

PART A - Initial Equality Screening Assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

2. Please provide a brief description of what you are screening
<p>This report makes recommendations for the next three year Infrastructure SLA for the period April 2021 to March 2024, taking forward the commitments set out in the Rotherham Compact, building on experience gained through the current SLA and a renewed approach to equalities following the experiences and report findings from the COVID 19 emergency including Public Health England inequalities findings relating to BAME groups.</p>

The report also makes reference to equalities review and seeking “Excellent” accreditation under the Equality Framework for Local Government, which whilst being the subject of a separate report, results in a specific recommendation relating to commissioning VCS infrastructure.

3. Relevance to equality and diversity

All the Council’s strategies/policies, services/functions affect service users, employees or the wider community – borough wide or more local. These will also have a greater/lesser relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, disability, sex, gender reassignment, race, religion or belief, sexual orientation, civil partnerships and marriage, pregnancy and maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc.

Questions	Yes	No
Could the proposal have implications regarding the accessibility of services to the whole or wider community? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	x	
Could the proposal affect service users? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	x	
Has there been or is there likely to be an impact on an individual or group with protected characteristics? <i>(Consider potential discrimination, harassment or victimisation of individuals with protected characteristics)</i>	x	
Have there been or likely to be any public concerns regarding the proposal? <i>(It is important that the Council is transparent and consultation is carried out with members of the public to help mitigate future challenge)</i>		x
Could the proposal affect how the Council’s services, commissioning or procurement activities are organised, provided, located and by whom? <i>(If the answer is yes you may wish to seek advice from commissioning or procurement)</i>	x	
Could the proposal affect the Council’s workforce or employment practices? <i>(If the answer is yes you may wish to seek advice from your HR business partner)</i>		x

If you have answered no to all the questions above, please explain the reason

If you have answered **no** to all the questions above please complete **sections 5 and 6**.

If you have answered **yes** to any of the above please complete **section 4**.

4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals before decisions are made.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society by meeting a group or individual's needs and encouraging participation.

Please provide specific details for all three areas below using the prompts for guidance and complete an Equality Analysis (Part B).

- **How have you considered equality and diversity?**

(think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

Infrastructure services are at the core of support for the diversity of the VCS. They are driven by the values of the Rotherham Compact, which in turn has specific commitments around equalities. The co-design will be undertaken under the provisions of the Rotherham Compact. The equalities planning and Equality Analysis will be an integral component of the co-design.

- **Key findings**

(think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

Addressing equalities will be an integral component of the co-design process leading to the completion of the equalities analysis.

The recommended approach in relation to REMA will strengthen the approach to equalities and tackling inequalities as part of a strategically led process through an accredited framework building on public health and other report findings.

- **Actions**

(think about how you will promote positive impact and remove/reduce negative impact)

VCS Infrastructure Services are one of the key drivers for equalities in the VCS and community, championing the provisions of the Rotherham Compact.

Specifically, the Rotherham Compact states:

An important way in which the VCS can promote equality effectively is by working with public sector organisations on equality issues. VCS organisations undertake to:

- Take practical action in partnership with the public sector to eliminate discrimination, advance equality of opportunity and build community links.
- Show committed leadership (especially at senior levels) to promote equality and, where necessary, put strategies in place to achieve it.
