- Provides a high-level assurance role; holding partners to account for delivery

Health and Wellbeing Strategy

- Sets strategic priorities of the HWbB
- Not intended to include everything that all partners do
- Based on intelligence from the JSNA and other local knowledge
- Enables commissioners to plan and commission integrated services
- Service providers, commissioners and local voluntary and community organisations all have an important role to play in identifying and acting upon local priorities

Health and Wellbeing Strategy 2015-18

Principles

Need for a refresh...

- Existing strategy runs until end of 2018 – but number of national and local strategic drivers now influencing the HWbB
- An early refresh ensures the strategy remains fit for purpose, strengthening the board's role in
 - high level assurance
 - holding partners to account
 - influencing commissioning across the health and social care system, as well as wider determinants of health
 - Reducing health inequalities
 - Promoting a greater focus on prevention

Need for a refresh...

- LGA support to the HWbB:
 - Self-assessment July 2016
 - Stepping Up To The Place workshop September 2016
- Positive feedback given about board's foundation and good partnership working
- The current strategy was published quickly after the board was refreshed (September 2015)
- Now in stronger position to set the right strategic vision and priorities for Rotherham

Joint Strategic Needs Assessment

- Ageing population – rising demand for health and social care services
- More people aged 75+ living alone, vulnerable to isolation
- High rates of disability, long term sickness (more mental health conditions) and long term health conditions e.g. dementia
- Need for care rising faster than unpaid carer capacity
- High rates of smoking and alcohol abuse, low physical activity & low breastfeeding

Joint Strategic Needs Assessment

- Rising need for children's social care, esp. related to safeguarding
- Relatively high levels of learning disability
- Growing ethnic diversity, esp. in younger population, with new migrant communities
- Growing inequalities, long term social polarisation
- High levels of poverty including food and fuel poverty, debt & financial exclusion

Inequalities in Life Expectancy

Life Expectancy at Birth
Average gap 1.65 years

Healthy Life Expectancy
Average gap 4.9 years

People in Hellaby Ward can expect to live an average of **6.5 years** longer than people in Rotherham East

EQUALITY

EQUITY

Proposed refreshed strategy

- Sets strategic vision for the HWbB – not everything all partners do, but what partners can do better together
- Includes 4 strategic ‘aims’ – shared by all HWbB partners
- Each aim includes small set of high-level, shared priorities...
- Which the Integrated Health and Social Care Place Plan ‘system’ priorities will align to

Strategic aims

Aim 1. All children get the best start in life and go on to achieve their potential and have a healthy adolescence and early adulthood

Aim 2. All Rotherham people enjoy the best possible mental health and wellbeing and have a good quality of life

Aim 3. All Rotherham people live well and live longer

Aim 4. All Rotherham people live in healthy, safe and resilient communities

Questions for Scrutiny

- Are the strategic aims and priorities clear about what they mean?
- Is there anything missing or needs more emphasis?
- Reducing loneliness and isolation is an emerging issue in the JSNA – how do we ensure this is addressed through the strategy?
- How can elected members, partners and residents work together to help deliver the strategy aims within neighbourhoods?

‘Prevention Matters’

- The LGA will be running a workshop looking at how elected members can improve the health of their communities
- Taking place over two half days: 15th and 16th February
