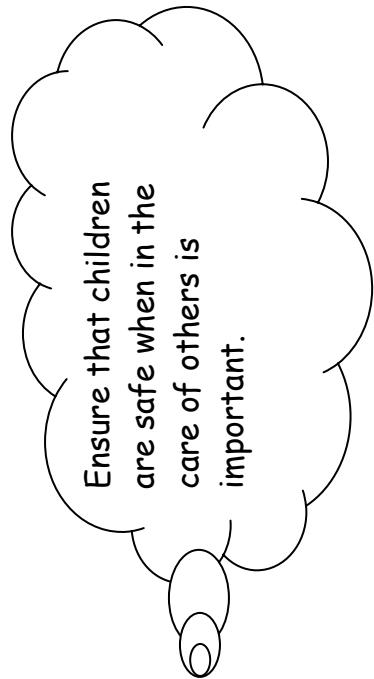

A project will be conducted, involving children and young people, to measure the impact of our policies and practice to reduce levels of bullying. Children and Young People will be involved in this via Voice and Influence.

| <u>Sexual Exploitation</u> | <u>What children and young people in Rotherham have told us:</u> | <u>What we are doing:</u> | <u>What we are going to do:</u> |
|----------------------------|---|---|---|
| | <p>Specialised police officers coming into schools and youth centres to speak about the dangers of drugs and sexual exploitation to young people</p> <p>More teaching about crime, safety and consequences of peer pressure</p> | <p>- Revised multi-agency procedures have been agreed and implemented at the end of January 2006.</p> <p>- Young People's Services' Risky Business Project, which provides one to one support for young people, has become part of a newly formed multi-agency resource focusing on prevention and intervention with children at risk of harm.</p> <p>- South Yorkshire Police are actively involved in the Rotherham Sexual Exploitation Forum. The Police are also piloting a Public Protection Unit in Rotherham. It is based in Maltby and includes the officer with the lead on sexual offences as well as other child protection and vulnerable adult specialist staff.</p> | <ul style="list-style-type: none"> • Further consideration will be given to the need of young boys who may be at risk of sexual exploitation and recommendations made by the end of March 2006. • Agencies will agree thresholds for referral and responses and continue to improve management information through the work of the Sexual Exploitation Forum. • The Forum will make proposals to the Safeguarding Board by April 2006 about a campaign to highlight the risks and dangers associated with sexual exploitation. • The Safeguarding Manager will work with the Housing and Licensing departments around safe accommodation and transport in respect of sexual exploitation by March 2006 • We will reduce the numbers of looked after children who are sexually exploited. • We will increase the number of successful prosecution of perpetrators of sexual exploitations. |

What children and young people in Rotherham have told us:

What we are doing:

What we are going to do:

- Checks are made with Local Authorities, Probation, Police, Health, personal referees, and employers, when approving new foster carers.
- Children and young people participate in the selection process for staff and volunteers.

Training and checking of foster carers. How will you make sure they are properly trained and keep a check that they are doing a good job and that we are safe?

We will aim to ensure that anyone having direct contact with children and young people or access to information relating to them **must** have an Enhanced Criminal Records Bureau check to ensure that they are trustworthy and safe people.

We will implement across the Authority a requirement for robust risk assessment procedures before the Enhanced Criminal Records Bureau checks are disclosed.

We are going to revise personnel policies and procedures in Children and Young People's Services in response to the Bichard Inquiry Report, including that we phone every previous employer and referee and contact every previous employer when recruiting staff and volunteers.

What children and young people in Rotherham have told us: What we are doing: What we are going to do:

Young people with disabilities need help to become adults, learn new skills and gain their independence

It would be great if more could be done to make sure that we are helped sooner and that some of us would not have to be looked after. How can you help this to happen so that our families don't get into trouble?

Families UNited provides parenting programmes for both parents and carers and their children (10-14 years) as part of the Strengthening Families Programme.

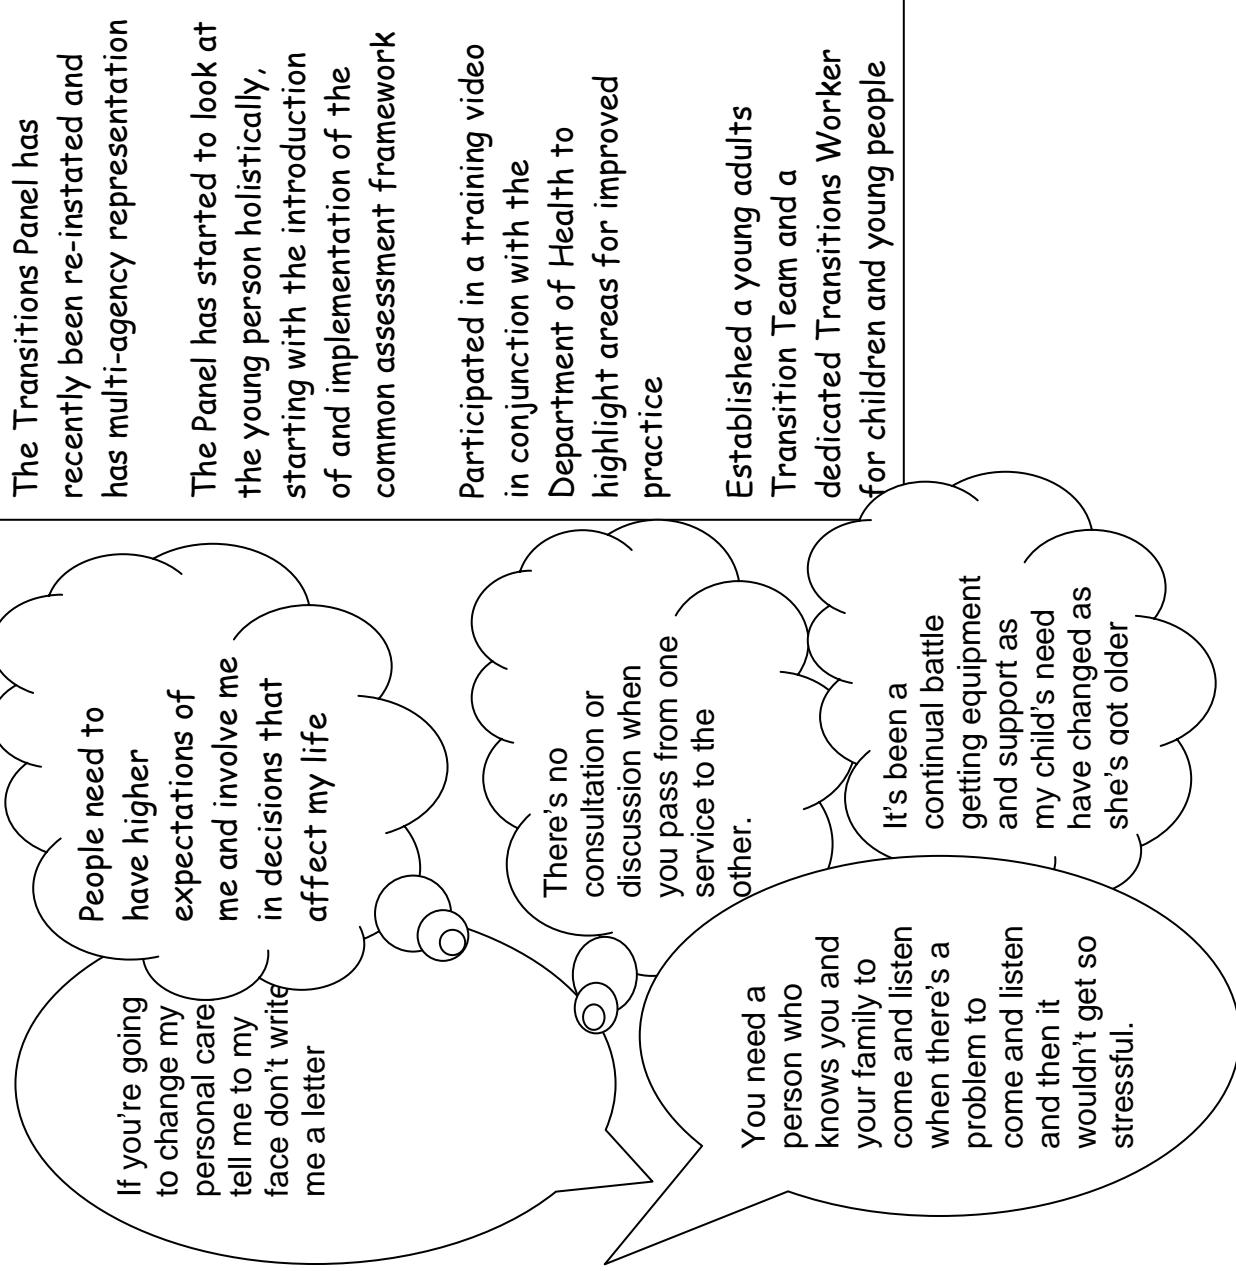

The Common Assessment Framework and Lead Worker role are being trialled in 3 areas of Rotherham to support early identification of need, preventative interventions and improved integrated multi-agency working.

Multi-agency training to support the trials has enabled practitioners to develop their understanding and awareness of services and support available.

- A new assessment protocol will be introduced and will cover Universal Assessments, The Common Assessment Framework, The Framework for the Assessment of Children in Need and Specialist Assessments and associated thresholds. This will complement/assist within the launch of the Integrated Children's Systems (ICS.)
- A multi-agency training and implementation plan will be implemented to ensure all relevant Children and Young People's Service staff are trained in the Common Assessment Framework, Lead Worker and the Information Sharing process, procedures and protocols. This is to include children and young people at all points of transition.
- More multi-agency information sharing and working together will mean that we can deal with things earlier.
- As a leadership, key managers in the Children and Young Peoples Service examine case studies regularly to learn from experience. We will continue to do this and introduce

What young people/carers in Rotherham have told us: What we are doing:

What we are going to do:

Making a Difference Project

Although we are pulling together pieces of work to ensure early transition planning and smoother pathways we need to know that our efforts are making a real difference and improving the experience of these young people.

We will work with children and young people in transition and involve them in our policies, procedures and training to ensure our policy translates into practice.

Fear of Crime

Information below was collated from the 2004 audit survey, this was sent to one in ten households across Rotherham. The charts indicate that over 60% of under eighteens who returned the questionnaire had never been a victim of crime.

Please note that because this survey was sent to 1 in 10 households in the Borough there was a large under-representation of U18's.

What children and young people in Rotherham have told us:

What we are doing:

What we are going to do:

65% of children and young people asked were either concerned or very concerned about crime.

People need to have higher expectations of me and involve me in decisions that affect my life

All young people are seen by adults as yobs or naughty.

More publicity regarding differences between fear of crime and the actual occurrence which is very low and in fact the lowest in South Yorkshire.

Rotherham has 11 Women's Refuge places and supported 1199 children and young people in 2004/05.

We need a place to chill without being seen as trouble causes

60% of under eighteens who returned the questionnaire had never been a victim of crime.

There needs to be more facilities for children and young people

Continue to implement preventative work to reduce incidence of Youth Crime.

Work with young people with emotional/mental health problems to address these issues and their relationship to offending.

Carry out further work in relation to children and young people in employment, education and training to reduce opportunities for them to become involved in crime or anti-social behaviour.

Target of 25 Women's Refuge places by 2010.

Work with the Police to target areas of high crime amongst young people.

In 2004/05, Rotherham saw a reduction in most crimes, including a 33% reduction in domestic burglary and a 25% reduction in vehicle crime. Successful initiatives have included: the Prolific Offender and Youth Inclusion projects; the use of acceptable behaviour contracts, and anti-social behaviour orders. In addition, to reduction in crime overall, there is also a greater confidence to report incidents by those who may not have felt supported to do so in the past - for example, victims of domestic violence, racial and homophobic incidents.

90% of children are in the same or next room when domestic violence takes place, the impact on children can affect their health, safety, school attendance and attainment, economic well-being and in some cases serious injury or death. Rotherham Women's Refuge provides:

- Specialist support for children living in the refuge. Peer support work, information and advocacy, building self confidence and self esteem.
- Play therapy for children and young people, providing early intervention to children experiencing mental health distress.
- Parenting support and behaviour management strategies.
- Violence Free Relationships Programmes, which is preventative work, delivered in a range of educational and other settings.
- A range of child protection support work.
- Safe supported good quality accommodation.

Following a Scrutiny Review of Domestic Violence in 2002 a further review took place during December 2005 focusing on the impact of domestic violence on children and young people. The recommendations from this review are being finalised and will be incorporated into the review of this plan.

A Missing Children protocol established in 2000 and updated in Sept 2004 has significantly reduced number of days children were missing from 895 in 2000 to below 300 in the last two years. In addition, a local project for young runaways includes inter-agency information sharing to afford additional protection for this vulnerable group. A multi-agency team is working effectively to identify and track the whereabouts of hard to reach pupils/families.

Children and Young People's Services' Commitment to Enjoying and Achieving:

In Rotherham we provide children and young people with world class learning opportunities. We will encourage them to be responsible for their own decisions. Whenever difficulties appear children and young people will feel empowered to ask for help and support. We will strive to make sure that no child or young person is ever left behind.

Raising Standards of Attainment and Achievement

What children and young people in Rotherham have told us:

In order to enjoy and achieve as looked after children we need to get the right school placement so we can be helped to reach our full potential

Children and young people should be encouraged and supported to achieve their fullest potential, no matter what life issues or difficulties they encounter

We believe that we can do well in school and training,

What we are doing:

Rotherham Get Real team works with schools to enable them to develop systems that are sensitive to the needs of looked after children

Each year we analyse the data and information we hold to identify those schools in most need of support for vulnerable and underachieving pupils and target specific support

The Education Welfare Service supports schools to ensure that children attend school on a regular basis

What we are going to do:

Introduce assessment on entry to Foundation Stage to support the value added in Key Stage 1
Reduce the gap in Foundation Stage between the Local Authority average level of achievement and the 20% disadvantaged areas
Promote the development of Children's Centres and extended services
Reduce the difference between the boys and girls attainment
Improve the quality of teaching in schools
Implement procedures to ensure that all children and young people missing from education are identified and supported
Target intervention to schools experiencing difficulties, with a particular focus on English

Achieving Personal and Social Development and Enjoying Recreation

What children and young people in Rotherham have told us:

We need a place to chill without being seen as trouble causers

There needs to be more facilities for children and young people

Arts, sports and leisure facilities should be children and young person friendly and affordable

We need more organised sports and arts activities with cheaper or free access

Rotherham should be seen as a children and young person friendly place

Clifton Park Museum was re-opened in February 2005 following a £3 million pound makeover. The museum is young person friendly and tells the story of the Rotherham area from geological times to the present day.
The School museum service supports schools by offering

- advice on aspects of collections and how to make the best use of resources.
- Loan service of history and natural history objects
- Visits to museum sites

Rotherham performs above the national average in sports provision in all schools and well above in Primary schools
Rotherham Council already provides a wide range of arts, cultural, sport and leisure opportunities both within and outside the statutory education provision

- Every year we stage a production which involves Looked After Children
- The voluntary and community sector also offer a wealth of additional opportunities for sport, leisure and recreation, Swinton Lock Activity Centre, Play and Learn Bus, Get Sorted.

What we are doing:

Ensure that the basic entitlement for all children, and young people to sporting and cultural and leisure facilities is accessible to vulnerable groups
Audit the level of wider opportunities currently available to children and young people to ensure that recreational and voluntary learning opportunities reflect the needs and interests of individuals as well as groups
Provide a range of affordable, accessible, challenging and rewarding sport, leisure, arts and cultural opportunities
Increase the take up of sporting activities for young people over 16
Ensure the effective co-ordination and inclusive nature of the delivery of out-of hours and holiday opportunities

Breakthrough Project

All Rotherham's secondary schools have signed up to the "Investors in Education" initiative. Developed with education and training providers and businesses, it establishes a "two way" street as a mutually beneficial relationship between education and businesses and advances the enterprise curriculum.

Alongside this, Rotherham has been selected as one of 39 National Pilots for the Young Apprenticeship Programme allowing 14-16 year old pupils to have extended experience of work and pursue vocational qualifications outside school whilst continuing with core curriculum studies.

Currently Rotherham has four schools participating in the pilot and 24 apprentices engaged in the three approved sectors of engineering, business administration, and art and design. Another 30 students have been recruited for the start of the 2005 academic year.

Make a Difference Project

There is a recognition that boys and young men across the Borough have poorer outcomes than their female peers. This is in particular in the area of Enjoying and Achieving. Within Rotherham there are cycles of deprivation with many children in workless households, in particular in areas where heavy industry fell into decline. The aspirations for the young people in these areas have been different to the notion of achievement via educational attainment. Over the last 2 decades Children and Young People's Services have undertaken a great deal of work building the confidence, self-esteem and aspirations of girls and young women. Alongside this, the notion of "girl power" may have contributed to higher achievement and improved outcomes for girls and young women. Over the next year Children and Young People's Services will have a focus on alternative and flexible ways of working with boys and young men in raising aspirations and achievements, particularly at important transitional points. Our Making a Difference (MAD) Projects are intended to look at creative methods and solutions. In this instance, we will seek to engage boys and young men in a range of different circumstances and settings.

Children and Young People's Service Commitment to Making a Positive Contribution in Rotherham:

'In Rotherham we will hear what children and young people say, not what we want to hear.'

What children and young people in Rotherham have told us:

To be more involved in the decision making process by it being made more accessible

We do not get involved in decision making as we feel we are not listened to.

Young people do not get involved in decision making because they feel they will not be listened to, they are given false promises and nothing will change.

....when you talk to us do not expect us to be small adults.

....Tell children what changes are happening.

We need time to be really part of things, to understand and prepare for meetings.....

...make sure you really want to hear what we have to say.

...it is really important that you listen to what we say but it's just as important that you do something about what we say....

What we are going to do:

Adopt the Hear by Right Standards
Develop and implement the Borough wide strategy for giving voice and influence to children and Young People

Each Council Programme Area will have a named person to champion Children and Young Peoples Voice and influence.

A Voice and Influence Officer will be responsible for ensuring that younger children (aged 0-13) have opportunities to have a voice and influence

Introduce an award for services who demonstrate that they listen to children and young people, take on board what they say and are thus 'children and young people friendly'

What children and young people in Rotherham have told us:

Young people could be proud of their school if more involved in the running of it

Young people needed to be involved in decision making in schools, councils and youth centres and it wasn't seen as a lip service.

What we are doing:

75% of secondary schools have elected a school council.
88% of secondary schools send Young People to Rotherham Youth Cabinet 50% of those regularly send 4 representatives.

Lifestyle Survey in 7 schools Year 7 and Year 10 pupils in March 2006 in partnership with the Primary Care Trust.
Voice and Influence Champions present within 5 programme areas.

Visioning activity for Children and Young People's Services, initial activity completed from July to September 2005; 4500 Children and Young People and 60 Services engaged.

Involved in school policies- bullying etc.

...schools more understanding and not as controlling so young people can have an opinion and voice it.

Children's Rights representatives have been involved in producing a children and young people's version of the Common Assessment Framework questionnaire.

What we are going to do:

All schools will have democratically elected school councils.

Secondary schools will have elected representatives on the Rotherham Youth Cabinet

- Young people having voice and influence at the 'All of Us Matter' conferences
- Children and young people influencing the recruitment and selection of senior staff
- Workshops involving children and young people with decision makers CYPs Exec Group, CMT, LSP and others
- Increasing control established by young people
- The increasing range of children and young people engaging with the process, both age, identity and issues
- The visioning exercise
- Developing arenas of influence
- Young people beginning to develop/train staff
- Children and young people speaking for themselves
- 4 Care Leavers have gone to Rumania for 3 weeks to undertake Voluntary Community work

Community Involvement Unit, Neighbourhood Development projects:

Development of Maltby Youth Forum that led to the writing of the community safety theme in the Maltby Community Plan – as a result new play areas have been developed and road safety improved.

Children and Young People developed a new web page and e-zine in Kimberworth Park which has meant young people have enhanced their ICT skills through a practical local project and contributed to decision making processes.
Young people directly working with local partnerships to develop a Skate Park in Wath – the need for this was identified through the community planning activity.

Children and Young People's Services Commitment to Achieving Economic Well Being in Rotherham

'In Rotherham we will work to support every child and young person in their journey towards independence'
What children and young people in Rotherham have told us:

What we are going to do:

| | | | |
|---|---|---|--|
| <p>Progress the Investor in Education Initiative which brings together business and education, including Young apprenticeships, work placements and young enterprise.</p> | <p>-Attract quality jobs to the borough through Inward Investment and business development.</p> | <p>-Use Rotherham Excellence Partnerships and Pathways to Work Initiatives to develop a more vocationally orientated and flexible 14-19 curriculum.</p> | <p>- Develop 'Rotherham Ready' the Rotherham Children and Young People's Project providing an enterprise entitlement for young people aged 4-19 and enterprise training at all levels.</p> |
|---|---|---|--|

All Rotherham's secondary schools and over 50 businesses have signed up to the "Investors in Education" initiative. The Entry to Employment Initiative has contributed to reducing the number of young people not in education, employment or training to 8.7% against a sub-regional position of 10.1%.

Skills for Life agenda to improve the level of basic skills has had notable success over recent years'. Ricochet Project specifically provides housing advice to young people under 25.

Sheffield YWCA Fleming Gardens project is an accommodation based supported housing scheme for young mums and mums to be. Successfully gained funding to bring our social housing up to Decent Homes Standards.

Our business incubator units have dedicated space for young people.

Young people need to go out to work not only to personally develop but to be financially better off and to get out of the benefit trap.

We need to get appropriate housing, council or private, when needed.

The creation of real jobs for young people seen as an important aspect of the borough's economic regeneration.

Breakthrough Project

Rotherham's strategy of developing three Excellence Partnerships comprising education and training providers and relevant support services, such as Connexions and Lifetime, has been developed. Building on the established Dearne Valley Learning Opportunities Partnership (DeVeLOP) in the north of the borough, a second collaboration has been brought to stream in the south and another for the central and north-western parts of the borough in 2005. Working collaboratively has helped not only to increase and improve learning opportunities, but also to raise achievements at both GCSE and Advanced level.

Additionally, the new Entry to Employment (E2E) programme delivered collaboratively has contributed to reduce the number of young people Not in Education, Employment or Training (NEETs) in the Borough to 9.1% against a sub-regional position of 10.1%. Indeed, half of the sub-region's reduction of NEETs in 2004 was accounted for by the reductions in Rotherham.

Teenagers to Work

The Teenagers to Work programme is managed by the Get Real Team and helps to find work placements for young people in public care, particularly for disengaged or excluded young people. The target is to increase the number of Teenagers to Work placements provided by Rotherham Metropolitan Borough Council from 11 to 17 by 2008. Currently 13 placements have been provided in 2005/06, with targets of 15 in 2006/07 and 17 by 2007/08.

Commissioning of Services

The Children Act 2004 requires partners in a local area, including Strategic Health Authorities and Primary Care Trusts, to co-operate with the local authority in making arrangements to deliver improved outcomes for children and young people. Co-located multi agency teams working to agreed protocols, shared referral systems and common aims will enhance outcomes for children, young people and families. Examples of co-located workers include Health Visitors, Midwives, Teachers, Social Workers and Voluntary Workers. Their relationships will be further strengthened through the implementation of the Common Assessment Framework, Information Sharing and Assessment and the Lead Worker concept.

A key element of these arrangements and duties is joint planning and commissioning of services by the partners involved. Working with local partners, The NHS Local Delivery Plan (LDP) has been set from 2005 to 2008 and includes priorities in services for children, young people and families. Along with the Children and Young People's Plan, these plans will form the basis for effective joint commissioning where this is the appropriate solution. For children's services, joint commissioning by the Local Authority, Primary Care Trust and practice based commissioners, together with other partners and service users, will be developed. This plan underpins a range of strategies contributing to well-being of children and young people and gives greater clarity in terms of available resources and spending priorities.

Currently joint commissioning activity is limited to children and Young People's Mental Health Services (CAMHS) and the teenage pregnancy initiative. In order to ensure that our services are responsive, able to deliver the Every Child Matters five outcomes in an integrated and sensitive manner and are tailored to meet the needs of our individual children/young people/ their families both on a local and Borough wide level, a commissioning strategy is being developed. This Strategy will address, using a model appropriate to Rotherham, how services can be jointly commissioned, de-commissioned and jointly purchased to meet our individual's unique needs. The Strategy will be informed using the Analysis of Need, the Comprehensive Children and Young People's Mental Health Service and a populated Commissioning Toolkit and will strive to develop a collaborative culture across social care services, health, the service users and relevant key Provider agencies.

The action plans that follow contain more detail about the key actions which will contribute towards the delivery of this plan. Specific measures and targets describe the performance management review and responsibility for this delivery

Resources

Significant revenue and capital resources will be used to deliver the objectives set out in this plan. The main test for the use of resources is whether or not they are value for money. For the setting of the 2006/07 budget the Council has examined its priorities through a base budget review process and the setting of a Medium Term Financial Strategy. In so doing judgements were made against known and future priorities for Children and Young People's Services; and new investments have been made over and above existing services against a very tight budgeting round. External benchmarking figures (such as Section 52) already indicate that central services in Rotherham are already value for money, being in the bottom quartile to the median for the majority of spending areas; and producing good outcomes in terms of service delivery.

In 2006/07, the Council will have Children and Young People's Services revenue budget for the first time, pooled from the existing Education and Children's Social Services budgets. £156m will be schools related net budgeted expenditure, which is covered by the new specific and ring fenced Dedicated Schools Grant. £33.292m will be net budgeted expenditure for the new Children and Young People's Services Programme Area.

Sources of Funding

Sources include both Central Government and Council funding. Additionally this funding is used to lever in external resources, such as Objective 1 and SRB. Objective 1, for example is making a significant impact on Achieving Economic Wellbeing, ensuring effective collaboration among institutions for the benefit of our young people.

Central Government funding includes the Sure Start Grant for Early Years which has provided £2.7m to establish 8 new Children's Centres from 2006. Between 2006 and 2008, £16.3m is being provided to deliver services from, and maintain the Centres, which will be key in our development of both childcare places and integrated working.

From 2006, Central Government has changed its basis of funding for Councils in particular. There is to be a Dedicated Schools Grant with a rationalised Standards Fund. A Single Children's Grant is designed to give Children and Young People's Services more flexibility in delivering our objectives. This will continue to benefit priority groups of vulnerable children such as Looked After Children, adopted children and those receiving the services of Behaviour Support.

Other major sources of funding include the Learning and Skills Council, the Single Pot, (which will fund a key enterprise project) the Regional Housing Board Capital Investment Fund, the Housing Market Renewal Fund and the Neighbourhood Renewal Fund. There are also significant contributions from partners in the voluntary and community sector, such as MIND, NSPCC and Barnados, both in terms of cash and in kind.

The Medium Term Financial Strategy

The Council has chosen to invest significantly in the new Children and Young People's Services from its mainstream budget.

The main investments reflect priorities within the Single Plan, areas of development identified within the Annual Performance Assessment and the need to manage particularly vulnerable budgets. A total of £1.777m has been invested in priorities which include:

- (i) a development budget which will ensure the successful planning and implementation of our new workforce: £350k
- (ii) costs of Social Care element for specialist placements for children with complex disabilities: £650k
- (iii) a contract with the NSPCC for therapeutic services for children who have been abused: £15k
- (iv) Direct Payments for Carers: £140k
- (v) Strengthening of the School Improvement Service: £75k
- (vi) Teacher for Risky Business protecting children at risk of sexual exploitation: £30k
- (vii) Foster Care Allowances: £317k
- (viii) Adoption payments for external placements: £110k
- (ix) Recruitment and Retention of Social Workers: £90k

The Programme Area has also made significant savings of £383k, which include increased fee targets for the School Improvement Service and efficiency savings involving transport. Efficiency savings will also be able to be counted as Gershon Savings as the Programme Area will contribute to the overall Council target of 2.5%.

Pooled/Aligned Budgets and Commissioning

The development of the service will give opportunities for pooled and/or aligned budgets, especially in the areas of provision for children with complex difficulties and Special Educational Needs and Disability Services. This can build upon the example of the Children's Fund, where there are virtual pooled budgets with contributions from Health, Education and Social Services. We also need to coordinate resources within the Local Area Agreement process. This may give us more flexibility in the use of budgets from different areas, for example the alignment of the Sure Start Grant with the Neighbourhood Renewal Fund.

The above section on Commissioning will develop the need for pooled or aligned budgets by identifying the most relevant areas with Council and Health partners. It is expected that the LAA process will give an impetus to the joint commissioning of services and stronger links with the voluntary and community sectors. The focus for this activity will be on early intervention and prevention in those areas of greatest need.

Dedicated Schools Grant and the Scheme of Delegation

As described above, the Dedicated Schools Grant is ring fenced to schools. However the Council is responsible for ensuring an equitable scheme of delegation and has completed a consultation resulting in a significant redistribution of resources with emphasis on special educational needs. The Council had distributed £3m of resource to schools based on numbers of children with statements of special educational needs in school. Delegation will now take place based on a formula reflecting a mixture of attainment, deprivation, looked after children and pupil mobility. This will lead to more effective prevention and early intervention with these vulnerable children in schools. Other areas of redistribution included resources for the Ethnic Minority Achievement Strategy.

As directed by the Department for Education and Skills (DfES), no more changes will take place to the Scheme of Delegation until at least 2008, with a review of its effectiveness taking place for this date.

Capital Investment

Finally, the Council will contribute a significant capital budget to both schools and children and young people's centres. For schools alone this amounts to approximately £12m per annum and the Council is contributing £1.5m to establishing 2 Children and Young People Centres at Clifton and Kimberworth. The latter are also part of the Council's Schools Private Funding Initiative (PFI) project, where £94m of capital is being invested in a project to rebuild and refurbish 15 schools and associated community buildings.

Workforce Strategy

Children and Young People's Services has a diverse workforce across a range of services and settings. Principally these mean early years, social care and foster care, and schools. Partner agencies include the health services and the voluntary and community sector, police and Youth Offending Services.

To support this, a workforce strategy for the Programme Area will be developed, which will closely follow the Council's Workforce Strategy. The latter emphasises key Best Value Performance Indicators reflecting the make up of the workforce, sickness absence and recruitment and retention.

The Children and Young People's Services strategy will also emphasise qualifications and training, safer recruitment (concentrating on CRB checks) as well as programme of cultural change to support the new agenda. It will reflect the most recently published Children's Workforce Strategy.

For schools this has meant and will continue to mean the implementation of their workforce reform agenda. The recent introduction of planning, preparation and assessment for all teaching staff has meant a significant training programme for support staff, concentrating on learning assistants and learning mentors with the creation of an entirely new grade of staff, the Higher Level Teaching Assistant.

For Social Care, the strategy will concentrate on recruitment and retention as there is a high vacancy rate. However, several strategies are employed already including golden hellos and the payment for the training of Social Workers. There has been specific investment and plans for the future (£10,000 per place) to recruit 9 new Social Worker posts per year.

The Analysis of Need and the developing strategy will also identify other skill gaps and shortages where we are planning for new teams.

The Analysis of Need will enable the planning and location of the new teams. Principally teams will serve the 7 Area Assembly locations and this will be done over a continuum of service delivery. Some will be small centralised teams with a focus on the 7 areas and on those locations, where the Analysis has indicated the greatest need; to fully integrated multi agency teams involving schools, collaboratives, early years, education, social care, health and voluntary and community sector. The planning for this will be complete by Autumn 2006 and then implemented over 2007 and 2008. This depends on securing accommodation for which there is and will be significant capital investment. Rotherham has already built upon its Pathfinder status in 2002 to explore new ways of service delivery and created some very exciting multi agency workforces with discernible benefit for young people. At Maltby, the Behaviour Improvement Service, Health and Social Care Professionals are already developing common assessment and the lead professional role to ensure a beneficial focus on vulnerable children. The Clifton Project is developing the role of a generic worker.

The Workforce Strategy will build upon this good practice, concentrating on the key elements of the Common Assessment Framework, the Lead Professional and information sharing. A roll out plan on these involving the training of all children's workers has been developed which depends on the cooperation of all agencies to cascade the training to their colleagues. This will begin in April 2006 and will be supported by the innovative integrated electronic services pathways programme.

Human Resources will support the change process where a review of workforce roles and grades may be necessary. This is a particular challenge in schools with children's centre and extended schools agenda, where schools will be open for up to 48 weeks per year; thus creating the need to change terms and conditions for some existing staff. The creation of a graduate early years leader in every full day care setting by 2015 is a key outcome also.

Finally Human Resources will support the Programme Area in following through the consequences of the pay report to be published by the Children's Workforce Development Council in late 2006.

More detailed information in relation to how resources will be allocated to achieve the five outcomes are detailed in the action plans.

The Rest of the Journey – delivery of this plan

The following action plans contain more detail about the key actions which will contribute towards the delivery of this plan. Specific measures and targets describe the performance management review and responsibility for this delivery.

In addition, close working relationships with Adult Social Services will be retained and further developed. This is essential to the delivery and quality of service for a range of children and young people including:-

- Those in transition between childhood and adulthood.
- Children and young people who are visually/hearing impaired
- Children and Young People who are carers.
- Young people with learning disability and mental health problems.

Although we are ambitious and committed to delivering the areas of work detailed in the action plans we acknowledge that constraints on resources may dictate that some of the tasks may not be completed short term but will be addressed within the longer life of the plan.

Being Healthy

| ROTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS |
|--|

| | | |
|-----------|------------------------|--|
| 1. | Meeting: | Lifelong Learning, Culture and Leisure Cabinet Member and Advisers Children and Young People's Services Cabinet Member and Advisers |
| 2. | Date: | 21st March 2006 11th April 2006 |
| 3. | Title: | GCSE Examination Results, 2005. |
| 4. | Programme Area: | Children and Young People's Services |

5. Summary:

The purpose of this report is to inform members of the GCSE examination results for 2005 and how they compare to previous years to the national average and to the results of our statistical neighbours.

In 2005 the percentage of Rotherham's young people gaining five or more GCSEs at the highest grades of A* - C rose for the third year running. The rate of improvement was, again, higher than the national rate of improvement.

6. Recommendations:

That the report be received.

7. Proposals and Details:

The presentation of GCSE results is complicated by the different ways in which the results are expressed. Results are sometimes published to include all the pupils in the year cohort (i.e. all the pupils in secondary and special schools), on other occasions the results reflect only the pupils in secondary schools. National results and the results reported to Members, are presented to include all pupils in whichever type of school they are educated.

A new points score system for calculating the average point score of pupil's attainment was introduced in 2004, which includes a wider range of GCSE equivalent qualifications. Comparisons can only be made for 2004 and 2005 and not against performance in previous years.

Results Overall

| <u>GCSE results</u> | Rotherham | National | Statistical Neighbours |
|---|------------------|-----------------|-------------------------------|
| 5+ A*-C | | | |
| 2000 | 40.9 | 47.4 | 42.2 |
| 2001 | 42.8 | 48.4 | 43.4 |
| 2002 | 41.4 | 51.2 | 44.8 |
| 2003 | 44.4 | 52.9 | 46.4 |
| 2004 | 45.9 | 53.7 | 47.0 |
| 2005 | 49.5 | 57.1 | 50.9 |
| 5+A*-G including English and Mathematics | | | |

| Source: LEA Profile 2000 -2003 DfES Statistical Release 2004 -05 2004 and 2005 Average Point Score is Section 96 (New Points Score) | | | |

The percentage of pupils achieving 5+ GCSEs at the higher grade A*-C has increased by 3.6% from last year's figure to 49.5% in 2005 against a national average of 57.1%, an improvement of 3.4%.

The gap between the performance of schools in Rotherham and the national average has narrowed slightly from 7.8% in 2004 to 7.6 % in 2005. The gap between the performance of schools in Rotherham and our Statistical Neighbours is 1.4%.

86.5% of Rotherham's pupils gained 5+ A*-G (including English and mathematics), a 2% increase on 2004. This has narrowed the gap to 1.5% from the national average, and is just below that of statistical neighbours.

The percentage of pupils achieving 5+ A*-G grades (not specifically including English and mathematics), has remained the same with a slight improvement in the national average and a decline of 1% by our Statistical Neighbours.

Only 3.7% of pupils in Rotherham left school in 2005 with no GCSE passes, 96.3% gained at least 1+A*-G. This is 1.1% below the national average and in line with our Statistical Neighbours.

The average (uncapped) point score for pupils in Rotherham is 328.0. This is 27 points below the national average and 8 points below the average for our Statistical Neighbours.

The Council, through its current School Improvement Plan and pending Children and Young People's Plan, is striving to raise the attainment of pupils in Rotherham schools. 11 schools improved their results in 2005 from 2004. The focus for support will continue to be on those schools where the progress of pupils from Key Stage 2 to Key Stage 4 is less than that which would be expected in similar schools nationally as calculated by the Fischer Family Trust data on the prior performance of pupils.

LEA Statistics (against number of entries)

The entries for the range of courses that were available within Rotherham schools in 2005 are as follows:

- 27,626 entries for 53 GCSE full courses
- 2,240 entries for 5 GCSE short courses
- 516 entries for GNVQ foundation and intermediate courses
- 886 entries for Vocational GCSE courses
- 1019 entries for Basic Skills, Entry Level Qualifications (ELQ) Bands, Key Skills and Vocational Related Qualifications (VRQ) Levels

In 2005 the pass rate, for full courses, against entries was 96.3%, for short courses against entries was 91.9%, for GNVQ courses against entries was 79.3% and for Vocational GCSEs against entries was 92.1%.

The number of entries per pupil (full courses)

The average number of entries per pupil in 2005 was 8.0 (See table below)

| Year | 1995 | 1996 | 1997 | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 |

An analysis of Performance by Gender (5+A*-C grades)

| Year | Boys % | Girls % | % Difference | Overall (all schools) |
|------|--------|---------|--------------|-----------------------|
| 1995 | 31.8 | 40.9 | 9.1 | 36.2 |
| 1996 | 31.9 | 40.3 | 8.4 | 36.2 |
| 1997 | 32.6 | 42.2 | 9.6 | 37.4 |
| 1998 | 31.5 | 43.3 | 11.8 | 36.8 |
| 1999 | 35.8 | 45.3 | 9.5 | 40.3 |
| 2000 | 36.8 | 44.8 | 8.0 | 40.9 |
| 2001 | 38.1 | 48.0 | 9.9 | 43.0 |
| 2002 | 37.2 | 47.1 | 9.9 | 42.0 |
| 2003 | 41.4 | 49.0 | 7.6 | 45.1 |
| 2004 | 42.1 | 49.7 | 7.6 | 45.9 |
| 2005 | 43.0 | 56.1 | 13.1 | 49.5 |

*Performance of boys and girls is derived from NCER data

Girls are still significantly out-performing the boys with a 13.1% difference in 2005.

Contextual Value Added (CVA) Summary

In the autumn term of 2005, OFSTED introduced a new Performance and Assessment Report (PANDA) report for schools.

Previously progress was assessed by placing schools into groups according to their similarity in prior attainment. Schools were given benchmark grades according to their performance compared with the other schools in their group. However, it was recognised that there are many other factors, that could affect pupils' progress, that were not taken into account by this method.

In order to examine the progress of a school taking account of these other factors, the new PANDA report uses a contextual value added (CVA) model. This involves looking at the progress of all pupils nationally, each year, against a wide range of contextual factors. Ofsted and the DfES have been working together to derive the best models and these have now been agreed. The main factors in the models include:

- Prior attainment
- Special educational needs (SEN) status
- Free school meals entitlement
- Whether English is an additional language
- Ethnicity
- Gender
- Age
- Mobility
- Economic deprivation

Each pupil's expected progress from an earlier key stage is calculated, taking into account the national data for all factors in the model. Their actual progress is then compared to their expected progress. The difference indicates whether a pupil has progressed more or less than expected and by how much. These differences are then combined for all pupils to provide a contextual value added score for each school.

The following tables provide a summary of the performance in Rotherham from Key Stage 2 to 4 and Key Stage 3 to 4. This includes the overall CVA measure for each school, together with the CVA for core subjects against a national mean of 100. Where the school CVA differs significantly from the previous year's, this significance [+ (above) or – (below)] and whether this is improving or declining is shown below.

Key Stage 2-4**Overall CVA**

| | Number of Schools | | |
|------------------------------|--------------------------|-------------|-------------|
| | 2003 | 2004 | 2005 |
| Significance - | 4 | 4 | 5 |
| Significance - and declining | | 1 | 2 |
| Significance - and improving | | | |
| Significance + | 7 | 4 | 3 |
| Significance + and improving | | 1 | |
| Significance + and declining | | | |
| No significance | 5 | 6 | 6 |

English CVA

| | 2003 | 2004 | 2005 |
|------------------------------|-------------|-------------|-------------|
| Significance - | 5 | 3 | 4 |
| Significance - and declining | | 3 | 7 |
| Significance - and improving | | | |
| Significance + | 9 | 4 | |
| Significance + and improving | | | 1 |
| Significance + and declining | | | 1 |
| No significance | 2 | 6 | 3 |

Mathematics CVA

| | 2003 | 2004 | 2005 |
|------------------------------|-------------|-------------|-------------|
| Significance - | 6 | 3 | 2 |
| Significance - and declining | | 3 | 3 |
| Significance - and improving | | | |
| Significance + | 6 | 4 | 3 |
| Significance + and improving | | | |
| Significance + and declining | | 1 | |
| No significance | 4 | 5 | 8 |

The overall CVA using Key Stage 2 results to show progress to Key Stage 4 indicates seven schools with scores below the National mean that are significant. Two of these are significantly below and declining. Three schools are significantly above and six schools are in line with the National mean.

In English there are eleven schools with a CVA score that is significantly below the National mean, seven of which show a declining trend. Mathematics CVA shows 5 schools significantly below the national mean, three of which are declining.

Key Stage 3-4**Overall CVA**

| | 2003 | 2004 | 2005 |
|------------------------------|-------------|-------------|-------------|
| Significance - | 4 | 2 | 2 |
| Significance - and declining | | 3 | 3 |
| Significance - and improving | | | |
| Significance + | 7 | 6 | 4 |
| Significance + and improving | | 1 | 2 |
| Significance + and declining | | | |
| No significance | 5 | 4 | 5 |

English CVA

| | 2003 | 2004 | 2005 |
|------------------------------|-------------|-------------|-------------|
| Significance - | 6 | 4 | 6 |
| Significance - and declining | | 2 | 4 |
| Significance - and improving | | | 1 |
| Significance + | 4 | 3 | 1 |
| Significance + and improving | | 1 | |
| Significance + and declining | | | |
| No significance | 6 | 6 | 4 |

Mathematics CVA

| | 2003 | 2004 | 2005 |
|------------------------------|-------------|-------------|-------------|
| Significance - | 6 | 6 | 2 |
| Significance - and declining | | 1 | 2 |
| Significance - and improving | | | |
| Significance + | 4 | 4 | 3 |
| Significance + and improving | | 1 | 2 |
| Significance + and declining | | | |
| No significance | 6 | 4 | 7 |

The overall CVA using Key Stage 3 results to show progress to Key Stage 4 indicates Rotherham has five schools that are significantly below the National mean. Three of these are significantly below and declining. Six schools are significantly above and five schools are at least about the national mean.

In English the CVA from KS2 to KS4 shows eleven schools with a CVA score which is significantly below the national mean, four of which show a declining trend and one having a rising trend.

In mathematics the CVA shows 4 schools significantly below the national mean, a reduction from 2004, two of which are declining. Seven schools are at least in line with the national mean, 5 schools are significantly above and two of these are significantly above and improving.

- vi) Appendix F shows a graph of the results for Rotherham LEA, Statistical Neighbours and National

8. Finance:

N/A.

9. Risks and Uncertainties:

The level of achievement of Rotherham pupils on leaving statutory education will have a major impact on the re-generation of the area. Schools, working with the LA, are setting challenging targets and are striving to drive up the standards of attainment for all pupils.

The coherent implementation of a range of nationally funded projects will be instrumental in achieving this improvement. Failure to achieve the targets could put this additional funding at risk.

10. Policy and Performance Agenda Implications:

Any plans arising from an analysis of this report are consistent with the Community Strategy and Corporate Plan. The improvement actions address the Corporate Priorities for:

| | |
|----------------|--|
| Regeneration | - improving the image of Rotherham; - providing sustainable neighbourhoods of quality, choice and aspiration. |
| Equalities | - promoting equality; - promoting good community relations. |
| Sustainability | - improving the quality of life; - increasing employment opportunities for local people. |

ROOTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | | |
|----|------------------------|--|
| 1. | Meeting: | Lifelong Learning, Culture and Leisure Cabinet Member and Advisors |
| 2. | Date: | 21st March 2006 |
| 3. | Title: | More People More Often, Culture and Leisure Marketing Strategy 2006 – 2008. Affecting all wards |
| 4. | Programme Area: | Children and Young People's Services |

5. Summary

A Culture and Leisure marketing strategy has been developed to meet recommendations made by the Audit Commission following Culture and Leisure's regular performance assessment undertaken in February 2005.

The approval of the Cabinet Member is now sought to carry out the implementation of the strategy.

6. Recommendations

Members are asked:

- 6.1 To receive the report**
- 6.2 To approve the Culture and Leisure Marketing Strategy**

7. Proposals and Details

The key aims of the marketing strategy are to raise awareness of the range of cultural and leisure services available in the borough, and increase the take up of services by local people, specifically those living in areas associated with social, economic and health inequalities.

In order to achieve the key aims of the strategy, a number of objectives taken from Culture and Leisure's service plan have been identified, upon which the strategy will be based. These are:

1. To increase the number of residents taking part in cultural activity (more people more often)
2. To increase the number of residents from identified priority groups and communities who participate in cultural activity
3. To increase resident satisfaction with and usage of cultural services
4. To improve and increase customer consultation and involvement
5. To increase the number of residents from identified priority groups and communities who participate in cultural activity
6. To monitor usage, satisfaction ratings and complaints by ethnicity, gender and disability
7. To provide cultural services which are equitable and accessible to Rotherham's diverse communities
8. To identify and establish clearly defined partnerships that will enhance the impact of Service delivery
9. To introduce, implement, monitor, review and further develop a robust performance management framework for Culture and Leisure
10. To improve the financial performance of Culture and Leisure
11. To assist in developing services and user numbers in line with the Council's Corporate Priorities.

8. Finance

There are financial implications with regards to the implementation of the strategy. Existing budgets will be used but further funding will need to be identified.

9. Risks and Uncertainties

Without identification of sufficient resources to fund the strategy only part of it will be implemented. This will in turn affect the service's ability to increase participation and could lead to slow improvement against Key Performance Indicators.

The main objective of the marketing strategy is to affect behaviour change so that residents lead a more active lifestyle both physically and intellectually. This is therefore a long-term plan and it is generally acknowledged that this kind of marketing campaign can take up to three years to show significant results.

The implementation of the marketing strategy needs to be sustained and impact monitored on a regular basis to ensure that it is making a difference.

10. Policy and Performance Agenda Implications

By explicitly targeting communities of interest and the geographical areas highlighted in the Neighbourhood Renewal Strategy, the implementation of the marketing strategy will enable the service to increase cultural and leisure opportunities for all by addressing barriers to participation and by developing marketing campaigns targeted specifically at the aforementioned groups.

The implementation of the marketing strategy will enable Culture and Leisure services to increase participation and strengthen its position before the CPA inspection of Culture and Leisure Services.

The strategy will also help deliver the following corporate priorities:

Rotherham Learning – by developing customer care skills across Culture and Leisure

Rotherham Achieving – by increasing participation and enhancing people's well-being

Rotherham Alive - by stimulating interest and encouraging people to lead a more active lifestyle

Rotherham Proud – by developing specific products and services that meet the demand from the identified communities of interest

And the cross-cutting themes of Fairness and Sustainability through the provision of cultural services that are equitable and accessible to the borough's diverse community and ensuring regular consultation with users and non-users.

The strategy also links to the corporate Communications and Marketing Strategy.

11. Background Papers and Consultation

Appendix A – Culture and Leisure's Marketing Strategy

The strategy has been submitted to Head of Corporate Communications and Marketing and Head of Performance and Quality for comment.

The strategy has been approved by the Strategic Leader, Culture and Leisure.

Full consultation was carried out with users and non-users to inform the development of the strategy.

In line with the Council's Good Practice Guidance for Conducting Consultation, it is intended that the results of the survey will be published on the RMBC website.

Foreword by Councillor Georgina Boyes, Cabinet Member Lifelong Learning, Culture and Leisure

It is with great pleasure that I present the Marketing Strategy 2006 – 2008 for Culture and Leisure.

Based on a full understanding of local needs this strategy will be pivotal in helping the service achieve its vision to engage with More People More Often and improve the quality of life of as many residents as possible.

We were determined to create a strategy that both supported and led local aspirations and helped the service to achieve its vision of engaging with More People More Often. The views of more than 5,000 residents, both users and non-users, were sought to inform the development of the strategy and drawing on these, we aim to deliver services that are focused, proactive and responsive to the needs of our users and potential users.

In line with the key findings from the consultation exercise the objectives of the strategy are primarily:

- To raise awareness and profile of Culture and Leisure
- To ensure systematic and regular consultation with users and non-users
- To develop an integrated approach to marketing across the service
- To increase the level of communication to residents
- To work in partnership with key agencies

Our strategy for Rotherham's communities is ambitious and presents some key challenges including the aim to change people's behaviour so Rotherham become a more active and healthier borough.

Georgina Boyes
Cabinet Member for Lifelong Learning, Culture and Leisure

1 Introduction

1.1 Purpose of the strategy

Building on the good work that has been developed over a number of years, this marketing strategy is intended to provide a robust framework for the delivery of a co-ordinated, cohesive and effective series of marketing campaigns aimed at local people in Rotherham.

This strategy has been developed within the context of the Council's Corporate Communications and Marketing Strategy and is intended to work alongside this, by providing a focused and targeted approach to raising awareness of the facilities and services available in Rotherham and encouraging local people to increase take up of these facilities and services. Therefore this strategy does not encompass the tourism market. It is however acknowledged that areas of the service and particularly Rother Valley Country Park and Clifton Park Museum are two of the major tourist attractions in South Yorkshire and as such are part of the Rotherham Tourism Strategy.

1.2 Scope of the strategy

The strategy sets out specific strategic goals, target markets and campaign themes as well as exploring how to use communications channels to market the service and how to effectively develop the Culture and Leisure brand in line with the recently agreed corporate branding.

1.3 Strategic context

This strategy aims to work alongside the overall Council's Corporate Communications and Marketing Strategy and will particularly contribute to achieving the following objectives:

- **Maximise the impact of our communications and marketing resources** by maximising expertise and resources across agencies
- **Communicating with the public** by continuing to use high quality print media and design as a means of providing information and gaining feedback from local communities, using plain English and/or a range of alternative preferred formats, as appropriate

Support the Council's strategies for community cohesion, consultation, involvement and decision-making with appropriate communications and marketing activity

Promote equality of access, ensuring that information is available to everyone at the right time, and in the format they prefer, supporting strategies for valuing diversity and social inclusion

Maximise access to and use of the council's services and facilities, and awareness of how service users can influence planning and delivery

- **Working with the Media** by further improving relationships with local, regional and specialist media to enhance positive media coverage of the Borough and the Council

Exploit new media and technologies to deliver communications and marketing activity

Strengthening our partner relationships by improving relations and communications with local partners and the voluntary and community sectors

- **Marketing the Council and the Borough** by developing the marketing strategy for Culture and Leisure

A number of other strategic documents have also been referred to and have informed the development of the marketing strategy for Culture and Leisure. These include the Council's Corporate Plan 2005-2010, Culture and Leisure's Service Plan 2006-2007, Culture and Leisure's Pricing Policy, Culture and Leisure's Cultural Entitlement, Rotherham Tourism Strategy, Education

Culture and Leisure Services' Information and Communication Technology Strategy 2005-2010, the Corporate Equality Strategy and Action Plan and the Race Equality Scheme 2.

2 Aims and Objectives

The key aims of the marketing strategy are to raise awareness of the range of cultural and leisure services available in the Borough, and increase the take up of services by local people, specifically those living in areas associated with social, economical and health inequalities.

2.1 Target areas and groups

The geographical areas and target groups for the campaigns reflect those identified within the broader Neighbourhood Renewal Strategy, Community Strategy and Corporate Plan. Briefly, they comprise:

2.1.1 Geographical areas

The service aims to provide residents **of all Wards** with a stated level of cultural services entitlement (see appendix 1).

However the following geographical areas will be target areas for additional Service focus:

Wath
Rawmarsh
Masbrough
Maltby
Kimberworth Park
Dinnington
Central
Brinsworth and Wath pockets of deprivation

2.1.2 Target groups

The broad geographical area i.e. Rotherham Borough has been further segmented to specifically target **disabled people**.

Within the Neighbourhood Renewal Strategy target areas, efforts will be focused on the following target groups:

- **0-16 year olds and their families/carers**
- **Older people (55+)**
- **Black and minority ethnic communities**

2.2 Aims

In order to achieve the key aims mentioned above, the strategy will support Culture and Leisure service plan and improve awareness amongst Rotherham people by:

1- Building the Culture and Leisure brand

- Identification of positive clear messages that will be meaningful to local people
- What value and (personal) benefits the services offer to local people
- Why engaging in activities is a good idea

2 - Developing customer knowledge and adopting a strong customer focus

- Systematic and regular consultation with users and non users (focus groups, quantitative survey)
- Address recommendations from the user and non-user survey

3 - Delivering the promise

- Integration of customer care practices across all areas
- Clear communication of customer care practices to customers
- Integration of response to barriers to take up, as identified in consultation exercise
- Delivery of high quality, aspirational campaigns to achieve strategy aims
- Ensuring that the quality of all culture and leisure activity is high and reflects a positive image of Rotherham
- Integrated approach to marketing all culture and leisure services

4 - Increasing communications channels

- Identification of mechanisms to communicate opportunities to become engaged in activities
- What services are available, including new services
- How to access services

5 - Developing a partnership approach

- Identification of key partners
- Integrated marketing campaign
- Maximising resources and expertise

2.3 Marketing objectives

In order to achieve the key aims of the marketing strategy, a number of key objectives taken from Culture and Leisure's service plan have been identified, upon which the marketing strategy will be based. These are:

1. To increase the number of residents taking part in cultural activity
2. To increase the number of residents from identified priority groups and communities who participate in cultural activity
3. To increase resident satisfaction with and usage of cultural services
4. To improve and increase customer consultation and involvement
5. To increase the number of residents from identified priority groups and communities who participate in cultural activity
6. To monitor usage, satisfaction ratings and complaints by ethnicity, gender, age and disability
7. To provide cultural services which are equitable and accessible to Rotherham's diverse communities
8. To identify and establish clearly defined partnerships that will enhance the impact of Service delivery
9. To introduce, implement, monitor, review and further develop a robust performance management framework for Culture and Leisure
10. To improve the financial performance of Culture and Leisure

These objectives will be measured via the performance indicators detailed on pages 24 and 25.

3 The Context

A range of stakeholders were identified at the outset of the project (see full list in appendix 2), who were consulted in one to one or group discussions. A proforma (see appendix 3) was drawn up as a framework for the consultation phase, to ensure consistency of the areas covered.

3.1 Environmental factors

The consultation identified a number of perceived environmental factors that need to be taken into consideration within the strategy and subsequent marketing campaigns:

- Geography - half population in rural areas
- Lack of identification with Rotherham as a location
- Perceived low self-esteem and lack of demand by local people for services
- Perceived lack of awareness of future development plans
- Low engagement by Black and Minority Ethnic communities
- Perceived lack of motivation to shift poor lifestyle choices
- Lack of hard data around barriers to access, customer demand and customer feedback

3.2 Leisure and Green Spaces - consultation with service deliverers

There were a number of concerns raised during the consultation from those engaged in the delivery of leisure services. These concerns covered two areas - firstly, the low level of engagement of local people in accessing services, and secondly, how those people who do access facilities perceive the closure of some of those facilities, particularly as there is a strong sense of ownership of 'local' facilities by the local people who do use them.

Issues identified were:

- Engaging customers
- Concern around closure of facilities (Leisure Services)
- Lack of awareness of opportunities (Green Spaces, alternative leisure facilities etc)
- Fear of crime (Green Spaces)
- Barriers for Black and Minority Ethnic communities to access facilities
- Perceived cost
- Lack of integrated marketing to customer
- Lack of resources for marketing
- New development plans - some time away

3.3 Libraries, Museums and Arts - consultation with service deliverers

Feedback from consultation with service providers identified the following issues:

- Lack of co-ordinated marketing approach
- Issues around investment in services in some areas
- Highlights - Museum, library investment
- Lack of resources to market to customers
- Lack of full market penetration - pockets of good practice with specific communities
- Significant opportunities to develop cultural offer (e.g. contemporary dance, work with young people etc)
- Lack of sense of commitment to culture
- Potential new development plans

3.4 Underlying issues

During the research and consultation phase, a number of underlying issues were identified, which will also need to be taken into account when marketing 'activity' in Rotherham.

There is clearly a general **fear of crime**, as being a victim of crime is a major issue for people of Rotherham – this will impact upon local people's potential use of green spaces in particular, specifically in the winter months.

Rotherham has a diverse population with most of the minority ethnic communities living in central Rotherham. It is perceived that Black and Minority Ethnic communities, particularly Asian and Asian British community members, are not fully accessing leisure facilities, cultural services or green spaces – it will be important to specifically address these target groups.

It is recommended that further research is undertaken in central Rotherham to assess levels of take up of the services by members of Black and Minority Ethnic communities, along with an assessment of barriers to take up and where opportunities to increase take up lie. Future service developments, arising from this work may include the provision of women-only sessions etc.

The **economic imperative** – as Rotherham's average weekly wage is lower than the national and regional average, financial cost is clearly an inhibitor for those considering accessing facilities. It will be important to highlight the Rotherham Leisure Card 'Rothercard' as a means to access activities at low cost for those who are eligible.

The lack of resources dedicated to **technological development** prevents the service from delivering a better and more efficient customer focused service. Using technology such as smartcards, e-marketing and online booking is essential to engage with, survey and collate data to gain customer insight as never before.

3.5 SWOT analysis

The issues highlighted during the consultation with service deliverers enabled the development of the following SWOT analysis.

Strengths

- Committed and stable workforce
- Attitude and commitment to improvement
- External partnerships
- Rich cultural asset
- Strong political support for cultural activity
- Track record of attracting external funding
- Quality awards (e.g. Charter Mark, Huggies Award)
- Alignment with Community Strategy and Corporate Plan
- Recognised importance of marketing

Weaknesses

- Level of marketing resources
- Lack of sustainable programme of market research
- Performance management
- Public concern around closure of facilities
- Condition of facilities
- Status of Culture and Leisure within the wider Council
- Provision for disabled service users
- Provision for users from Black and Ethnic Minority groups
- Transport infrastructure

Opportunities

Development of new facilities
Technological change, especially in the area of ICT
National initiatives for mental and physical well-being
Joint initiatives with partner organisations
2012 Olympic Games
Staff development
Rotherham Renaissance
Ageing population
Child well-being and obesity

Threats

Public apathy, perceived lack of motivation to shift poor lifestyle choices
Time squeeze
Political indecision/indecisiveness
Fear of crime
Lack of investment in technology
Discretionary service
Fragmentation of Culture and Leisure

3.6 National trends

This strategy draws upon findings from data sourced from a range of surveys that highlight trends in take up around leisure and cultural services both nationally and locally.

According to the Mintel report 'Leisure Centres and Swimming Pools – UK – 2004', women are more likely to be committed to the idea of achieving and maintaining physical fitness. This is reflected within the results of the survey (see page 13), in terms of the number of women who completed the questionnaire (almost exactly two thirds female to male).

According to statistics from the Chartered Institute of Public Finance and Accountancy Local results for both swimming and library usage also reflect national trends as swimming remains the UK's most popular sporting activity and library visits are rising year on year in England.

The Mintel Leisure Review – UK – June 05 also suggests that UK wide there is an increase in interest in dance and the arts across the board. In terms of interest in cultural activities in Rotherham, the Arts Council Area Profile (2005) highlights 41.9% of Rotherham area respondents indicated that they had participated in any of 8 types of arts activities (plays, opera, ballet, contemporary dance, classical music, jazz, art galleries/exhibitions and theatre performances). This reflects the interest shown in the arts and theatre by respondents to the survey when individuals were asked what they were interested in (see summary of findings on page 13).

3.7 Marketing recommendations

Following the issues identified above, the following marketing recommendations can be made:

- Develop an integrated approach related to Rotherham Alive, as one of the 5 themes for Rotherham
- Develop a consistent brand that can be applied across the board for culture and leisure services
- Clarify offer in each area and areas of cohesion - to address piecemeal approach
- Focus on activity and fun - 'enjoy Rotherham'
- Apply a social marketing approach to encouraging behavioural change
- Develop an integrated planned campaign incorporating promotional materials, public relations, events, website etc
- Targeted approach

- Ensure consistent customer care approach is in place
- Address fundamental issue around resourcing of service offers
- Allocate significant resources to a targeted marketing campaign - focusing on broad key messages and specific offers e.g. museum, cultural and community events, libraries, sports activities, events in green spaces etc
- Encourage customer retention and sustain participation

4 The Customer Base - results of attitudinal survey of local people

To address the lack of data on the selected target groups, a quantitative survey was undertaken in November 2005.

A questionnaire was developed to establish perceptions of local people around the range of services available and their attitude to take up of these services. The survey aimed to establish people's views in terms of their choice of leisure activity, their barriers to accessing culture and leisure activities, how they would like to find out about what is available in Rotherham, and what they would like to see, in terms of improving the service or providing additional services.

5,500 questionnaires were printed and distributed via a variety of channels to ensure the validity of the sample:

- 3,120 self-completed questionnaires with a freepost envelope were distributed door-to-door in the selected target areas (see appendix 4)
- a market stall was used on two consecutive market days where 300 questionnaires were completed by local residents
- to target the Black Minority Ethnic community, translated questionnaires were handed out by Al-Muneera, and the United Multi-Cultural Centre
- Asian males were further targeted at taxi ranks
- children and young people were targeted through schools, namely High Greave Junior, Ferham Primary, St Ann's Junior and Infant, Dinnington Comprehensive School and Clifton: A Community Art School
- questionnaires were also distributed through the Youth Café, Maltby, Thornhill and Rawmarsh Youth and Community Centres
- to target young families, parents and carers questionnaires were distributed by Sure Start agencies in Ferham, Maltby and Rawmarsh
- to ensure older people were represented in the survey, questionnaires were handed out at Rotherham Older People's Experience of Services
- engagement with disabled people was made through the Wheelchair User Group, Access Liaison Group, Rotherham Community Transport Ltd, Scope Rotherham and the Time Out project via the Children's Disability Team

4.1 Summary of findings

Detailed below is a summary of the key findings from the survey; please see appendices 5 and 6 for the full analysis.

4.1.1 General findings

A total of 1374 questionnaires were received from which data was inputted into the final analysis. The majority of participants indicated that their postcode is S65, which suggests that a high proportion of those who completed the questionnaires live in one of the key target areas. This level of response from all areas, specifically S65, indicates a significant level of interest and motivation in terms of the subject matter.

In percentage terms, this breaks down as follows:

| | |
|-------|-------|
| S20 | .3% |
| S25 | 5% |
| S26 | 1.5% |
| S35 | .6% |
| S60 | 9.8% |
| S61 | 11.7% |
| S62 | 9.8% |
| S63 | 2.5% |
| S64 | 1.5% |
| S65 | 45% |
| S66 | 9.1% |
| S81 | 1.2% |
| Other | 2% |

4.1.2 Level of usage of culture and leisure facilities

When asked whether they currently use culture and/or leisure services, around two thirds said, yes, with one third indicating that they did not currently engage in services. In percentage terms, this breaks down as follows:

| | | |
|--------|-----|-----|
| Yes: | 888 | 65% |
| No: | 412 | 30% |
| Never: | 66 | 5% |

4.1.3 Frequency of usage of culture and leisure facilities

Of the two thirds who do participate in culture or leisure activities, the majority do so on a weekly basis (51%), with 82% participating on a daily, weekly or monthly basis. This breaks down as follows:

| | | |
|---------------|-----|-----|
| Daily: | 85 | 13% |
| Weekly: | 330 | 51% |
| Monthly: | 113 | 18% |
| Occasionally: | 113 | 18% |

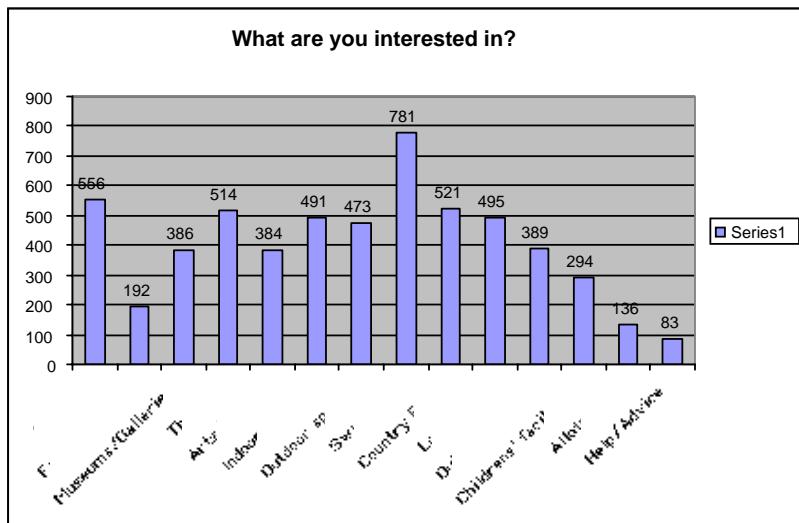

This data clearly illustrates a high level of interest and motivation within those who completed the questionnaires.

Recommendation

- Deliver generic campaigns, aimed at target areas, highlighting benefits of undertaking and maintaining regular leisure activities in its widest sense.
- Deliver campaigns with the aim to increase frequency of use as a quick win to raise visitor/participation figures.

4.1.4 Interest in culture and leisure activities

In terms of what activities participants are interested in, in line with national trends, swimming was identified as the most popular leisure activity. However, it is worth noting that a number of other activities are of significant interest – library, indoor and outdoor fitness activities, local green spaces, outdoor events and, theatre and arts. The interest in theatre and arts (514 ticked this option), suggests that these areas are of greater interest than may have previously been thought.

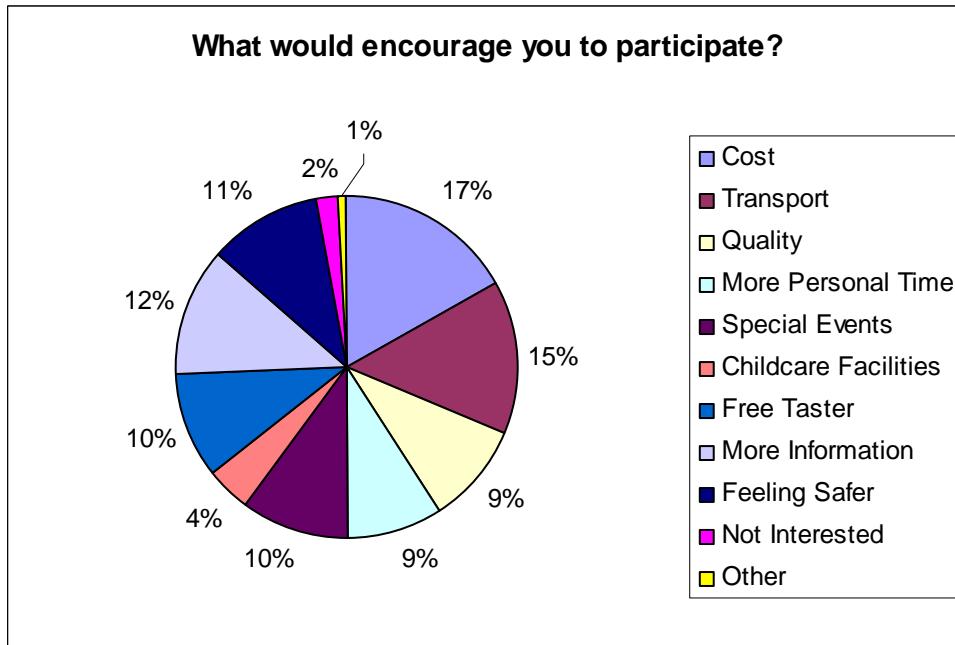

Recommendations

Produce targeted campaigns to promote specific services that have broad appeal, including theatres, museums and galleries.

- Organise local events in parks and green spaces to promote activities
- Provide free taster sessions, where appropriate, to encourage cross-over between activities across Culture and Leisure and other providers where appropriate
- Provide discounted tickets to encourage frequency, loyalty and cross-over
- Provide family tickets

4.1.5 Barriers to participation in culture and leisure activities in Rotherham

The findings in relation to question four illustrate where potential barriers to accessing provision lie.

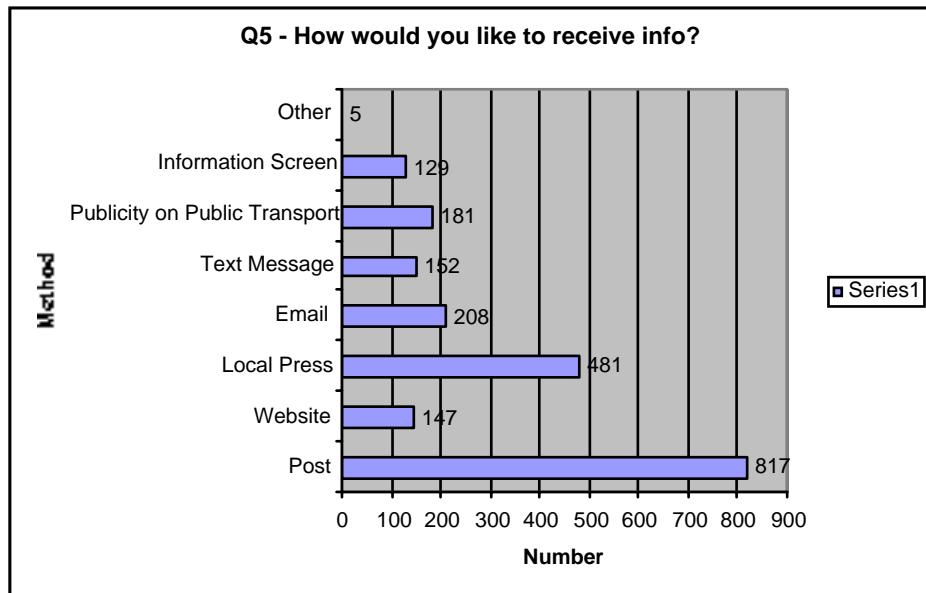

From the data gathered (see above), it is clear that there are a number of opportunities to address the barriers that participants perceived as problematic in terms of increasing their participation. Whilst issues such as transport are complex and therefore difficult to address in simple terms, there are clearly opportunities to improve services, provide special events and taster sessions, provide childcare services and communicate positive messages that reinforce a sense of safety (e.g. lighting, security etc). With 12% of participants feeling that they need more information about what is available, there is also a significant opportunity to provide more comprehensive information, where recipients will pick it up (see paragraph 4.1.6).

Recommendations

- A series of leaflets promoting taster sessions, special events and childcare provision where it is available.
- Production of a comprehensive listing/directory for widespread distribution.
- Assess quality issues around service provision.
- Utilise distribution outlets identified in responses to the preferred communications channels.
- Initiate discussions with South Yorkshire Transport Executive to develop joint initiatives.

4.1.6 Preferred information channels

Respondents overwhelmingly chose to receive information by post (37%), with 23% seeking information via the local press and 15% interested in receiving emails about events and facilities.

In addition, when participants were asked where they would like to see publicity, two key channels were clearly identified, local shops (38%) and schools/colleges (41%).

Recommendations

- Ensure that information regarding events, facilities and services are highlighted in the local press.
- Utilise new media, specifically email and the RMBC website, to promote events and services.
- Consider issuing information/programme of events with annual mailing to all households for Council Tax.
- Utilise the Big Screen in All Saints' Square to promote events and special offers.
- Ensure appropriate distribution routes are utilised, particularly making full use of local shops and schools (where services are specifically targeted at young people).

4.1.7 Information on the respondents

Gender

| | | |
|--------|-----|-----|
| Male | 34% | 452 |
| Female | 66% | 876 |

Age groups

| | | |
|----------|-----|-----|
| Under 10 | 9% | 121 |
| 10-15 | 24% | 321 |
| 16-25 | 20% | 273 |
| 26-35 | 12% | 159 |
| 36-55 | 18% | 241 |
| 55+ | 17% | 220 |

Disability

| | | |
|-----|-----|------|
| Yes | 13% | 175 |
| No | 87% | 1146 |

Further Details

| | | |
|---------------------------------|-----|-----|
| Physical or Mobility Impairment | 51% | 112 |
| Sensory Impairment | 17% | 38 |
| Mental Health Service User | 7% | 14 |
| Learning Disabled Person | 12% | 27 |
| Non-Visible Condition | 13% | 29 |

Ethnic Origin

From the data drawn from completed responses, the majority (95%) of respondents self-identified as white, 9% as Black or Black British and 3.8% identifying as Asian or Asian British. This generally reflects the pattern documented in Rotherham Trends 2004, which identified 96.9% of the population as white, 2.2% of Asian origin, 0.2% of black (African, Caribbean/other) origin.

Please see full analysis for further breakdown (appendix 5).

5 The Marketing Strategies

5.1 Using a social marketing model

The strategy and campaigns are to use a Social Marketing model in order to affect behaviour change. The overall approach will be based upon influencing people to adopt behaviours that they feel are appropriate, beneficial, achievable and serve self-interest. It is important to recognise that despite the fact that a number of national public health campaigns have informed people of the consequences of an unhealthy lifestyle, people continue to choose to make unhealthy lifestyle choices. Nationally, levels of obesity are rising, and whilst smoking in some groups has gone down, it continues to increase in others, such as young women. Social marketing applies positive, motivational messages to encouraging positive lifestyle choices, by highlighting the benefits of those choices.

Using the Kotler and Roberto (1989) definition of Social Marketing as:

"A programme planning process that promotes the voluntary behaviour of target audiences by offering benefits that they want, reducing barriers they are concerned about, and using persuasion to motivate their participation in programme activity"

Therefore, in order to affect social change, marketing activities need to be structured around:

- Motivating people
- Giving people opportunities to change
- Giving people the ability to act in order to change

The strategy will build upon a Social Marketing model, within which there are a number of fundamental principles which impact upon all areas of marketing. These are:

- The brand needs to be embraced by as many people as possible in Rotherham.
- The campaign messages need to highlight the positive benefits of engaging in activity, rather than the negative impact of inactivity.
- The campaign is about people making positive choices, capacity building and empowerment.
- The effectiveness of the marketing of activity will have a direct influence upon the success of the offer as a whole.
- The campaign is about health and well-being in the widest sense i.e. healthy body, healthy mind.
- The spirit of partnership with the local authority, local initiatives and partners, such as health professionals, needs to be reflected in the campaign.
- The campaign is an opportunity for Rotherham to address negative perceptions on a local and regional basis, particularly in relation to perceptions of facilities.

5.2 The five strands of the strategy

The findings from the consultation with service deliverers and the attitudinal survey of local people highlights 5 key strategic challenges to be addressed by the strategy:

Building the brand

As can be seen from the outcomes of the consultation, there is clearly a convergence around the issues raised in relation to barriers to engagement in activity, whether in relation to leisure services, green spaces or cultural activities. This convergence clearly underlines the need for a single brand identity to promote culture and leisure activity in Rotherham.

Customer knowledge

Customer knowledge is critical to the success of any marketing activity. In order to increase participation across Culture and Leisure we need to ensure we develop and implement the right marketing mix to our selected targets. This requires a thorough understanding of their requirements, expectations and decision-making process.

Delivering the promise

Culture and Leisure must be able to address the barriers to participation highlighted by the attitudinal survey and respond to customers' demands and needs.

Effective communications

The survey revealed that many might want to use Culture and Leisure services if they knew more about the service offer. This requires ensuring access to information via the right channels and in the right format.

Partnership approach

Ensuring buy-in from key partners will raise the value of marketing campaigns and ensure the strategy's success. It is therefore essential to work in partnership across Rotherham to campaign, inform and communicate jointly to our audience.

6 Building the Brand

Throughout the consultation period, stakeholders have positively responded to the idea of a single brand, indicating a desire for a brand identity that positively reinforces the notion of taking part/being active, in a non-judgmental and aspirational way.

The perceived brand values therefore are:

- Fun
- Quality services/facilities
- Excellent customer service
- Excellent range of opportunities to be active
- Health benefits
- Improved quality of life
- Improved social networks leading to a greater sense of wellbeing

This approach will be further developed and assessed in the context of the wider branding work currently undertaken by the Corporate Marketing and Communications Team.

6.1 Managing the Brand

The brand needs to clearly establish itself within Rotherham and needs to be easily recognisable by local people. To do this, it is essential that it builds brand equity through its consistency of use.

The brand needs to be easily distinguished from the other local brands, and has to create tangible and intangible characteristics that make its offer unique.

This will be achieved in a number of ways by ensuring:

- consistency of use of the logo and strapline (colours, format etc)
- frequency of use (repetition encourages recognition)
- that the logo is only used in appropriate contexts (alongside partner logos, where relevant)
- that brand is positively associated with messages of empowerment, collaboration and cohesion (in pr, features, references in documentation etc)
- that it is consistently associated with positive action (rather than rhetoric)
- that it is delivered across a number of communication channels
- all staff are fully engaged, particularly front line workers

Throughout all marketing campaigns and activities, it will be essential to protect the brand to ensure that it is always used appropriately. Guardianship of the brand will fall within the remit of Commercial and Promotional Services.

7 Customer Knowledge

Market research and consultation as a means to understand our users and non-users is the only way to ensure that services are user-focused. It is therefore strongly recommended that both regular consultation is undertaken with users and non-users belonging to our target groups and that relevant data capture is undertaken at point-of-sales.

7.1 Consultation

It is also proposed that representative user and non-user panels, selected from the attitudinal survey of local people, are to be set up and consulted twice a year to gain a strong understanding on motivations, behaviour and barriers to participation. User panels generally provides an early warning of problems and encourage ideas for changing or developing services so those panels should also be used to pilot any new ideas on product or promotion.

Building on the survey used to shape this strategy, regular quantitative surveys should also take place to monitor improvement and inform future marketing activities.

7.2 Data capture

Within Culture and Leisure, data capture on users is very limited. Rotherham Theatres benefit from a marketing and ticketing software system, Databox, which is used to highlight buying patterns and catchment areas assisting in targeting users effectively and monitoring the success of any marketing campaign. Although numbers of visitors are collected, efforts should be made across the service to capture data relevant to marketing the offer including:

- User details - name, address with postcode, email details, age range, ethnicity, gender and disabled and non-disabled people
- Details of the activity/product/service they are participating in/buying/using
- Timing – day of the week, time of day, frequency of visits
- Publicity – newspaper, word of mouth, leaflet etc.

8 Delivering the Promise

As identified in the survey, there are a number of opportunities to target specific groups, with special family offers, discounted tickets, etc. It will be essential to ensure that this information is communicated through the appropriate channels, again using the data drawn from the survey (i.e. using local shops, press, schools etc).

The more tailored a sub-campaign is, the more likely it will be that people will feel it is right for them and that they could and should act upon the message.

It is possible to use a traditional marketing approach/model to ensure that the campaign achieves its aims, by adapting the '7 P's':

| | |
|------------------|--|
| Product | Addressing barriers and responding to customers' demands and needs. Improving quality of place, product and service as required. |
| Price | The perceived trade-off that the individual has to pay in order to achieve change. This may or may not involve real money – e.g. the cost of time to walk rather than drive or take the bus. With regards to price, we will use Culture and Leisure pricing policy as one element in a package to increase participation among our target groups. This may include as mentioned previously financial incentives to initiate a first visit or encourage repeat visits from regular participants. |
| Place | The environment/location in which the action associated with the message is delivered – e.g. library, park, theatre, leisure centre, school etc |
| Promotion | Are messages clear and meaningful in any printed and other material? Are networks involved? Is it meaningful to all? Are communications channels reaching the desired audience? |
| People | All people directly or indirectly involved in the consumption of a service/activity are an important part of the extended marketing mix, as they can often add significant value to the product/service offered – e.g. all staff and their ability to deliver customer care, and the quality of their relationship with users. |

| | |
|--------------------------|---|
| Physical evidence | The ability and environment in which the activity/service is delivered - e.g. the perceived quality of service |
| Process | Technology such as Customer Relationship Management and online booking to ensure a fast, efficient and customer focused service delivery. |

There are a number of audiences, who will be targeted by the campaign. As the campaign has a broad remit, the *primary audience* will be:

- All local people including current users

Secondary audiences, who are primarily sub-groups of the primary audience, are:

- Disabled people across the borough

and the following living within the geographical areas highlighted in the Neighbourhood Renewal Strategy (see section 2)

- 0-16 year olds and their families/carers
- Older people (55+)
- Black and minority ethnic communities

9 Effective Communications

A number of marketing activities have been identified during the consultation period which will support the promotion of activity in Rotherham.

9.1 Promotional print

9.1.1 Generic printed materials

From the survey findings (see section 4) the following promotional materials are recommended:

- A series of leaflets promoting taster sessions, special events and childcare provision where it is available
- Production of a comprehensive listing/directory with some positive messages for widespread distribution
- Assess quality issues around service provision
- Utilise distribution outlets identified in response to question 5 of the survey relating to the preferred way of received information (see section 4)

It is recommended that a range of publicity materials are produced which are generic in nature and incorporate high quality imagery reflecting the range of activity opportunities available in Rotherham, both within culture and leisure services. These may include:

- A3 posters
- A5 flyers
- Credit cards

9.1.2 Targeting specific audiences

To build upon the generic literature, it is recommended that a series of campaign leaflets are produced, highlighting specific ways in which people can get involved.

The leaflets would include:

- **Targeting women (primarily Asian women)** – highlight women only sessions, and range of activities available
- **Families** – where to walk (health walks), access to local public leisure, fitness and cultural facilities – link with community safety projects and Passport to Leisure. Include family tickets, and incentives for families to participate.
- **Young people** – highlight activities for young people within a similar age range (e.g. where facilities are linked to schools etc)
- **Older people** – promote activities/cultural opportunities for older people in a range of areas
- **Disabled people** - promote activities/cultural opportunities for disabled people across different age ranges and geographical areas

9.1.3 Direct marketing

Respondents overwhelmingly chose to receive information by post (37%) so to complement door-to-door distribution, it is recommended that further direct marketing campaigns are undertaken to build on the good work that has been developed over a number of years with the theatres. To this end, however, it is critical that adequate data capture systems are put in place.

9.2 Promotional materials

Promotional audio-visual materials such as promotional DVDs and cd-roms, are recommended for the campaign, to ensure full use is made of the Big Screen located in All Saints' Square, to promote special events, service offers and seasonally relevant activities.

In addition specific campaigns will benefit strongly from carefully targeted promotional materials such as activity based items (pedometers, Frisbees, books etc.)

9.3 Online Marketing

Online marketing provides an extra communication channel to complement promotional activities, so it is recommended that full use is made of the Council's website, with regular updates.

According to Target Group Index (2004), in Rotherham 43.5 % of the population use the internet at home while 23.6% use it elsewhere and more than 3 times a week. With a rapidly growing number of residents benefiting from internet access, E-marketing should also be considered as it is a key low cost opportunity to target current users and encourage cross-over promotions.

9.4 PR campaign

A targeted pr campaign is currently under way to increase positive promotion for Leisure and Green Spaces. This will enable a number of key messages to be communicated through the local press, to address issues around barriers to activity, and negative perceptions of the facilities available in the Borough.

The campaign will be focused upon:

- illustrating the positive stories associated with local people accessing leisure services and gaining benefits (e.g. older people, disabled people, young people etc)
- information about the facilities available
- information about the development of new facilities (phased campaign as development progresses)
- promoting specific activities – e.g. picnics, walking events, swimming etc

- staff recruitment, profiles, awards etc (e.g. Rangers, Facilities Managers)

The pr campaign will be targeted at the local media, specifically:

- Rotherham Advertiser, as the principal media partner
- Rotherham Star
- Free Press
- South Yorkshire Times
- Radio Sheffield
- Look North
- Calendar
- Rotherham Council Matters
- Voluntary Community Sector publications

A series of opportunities will be drawn up which aim to cover a range of topics and areas, to ensure a good breadth of coverage. These areas would include:

- Young people
- Older people
- Team/sports activities
- Green spaces

The pr campaign will start in February 2006.

It is acknowledged that Libraries, Museums and Arts get very good press coverage so this work should continue. However cultural services would benefit greatly from a what's on listing in the local press. Indeed 23% of respondents highlighted that this would be their preferred way of getting information. This resource does not exist currently so it is highly recommended that discussions take place with the Advertiser.

9.5 Events

There will be a number of opportunities to raise awareness of the campaign to local people. Detailed below are potential opportunities identified to date.

Rotherham Show

It is strongly recommended that the campaign is integrated into the 2006 Rotherham Show both in terms of visual identity and co-ordinated and integrated service presence.

Roadshows – portable display

It is recommended that a number of portable display stands are produced highlighting the campaign messages and from which materials can be distributed giving information about activity in Rotherham. The display will then be transported around the Borough to outlets such as:

- Libraries, leisure facilities, Clifton Park Museum, the Civic Theatre etc.
- Schools
- Youth Centres
- GPs
- Community Centres
- Local Authority access points (e.g. Housing, Benefits etc)
- Presence at local street/sports events and festivals

Special events

There will be a number of opportunities to promote the campaign and specific activities and links should be made with the Culture and Leisure Events Plan.

10 Partnership Approach

In order to facilitate the delivery of wide reaching campaign work, a Task Force will be established, drawing its membership from a number of local partners, whose remit complements the objectives of the marketing strategy as a whole. Anticipated partners include Rotherham Primary Care Trust, Sure Start, other programme areas such as Neighbourhoods, Children and Young People Services and Corporate Marketing and Communications. A meeting, to clarify the terms of reference for the Task Force and key objectives within 2006/2007, will be held in early 2006.

There will be a number of opportunities to link in with campaigns and activities promoted by partners, either within the Task Force or linked into it. It is strongly recommended that a mapping exercise is undertaken during the early stages of the Task Force meetings, to identify forthcoming opportunities to develop joint campaigns.

11 Customer care

An integral element of the activity brand is customer care, as without a consistently high level of customer care across all facilities and leisure venues the brand and the campaign will be continually undermined.

A customer orientation training programme was developed in June 2002 and rolled out to the majority of staff working within a customer service environment. Since the beginning of the programme, 700 members of staff have attended the training. In addition an audit of facilities from a first impression point of view, a mystery shopping scheme and cold calling are undertaken twice yearly.

To complement the existing customer service programme it is strongly recommended that a refresher customer care training programme is put into place, within a branding context. This would also create a mechanism for engagement of staff in the new brand, whilst clarifying the protocols for customer care which are expected from all staff.

12 Evaluation of the Strategy

There are a number of ways in which the success and impact of the strategy can be measured. A combination of key performance indicators for Culture and Leisure and soft measures will be used.

12.1 The key performance indicators

Out of the key performance indicators used by Culture and Leisure the following have been identified as critical to measure the performance of the marketing strategy:

CSPI11 a & b – the percentage of a) adults and b) young people residents who have used the services provided by Cultural Services at least once a month in the last 12 months

CSPI13 – The number of visits to/usage of museum per 1000 population

CSPI14 – The percentage of residents satisfied with Cultural Services

CSPI18 – The percentage of satisfied a) adult and b) young people users of local authority cultural services

CSPI19 – The representativeness of users of cultural services compared to the local population profile

CSPI 22 – The percentage of key partners and stakeholders who think Culture & Leisure have improved

CSPI 34 – The percentage of socio-economic group DE participating in moderate intensity physical activity on 3 or more days a week

CSPI 36 – Number of visits to Cultural Services

CSPI 37 – Percentage of residents who think Cultural Services has got better

CSPI 44 – The number of people who participate in or attend arts activity

CSPI 45 – Swimming pools and sports centres: the number of swims and visits and other visits per 1,000 population

There will be specific marketing campaigns that may contribute to other performance indicators such as CSPI 43 – The number of people using Internet access point in the borough.

12.2 The soft measures

The following soft measures, based on awareness raising will be set to measure the success of the strategy:

- How many flyers etc have been distributed over a period of time
- Number of partnership organisations proactively involved in activities
- Column inches achieved through pr activities

A follow up questionnaire to the same target groups to measure perceptual and attitudinal shift is also recommended to be undertaken in Autumn 2007.

13 Resourcing the Strategy

Successfully implemented, this strategy could make a real difference to the quality of Culture & Leisure service delivery. However this is a long term strategy looking for lifestyle shift so a serious commitment to supporting the intended and required marketing activities needs to be made.

Whenever possible the strategy will be delivered through a strong partnership approach between other programme areas such as Neighbourhoods, Children and Young People Services and Corporate Communications and Marketing, Rotherham Primary Care Trust and the private sector with the aim that partners' contribution will raise the value of the campaigns.

In order to develop and implement this strategy, it is recommended that:

- a budget is identified to deliver against the recommendations made in the strategy;
- the identified budget is maintained in year 2 and year 3.

Initial costing for the first year of the strategy are referred to in the action plan.

14 Action Plan

Please see attached action plan for year 1.

14 Culture and Leisure Marketing Action Plan Year 1 – 2006

Aim: building the Culture and Leisure brand (Rotherham Alive, Fairness)

Objectives: To increase the number of residents taking part in cultural activity

To increase the number of residents from identified priority groups and communities who participate in cultural activity

To improve the financial performance of Culture and Leisure

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|--|------------------|--------------------------------|---------------------------------|---|----------|
| Develop branding campaign in line with Corporate Communications and Marketing Unit by: Commissioning design and communications agency to develop the branding | April | Tracy Holmes Fabienne Cotte | Staff time* + Approx. £3,000 | CSP111 a& b CSP13 CSP19 CSP134 CSP136 CSP144 CSP145 | |
| Producing campaign and high quality visuals (i.e. pop-up banners to be used at events) and audio-visual material i.e. dvd, cd-roms to be used for publicity campaigns, on the Big Screen, at special events and in schools | July to December | Tracy Holmes Fabienne Cotte | Staff time* + £13,000 | | |
| Ensure consistent use of branding throughout the service by: Developing and circulating clear guidelines to all staff | May | Fabienne Cotte | Staff time* | As above Included in Promotional Toolkit | As above |

Aim: developing customer knowledge and adopting a strong customer focus (Rotherham Alive, Proud, Fairness)

Objectives: To improve and increase customer consultation and involvement

To increase resident satisfaction with and usage of cultural services

To provide cultural services which are equitable and accessible to Rotherham's diverse communities

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|--|-----------|-------------------------------|---|---|--------|
| Develop user and non-user knowledge by investigating and setting up user and non-user panels | July | Fabienne Cotte John Finnen | Staff time* + £875 (inc. incentive for participants, postage, tea & coffee) | User and non-user panel set up, 2 meetings convened | |

Aim: delivering the promise (Rotherham Learning, Achieving, Alive, Proud, Fairness, Sustainable Development)

- Objectives:**
- To increase the number of residents taking part in cultural activity**
 - To increase the number of residents from identified priority groups and communities who participate in cultural activity**
 - To increase resident satisfaction with and usage of cultural services**
 - To provide cultural services which are equitable and accessible to Rotherham's diverse communities**
 - To improve the financial performance of Culture and Leisure**

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|---|-----------|----------------------------------|--|--|--------|
| Complete Equality Impact Assessment before the strategy is implemented | March | Fabienne Cotte Janet Spurling | Staff time | | |
| Continue to improve customer care standards by: Ensuring all staff attend customer orientation workshops and inductions | On-going | Marie Hayes Janet Fletcher | Staff time* | CSP114 CSP118 | |
| Developing refresh training course by continually updating workshops from evaluation and feedback received from participants, looking at best practice from and with partners and companies identified by staff as delivering excellent customer service | September | SMT | Staff time (?) Within existing budget Staff time* Existing promotional budget | CSP119 CSP134 CSP136 CSP143 CSP144 CSP145 | |
| Increase participation and usage across the service by the identified target groups by: Developing specific products/services (including taster sessions) addressing findings from the survey and targeted at the identified target groups | June | Fabienne Cotte | Marketing Officer | Staff time* Existing promotional budget | |
| Developing and implementing key campaigns for each service targeting communities of interest and current users and continuing to develop and implement successful marketing campaigns e.g. mega active, Christmas pantomime targeting communities of interest | On-going | | | | |

Aim: increasing communications channels (Rotherham Alive, Fairness, Sustainable Development)

- Objectives:**
- To increase the number of residents taking part in cultural activity
 - To increase the number of residents from identified priority groups and communities who participate in cultural activity
 - To provide cultural services which are equitable and accessible to Rotherham's diverse communities
 - To increase the number of key partners and stakeholders who think Culture and Leisure have improved
 - To improve the financial performance of Culture and Leisure

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|--|-----------|---------------------------------------|---|---|--------|
| Increase information outlets by setting up service-wide distribution scheme including network of local point of information using local shops | July | Database and Information Co-ordinator | Staff time* + £2185 (inc. incentive, mileage) | CSP11 a & b CSP13 CSP19 CSP134 CSP136 CSP144 CSP145 | |
| Continue to use high quality print media and design in a range of formats in line with People and Service 1 st (community languages, audio, large print) as a means of providing information and attracting current and new users | On-going | Fabienne Cotte Marketing Officer | Staff time* + Existing budget | As above | |
| Produce a Culture and Leisure directory and a generic suite of material (poster/leaflet/A8-credit card size) to be delivered and distributed widely within the borough e.g. door-to-door / local shops | September | Fabienne Cotte Marketing Officer | Staff time* + £5,000 | | |
| Undertake audit of marketing activity/printed material currently used and evaluate success rate | April | Fabienne Cotte | Staff time* | | |
| Investigate possibilities of e-marketing and develop online marketing | July | Fabienne Cotte Marketing Officer | Staff time* + £1,000 | Savings in postage, stationery, staff time | |

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|---|------------------|---|---------------------------|---|---------------|
| Raise staff awareness of the potential benefits of marketing activity by: | July | Marie Hayes Fabienne Cotte | Staff time* + £500 | CSP114 CSP118 CSP137 | |
| Developing marketing awareness sessions for staff | | | | | |
| Producing guidelines | | | | | |
| Updating the promotional toolkit | April | Fabienne Cotte Press/Media Assistant | Staff time* + £3,000 | CSP11 a & b CSP113 CSP119 CSP134 CSP136 CSP144 CSP145 | |
| Increase press coverage by: | | | | | |
| Implementing the positive promotion campaign | | | | | |
| Developing a media strategy | | | | | |
| Ensure press releases (inc. photographs) are available for all events | | | | Total no. of column inches achieved through pr activities | |

Aim: developing a partnership approach (Rotherham Alive)

- Objectives:**
- To increase the number of residents taking part in cultural activity**
 - To increase the number of residents from identified priority groups and communities who participate in cultural activity**
 - To provide cultural services which are equitable and accessible to Rotherham's diverse communities**
 - To increase the number of key partners and stakeholders who think Culture and Leisure have improved**
 - To improve the financial performance of Culture and Leisure**

| Key Action | Timescale | Who | Resources Required | Evaluation | Status |
|---|------------------|----------------|--|---|---------------|
| Maximise the impact of our communications, marketing expertise and resources across agencies by setting up a task force | April | Fabienne Cotte | Staff time* + £28.5 (inc. postage and mileage) to set the group up | CSP 11 a & b CSP 34 CSP 22 No. of organisations proactively involved in activities | |

| Budget | |
|---|-----------------|
| Current spend on marketing activity within existing budgets (inc. staff costs at 42%) | £142,534 |
| Additional cost of new marketing activity in Year 1 Action Plan | £28,590 |
| Total Cost of Year 1 Action Plan | £171,124 |

Appendices

- Appendix one: Culture and Leisure's Cultural Entitlement
- Appendix two: Consultation with service deliverers – list of participants
- Appendix three: Proforma for consultations
- Appendix four: Questionnaire
- Appendix five: Results from survey of local people
- Appendix six: Comments

Appendix one: Culture and Leisure's Cultural Entitlement

A Cultural Entitlement for Rotherham's Residents

The Council, with its partners, aims to provide the following levels of cultural services to its residents. The panel opposite shows how far down the road we are to achieving these aims:

Local and Neighbourhood Services

1. A community library within two miles of every residents home, open at hours which meet local need, including a range of mornings, afternoons, evenings and weekends.
2. An up to date wide ranging selection of books, electronic and other materials available within each community library, with access to information technology, a free email address for every resident, a safe environment for children and young people to use the internet, and books and other materials available for those with sight impairment.
3. A range of mobile library and home delivery services which meets the needs of those residents who, for whatever reason, cannot reasonably access a community library. In particular, we shall meet the needs of communities not served by community libraries by imaginative programming of our mobile library services.
4. A swimming pool and dry sports centre within a single bus ride of every resident's home.
5. In urban areas, a managed 'local' green space within five minutes walking time of their home and a vibrant 'neighbourhood' green space within fifteen minutes walking time of their home.
6. Playing pitches to meet the needs of local sports teams, well managed, well maintained, and offering changing accommodation where necessary.

Borough Wide Services

7. A range of 'Borough' green spaces offering a high level and diverse range of service, including a park ranger presence, through a varied and stimulating programme of events and activities.
8. An up to date museum service offering a range of activities, events and services to all Rotherham residents.
9. An archives and local history service that assists in promoting and celebrating the richness of Rotherham's history to all residents.
10. A diverse programme of events to celebrate Rotherham yesterday, today and tomorrow, in which all Rotherham residents can participate.

11. High quality performance space to promote both amateur and professional theatre, drama, music and dance for Rotherham's residents to enjoy.
12. Art gallery space to both display Rotherham's own art collections and also to attract the very best fine art, ceramics and crafts from outside the borough.

Our Priorities

We offer our cultural entitlement to all residents in the borough. We also aim to offer additional services and opportunities, where possible, to our priority target groups:

- Residents in the Neighbourhood Renewal Strategy priority areas (Wath, Rawmarsh, Masbrough, Maltby, Kimberworth Park, Dinnington, Central Rotherham and the Brinsworth and Wath pockets of deprivation).
- In particular to 0 – 16 year olds and their families or carers; older people (55+) and members of black and minority ethnic communities within those priority areas.
- People with disabilities across the whole borough.
- In most cases these additional services and opportunities will be funded through special grants and funds which may become available from time to time.

How do we measure up?

Local and Neighbourhood Services

Cultural Entitlement 1

We are nearly there – we are currently looking at gaps in our provision and formulating plans to meet this target by 2010.

Cultural Entitlement 2

We continue to invest heavily in resources for our libraries, spending more than £600,000 per year on books and other resources.

Cultural Entitlement 3

We are currently rethinking our mobile and other outreach services to better reflect need and demand in the borough. This will form part of our strategic overview on the future of library provision. We aim to meet all recognised national standards by 2010.

Cultural Entitlement 4

We aim to provide a brand new network of indoor sports facilities by 2008.

Cultural Entitlement 5

Following detailed consultation in the second half of 2005, we aim to publish our Green Space Strategy in early 2006. This will enable us to prioritise our resources from 2007/08 on those sites which are needed to meet this entitlement.

Cultural Entitlement 6

We have sufficient playing pitches across the borough, though not all are of high enough quality to meet modern needs. Following publication of our Green Space Strategy, a Playing Pitch Strategy will be developed with the aim of meeting appropriate quality standards on all our sites by 2010.

Borough Wide Services

Cultural Entitlement 7

Park Rangers cover all prospective 'Borough' sites. Substantial National Lottery bids are to be made for major refurbishment projects in Clifton and Boston parks.

Cultural Entitlement 8

The regeneration of Clifton Park Museum is now complete and visitor numbers are exceeding all previous records. We will continue to develop our outreach work and to support local heritage groups.

Cultural Entitlement 9

Recent achievements include a £200,000 lottery award to allow us to install new storage and bring our documents, files and information up to date.

Cultural Entitlement 10

We continue to work to develop Rotherham Show as the centre piece of Rotherham's annual celebrations. We will also continue to work with our partners to further develop a range of activities to enhance the public's enjoyment of our facilities and open spaces.

Cultural Entitlement 11 / 12

We are currently developing plans for new facilities to provide new, high quality cultural space in Rotherham town centre as an integral part of the Rotherham Renaissance programme, due for completion by 2010.

Appendix two: Consultation with service deliverers – list of participants

Leisure and Green Spaces consultation – June 2004

Mike Cuff, Chief Executive, RMBC
Andrew Bedford, Acting Programme Area Executive Director, RMBC
Phil Rogers, Strategic Leader, RMBC
Phil Gill, Green Spaces Manager, RMBC
Robert Oakes, Business Development Manager, RMBC
Carol Pearce, Heartbeat Business Manager, RMBC
Jackie Thornhill, Manager, Sport and Physical Activity, RMBC
David Greenfield, Manager, Sport and Physical Activity, Swinton Pool, RMBC
Mark Humphreys, Manager
Paul Gardner, Facilities Manager, RMBC
Andy Kiddy, Facilities Manager, RMBC
Shirley Dyson, Health and Fitness Coordinator, RMBC
Linda Wilson, Swimming Coordinator, RMBC
Clare Cope, Senior Youth Worker, RMBC
Sally Jenks, Health Promotion Officer, Rotherham PCT
Val Bowen, Information Manager, RMBC
Fabienne Cotte, Marketing Manager, RMBC

Cultural Services consultation – April 2005

Guy Kilminster, Libraries, Museums and Arts Manager, RMBC
Andrea Pulford, Principal Officer, Theatre and Arts Centre, RMBC
Elenore Fisher, Manager, Library and Information Service, RMBC
Lizzy Alageswaran, Principal Officer, Community Arts, RMBC
Sarah Wickham, Principal Officer, Archives and Local Studies Service, RMBC
Steve Blackbourn, Principal Officer, Museums, Galleries and Heritage, RMBC

Appendix three: Proforma for consultations

The questions below were adapted for consultations around Leisure Services and Green Spaces, and Libraries, Museums and Arts

1. What do you think are the main issues why service users don't use Leisure Services & Green Spaces, Libraries, Museums and Arts facilities?
2. What opportunities are there to encourage people in Rotherham to engage in community activities?
3. Why do you think the people of Rotherham are so disengaged from taking part / taking up activities and what factors do you think contribute to their disengagement?
4. What issues do you think should be taken into account when promoting opportunities in Rotherham - Leisure Services & Green Spaces, Libraries, Museums and Arts?
5. How do you think we could engage local people in taking up leisure activities - Leisure Services & Green Spaces, Libraries, Museums and Arts?
6. What do you think the benefits are in linking up this strategy with the national government health strategy and what are the issues associated with this?
7. In your opinion, what are the main factors for people in taking up an activity that has been marketed to them?
8. Cost θ Access θ Level of Facilities θ
 Fun θ Fitness θ
9. What issues do you think should be considered to encourage people to use Leisure Services & Green Spaces, Libraries, Museums and Arts?
10. How do you ensure that Leisure Services & Green Spaces, Libraries, Museums and Arts encourage community diversity?
11. What would you consider to be the 3 main factors which encourage local people to use Leisure Services & Green Spaces, Libraries, Museums and Arts?

Appendix four: Questionnaire

What do you do in your spare time?

The Council, with its partners, aims to provide a good range of culture and leisure services to all residents in the Borough, across all age groups. **Culture and Leisure** currently provide the following services:

Libraries

Clifton Park Museum, Yorkshire & Lancaster Regimental Museum

Local Studies and Archives, Theatres and Arts Activities

Green Spaces which include Allotments, Urban Parks, Park Rangers, Country Parks, Countryside Sites and Playground Sites

Leisure Facilities such as Swimming Pools, Leisure Centres, Fitness Suites and Herringthorpe Stadium

Sports Development Officers and Sports Activities including Mega Active Holiday Programmes

Skateboard Parks

Rotherham Schools Music Service

Rotherham Show and Christmas Lights 'switch-on'

Why we are doing the consultation

We are consulting with people who have either never used our services or who use them from time to time. We are keen to know what services you are currently enjoying, and get some ideas of the type of activities you would like to participate in during your spare time. The results of the consultation will help us to improve our service so more people enjoy what's on offer.

Feedback

The results of the consultation will be posted on Rotherham Metropolitan Borough Council's website at www.rotherham.gov.uk but we will feedback the information to you if you wish. If so please let us know how you would prefer to receive this information in the 'About You' section.

We would be grateful if you could take a few minutes to complete this questionnaire by (input deadline).

Question 1

Do you currently use Culture and/or Leisure facilities in Rotherham?

Yes € No € (please go to question 3) Never used € (please go to question 3)

Question 2

If you answered yes to the above please tell us how often you use the service

How would like to hear about the results of the survey?

If you would like to be involved in future consultation about Culture & Leisure Services, please provide us with the following details:

Name: _____

Telephone: _____

Email: _____

Thank you for your time.

Please return this questionnaire in the prepaid envelope provided by **(input deadline)**

The information provided will be treated in the strictest confidence and will only be used to monitor take up of services and ensure that no one is discriminated against in the provision of services. The Council adheres to the Freedom of Information Act and the Data Protection Act.

Appendix five: Results from survey of local people

Culture & Leisure's users and non-users' survey

Results

Questionnaires Logged – 1374

Question 1

Do you currently use Culture and /or Leisure facilities in Rotherham?

Yes - 888

No - 412

Never Used – 66

Question 2

Please tell us how often you use the service

Daily - 85

Weekly - 330

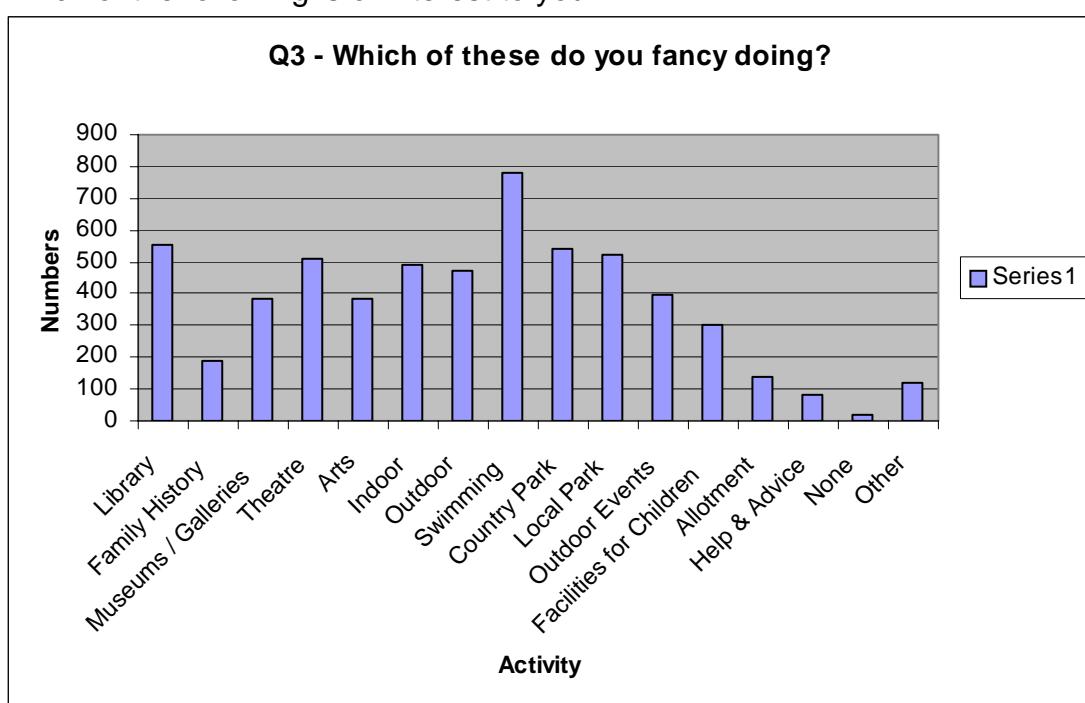

Monthly - 113

Occasionally – 113

Not completed – 338

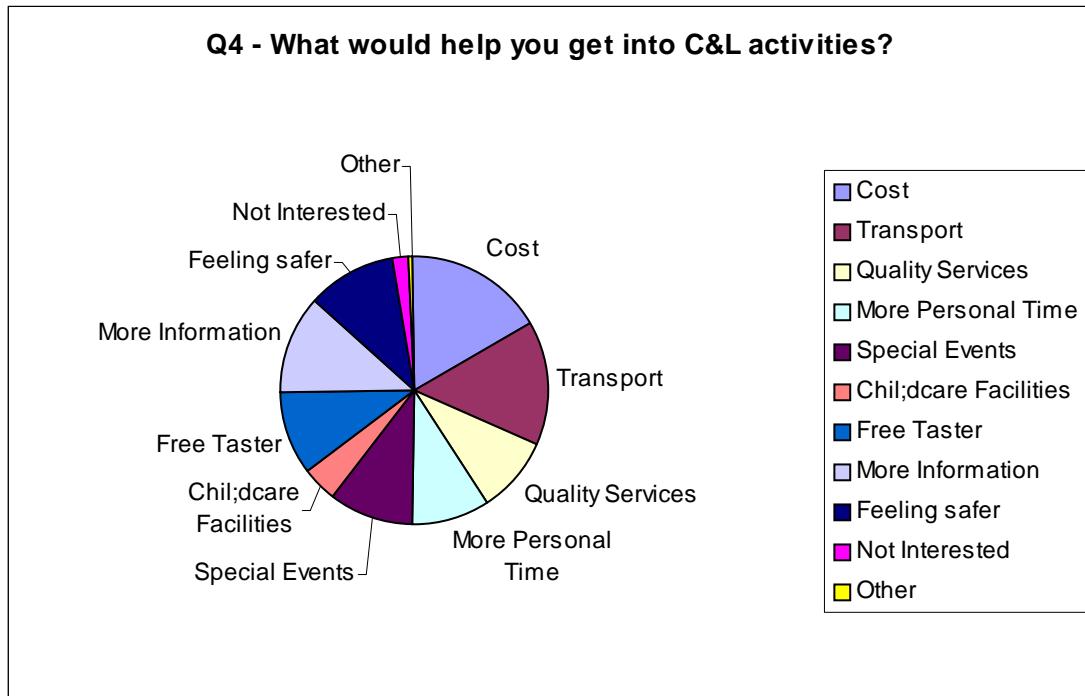

Question 3

Which of the following is of interest to you?

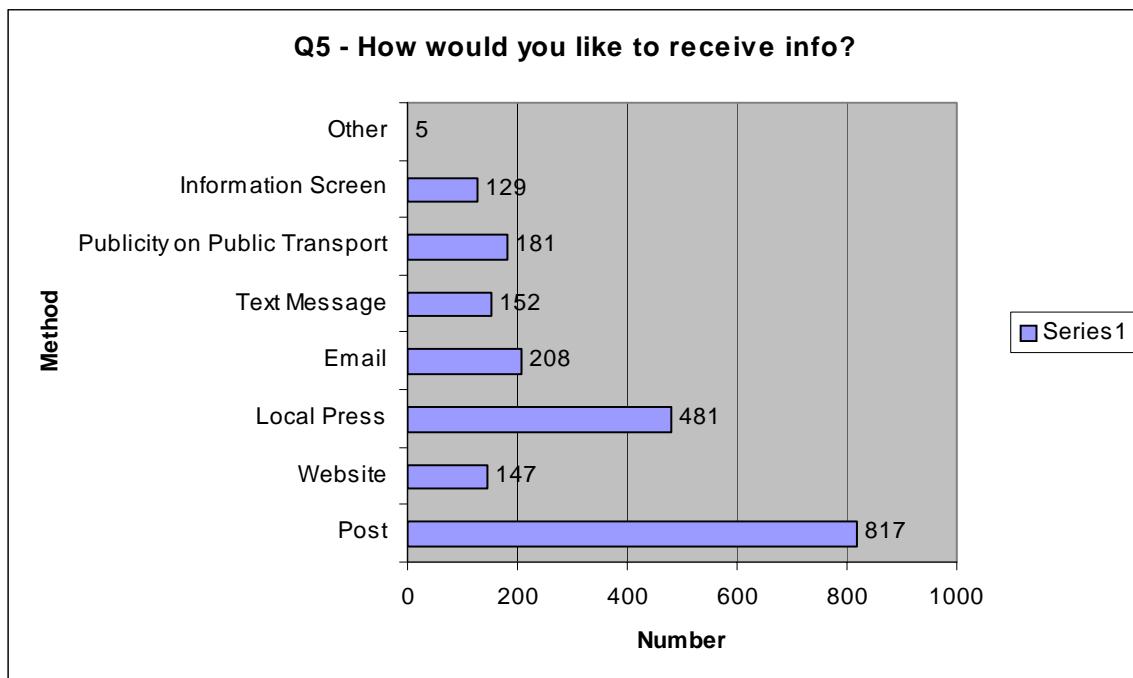

Question 4

What would encourage you to participate in Culture & Leisure activities in Rotherham?

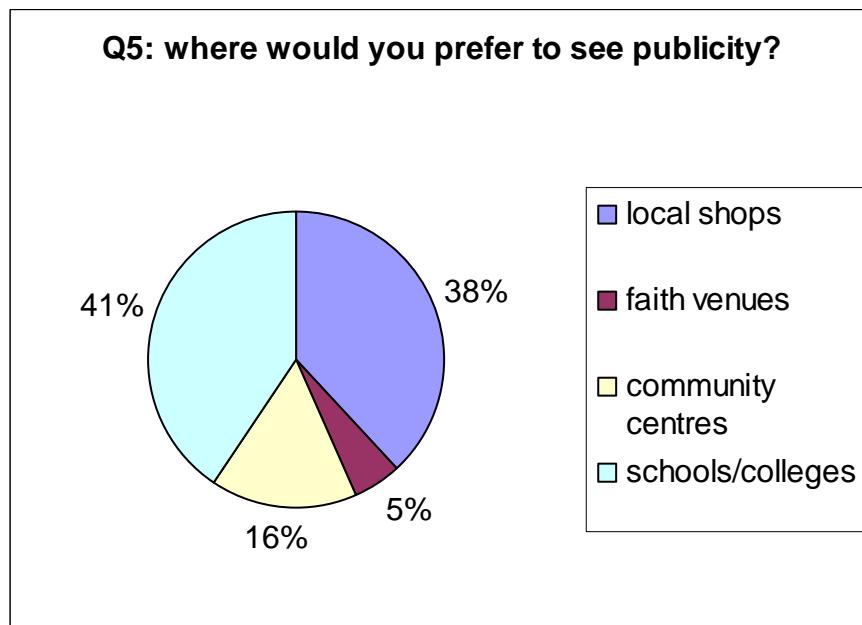

Question 5

How would you prefer to get information about what is available?

Where would you prefer to see publicity?

About You

Male – 452
Female – 876

Age

Under 10 – 121
10-15 – 321
16-25 – 273
26-35 – 159
36-55 – 241
55+ - 220

Do you consider yourself to be disabled?

Yes - 175
No – 1146

Further Details

Appendix six: Comments

Culture & Leisure's users and non-users' survey

Question 6: If you have any other comments about the service we offer or if you have any suggestions about Culture and Leisure Services you would like the Council to provide, please tell us:

Swimming Pool

A better swimming pool x 25
Bigger pool, ladies only session. Decent times
A swimming pool with slides/diving boards & a diving pool
Disappointed that Rotherham Baths have closed
Need local swimming pool and more activities for children
Need shallow swimming pool
Need to replace swimming pool desperately & fast!
Needs desperately to improve swimming facilities
Would like swimming pool in Rawmarsh x 2
Fun Pool
More swimming facilities for children/disabled (heated)
It would be nice if we still had a leisure pool, i.e. Herringthorpe leisure centre.
No leisure pool to take our children
More swimming pool across the WHOLE borough. You've closed pools before new ones have been built!!
More swimming pool in varied locations, i.e. one in or near Brinsworth, Catcliffe, Canklow.
My nearest is Maltby or Herringthorpe
More swimming pools x 6
More swimming venues to get kids off the street
Needs swimming pool with children's section (slide etc).
Need a local swimming pool as is costly to go to clean one
Please get on with a new leisure centre with swimming pool
Me & My Family use the swimming pool at Maltby, but we'd use this service more often, (if / when) the central pool opens

Transport

All Low Floor Buses, trains and supertram
Better public transport
Buses are always late
Transport cost is high
Poor Public Transport
If I could get transport from door to door I would get out more often

Loss of 2 pools in Rotherham is awful, have no car to get to one.

Major thing missing in Rotherham / Parkgate is an easily accessible swimming pool - currently have to travel to Swinton / Maltby which just adds to expense and time etc

Transport to the event
Not enough public transport for children

Cost

Can only use private gym when kids are at school, costs expensive

Cost

Cost & Choice

Council tax is too expensive, they waste money on facilities

Expensive

Lower cost of facilities

Lower costs would be better and more facilities in East Herringthorpe

The entrance price for any of the facilities should be affordable especially for pensioners; also decently priced refreshments should be available

Would like cheaply priced swimming pool as took down old one x 2

Family Prices for events

More free venues for carers

More facilities at cheap prices

Making Indoor Leisure activities more affordable to carers who care for disabled children would be very useful and a good way to relieve stress from daily routines - fitness suites are excellent way to relieve stress.

I think on the old pit site in Dinnington a sports + leisure centre should have been built and something for the children of Dinnington and give a discount on costs as the rates we pay are high enough to do this.

Leisure facilities

A new leisure centre, artificial football pitches, basketball courts, more sport shops in town, American football pitches & posts - trust me it's popular

I am concerned at how Rawmarsh leisure centre is being allowed to run down. It has 3 good badminton courts but is not advertised enough. If this facility is allowed to close down then Rawmarsh has nothing left.

Better Football Pitches x2

New Football Pitch in Masbrough

BMX park, better skate parks are needed x 2

I play cricket and would really find it useful if there were indoor nets with a proper surface to practice on all year round. As I do have aspirations to play professional cricket I do not get to practice enough until the winter nets start after Xmas.

Needs more facilities - playgrounds, sports, swimming etc

Not enough local facilities

Needs leisure centre

Like more leisure centres and more parks and more places to go

Need big leisure complex.

Quality of service

Changing facilities at most sport centres - poor

Changing rooms are disgusting

I have tried to contact Maltby baths for swimming times - but no one answers! If the info was on the web I wouldn't need to make the call - v. frustrating. Also can't wait to have a decent

pool in Rotherham - but please can there be at least a couple of days when public swim is after work - 5-6pm not after gone home - 7-8 pm

Leisure services are poor

Library Needs Cleaning

Better Leisure facilities

The programming of the theatres is of limited interest, could be a nicer variety of professional work

Swimming pools are limited and dirty and unsafe

Having lived I Dinnington most of my life and helped raise money for the swimming pool I would like to see it remain and improved. The local woodlands are also in a bad shape due to rubbish and quad bikes etc. I would like to see this improved

The toilets/playground at Clifton Park are disgraceful

Generally disappointed with services provided. Nice glossy mags and consultation documents, but poor on the ground provisions. Parks run down, (nice new green space vans tooling around). No swimming facilities

Rotherham is desperate for an update of swimming facilities the ones available are outdated and expensive.

All over grown. More can be done for the angler. Wanted to fish on the rivers. No marked pegs on the canal either. There are no signs saying you need a permit to fish the Holmes lock stretch which could lead you into trouble

Very disappointed about the toilets at Clifton Park

More seating areas in children's play areas, especially in Rawmarsh

Poor upkeep of facilities

Swimming facilities poor

Accessibility

Not enough suitable places for Asian women to go swimming

Better services for rural areas as cost to the town centre prevents many residents in these areas being able to make the most of what's available if you do not have a car even county parks are out of reach

Better leisure facilities for families with disabled children whereby as a family we can enjoy things together, e.g. special swimming sessions x 2

Facilities in Dinnington - disabled NHS Gym and Hydro Pool - disabled sessions

Evening time activities

Better range of hours available for activities to cater for those who work

A swimming pool that is open late evening - 8pm for public swimming, (not lessons)

Youth clubs and leisure services for disabled children aged 14 - 18 yrs are poor. There is very little or nothing. I would like to see something for this group of young people they need to socialise with others the same age, for some children activities specific to special needs are the only way they can

I live in Maltby and do not drive so do not always want to go out on a bus at night. Any activity that I could access in Maltby would be welcome, especially a climbing wall that my son could access.

There should be more wheelchair friendly places & events for me and my children
Time tables to suit office workers

More facilities for after work e.g. late night swimming

I am very interested in the central library in Rotherham for art galleries, special subject books. Music library and computer archives section. To have the loop hearing aid system in the hall of public areas.

I love what you have done to the museum. Charges for the Civic Theatre have put it out of reach of many small theatre groups. The closure of swimming facilities has meant my travelling more than I would wish.

Consultation with disabled to check facilities are accessible

Please could you explore possible means of making current facilities more accessible to the disabled community? In general, they have more time to use these facilities and may well stand to benefit therapeutically from regular use of leisure facilities.

Wants access to allotment facilities

Green spaces

Clifton Park is an excellent and well kept garden space

Better sports facilities in park

I would like to know as many others what the job description is of the Park Rangers, apart from mugs of tea, going through side gate of office for a fag and having take away dinners brought in work vans. They are about as much use as a chocolate fire guard. What a waste of poll tax - We all talk about this – it's disgusting!!

Ferham park needs improving

Parks - not enough, not secure.

The park on Lauderdale should change

Wants allotment space but can't get one at Greasborough

Want playground at Broom Valley estate x 2

Theatre

Please can we have a beautiful new theatre, purpose built with excellent facilities. I will pay west end prices for excellent professional shows, so will my friends. We recently visited London and the city Hall in Sheffield; we paid £55 to see the producers in London and £32 to see Bizet's Carmen at the city hall. We would love to spend our money in Rotherham. Can we apply for lottery funding?

Town Centre

Better shops, cinema, pools and gyms

Cinema/Bowling Alley

Church Minster needs improvement

Films/Cartoons on big screen

No big stores

No Parks

No quality shops

Want more shops

Information

There is not a lot of information which is clearly visible for pensioners. Many may miss out because leaflets etc in places like the info shop do not encourage people to enquire about what's on for them.

I would love to do more activities for myself and with my family but I feel there is not enough information about what is available.

It is difficult to find out about what events are happening in particular ordinary events such as dancing lessons. Special events such as bonfires are well publicised in the local press.

Info on after school activities

No enough info on services available regarding children's facilities

There is nothing for people like me to keep fit or children

Not sure where facilities are

Activity / event wish list

Boxing

Dance workshops, model workshops and youth clubs

Dance workshops, youth clubs

DART kids summer activities excellent, more local activities

Football training

It would better if we had free karate lesson to make us safe

More drama activities in school holidays - and better advertised

More activities

More activities at half term

Want more gluing, writing, Urdu, reading and making

In previous years my children have participated in and enjoyed the half term fishing events at Ulley, due to demand we have been unable to book these for the last couple of years - so more of these please!

Local events integrating different ethnic groups

More concerts indoor and outdoor.

More events in Clifton Park

More big band music at the civic! Want good music.

Motor sports

There are not that many fun fairs

Want theatre shows, cinema, cooking courses & advice

The space in Clifton park museum is under used and could have more displays especially downstairs. More centrally based at exhibitions please

More facilities in the Rotherham Area!

More Football

More footy teams

more outdoor events, exciting activities

more outdoor events, exciting sports

More P.E

More Parks and Shops in the town centre

More playgrounds around Rotherham

More Rugby Pitches x 2

more skate parks x 3

More sports activities

More walking groups

More year long football, rugby & general sports pitch

Not much to do with dogs

More after school activities

Should have a snowboard mountain

Would like a music session

Safety

If there were more shops around East Herringthorpe I'd feel safer

I want people not to scare you and I want safe places

Safety for young people is an issue at the moment.

Safer areas for children to play

Safer Parks

Safety is a concern in the local area

Local parks need to be more secure

It would be better if we had safer areas

Poor street lighting, not safe

Better safety in park

More safer places

More things around this area. It would be safer and much better for the children to play around Herringthorpe

Want police on streets

Too much vandalism

Offering leisure services would cut crime and anti-social behaviour

Activities for specific age groups

I would like to see more attention given to old people who still prefer to live in their houses, such as visits by someone interested in our comfort

I would like to see something different in the Rotherham area for 60 year olds

I am in my twenties and feel there is not many activities available for my partner & I to take part in at weekends. Please cater for people around my age.

Children's age range is 7-9. The different ages makes it difficult

I would like yoga or keep fit for older people at Broom Valley community centre and a carers swimming time e.g. all day sat / Sunday for carers who cant get out in the week

More for younger children

More leisure services for the mature age groups to keep fitter and healthy longer

Not enough for teenagers

More fitness things for the over 50's & disabled - e.g. like ponds forge chairobics, yoga for older / disabled people, exercise to music (but not too fast)

More things for the kids to do so they don't hang around streets

Not enough to do for teenagers

It would be better if...

It would be better if they didn't have graffiti walls. Have a litter picker

It would be better if things were closer

It would be better if we had more of these things around Herringthorpe

It would be better if we had more things in Rotherham

It would be better if we had more things around here and not other places

General disappointment

Rotherham has been washed aside

Dissatisfied with the council

Do away with facilities altogether!

I am a self employed martial arts instructor and 90% of the money I get from instructing goes to paying for a (council run) village hall. I cannot see why even the cheapest village hall costs a fortune to rent out.

Poor childcare services

The dog wardens and litter fines. To be seen doing it not just talking about it. Find and punish offenders

ROTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | | |
|-----------|------------------------|--|
| 1. | Meeting: | Lifelong Learning, Culture and Leisure Cabinet Member and Advisors |
| 2. | Date: | 21st March 2006 |
| 3. | Title: | Culture and Leisure Services Events Plan 2006-09 All Wards Affected |
| 4. | Programme Area: | Children & Young People's Services |

5. Summary

The Events Plan has been developed to provide structure and focus to events in Rotherham.

6. Recommendations

- 6.1 That the Events Plan be accepted.**
- 6.2 That the Events Plan be forwarded to Tourism Panel for information.**

7. Proposals and Details

The Events Plan has the following aims:

- To provide a support network for event organisers.
- To maximise the impact of events in promoting and attracting inward investment into Rotherham.
- To enhance the lives of people both living in, and visiting, Rotherham.
- To promote community cohesion and a celebration of the culture of all Rotherham's diverse communities.

There is a need for a more proactive approach to events in order to identify future needs, particularly an understanding of the needs and interests of target groups and communities of interest. The Plan should enable the development of a community/user focused calendar of events that is both safe and entertaining, and addresses the Council's priorities.

The objectives of the Plan are to:

- Develop an infrastructure that supports the events sector in Rotherham.
- Maximise the contribution events make to residents' and visitors' enjoyment of life in Rotherham.
- Maximise the contribution events make to the economic development of Rotherham.

The action plan addresses how the above objectives will be achieved.

8. Finance

The Plan will be financed through existing budgets, partnership approaches, external funding and sponsorship as appropriate.

9. Risks and Uncertainties

Some proposals involve the co-operation of community groups and organisations and the effectiveness of the Plan will depend on the relationship built with such groups.

10. Policy and Performance Agenda Implications

The Plan is based upon priorities within the Community Strategy and Corporate Plan:

Rotherham Learning – by providing a platform to educate, inform and stimulate new interests;

Rotherham Achieving – by contributing to a vibrant and exciting borough;

Rotherham Alive – by providing wide and varied experiences that enhance people's lives;

Rotherham Safe – by providing expert advice and guidance to event organisers on the organisation of safe events;

Rotherham Proud – by creating a sense of place and identity and promoting community cohesion;

and the cross-cutting themes of Fairness and Sustainability through the provision of something for everyone and an infrastructure that supports organisations' delivery of a sustained programme of events.

The Plan also links to "Future Perfect" Rotherham's Cultural Strategy, corporate Communications and Marketing Strategy, Culture and Leisure Marketing Strategy and Rotherham Tourism Plan.

11. Background Papers and Consultation

Appendix A – Culture and Leisure Services Events Plan 2006-2009.

The Plan has been developed in consultation with relevant Council officers, Churches Tourism Initiative and Equality and Diversity Unit. The draft plan has also been circulated to Parish Councils and Community Partnerships for comment.

Contact Name: Marie Hayes, Commercial and Promotional Services Manager, 01709 839056, Marie.Hayes@rotherham.gov.uk.

| Recommendations | 12 |
| Events Action Plan 2006-2009 | 13-16 |

Introduction

Vision for Events

“Enjoyment for all”.

Events and festivals are widely recognised as an important sector of the tourism industry with potential to generate increased economic benefit.

Events help raise the profile and recognition of Rotherham, attracting generous media coverage, and provide additional attractions for local residents to enjoy. Well planned and marketed events can develop and project a town's image and provide benefits to the local economy with increased visitor spending and tourism promotion on such things as hotel accommodation, spending in local shops, food, etc. They can also bring people together, creating a sense of place and identity and enhance the quality of life.

As well as entertainment, events also provide a platform to educate and inform.

This Plan incorporates both Council-led events/festivals and events/festivals organised by outside bodies with organisational or management support from the Council.

Strategic Influences

Events contribute to the following priorities within Rotherham's Community Strategy and the Council's Corporate Plan:

Rotherham Learning – by providing a platform to educate, inform and stimulate new interests;

Rotherham Achieving – by contributing to a vibrant and exciting borough;

Rotherham Alive – by providing wide and varied experiences that enhance people's lives;

Rotherham Safe – by providing expert advice and guidance to event organisers on the organisation of safe events;

Rotherham Proud – by creating a sense of place and identity and promoting community cohesion;

and the cross-cutting themes of Fairness and Sustainability through the provision of something for everyone and an infrastructure that supports organisations' delivery of a sustained programme of events.

Links to other Plans

This event plan links into the following strategies and plans by contributing to the promotion of the borough, raising the profile and image of Rotherham and enhancing the quality of people's lives:

- 'Future Perfect' Rotherham's Cultural Strategy
- Culture and Leisure Marketing Strategy
- Rotherham Tourism Plan
- Regeneration Plan
- RMBC's Communications and Marketing Strategy
- Corporate Equality Strategy and Action Plan
- Race Equalities Scheme 2

Stakeholders/Partners

The key stakeholders and partners of this Plan are:

- Elected Members
- Council Programme Areas/Services
- Cultural Consortium
- Parish Councils
- Voluntary and Community Groups
- Friends Groups
- Event funders and sponsors
- Tourism and Leisure industries
- Media
- Commercial Sector
- Churches Tourism Initiative
- Town Centre, Markets and Tourism
- Community Partnerships
- Communities of interest
- Everyone who lives, works in or visits Rotherham

Aims of Events Plan

1. To provide a support network for event organisers.
2. To maximise the impact of events in promoting and attracting inward investment into Rotherham.
3. To enhance the lives of people both living in, and visiting Rotherham.
4. To promote community cohesion and a celebration of the culture of all Rotherham's diverse communities.

Consultation and Research

This plan has been produced following consultation with a number of service areas with responsibility for developing and organising events within the Borough. Further consultation with community groups/organisations will need to be carried out as the plan evolves.

Current Picture

Rotherham Council has been active for many years in organising and promoting major events for the town. Until recently, these have mainly been civic in nature. However, Rotherham's Town Centre, Markets and Tourism Unit has developed a programme of events aimed at revitalising the town centre such as Rotherham by the Sea, Frosty the Snowman, etc. Officers from Culture and Leisure and Town Centre, Markets and Tourism are increasingly working together in a supportive way in the delivery of events within the town centre.

The Council also supports community initiatives by providing public open spaces and parks as event venues. Generally events offer free access to all.

The current strength of Culture and Leisure in relation to events is that several public events, such as the Council's flagship event, Rotherham Show, and Christmas Carnival, Millennium Musical, Party in the Square, have been successfully delivered and as a result public expectations have increased. For the past two years the organisation of events has been strongly supported by the police and fire authorities.

Other events and attractions provided by Culture and Leisure include sports festivals, children's festivals, local history fayres, funfairs, theatrical programmes, band concerts, museum displays and a full programme of green spaces events.

Many of Rotherham's events are local in nature and do not have a significant economic impact in attracting visitors. However, events such as Rotherham Show, Walking Festival and Oakwood Real Ale Festival are regionally significant and attract a large number of visitors and positive media coverage.

Events can also be used as a means of attracting people into venues and open spaces which they would not normally visit and to stimulate new interests. They also provide an opportunity for Rotherham's diverse communities to interact with each other and thereby promote a shared identity and sense of belonging.

Future Demands

A more proactive approach to events is now required to identify future needs, in particular an understanding of the needs and interests of target groups and communities of interest. There is a necessity to gain feedback on existing events and to develop a community/user focused calendar of events that is both entertaining and addresses the Council's priorities.

There should be a rationalisation of spending and strategic use of the scarce resources available to the local authority for the delivery of events and links need to be forged with diverse voluntary and community organisations and friends groups to enable them to deliver their own events within their own communities and to foster links between diverse groups to develop joint events.

Yorkshire Culture are currently developing a Northern Cultural Events and Attractions Plan aimed at building the North of England's image and profile, developing a portfolio of sporting and cultural events and attractions, co-ordinating existing activity and jointly promoting it where appropriate and building and bringing together relevant knowledge and expertise across the regions. It is important that Rotherham's Cultural Consortium is involved in the development of this plan in order to feed into the regional plan where appropriate.

The Licensing Act 2003, which comes into force in November 2005, will affect certain types of events. The new law means that many premises providing regulated entertainment, even for charity, have to be licensed. This may include schools, leisure centres, church halls, libraries and parks and open spaces. Regulated entertainment includes a performance of a play, an exhibition of a film, an indoor sporting event, boxing or wrestling entertainment, performance of live music, playing of recorded music and performance of dance.

Depending on the type of event it will be necessary to obtain either a Premises Licence for any venue that is likely to be used regularly or for an event which attracts more than 500 but less than 5000 people. Events that are unlikely to attract more than 499 people can be covered by a Temporary Events Notice. This will obviously incur additional costs for event organisers.

OBJECTIVES

Objective 1 - Develop an infrastructure that supports the events sector in Rotherham

(CORPORATE PRIORITIES: *Rotherham Safe, Rotherham Learning, Sustainability*)

1.1 Establish an Events Working Group

The creation of an Events Working Group, to include representation from other Council services, such as Town Centre, Markets and Tourism, Health and Safety, Equalities and Diversity Unit, together with representation from the Emergency Services, will provide a mechanism to tap into expertise and develop shared goals and resources.

The Events Working Group will focus primarily on events/festivals that take place on a regular basis and on which the Council has direct influence. It will carry out a review of festivals and events taking place in Rotherham with the aim of identifying the “right” events and festivals for the borough. It will also recommend an annual programme of in-house and core funded festivals and events.

The Working Group will also monitor and evaluate the performance of festivals and events, including carrying out consultation exercises, and co-ordinate Council led events with other festivals and events taking place within the borough.

1.2 Establish consistent processes for supporting outside events

The Council should act as a facilitator in enabling events to happen by taking a co-ordinating, regulatory and advisory role. The Council has expertise and responsibility in the organisation of events and is well placed to offer advice.

Partnerships with Parish Councils, community groups, voluntary and private sector need to be established in order to set up new or expand existing events.

Suitable venues and potential partnerships with key organisations should be identified, paying particular attention to the importance of public liability risk management.

The Events Working Group will provide guidance and assistance to outside groups who may have ideas for events and festivals that could become a useful part of Rotherham’s events programme. The Council’s “Safety at Public Events” comprehensive guidance pack will be made available to all groups who organise events. A planning/management of events starter pack should also be developed.

Potential for stronger events can be achieved by event organisers working together or linking in with other existing events.

1.3 Develop evaluation methods based on the objectives of the Events Plan, the festivals/events concerned and the Council's corporate priorities.

There is a lack of evidence on the profile of those who attend events and those who do not and this is necessary to inform future planning.

Customer surveys should be conducted which provide information on the characteristics of festivals/events attendees and their degree of satisfaction. This should include collecting demographic and equality data and information.

Evaluation processes should be applied which are appropriate both to the event and the level of funding and which assess the economic and social benefits/disadvantages of events and festivals. However, this can be difficult to undertake in the case of large scale events that allow free entry.

Objective 2 - Maximise the contribution events make to residents' and visitors' enjoyment of life in Rotherham.

(CORPORATE PRIORITIES: *Rotherham Alive, Rotherham Achieving, Fairness*)

2.1 Develop a calendar of events that provides "Enjoyment for all".

There is a need to establish and maintain a balanced calendar of festivals/events taking into account such things as timing, paid/free entertainment, type of content, target groups and geographical location.

The calendar of festivals/events should ensure that the needs of as many residents and visitors as possible are met. Work is required to identify which parts of the community are under-represented in terms of festivals/events attendees and why. Having identified these parts, research is required to identify what adjustments are required to the programme of festivals/events to cater for these groups.

The Council should, through liaison with appropriate groups, influence the types of events to be held through the offer of support where an event would meet the Council's identified priorities.

2.2 Enhance the role of festivals and events in promoting cultural diversity

The 2001 census showed ethnic minority households make up about 3.1% of the Borough's population.

Festivals and events offer an opportunity in a safe environment to explore the cultural diversity of the borough by developing knowledge and understanding of different communities. By removing such barriers as misunderstanding through increased contact and interaction it will generate greater community cohesiveness. Such festivals provide opportunities to celebrate the diversity of local cultures, faith and race.

One example of such a festival is the Diversity Festival which was first held as part of Rotherham Show in September, 2002. The positive reception and feedback from this event enabled a decision to be made to continue with the Diversity Festival as part of Rotherham Show for the foreseeable future.

2.3 Ensure that festivals/events are inclusive and cater for a wide range of people

A few events already exist e.g. Dare Devils Day at Thrybergh Country Park and Rotherham Children's Festival. However, clearly there are target groups that are currently under-represented and there is scope to further enhance this by delivering events such as musical concerts aimed at a range of ages, gender and ethnicity.

Consideration should be given to timing, access, transport, parking and location to enable all target groups to participate.

There is certainly potential to work with colleagues in Children and Young People's Services, Adult Services, Sports Development, Community Arts and the Equalities and Diversity Team to develop a range of events that are accessible and inclusive to all.

Objective 3 - Maximise the contribution events make to the economic development of Rotherham

(CORPORATE PRIORITY: *Rotherham Proud, Rotherham Achieving*)

3.1 Work with Town Centre, Markets and Tourism Unit to positively promote Rotherham

Many of Rotherham's current festivals/events are aimed largely for the enjoyment of residents. However, a number of these can play a significant role in attracting visitors to Rotherham (e.g. Walking Festival, Rotherham Show). Festivals and events can play a large part in the marketing of a town and could be used to a greater extent in attracting visitors and promoting Rotherham.

A more co-ordinated and integrated approach to marketing and promotions is needed.

3.2 Develop innovative events that can be used to promote Rotherham

Rotherham currently provides one or two high quality festivals/events that reflect well on the town, both in terms of visitors' experiences and media coverage. However, it is important for the promotion of Rotherham that we continue to provide quality and innovative festivals and events.

Links into national and regional events can provide the opportunity for greater publicity and funding, as was seen with the BBC Music Live "Party in the Square" to celebrate the Golden Jubilee.

3.3 Foster local employment opportunities for residents with technical and artistic skills

Events provide numerous opportunities for skill development and employment and this should be encouraged. Where feasible, encouragement should be given to the contracting of local people and businesses in Council funded events.

3.4 Promote local talent

Events provide opportunities for exposure of local artistes and other talented people. Events also play a significant role in inspiring and encouraging potential artistes and performers.

3.5 Increase number of sponsors for special events

RMBC has lacked a sponsorship culture in the past, with only limited sponsorship being received for festivals and events. There is a need to start building effective partnerships with the commercial sector in order to maximise opportunities to gain sponsorship. However, businesses are becoming more selective in providing sponsorship due to the number of requests received.

In order to provide a greater number of quality events throughout the year it will be necessary to attract sponsorship. A feasibility study into the potential of gaining sponsorship from local businesses should be carried out.

3.6 Explore opportunities for external funding for special events

External funding may be available for certain events, such as the Diversity Festival, and research should be carried out to identify sources of potential funding.

RECOMMENDATIONS

It is recommended that the attached action plan be adopted in order to ensure the future co-ordination and enhancement of the events sector within Rotherham borough.

EVENTS ACTION PLAN 2006-2009**OBJECTIVE 1: Develop an infrastructure that supports the events sector in Rotherham**

| Key Actions | Timescale | Funding | Lead Officer/Partners |
|---|------------------|---|---|
| Set up Events Working Group with representatives from Council programme areas, health and safety and emergency services. | April 2006 | N/A | Festivals & Activities Manager, Culture & Leisure, Town Centre, Tourism & Markets, Health & Safety (EDS), Equalities & Diversity Unit, emergency services |

| Work with Project Development Unit/Town Centre, Tourism and Markets, "Friends" and community groups to identify potential external funding opportunities. | 2006-2009 | N/A | Festivals & Activities Manager, Project Development Manager (Culture & Leisure), EDS, Friends and community groups |

ROTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | | |
|-----------|------------------------|---|
| 1. | Meeting: | Lifelong Learning, Culture and Leisure Cabinet Member and Advisers |
| 2. | Date: | 21st March 2006 |
| 3. | Title: | New name for Green Arbour Special School |
| 4. | Programme Area: | Children and Young People's Services Ward 11 – Rother Vale |

5. Summary: A replacement school is being built at Green Arbour, and a request has been received from the governing body to re-name the school. The school have consulted with parents, staff and pupils on a name for the new school. The name chosen is **The Willows School**.

6. Recommendation:

It is recommended that approval be given for 'The Willows School' to be the new name for Green Arbour Special School and this to be effective from the 1st September 2006.

7. **Proposals and Details:** Requests for a new name for schools are rare, but similar requests have been made and agreed previously. This is usually where there has been new build at the school. The new school and name intends to provide a new beginning for the school.

The school asked for suggestions from parents, pupils and the wider community for the new school. The Willows was the most popular suggestion.

The Willows has been chosen because there is a prominent Willow tree in the grounds of the school.

8. **Finance:** There are no financial implications associated with this request.
9. **Risks and Uncertainties:** There are no specific risks concerned in considering this request.
10. **Policy and Performance Agenda Implications:** This request does not have specific implications for Policy and Performance.
11. **Background Papers and Consultation:** The new school is being built as part of the Special Schools Review bid for targeted capital funding from the DfES. New building and extensions have been constructed at 5 special schools, including Green Arbour.

ROTHERHAM BOROUGH COUNCIL – REPORT TO MEMBERS

| | | |
|----|------------------------|--|
| 1. | Meeting: | Cabinet Member Lifelong Learning, Culture and Leisure |
| 2. | Date: | 21 st March 2006 |
| 3. | Title: | Annual Determination- The Local Authority (Post-Compulsory Education Awards) Regulations 2000 |
| 4. | Programme Area: | Children and Young People's Services |

5. Summary

Under the Local Authority (Post-Compulsory Education Awards) Regulations 2000, LAs are required to make an annual determination on exercising powers to make financial awards to new HE and FE students.

6. Recommendations

It is recommended that the Authority determines not to take up the power in any circumstances and not make provision for considering application for awards to new FE and HE students, and to 16-19 year olds who are still attending school.

7. Proposals and Details

The Teaching and Higher Education Act 1998 removed the power for LEAs to make discretionary awards to FE (and HE) students under the 1962 Education Act.

Previous to this, the LEA had run a scheme of financial support to FE, sixth form and some HE students who would otherwise have not been eligible for funding. Section 129 of The School Standards and Framework Act 1998 conferred a revised power on LEAs, should they wish to use it, to make awards to new FE (and HE) students, and to 16-19 year olds who are still attending school

In parallel with the removal of the power to make discretionary awards, funding was withdrawn from the Standard Spending Assessment (SSA) from 1999-2000. From that date, the LEA determined not to make any new awards. New funding was available to students from a new Standards Fund in the form of Learner Support Funds. Also, since September 2004, the Education Maintenance Allowance (EMA) has been available to FE learners.

Authorities are however still required to make an annual determination for each financial year in regard to the revised power conferred in 1998. They have 3 main choices under the regulations:

- i) to determine not to take up the power in any circumstances and not make any provision for considering applications;
- ii) to decide to exercise the power only in respect of certain groups or categories of student; or
- iii) to decide to exercise the power generally and consider applications from all students - still in accordance with its policies on eligibility.

8. Finance

There are no funds allocated under the SSA to make financial awards to HE and FE students.

9. Risks and Uncertainties

None.

10. Policy and Performance Agenda Implications

None.

11. Background Papers and Consultation

DfEE letter 3rd February 1999 'The Local Education Authority (Post Compulsory Education awards) Regulation 1999.

Statutory Instrument 2000 No 2057 -The Local Education Authority (Post-Compulsory Education Awards) (Amendment) (England) Regulations 2000.
