

<b>BRIEFING</b>	<b>TO:</b>	Health Select Commission
	<b>DATE:</b>	4 June 2020
	<b>LEAD OFFICER:</b>	Janet Spurling Governance Advisor, Assistant Chief Executive's Directorate 01709 254421
	<b>TITLE:</b>	Initial Work Programme Items for 2020-21

## 1. Background

- 1.1** Health and social care services continue to undergo transformation and move towards more integrated working through joint commissioning, joint posts, locality working, greater co-location and multi-disciplinary teams. This work has been an important long term programme that the Health Select Commission (HSC) has kept under scrutiny since 2015-16 and is still evolving.
- 1.2** Overall performance of health partners is scrutinised through their quality reports, incorporating a range of national measures together with a number of locally agreed quality priorities. Adult Care and Public Health both have outcome frameworks of performance measures which enable progress to be gauged year on year and also benchmarked nationally and regionally.
- 1.3** Addressing health inequalities that exist in the borough, through health and social care strategies and plans, and through looking at the wider determinants of health, is an issue that the Select Commission has frequently highlighted.
- 1.4** Another continuing piece of work is scrutiny of any major changes to NHS services across South Yorkshire, Derbyshire and Nottinghamshire, undertaken by the Joint Health Overview and Scrutiny Committee, in accordance with the terms of reference for the Health Select Commission (HSC) in the Constitution.
- 1.5** In addition, the work programme will have to take account of the response to and recovery from the Covid-19 pandemic.

## 2. Key Issues

- 2.1** The work programme needs to address key policy and performance agendas, with a clear emphasis on adding value by leading to improved outcomes for the people of Rotherham. It should also be focused on issues that Scrutiny will be able to influence.
- 2.2** The initial work programme in Appendix 1 forms the basis for discussion and reflects agenda items on which the Health Select Commission has requested progress reports for 2020-21 in order to scrutinise the impact of recent service or policy changes. Examples are Intermediate Care and Reablement, Ophthalmology Services and Respiratory Services.
- 2.3** It also includes items delegated from the Overview and Scrutiny Management Board for

	monitoring by HSC, such as the impact of implementation of the new Home Care and Support Services Contract.
<b>2.4</b>	The Commission will continue to employ various approaches in its scrutiny work, including workshops, sub-groups and visits to supplement reports, presentations and performance information.
<b>2.5</b>	More direct public involvement in scrutiny work is an area to develop further, in addition to ensuring services are capturing and taking account of customer/service user, carer and patient feedback and experience. HSC will expect to see this qualitative evidence in scrutiny of the impact of service changes and transformation, as well as the quantitative data and metrics.
<b>3. Key Actions and Timelines</b>	
<b>3.1</b>	Following the discussion at Health Select Commission, a revised draft work programme for 2020-21 will be developed and presented at a future meeting for endorsement.
<b>3.2</b>	Memberships of the Quality Subgroups for Rotherham NHS Foundation Trust; Rotherham, Doncaster and South Humber NHS Foundation Trust; and Yorkshire Ambulance Service respectively will be confirmed in July. It is proposed that these are again mainly based on last year's membership to retain the knowledge Members have developed of those health partners' services.
<b>3.3</b>	Membership of the Performance Sub-Group will also be confirmed in July if it continues to meet during 2020-21.
<b>3.4</b>	The programme does need to maintain flexibility to accommodate additional or urgent items that may emerge during the year and if items are added, this may necessitate a review and re-prioritisation of the work programme.
<b>4. Recommendations</b>	
<b>4.1</b>	That the Health Select Commission discuss the initial work programme as set out in Appendix 1 and agree a clear set of priorities for 2020-21.
