are protected and safeguarded from all forms of abuse, violence and neglect	Ian Thomas, Strategic Director Children and Young People's Services	1.A1	Early Help – Early Help service to identify and support families at the right time to help prevent social service involvement	Reduction in Children in Need rate (rate per 10K population) (Priority measure)	Mel Meggs - CYPS	low	Monthly	No target (to be used a measure to watch over the next 12 months)	□	🕒	347.1	320	356.0	390.4	375.0	399.1	403.0	375.0	All performance shown for 2016-17 has now been taken from the new liquid logic social care system which is still in the process of being embedded within the service. Data validation work is still ongoing within the service, therefore all performance data will be refreshed for the end of Qtr 4/outturn report. There is no good or bad performance however the aim is to ensure performance is in line with the national average. The numbers in December remains high at 375.0. There has been some analysis of the data to understand the increase and it is clear that the current increase is largely concentrated within First Response. Joint work has been undertaken across social care and Early Help to review EH triage, MASH and duty processes.
		1.A2		The number of families engaging with the Families for Change programme as a percentage of the troubled families target	David McWilliams - CYPS	high	Monthly	100% (882 families by end of March 2017)	✘	🕒	100%	100%	24%	46%	68%	54%	60%	68%	Target of 100% is by March 2017. 603 families have been engaged for 2016/17 so far. Performance is reported cumulatively and is therefore YTD.
		1.A3	Children's Social Care Improvement - Ensure that all children in need work is managed robustly and that appropriate decisions and actions are agreed	% children who had a social care concern raised within 12 months of the last concern ending (Re-referrals) (Priority measure)	Mel Meggs - CYPS	low	Monthly	April - September 26% October - March 23%	✘	🕒	22.8%	30.6% (note - Corporate Plan stated 30.9%)	29.9%	30.4%	28.3%	28.7%	28.6%	28.3%	All performance shown for 2016-17 has now been taken from the new liquid logic social care system which is still in the process of being embedded within the service. Data validation work is still ongoing within the service, therefore all performance data will be refreshed for the end of Qtr 4/outturn report. Rolling year indicator including data from the 12 months prior to 31st December 2016. This indicator is a reflection of the quality of practice and as this improves, the indicator should reduce. The service continues to fail to hit the locally set target of 23%. A number of initiatives are in progress that will improve quality of practice which will have a direct impact on reducing the re-referral rate.
		1.A4		Children's Social Care Improvement - Ensure that all Child Protection Plan work is managed robustly and that appropriate decisions and actions are agreed with partner agencies	% children who are subject to repeat child protection plans (within 24 months) (Priority measure)	Mel Meggs - CYPS	low	Monthly	4%	✘	🕒	4%	4.7%	6.1%	6.6%	7.2%	7.1%	6.4%	7.2%

A. Children, young people and families		1.A5	LAC Sufficiency Strategy – Increase in the proportion of children who are cared for in a family based setting	Increase in the proportion of children who are cared for in a family based setting (Priority measure)	Mel Meggs - CYPS	high	Monthly	87.5%	●	↻	80.5%	84.5%	84.4%	81.1%	86.5%	85.4%	86.7%	86.5%	All performance shown for 2016-17 has now been taken from the new liquid logic social care system which is still in the process of being embedded within the service. Data validation work is still ongoing within the service, therefore all performance data will be refreshed for the end of Qtr 4/outturn report. Research shows that family based placements result in improved life chances and outcomes for children and young people in care more effectively than residential homes. The number of children in a family based placement is overall increasing. The Fostering Recruitment Team is in the process of revising their marketing strategy which includes the appointment of a dedicated marketing post, which will enhance the recruitment of in-house foster carers. This, in turn, should support more LAC into family based care provision.	
		1.A6		Number of CSE referrals	Mel Meggs - CYPS	Not applicable	Monthly	No target - not applicable	□			200	52	35	64	17	24	23	All performance shown for 2016-17 has now been taken from the new liquid logic social care system which is still in the process of being embedded within the service. Data validation work is still ongoing within the service, therefore all performance data will be refreshed for the end of Qtr 4/outturn report. No target as numbers fluctuate significantly and are therefore difficult to predict.	
		1.A7		an increased awareness of CSE and an increase in the number of police prosecutions as a result of joint working	Number of prosecutions	Mel Meggs - CYPS	high	Monthly	No target - not applicable	□	↻	12	37 (note the Corporate Plan states 43 (June 2015 - May 2016))	7	5	3	3	0	0	Parameter used to define 'CSE prosecution' is; offences that resulted in a suspect or suspects being charged or summonsed in Rotherham.
		1.A8			Number of victims/survivors accessing post abuse support services (new referrals)	Mel Meggs - CYPS	Not applicable	Monthly	No target - not applicable	□			524	104	143	84	30	33	21	Data recorded monthly from April 2016. This measure includes all new referrals, both new cases or newly referred historic cases. Contracts for longer term CSE support and therapy commenced 1st July 2016.
		1.B1	Early Help – Increase the take-up of free Early Childcare for disadvantaged families	% of entitled 2 year olds accessing childcare	Karen Borthwick - CYPS	high	Termly	80%	✓	↻		78% (summer term 15)	Not applicable	79.5% (summer term)	87.2% (Autumn term 2016)				Termly data shown in the closest reporting quarter to the end of term. This relates to an 'as at' position and cannot be aggregated up into year end. Take-up levels follow a pattern with the Spring term having highest levels of take-up each year. The interim position at Q3 is above expectations.	
		1.B2	Sustainable Education and Skills	% children and young people who attend a good or better schools	Karen Borthwick - CYPS	high	Termly	90%	●	↻		82.4% (summer term 15)	84.9%	86%	85%				The Rotherham average has declined by 1% from 31 August 2016. The latest comparison to the national average is 86% as at 31 August 2016. Current performance appears to be low but it is greatly affected by the inspection process. A number of primary schools that were judged as 'Requires Improvement (RI)' have converted to academies. These schools have made significant improvements which may make the next inspection judgement 'Good'. However, once a school has become an academy they are not inspected for 3 years which therefore means they will retain the 'RI' judgement, which impacts on this outcome.	
		1.B3	Sustainable Education and Skills – challenge all schools, academies and education settings who are not providing at least a 'good' level of education to our children	The progress a pupil makes from the end of primary school to the end of secondary school. Any targets in future years would be set in line with or above the national average. The progress 8 score for Rotherham in 2016 is 0.03, this is above the national average progress score of -0.03. This data is currently provisional and the validated data will be published by the DfE on the 19th January 2017.

		1.B6	Sustainable Education and Skills – Enable hard to reach young people to achieve their full potential through education employment or training	% of young people aged 16-18 who are Not in Education, Employment or Training (NEET)	David McWilliams - CYPS	low	Monthly	3.1% (note - Corporate Plan included 4.9%)	✓	↻	5.9%	5.3% (note - Corporate Plan included 5.1%)	5.5%	2.4%	2.9%	2.8%	3.0%	3.0%	The position at the end of December shows a NEET figure of 3.0% (against a local target of 3.0%) and a Not Known figure of 2.6% (against a local target of 2.5%). Whilst the NEET figure hit target the Not Known figure was 0.1% above target. This is the second month of our annual measure (taken across Nov, Dec and Jan) and to ensure we meet our targets of 3.0% NEET and 2.8% Not Known, the Not known target for January has been revised down to 2.9%. Data sharing exercises and follow up will continue, as will work to re engage the NEET cohort, both centrally and across all localities to ensure we remain on track. Latest comparison data available for November return shows that Rotherham are now better than statistical neighbours, national and region in regard to Not Knowns. In respect of NEET figures Rotherham are enjoying better results than statistical neighbours whilst being in line with both region and national returns.

This is a 11.7% decrease from the previous months position of 35.7%. There has been a significantly higher number of priority referrals in the past month, which has been the key factor in the decrease in performance. When reported against the NICE guidelines target of 6 weeks, 27.5% were assessed within target. The average waiting time is 62.8 days. To reduce the waiting time for assessments; • Other clinical staff are now undertaking assessments. • Additional monies in 2016/17 from the Department of Health are being utilised to reduce waiting times, through staff working overtime and for appropriate lower level cases to be worked by Rotherham and Barnsley Mind. • 2 additional locality staff have been employed and started in mid-December. • Referrals are now allocated to the relevant team at the point of assessment, so as to help with the allocation of appointments and with patient experience. • The Operational Manager is meeting with Meridian to review service capacity in line with the new model of working. • An assessment trajectory has been accepted by commissioners; the service to be back on track by month end March 2017.

However, for the full year to date the total is 6% higher compared to the Q1 - Q3 period last year. There is now however a clear and consistent downward trend and work will carry on to continue that downward trend, but it is unlikely that a year end reduction of 5% will be achieved. A range of multi-agency interventions continue to take place in hotspot areas. In addition, ASB in Rotherham is the subject of a performance clinic at the next meeting of the Safer Rotherham Partnership Board on 13th February 2017.

Latest figures from ONS APS June 2016. Rotherham = 73.4%, UK rate = 77.9%, so gap has increased since last return. Percentage of UK average	Paul Woodcock - Regeneration and Environment	High	Annual	91.5%	■		90.7%	89.9%								Please note, data obtained from ONS, latest data received at the end of 2016 and shows the position at 01/04/16. Although a slight decline is shown year on year, the Annual Survey of Hours and Earnings, (ASHE) is unreliable at a local authority level given small sample size – it can fluctuate significantly from year to year and it is the longer term trend that is important (Rotherham has been around 90% of UK for several years). In view of the volatility of the survey the decline is not considered to be of concern.
		4.B1		Number of new homes delivered during the year (Priority measure)	Tom Bell - Adult Social Care and Housing	High	Annual (interim quarterly data also available)	731	✘	⬇️	633	663	201	178	96			No mechanisms are available to measure the number of new properties being built in the borough but figures are available for completed properties. Performance in the final quarter of the year is expected to improve when notifications of further completions are received. However early indications are that the year - end target for delivering 731 new homes in the borough will not be met. The action is rated as Red because progress in accordance with the target set has not been met and DOT rated as worsening because performance at the end of quarter 3 is 82 properties less than had been delivered in quarter 2.

B. People live in high quality accommodation which meets their need, whether in the social rented, private rented or home ownership sector	Anne Marie Lubanski, Strategic Director Adult Social Care and Housing (Commenced 8th August 2016).	4.B2	Implement the Housing Strategy 2016-2019 to provide high quality accommodation	% of stock that is non-decent (Priority measure)	Tom Bell - Adult Social Care and Housing	Low	Annual (interim quarterly data also available)	0.5%	✓	⬆️	0% (note Corporate Plan stated - 0.67%)	0% (note - Corporate Plan stated 1.3%)	1.30%	0.18%	0.13%				Of the 237 non-decent properties at year start, 211 have become decent. With the internal refurbishment programme running until the end of March 2017; the remaining 26 properties are scheduled for works on the internal refurbishment project over quarter 4 of 2016/17 programme. The full internal refurbishment project is scheduled for delivery with this financial year with no properties expected to carry into the following financial year, as such the target of 0% non-decent properties forecasted for year end is forecast to be achieved.
		4.B3		Number of new social rented homes started in year	Tom Bell - Adult Social Care and Housing	High	Annual (interim quarterly data also available)	60	●	⬇️	49	77	46	4	2				No mechanisms are available to measure the number of new homes for rent being started in the borough but figures are available for completed properties. 2 new homes were provided for social rent in the 3 rd quarter of the year, 44 less than quarter 1 and 2 less than had been completed by the end of quarter 2. By the end of the quarter 52 new homes for rent have been delivered by the authority against an overall annual target of 60. Property completion notifications that will be received during the final quarter are expected to confirm the Council has achieved its target for this measure by the end of the year. The overall status of the action at the end of quarter 3 is rated as being Amber, meaning the year-end target will be achieved and DOT rated as worsening to reflect the position that performance between the 2 nd and 3 rd quarters had deteriorated.
		4.B4		Number of new affordable home ownership units started in year	Tom Bell - Adult Social Care and Housing	High	Annual	148	✗	⬆️	51	58	2	2	7				In future affordable home ownership will become the predominant tenure in affordable housing delivery. This is because the Government's "Starter Homes" agenda will replace rented affordable housing delivered through the planning system as S106 units. Additionally from 2016 the Affordable Homes Programme of grant funding will end. This will be replaced by the "Shared ownership & Affordable Homes Programme 2016 – 2021" (SOAHP).
		4.B5(a)	Private rented housing – improving standards through selective licensing	% of eligible properties which have applied for a license, within Selective Licensing areas (Priority measure)	Karen Hanson - Regeneration and Environment	High	Monthly	95%	●	⬆️	Not available	87%	84%	91%	92%	91%	92%	93%	In Eastwood and Dinnington, more private rented properties were identified than had originally been estimated when the Council set its target for this measure using information from the 2011 census. Underestimating the number of properties resulted in significantly better performance than had been expected. For example by the end of quarter 2, 151% of properties in Eastwood had registered under the scheme. This inflated performance for the whole Selective Licensing Scheme. To compensate for this and in order to provide more accurate data the Council now caps performance across all Selective Licensing areas at 100%. Performance for the overall scheme at the end of the 3rd quarter is 92%, 1% higher than for quarter 2. The Council therefore is maintaining excellent progress delivering against this indicator and is confident the 95% year – end target will be achieved.

The Met Council average for 15/16 was 95.4%, had Rotherham performed at the Met average it would have collected £1.976 million less from last year's Council Tax. The overall rating and DoT rating is based on a comparison against last years performance. Performance is 80.83% which is 0.27% down on the same as the same time the previous year when it was 81.1%. It is expected that the target of 97% will be achieved by the year end although collection performance will need to be carefully managed over the next quarter in order that this is achieved.
		5.A2		Cumulative Council Tax arrears per property	Stuart Booth - Finance and Customer Services	Low	Annual (interim quarterly and monthly data also available)	£109.22 (Top Quartile Met Authorities)	✓	⬆️	£66.98	£68.12	£58.59	£51.06	£46.07	£49.26	£47.55	£46.07	For 15/16 we were the third best Met Council with £68.12 per property. The Met Council average for 15/16 was £148.58. Had Rotherham performed at Met average we would currently have an additional £9.3million outstanding arrears. We currently have 45p lower arrears per property compared with the same time last year when they were £46.52 and it is expected that the target will be achieved by the year end. The overall rating and DoT rating is based on a comparison against last years performance.

For Non Domestic Rates in 15/16 we were 8th highest Met (out of 36) with 98.1%. The Met Council average for 15/16 was 97.1%, had Rotherham performed at the Met average it would have collected £680k less from last year's Non Domestic Rates (49% of this is our share so £326,000). Performance of 81.65% is 0.45% up on the same time the previous year when it was 81.2%. It is expected that the target of 98% will be achieved by the year end. The overall rating and DoT rating is based on a comparison against last years performance.
