

Appendix 1

Proposed amendment to the RMBC Hackney Carriage and Private Hire Licensing Policy.

6.13 Taxi Cameras

Suitable equipment, capable of recording both audio and video, must be installed in all licensed vehicles. The system must meet or exceed the council's specification for taxi camera systems and must be operational at all times that the vehicle is being used as a licensed vehicle (i.e. for the carriage of fare paying passengers). The system does not need to be operational during other times (for example when being used for domestic purposes).

Video recording must be active at all times. Audio recording must be active in any of the following circumstances:

- An unaccompanied child (i.e. under 18) or vulnerable adult is being carried in the vehicle, or
- Where the driver and customer are involved in a dispute or the driver feels threatened by the behaviour of a passenger. Activation of audio recording must be triggered by the driver pressing a switch / button. Audio recording will continue until such time as the button / switch is pressed again. This switch will activate / deactivate audio recording independent of the passenger's audio activation button / switch.

There must also be the facility for the passenger to activate audio recording (independent of the driver) should the passenger wish to do so. Activation of audio recording must be triggered by the passenger pressing a switch / button. Audio recording will continue until such time as the button / switch is pressed again. This switch will activate / deactivate audio recording independent of the driver's audio activation button / switch.

Once activated (by either passenger or driver), the audio recording must continue for an uninterrupted period until it is deactivated.

There must be an indicator located within the vehicle that is clearly visible to the passenger and clearly shows that audio recording is taking place.

At the end of journey when the passenger leaves the vehicle, audio must be deactivated before another passenger enters the vehicle. If appropriate it must be reactivated should any of the situations above arise in relation to this new journey.

The requirement for all vehicles to have a taxi camera fitted will apply in relation to all licences that are issued from the date on which this policy becomes effective. However in the case of vehicles that are already licensed on the date on which this policy becomes effective, the requirement will take effect as determined by the Council's implementation scheme.
