AUDIT OF ACCOUNTS 2020/21

ROTHERHAM METROPOLITAN BOROUGH COUNCIL

Statement of Accounts 2020/21 Public Inspection Notice

Notice of the Commencement of the Period for the Exercise of Public Rights Local Audit and Accountability Act 2014 Sections 26 and 27 Accounts and Audit (England) Regulations 2015 Regulations, 14 and 15

The period for the Exercise of Public Rights commences at 9.30am on Monday 2 August 2021 and will conclude at 4pm on Monday 13 September 2021.

The following documents will be made available:

- The Draft Statement of Accounts
- The Annual Governance Statement
- The Narrative Report

The draft Statement of Accounts may be subject to change.

The above Council's accounts are subject to external audit by Grant Thornton UK LLP, Gareth Mills, No 1 Whitehall Riverside, Leeds, LS1 4BN. Members of the public and local government electors have certain rights in the audit process:-

1. The period for the Exercise of Public Rights commences on Monday 2 August 2021 and will conclude on Monday 13 September 2021 (between 9.30am and 4.00 pm Monday to Friday). Any person interested, on application to the Strategic Director of Finance and Customer Services, Rotherham Metropolitan Borough Council, Riverside House, Main Street, Rotherham, S60 1AE, may inspect and make copies of the accounts of the above-named Council for the year ended 31 March 2021, and all books, deeds, contracts, bills, vouchers and receipts relating thereto.
2. Notice is also given that on or after Monday 2 August 2021 until Monday 13 September 2021, a local government elector for the area to which the accounts relate or his/her representative may ask any questions of the auditor. Please contact the auditor at the above address to make arrangements to ask any questions.
3. These rights do not permit a person to require disclosure of personal information as defined in section 26 of the Local Audit and Accountability Act 2014.
4. From 9.30am on Monday 2 August 2021 until Monday 13 September 2021, a local government elector for the area of the Authority, or his/her representative, may object to the Council's accounts asking that the auditor issue a report in the public interest (schedule 7, Local Audit and Accountability Act 2014) and/or apply to the Court for a declaration that an item in the accounts is contrary to law (section 27, Local Audit and Accountability Act 2014). No such objection may be made unless the Auditor has previously received written notice of the objection and the grounds on which it is made and a copy of that notice has been provided to the Strategic Director of Finance and Customer Services, Rotherham Metropolitan Borough Council.

Friday 30 July 2021

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's responsibilities

The Council is required:

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers (the Chief Financial Officer) has responsibility for the administration of those affairs;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- Approve the Statement of Accounts.

The Chief Financial Officer's responsibilities

The Chief Financial Officer is responsible for the preparation of the Statement of Accounts (which includes the financial statements) in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').

In preparing this Statement of Accounts, the Chief Financial Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code;
- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities;
- assessed the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- used the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future; and
- maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- Covid-19 – the impact of the Covid-19 pandemic is not considered at this time to effect a change in the Authority's ability to continue as a going concern.

I certify that the Statement of Accounts gives a true and fair view of the financial position of the Authority at 31 March 2021 and of its income and expenditure for the year then ended.

Judith Badger CPFA
Strategic Director - Finance and Customer Services
30 July 2021

Explanation of the Financial Statements

The Statement of Accounts summarises the Council's financial performance during the year ended 31 March 2021 and shows its overall financial position at the end of that period.

The Statement is prepared in accordance with the Code of Practice on Local Authority Accounting (the Code), as published by the Chartered Institute of Public Finance and Accountancy (CIPFA). The Code is based on approved accounting standards issued by the International Accounting Standards Board (IASB) and interpretations of the International Financial Reporting Interpretations Committee (IFRIC), except where these are inconsistent with specific statutory requirements.

The principle basis, conventions, rules and practices that specify how the effects of transactions and other events are reflected in the financial statements of the Council are set out in the section of this report headed 'Statement of Accounting Policies'. These accounting policies are kept under review and updated where appropriate to take account of changes in accounting practice adopted within the Code.

The Statement of Accounts comprises:

- **Statement of Responsibilities for the Statement of Accounts** (Page 2) – which details the respective responsibilities of the Council and its Chief Financial Officer for the accounts;
- **An explanation of the financial Statements** (Page 3 – which details the components of the Financial Statements;
- **A Statement of Accounting Concepts and Policies** (Page 12) – These are the principle bases, conventions, rules and practices that specify how the effects of transactions and other events are reflected in the financial statements. The accounting concepts and policies that have been applied in preparing the Council's 2020/21 financial statements are detailed on Page 12;
- **Financial Statements and related disclosure notes** – which are explained further below.

For the sake of clarity, the Accounts and Audit Regulations 2015 clarified that the Annual Governance Statement does not form part of the Statement of Accounts although there is an expectation that it is published alongside the Statement of Accounts. The Council follows this practice.

To comply with the Accounts and Audit Regulations 2015 and the Code, the Narrative Report will be published alongside the Statement of Accounts.

Financial Statements

The Financial Statements report the Council's financial performance for the year and its financial position.

The Council's financial performance is reported through the:

- **Comprehensive Income and Expenditure Statement (CIES)** (Page 6) – The Comprehensive Income and Expenditure Statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation or rents. The Council utilises income generated from local taxpayers and rents to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The amount to be met from local taxpayers and housing rents is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement
- **Movement in Reserves Statement (MIRS)** (Page 7) – The Movement in Reserves Statement shows the net change in the balances on reserves allowing for the aforementioned statutory adjustments. Reserves are analysed into usable reserves and unusable reserves. Usable reserves represent revenue or capital resources which are available to fund revenue or capital expenditure or repay debt in the future, subject to the need to maintain a prudent level of reserves to cover contingencies and unforeseen commitments. Unusable Reserves are those that the Council is not able to use to provide services, they are used to hold unrealised gains and losses, for example the revaluation reserve or to hold balances in relation to adjustments between accounting basis and funding basis under regulations.

- **The Cash Flow Statement** (Page 10) – This Statement summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.
- **The Housing Revenue Account (HRA) Income and Expenditure Account** (Page 109) – This Account summarises the income and expenditure in respect of the provision of local Council housing accommodation. Councils' are required by statute to account separately for all transactions relating to the cost of providing such accommodation.
- **Collection Fund Account** (Page 117) – By statute, Billing Authorities are required to maintain a separate Collection Fund which shows the level of National Non Domestic Rates, Council Tax and the residual Community Charge received by the Council during the accounting period and the distribution of these funds.

The Council's financial position is reported through the:

- **Balance Sheet** (Page 9) - The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) represent the Council's net worth and are matched by the reserves held by the Council. Reserves are analysed into usable and unusable in the same way as in the MIRS.

The financial statements described above include the income, expenditure, assets, liabilities, reserves and cash flows of maintained schools within the control of the Council.

The Council's Financial Statements also include the Metropolitan Debt Administration statement (Page 120) as under the Local Government Act Reorganisation (Debt Administration – South Yorkshire) Order, 1986, the Council became responsible for the administration of the former South Yorkshire County Council Debt with effect from 1 April 1986. A separate account has been established to record the transactions, in order to arrive at an average rate of interest with which to charge the four district councils and joint boards within the South Yorkshire area. As at 31 March 2021 the debt in relation to the former South Yorkshire County Council was fully repaid.

The **Expenditure and Funding Analysis**, included as Note 1 (Page 36) in the Notes to the Accounts, accompanies the Comprehensive Income and Expenditure Statement. It takes the net expenditure that is chargeable to taxation and rents (i.e. the General Fund and Housing Revenue Account) and reconciles it to the Comprehensive Income and Expenditure Statement.

Main Financial Statements and Notes to the Core Financial Statements

Comprehensive Income and Expenditure Statement

Movement in Reserves Statement

Balance Sheet

Cash Flow Statement

Notes to the Core Financial Statements

Comprehensive Income and Expenditure Statement

The Comprehensive Income and Expenditure Statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation or rents. The Council utilises income generated from local taxpayers and rents to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The amount to be met from local taxpayers and housing rents is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement

All of the Council's income and expenditure relates to continuing operations.

None of the items included within other comprehensive income and expenditure are reclassifiable within the surplus or deficit on provision of services.

The reportable segments shown below are those used for internal management reporting including budget monitoring reported to Senior Leadership Team and Cabinet.

The Council has seen an increase in gross expenditure and income, largely as a direct result of the Covid-19 response, with expenditure incurred providing the Council's response offset by an increase in Government grant income.

2019/20 Gross Expenditure £000	2019/20 Gross Income £000	2019/20 Net Cost £000		2020/21 Gross Expenditure £000	2020/21 Gross Income £000	2020/21 Net Cost £000	Notes

Movement in Reserves Statement

This Statement shows the movement from the start of the year to the end of the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation and are detailed in Note 37) and 'unusable reserves' (which are not available for use and are detailed in Note 38). The movement in reserves statement shows how the movements in year of the Council's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to Council Tax [or rents] for the year. The net increase/decrease line shows the statutory General Fund Balance and Housing Revenue Account balance movements in the year following those adjustments.

The General Fund reserves balance contains £27.5m of Covid-19 grants held to fund the ongoing Council response to the pandemic, including £16.9m of S31 grants to support additional business rates relief provided during 2020/21 that will impact the General Fund in 2021/22.

2019/20	General Fund (GF) Balance including GF Earmarked Reserves £000	Housing Revenue Account (HRA) £000	Capital Receipts Reserve £000	Major Repairs Reserves £000	Capital Grants Unapplied £000	Total Usable Reserves £000	Total Unusable Reserves £000	Total Council Reserves £000	Notes

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the capital receipts reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves, are those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the revaluation reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line "Adjustments between accounting basis and funding basis under regulations".

Accounting Policies

- A) Statement of Accounting Policies
- B) Accounting Standards issued but not yet adopted
- C) Critical Judgements in applying Accounting Policies
- D) Assumptions made about the future and other major sources of estimation

A STATEMENT OF ACCOUNTING CONCEPTS AND POLICIES

1 General Principles

The Statement of Accounts summarises the Council's transactions for the 2020/21 financial year and its position at the year-end of 31 March 2021. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which those Regulations require to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 ("the Code"), supported by International Financial Reporting Standards (IFRS).

The objective of the Statement of Accounts is to provide information about the Council's financial performance, financial position and cash flows that is useful to a wide range of stakeholders in assessing the Council's stewardship of its resources.

Fundamental to making this assessment is that information is both relevant and faithfully represented.

A key feature of relevance is materiality. Information is material if omitting it or misstating it could influence decisions that users make on the basis of financial information presented in the Statement of Accounts. Conversely, there is no need to comply with the accounting principles or disclosure requirements of the Code where information is not material.

Information is faithfully represented if it is complete, unbiased and properly determined using appropriate estimation techniques and judgements.

The accounting policies are the principle bases, conventions, rules and practices that specify how the effects of transactions and other events are reflected in the Statement of Accounts. The accounting policies and estimation techniques selected are those that best assist users in their understanding of the financial information presented or disclosed in the Statement of Accounts. The expectation is that this will be achieved by selecting accounting policies that are compliant with the Code.

Consistent policies are applied both within the year and between years. Where policies have changed the reason and effect is disclosed.

The underlying assumptions made in preparing the Statement of Accounts are that financial performance is reported on an accruals basis and that the Council is a going concern.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets.

The CIES is reported using total cost principles under international financial reporting standards not the way in which local government is funded. The income and expenditure reported in the CIES will not therefore correspond to the outturn charged to the General Fund and HRA reported against the Council's budget.

Note 1 in the Notes to the Core Financial Statements, the "Funding and Expenditure Analysis" provides a high level reconciliation of the expenditure analysis reported in the CIES to the net amount charged to the General Fund and HRA which is to be met by taxpayers and council house tenants together with additional disclosure on material reconciling adjustments.

2 Changes in Accounting Policies and Estimates and Errors

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied unless the Code specifies that the change should be applied prospectively.

Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change.

Any material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

3 Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received.

The general principle is that revenue is measured at the fair value of the consideration received which, in most transactions, will be the amount of cash and cash equivalents receivable. This position is in accordance with IFRS 15 Revenue from Contracts with Customers.

Revenue is recognised when Council satisfies a performance obligation by transferring a promised good or service to a service recipient, this can be over a period of time or at a point in time.

Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.

Expenses in relation to services received (including those rendered by the Council's officers) are recorded as expenditure when the services are received, rather than when payments are made.

Interest payable on borrowings (other than that capitalised on qualifying assets) and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.

Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where there is evidence that debts are unlikely to be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Where the Council acts as an agent for another party, income and expenditure are recognised only to the extent that commission is receivable by the Council for the agency services rendered or the Council incurs expenses directly on its own behalf in rendering the services.

4 Overheads and Support Services

Support services are operated, managed and reported as separate segments they are not apportioned across services but instead reported separately in their own right in the Comprehensive Income and Expenditure Statement. Under the Council's current structure such costs predominantly fall within Assistant Chief Executive's or Finance and Customer Services Directorates.

5 Debtors

Debtors are recognised when the Council has delivered or tendered a supply of goods or services. They are recognised and measured at fair value when revenue has been recognised, except for a financial asset where they form part of the asset's carrying value (see accounting policy note 21). Amounts paid in advance of the receipt of goods/services are recognised as a prepayment.

6 Creditors

Creditors are recognised when the Council receives a supply of goods or services. They are recognised and measured at fair value of the consideration payable except for a financial liability where they form part of the liability's carrying value (see accounting policy note 21). If consideration is received but the revenue does not meet the revenue recognition criteria, a receipt in advance is recognised.

7 Tax Income (Council Tax, Residual Community Charge, and National Non-Domestic Rates)

Council Tax

Council Tax collection is an agency arrangement. Income shown within the Comprehensive Income & Expenditure Statement is the Council's share of the year's accrued income. The difference between this and the amount transferred to the General Fund under statute (representing the demand on the Collection Fund for the year together with the Council's share of the previous year's surplus or deficit which is distributed or recovered) is taken to the Collection Fund Adjustment Account. Debtors are shown exclusive of the proportions attributable to major preceptors.

National Non-Domestic Rates (NNDR)

NNDR collection is an agency arrangement. Business rate income within the Comprehensive Income & Expenditure Statement is the Council's share of the accrued business rate income for the year. The difference between this and the amount transferred to the General Fund under statute (representing the Council's share of the estimated business rate income for the year together with the Council's share of the previous year's surplus or deficit which is distributed or recovered) is taken to the Collection Fund Adjustment Account. The central share (after allowable deductions) of business rate income is paid out of the Collection Fund to central government. Growth in business rate income in an Enterprise Zone area, business rate income from renewable energy schemes and from businesses in New Deal areas is wholly attributable to the Council and transferred in full to the General Fund on an accruals basis. Debtors are shown exclusive of the proportions attributable to major preceptors.

8 Inventories

Inventories are measured at the lower of cost and net realisable value except where acquired through a non-exchange transaction when cost is assumed to be equal to fair value at acquisition date.

Inventories are measured at the lower of cost and current replacement cost where held for distribution at no charge or for a nominal charge.

The cost attributed to identify inventory is assigned using the first-in, first-out (FIFO) basis.

Should it become apparent that total costs will exceed total revenue the expected deficit on the contract is immediately expensed.

9 Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

10 Provisions, Contingent Liabilities and Contingent Assets

Provisions

A provision is recognised when:

- there is a present obligation (legal/constructive) as a result of a past event,
- it is probable a resource outflow will be required to settle the obligation, and
- a reliable estimate of the amount can be made.

For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at each reporting date and adjusted to reflect current best estimates. Where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

If some or all of the expenditure required to settle a provision is expected to be reimbursed (e.g. an insurance claim), this is recognised when it is virtually certain that if the obligation is settled reimbursement will be received. The reimbursement is treated as an asset but the amount recognised does not exceed the amount of the provision.

Contingent Liability

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

A contingent liability is not recognised in the financial statements but disclosed as a note to the accounts. If it becomes probable that a resource outflow will be required for an item previously dealt with as a contingent liability, a provision is recognised.

Contingent Asset

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

A contingent asset is not recognised in the financial statements but disclosed as a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential. If it has become virtually certain an inflow will arise and the asset's value can be measured reliably, a debtor and related revenue are recognised.

11 Reserves

The Council sets aside specific amounts as usable reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain unusable reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement benefits and that do not represent usable resources for the Council – these reserves are explained in the sections relating to the relevant policies.

Covid-19: The total cost to the Council of addressing the financial impact of Covid-19 in terms of expenditure, lost income and unachieved savings was mitigated in 2020/21 through the provision of Government support grants without an unplanned call on any reserves. However it is not possible to determine whether an additional call on the Council's reserves will be necessary in 2021/22.

12 Government and Non-Government Grants

Government grants and third-party contributions, including donated assets are recognised as due when there is reasonable assurance that;

- the Council will comply with the conditions attached to them, and
- the grants and contributions will be received.

Where conditions of grant remain outstanding which could give rise to grant being repaid, grant is carried in the balance sheet as grant received in advance.

Conditions are stipulations that give the grant funder or donor the right to the return of their monies if it is not used for the purpose specified.

Covid-19: A Review of 2020/21 grants has been undertaken to confirm that the impact of the pandemic has not prevented the Council meeting the grant terms and conditions. Some Covid-19 grants have been accounted for as 'agent' as the Council's role was to simply passport the grant from Government to a business, supplier or individual, with no decision making process required.

Revenue grants or contributions are credited to the relevant service line within net cost of services if specific or to Taxation and Non-Specific Grant Income if general or non ring-fenced.

Capital grants are credited to Taxation and Non-Specific Grant Income as general grant, but then reversed out of the General Fund Balance in the Movement in Reserves Statement. Where capital grant has been recognised but has yet to be used to finance capital expenditure, it is credited to the Capital Grants Unapplied Account within reserves. Capital grant that has been used for financing purposes is transferred to the Capital Adjustment Account.

13 Non-current Assets – Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition and creation of or which add to Property, Plant & Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price,
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, and
- the initial estimate of the costs of dismantling, removing or restoring an asset where the Council has an obligation to do so and is required to make provision for these costs.

Borrowing Costs - The Council has adopted a policy under IAS 23 'Borrowing Costs' to capitalise borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset. In implementing a policy of capitalisation of borrowing costs the Council has determined what it sees as a qualifying asset and what the borrowing costs are, that are to be capitalised.

- **Qualifying Assets** – Assets that take a substantial period of time to get ready for their intended use or sale, where this would cause a significant balance of borrowing costs to accrue.
- **Borrowing costs** – Where the Council borrows to specifically fund a scheme the amount that is capitalised is the actual cost of borrowing less investment income. Where funds are borrowed generally a capitalisation rate is used based on the weighted average of borrowing costs during the period.

The Council only capitalises borrowing costs when in addition to the above it becomes probable that the capital expenditure will result in future economic benefits or service potential to the Council; and that the borrowing costs can be measured reliably.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition will not increase the cash flows of the Council. In the latter case, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets – depreciated historical cost,
- property, plant and equipment and intangible assets under construction are measured at historical cost,
- dwellings – current value based on existing use value for social housing (EUV-SH),
- all other assets – current value based on existing use (existing use value – EUV) for non-specialised operational assets where there is an active market or where

there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost.

- Should an asset be re-classified as a Surplus Asset, it will be measured at fair value. Should an asset be re-classified as a Asset Held for Sale, it will be measure at fair value less cost to sell.

Depreciated historical cost is used as a proxy for current value for relatively short life assets such as vehicles, plant and equipment.

Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum they are revalued every five years. In support of this the Council carries out an annual review of its assets for impairment. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains unless they reverse a previous revaluation or impairment loss in which case they are credited to the relevant service line within net cost of services.

Where decreases in value are identified, the revaluation loss is accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains),
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment of Assets

At the end of each reporting period an assessment takes place as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains),
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Disposals

The carrying amount of an item is derecognised:

- on disposal through, for example, sale, donation, granting of a finance lease or transfer, or
- when no future economic benefits or service potential are expected from its use or disposal as a result, for example, of it being abandoned, scrapped or decommissioned.

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Fair value is the price that would be received from the selling the asset in an orderly transaction between market participants under the conditions prevailing at the end of the reporting period. Fair value for social housing being disposed of under Right to Buy (RTB) legislation is the discounted RTB value. Depreciation is not charged on Assets Held for Sale.

Assets held solely for capital appreciation purposes are classified as investment properties.

Non-operational property, plant and equipment which do not meet the criteria for reclassification as either Assets Held for Sale or investment properties are held within property, plant and equipment as Surplus Assets. Surplus Assets are carried in the balance sheet at their existing use value and revalued immediately prior to disposal if the current carrying value is materially different in order that the proper gain or loss on disposal can be determined.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of Non-Current Assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives, the depreciable amount being an asset's depreciated historic cost or fair value at the start of the financial year. No depreciation is charged in the year in which an asset is first made ready for use. A charge is made in the year in which an asset is derecognised or classified as held for sale. An exception is made for assets without a determinable finite useful life (i.e., freehold land and certain Community Assets) and assets that are not yet available for use (i.e., assets under construction).

Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the useful life of the property as estimated by the Council's valuer (Council dwellings over 30 Years or by using notional Major Repairs Allowance (MRA) if notional MRA reasonably reflects the annual cost of maintaining property in its current condition over a thirty-year period, other buildings and non-operational properties up to 100 years)

- vehicles – a reducing balance method over the useful life of the asset, as advised by a suitably qualified officer (Up to 10 years)
- infrastructure – straight-line allocation over 40 years
- plant, equipment and computers – straight-line allocation over the useful life of the asset as advised by a suitably qualified officer (plant and equipment up to 15 years and computers/office equipment up to 10 years).

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. Componentisation will take place as assets are acquired, enhanced, replaced or revalued.

Revaluation gains/losses are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

14 Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding Non-Current Assets during the year:

- depreciation attributable to the assets used by the relevant service,
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off,
- amortisation of intangible Non-Current Assets attributable to the service.

The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance. This is known as the Minimum Revenue Provision (MRP) and the policy is detailed below. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the revenue provision in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement.

Depreciation, revaluation and impairment losses represent a “real” charge to the HRA to be met by rent payers. However, the Council took advantage of the transitional protection offered to housing authorities over a five year period to 2016/17, to reverse out impairment and revaluation losses relating to council dwellings and to cap the amount of depreciation charged on council dwellings at the notional Major Repairs Allowance (MRA) included within the HRA Business Plan for that year. From 2017/18, depreciation, revaluation and impairment losses are determined in accordance with the new “Item 8 Credit and Item 8 Debit (General) Determination” which came into effect from 1 April 2017. That determination allows the Council to reverse out impairment and revaluation gains and losses relating to both council dwellings and non-dwellings.

Minimum Revenue Provision (MRP)

Prudent provision (MRP) is made annually for the repayment of debt relating to capital expenditure financed by borrowing or credit arrangements. The amount charged is determined having regard to the relevant statutory requirements and related guidance on MRP issued by MHCLG.

In 2014/15 the Council carried out a review of historic MRP payments made, indicating a significant overpayment, that has since been recovered via an annual MRP holiday (in line with the CIPFA Prudential Code & MRP Guidance). The recovery of any MRP that had been overcharged in previous years will be effected by taking an MRP holiday in full or in part against future years' charges that would otherwise have been made.

The MRP holiday was taken in such a way as to ensure that the total MRP after taking the holiday will not be less than zero in any financial year. Following the introduction of the revised CIPFA Prudential Code 2018/19 and CIPFA Treasury Management Code of Practice it is no longer permissible for the Council to calculate new MRP overpayments in relation to historical transactions, however it could continue to realign the existing overpayment as the new code is not to be applied retrospectively. The Councils use of the MRP holiday identified in 2014/15 ended in 2019/20, no MRP holiday was used in 2020/21 with the process concluded, all available MRP holiday has been utilised.

15 Leases and Lease-Type Arrangements

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets. The Council will recognise a lease where the contract for individual asset exceeds £25k.

(a) Finance Leases – Council as Lessee

An asset held under a finance lease is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the years in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the asset – applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The apportionment is done in such a way as to produce a constant rate of interest on the outstanding liability in each period over the lease term

An asset recognised under a finance lease is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses arising on leased assets. Instead, a Minimum Revenue Provision is made towards the deemed capital investment in accordance with statutory requirements and the Council's policy for determining MRP. Depreciation, revaluation and impairment losses are therefore replaced by the revenue provision in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement.

(b) Operating Leases – Council as Lessee

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments.

(a) Finance Leases – Council as Lessor

Where the Council grants a finance lease over an asset, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- an amount to write down the net investment in the lease including any premiums received, and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and will be required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are paid, the element for the charge for the acquisition of the interest in the property is used to write down the lease asset. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of Non-Current Assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated from the Capital Adjustment Account to the General Fund Balance in the Movement in Reserves Statement.

(b) Operating Leases – Council as Lessor

Where the Council grants an operating lease over an asset, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments. Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

16 PFI and PPP Arrangements

Private Finance Initiative (PFI) and similar contracts fall within scope of IFRIC 12 and are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Council is deemed to control the services that are provided under its PFI schemes and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment. The only exception to this is where PFI assets are transferred to academies under 125 year lease arrangements, at the point of transfer the assets are removed from the Council's balance sheet.

PFI assets are initially recognised at their fair value when they are first made available for use balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment (this is normally based on the relevant elements of capital cost in the operator's financial model). Initial direct costs to the Council are added to the carrying amount of the asset. Any upfront contributions made by the authority to the PFI operator, either in the form of a cash lump sum or transfer of

property that will not be used to provide services under the arrangement, are applied to write-down the PFI liability at the contribution's value agreed in the operator's financial model when the PFI asset is first made available for use.

PFI assets under construction are recognised on the balance sheet where the terms and conditions of the contractual obligation are such that the economic benefit of the asset flows to the Council at that time, similar to an asset that a Council constructs or develops for its own use.

Non-current assets recognised on the Balance Sheet are re-valued and depreciated in the same way as property, plant and equipment owned by the Council.

each year are analysed into five elements: -

The amounts payable to the PFI operators each year are analysed into five elements:

- fair value of the services received during the year – debited to the relevant service in the Comprehensive Income and Expenditure Statement,
- finance cost – an interest charge on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement,
- contingent rent – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement,
- payment towards liability – applied to write down the Balance Sheet liability due to the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease),
- lifecycle replacement costs – Recognised as additions to Property, Plant and Equipment in the Balance Sheet as the scheduled works are carried out and the expenditure is incurred.
- lifecycle replacement costs – are accounted for as they are incurred. Where the profile of lifecycle expenditure actually incurred by the PFI operator differs significantly from the projected profile included within the PFI model adjustments are made to account for the difference. A prepayment is recognised where planned expenditure paid for through the unitary payment exceeds the actual amount incurred by the PFI operator. An additional liability is recognised where planned expenditure is less than that actually incurred. The prepayment / additional liability is carried forward in the balance sheet until the expenditure is actually incurred / settled, or , in the case of a prepayment when there is no longer an expectation that it will eventually be incurred by the PFI operator at which point it is charged to revenue. Lifecycle replacement costs which represent the refurbishment or replacement of major components are capitalised as Property, Plant and Equipment in accordance with Accounting Policy 13.

17 Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at Fair Value being the price that would be received from the selling the asset in an orderly transaction between market participants under the market conditions prevailing at the end of the reporting period. Investment Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received and expenditure incurred in relation to investment properties are credited/charged to the Financing and Investment Income line in the Comprehensive Income and Expenditure Statement.

Revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

18 Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure is not capitalised). Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired and any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

19 Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset is charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. This includes transformational expenditure on reform projects capitalised under the capital receipts flexibilities implemented with effect from 1 April 2016 under the Local Government Act 2003. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

20 Heritage Assets

Heritage assets' principal purpose is to contribute to knowledge and culture and are assets which are preserved in trust for future generations for their artistic, cultural, environmental, historical, scientific or technological associations. They are recognised on balance sheet at cost or value. Where they are carried at value, the most appropriate and relevant valuation method is used including, e.g., insurance values. Revaluations

are carried out as and when necessary in order to keep carrying values current (there is no requirement for them to be revalued at least every 5 years).

Operational heritage assets (i.e. those that are being held for their heritage characteristics, but are also used for other activities or services) are accounted for as operational assets.

Depreciation is not provided on heritage assets where they have indefinite lives.

Revaluation gains and losses and impairments of heritage assets are accounted for in exactly the same way as for Property, Plant and Equipment.

21 Financial Instruments

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- amortised cost,
 - fair value through profit or loss (FVPL), and
 - fair value through other comprehensive income (FVOCI).
- **Treasury Investments:**
- Those valued at **Amortised Cost** – assets that have fixed or determinable payments but are not quoted in an active market. These assets are Solely for Principal and Interest (SPPI), and they are part of the Council's Business Model. Whist Money Market Funds (MMF) behave as Amortised Cost, strictly they are FVPL, but there is little material difference in accounting, as such the Council will treat them as Amortised Cost.
- **Non-Treasury Investments:**
- These are assets that may have a quoted market price and/or do not have fixed or determinable payments, although where, for instance a loan is provided to a third party (SPPI), and is for a policy reason, then it would be at Amortised cost too. Where it is not Amortised cost, this classification has two further sub sets for valuation:
- **Fair Value through Comprehensive Income (FVCI)**, policy driven investments (not solely for profit), activity, which would normally simply be equity stakes in joint companies etc.
 - **Fair Value through Profit and Loss (FVPL)**, assets held purely for commercial investment (primarily for profit, firstly to raise monies/profit, that will be used to support the execution of normal service functions.

(a) Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

When the Council makes loans at less than market rates (soft loans) a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on the de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

(b) Fair Value Through Profit or Loss (FVPL) and Fair Value through Comprehensive Income (FVCI)

These are assets that have a quoted market price and/or do not have fixed or determinable payments. Of this classification those assets that are policy driven investments, not used to solely generate profit, but to actively support the execution of normal service functions are to be valued at Fair Value through Comprehensive Income (FVCI). They are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. Where the asset has fixed or determinable payments, then this would be Amortised Cost (as above) with annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council. In practice FVCI is likely to contain only service equity investments,

Assets are maintained in the Balance Sheet at fair value. Fair value is measured by reference to prevailing interest or market rates using an appropriate valuation technique.

Changes in fair value posted to Other Comprehensive Income and Expenditure. Movements in impairment loss allowances debited/ credited to Surplus or Deficit on the Provision of Services (with a compensating credit/debit not against the carrying amount of the asset but to Other Comprehensive Income and Expenditure to offset movements against gains/losses on fair value). Cumulative gains/losses on fair value are posted to the Surplus or Deficit on the Provision of Services on derecognition.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses)

(c) Fair Value Through Other Comprehensive Income (FVOCI)

These are assets held purely for commercial investment (primarily for profit). All gains and losses posted to Surplus or Deficit on the Provision of Services as they arise.

Expected Credit Loss Model

The authority recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month (i.e. the normal expectation of loss for this category of investment, no event occurring) or lifetime basis (whereby the initial assessment of risk has changed significantly by an event occurring). The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority. Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month

expected losses. The authority holds loans with three local businesses. It does not have reasonable and supportable information that is available without undue cost or effort to support the measurement of lifetime expected losses on an individual instrument basis. It has therefore assessed losses for the portfolio on a collective basis.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value this being the price that would be paid in an orderly transaction between market participants on the date on which the liability is recognised. Ordinarily, this will be the transaction price, such as the principal amount of a loan received. Thereafter they are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised. For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

The amount of interest charged to the HRA is determined on a fair and equitable share basis by reference to the HRA's Capital Financing Requirement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Where the Council has entered into financial guarantees that are not required to be accounted for as financial instruments they are reflected in the Statement of Accounts to the extent that provisions might be required or a contingent liability note is needed under the policies set out in the section on Provisions, Contingent Liabilities and Contingent Assets.

22 Employee Benefits

Benefits Payable During Employment

Short-term employee benefits (those that fall due wholly within 12 months of the year-end), such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees, are recognised as an expense in the year in which employees render service to the Council. An accrual is made against services in the Surplus or Deficit on the Provision of Services for the cost of holiday entitlements and other forms of leave earned by employees but not taken before the year-end and which employees can carry forward into the next financial year. The accrual is made at the remuneration rates applicable in the following financial year. Any accrual made is required under statute to be reversed out of the General Fund Balance

by a credit to the Accumulating Compensated Absences Adjustment Account via the Movement in Reserves Statement.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis at the earlier of when the Council can no longer withdraw an offer of those benefits or when the Council recognises the cost of restructuring.

Redundancy payments are charged to the relevant service line in the Comprehensive Income and Expenditure Statement.

Pension strain costs are charged to Non Distributed Costs in accordance with statutory provisions which require that the General Fund be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards.

Post-Employment Benefits

Employees of the Council are members of three separate pension schemes:

- The National Health Service Pension Scheme, administered by the NHS Business Services Authority (NHSBSA).
- The Teachers' Pension Scheme, administered by Teachers' Pensions on behalf of the Department for Education.
- The Local Government Pensions Scheme (LGPS), administered by South Yorkshire Pensions Authority.

All three schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The arrangements for both the National Health Service and Teachers' schemes mean that liabilities for these benefits cannot be identified specifically to the Council. These schemes are therefore accounted for as if they were a defined contributions scheme – no liability for future payments of benefits is recognised in the Balance Sheet and the Public Health and Children's and Education Service line in the Comprehensive Income and Expenditure Statements are charged with the employer's contributions payable to the National Health Service and Teachers' Pensions Scheme in the year.

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the South Yorkshire Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc., and projections of earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on high quality corporate bonds. In determining these liabilities, an assumption has been made on the advice of our actuaries that 50% of employees retiring will take an increase in their lump sum payment on retirement in exchange for a reduction in their future annual pension.
- The assets of the South Yorkshire Pension Fund attributable to the Council are included in the Balance Sheet at their fair value.
- The change in the net pensions liability is analysed into the following components:
 - current service cost – the increase in liabilities as result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.

- past service cost – the increase in liabilities arising from current year decisions as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- net interest – interest receivable on the fair value of plan assets held at the start of the period adjusted for changes in plan assets during the year as a result of contributions and benefit payments less the interest payable on pension liabilities both determined using the discount rate based on high quality corporate bonds used to measure the defined benefit obligation at the beginning of the period – debited/credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.
- re-measurements - return on plan assets (net of admin expenses and excluding amounts included in net interest) and actuarial gains/losses that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions debited/credited to the Pensions reserve as Other Comprehensive Income and Expenditure.
- contributions paid to the South Yorkshire pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.
- In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

23 Repayment of Debt – Metropolitan Debt

The Council is responsible for administering the former South Yorkshire County Council debt portfolio. Part of this debt portfolio is the Council's own liability (as a former member of the SYCC) and as such it will make its own principal and interest payments. Principal repayments are based on a 10% Sinking Fund using a methodology prescribed in Statutory Instrument 1986 No. 437 it was extinguished during 2020/21. As at 31 March 2021 the debt in relation to the former South Yorkshire County Council was fully repaid.

24 Value Added Tax (VAT)

VAT payable is included only to the extent that it is irrecoverable from HM Revenue & Customs, whilst VAT receivable is excluded from income. The net amount due from/to HMRC at the end of the financial year is included within debtors or creditors.

25 Events after the Reporting Period

Events after the reporting period are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the audited Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events,
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date the Strategic Director - Finance and Customer Services authorises the audited Accounts for issue are not reflected in the Statement of Accounts.

Covid-19: Although as at 31 March 2021 some of the potential financial impacts of the Covid-19 pandemic were known and to a degree mitigated through Government emergency grant, there is potential for the financial implications of Covid-19 to impact the Council over the medium to longer term. It is recognised that the pandemic is potentially an Adjusting Balance Sheet Event in the context of the 2020/21 Financial Statements, however there is still considerable uncertainty with respect to the progress of the pandemic and of the national recovery. Detailed notes are included where appropriate within the statements identifying the impact of Covid-19 in 2020/21.

26 Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

27 Interests in Companies and Other Entities

Where the Council exercises control, shares control or exerts a significant influence over another entity, and the Council's interests are material in aggregate, it will prepare Group Accounts. The Council's interest in another entity can be contractual or non-contractual and may be evidenced by, but is not limited to, the holding of equity or debt instruments in the entity as well as other forms of involvement such as the provision of funding, liquidity support, credit enhancement and guarantees.

The Council has control over another entity, where it is able to direct the activities of that entity such that it is has exposure to or rights over variable returns and can use its power over the entity to affect the returns it receives.

Shared control with another party or parties in a joint venture arises where decisions about activities that significantly affect returns require the unanimous consent of the parties sharing control including the Council.

The Council can exert a significant influence over an associate where the Council has the power to participate in the financial and operating policy decisions of an entity which fall short of control or joint control.

The Council's single entity financial statements include the income, expenditure, assets, liabilities, reserves and cash flows of the local Council maintained schools within the control of the Council.

Where local Council maintained schools convert to academies during the year, the assets, liabilities and reserves of the school are deconsolidated from the Council's single entity accounts at their carrying amount at the date of conversion unless the school has a deficit for which the Council retains responsibility. The Non-Current Assets

of the school are derecognised when the Council relinquishes control over school premises which it had held as a local Council maintained school through ownership, legally enforceable rights or some other means.

Interests in companies and other entities are recorded in the Council's balance sheet as financial assets at cost, less any provision for losses.

28 Acquisitions and discontinued operations

Transfers of functions to or from other public sector bodies are accounted for with effect from the date of transfer. Assets and liabilities are transferred at their carrying value at the date of transfer unless otherwise agreed and the balance sheet restated to reflect the value of assets brought onto or removed from the balance sheet. The financial effect of functions transferred, to or from the Council are disclosed separately in the current year as "transferred in" or "transferred out" operations. The financial effect of functions transferred to another public sector body are disclosed separately in the comparative year to enable the performance of continuing operations to be compared on a like for like basis.

A function in this context is an identifiable service or business operation with an integrated set of activities, staff and recognised assets and/or liabilities that are capable of being conducted and managed to achieve the objectives of that service or business operation.

Discontinued operations are activities that cease completely. Income and expenditure relating to discontinued operations are presented separately on the face of the Comprehensive Income and Expenditure Statement.

B **ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED**

Implementation of IFRS16 Leases was due to be included in the CIPFA Code of Practice on Local Authority Accounting for 2020/21. Implementation has been delayed until 2022/23 financial year. Work is ongoing to assess whether IFRS16 will have any material impact on the statement of accounts.

Short term leases and leases where the underlying asset is of low value are exempt. Any other lease will result in a right of use asset being carried in the balance sheet together with a liability for the payments.

C CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- Following the 2019 Triennial revaluation an agreement was reached with South Yorkshire Pensions Authority to prepay 80% of estimated employer's ongoing service contributions of 17.2% of pensionable pay for the three year valuation period in return for a discount. The payment of £42.858m made in April 2020 related to the financial years 2020/21, 2021/22 and 2022/23 and the discount of £2.550m has been apportioned over the three years in accordance with the Pensions Authority methodology.
- Better Care Fund – The Council entered into a partnership agreement with Rotherham Clinical Commissioning Group (CCG) in April 2015 to manage the Better Care Fund (BCF) as a pooled budget arrangement from 2015/16 onwards. A joint assessment was conducted with the CCG on how the arrangement should be accounted for by reference to the Department of Health Group Manual for Accounts 2015/16 (Chapter 3 Annex 1) and the guidance on “Pooled budgets and the Better Care Fund” produced in October 2014 by HFMA /CIPFA. In accordance with this guidance, the Council recognises this as a joint operation under joint arrangements in accordance with IFRS11 in respect of accounting for the income and expenditure and assets and liabilities proportionate to the risks and rewards it enjoys. The total available BCF funding for 2020/21 was £42.690m, of which the Council was allocated and recognised in its accounts £31.511m of income and £27.728m of expenditure, resulting in an underspend of £3.783m which was approved by the BCF Board.
- Business rates appeals – The introduction of the business rates retention scheme with effect from 1 April 2013, means that the Council shares in the risks and rewards of growth or decline in business rates income with central government and the fire authority. As a consequence the Council recognises on its balance sheet its proportion of business rates assets and liabilities including its share of refunds to business ratepayers as a result of appeal. Valuation Office statistics on appeals lodged and settled since the April 2010 rating valuation to the 2017 revaluation has been used to arrive at the best estimate of the likely level of business rate income collectable up to and including 2020/21 which may have to be refunded as a result of outstanding appeals as at 31 March 2021. Since the 2017 revaluation the appeals process has changed resulting in the Valuation Office no longer providing the same statistics, as a result the addition to the provision for potential refunds relating to amounts billed in 2017/18 and subsequent years has been calculated as a percentage of the amount billed. The Council's share of the provision for appeals £4.624m is shown as a provision in Note 36.

D ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

Pensions liability

Included in the Council's Balance Sheet at 31 March 2021 is an estimated pensions liability of £485m. This compares to £450m at 31 March 2020 and £460m at 31 March 2019. The volatility in the amount of the liability is due to it being highly sensitive to a number of key assumptions used to determine pension fund liabilities, including the rate at which future liabilities are discounted to present value terms, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates, indexation of pensions and the rate of inflation. The sensitivity analysis provided in Note 18 sets out how small changes to these key assumptions can result in a material change to the pensions liability. A firm of consulting actuaries is engaged by South Yorkshire Pensions Authority to provide expert advice about the best assumptions to be applied based on information available each year end.

The full impact on the pension fund assets as a result of the Covid-19 pandemic remains unknown, this includes any potential impact on projected investment returns. The Pensions Authority that administers the Council's Pension Fund has directly held properties within the pension fund. The valuation specialists for these properties attached a 'material valuation uncertainty' in the accounts for 2019/20, for this year ending 31 March 2021 the valuers consider the additional uncertainty arising from the pandemic has reduced sufficiently that their valuation report is no longer subject to a material uncertainty clause. This is also disclosed in the Pensions Authority's financial statements for the year ended 31 March 2021. Rotherham Metropolitan Borough Council's share of these property assets is considered material to the Council's financial statements. The Council's share of these assets has been included in the pension asset valuation reported in the Council's financial statements as at 31 March 2021.

Property, Plant and Equipment

Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets. If the useful lives of the assets reduce, depreciation increases and the carrying amount of the assets falls.

Due to the potential impact of the Covid-19 pandemic the Council's valuations are reported on the basis of 'material valuation estimation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty and a higher degree of caution should be attached to our valuation than would normally be the case. Given the unknown future impact that Covid-19 might have on the real estate market, the valuation of property should remain under frequent review.

Note 1 Expenditure and Funding Analysis

The objective of the Expenditure and Funding Analysis (EFA) is to demonstrate to council tax [and rent] payers how the funding available to the authority, i.e. government grants, rents, council tax and business rates for the year, has been used to provide services compared with those resources consumed or earned by authorities in accordance with generally accepted accounting practices (as shown in the Comprehensive Income and Expenditure Statement (CIES). The EFA also shows how this expenditure is allocated for decision making purposes between the Council's Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the CIES on page 6.

Notes:

- Capital Adjustments - This column adds in depreciation and impairment and revaluation gains and losses in the services line, and for:
 - Other operating expenditure – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
 - Financing and investment income and expenditure – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
 - Taxation and non-specific grant income and expenditure – capital grants are adjusted for as it is income that is not chargeable under generally accepted accounting practices. Revenue grants receivable in the year are adjusted to take out any grants that have conditions that have not been met in the year. This line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.
- Pensions Adjustments - Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:
 - For services – this is the removal of the employer pension contributions made by the authority as allowed by statute and replaced with current and past service costs.
 - For Financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the CIES.
- Other Adjustments i.e. between amounts debited/credited to the CIES and amounts payable/receivable to be recognised under statute:
 - For Financing and investment income and expenditure – this column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
 - The charge under Taxation and non-specific grant income and expenditure – represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

Note 1b **Income and Expenditure Analysed by Nature**

The authority's expenditure and income is analysed as follows:

Expenditure/Income	2019/20 £000	2020/21 £000
Expenditure		
Employee benefits expenses	204,927	198,404
Other services expenses	355,715	376,682
Depreciation, amortisation, impairment	35,009	37,408
Interest payments	31,947	28,935
Precepts and levies	15,710	15,875
Payments to Housing Capital Receipts Pool	1,906	1,861
Loss on the disposal of assets	7,545	18,875
Total expenditure	652,759	678,040
Income		
Fees, charges and other service income	(167,714)	(161,771)
Interest and investment income	(320)	(91)
Income from council tax and non domestic rates	(149,288)	(138,071)
Government grants and contributions	(309,778)	(366,838)
Total income	(627,100)	(666,771)
Deficit on the Provision of Services	25,659	11,269

Note: There has been a significant increase in expenditure for 2020/21 due to the Covid-19 response and additional cost pressures this created across the Council, in addition sales, fees and charges and income from NNDR were down year on year. However, Government grants were significantly increased to assist the Council in mitigating these pressures.

Note 1c Income Analysed by Segment

International Reporting Standard IFRS15 was adopted in the 2018/19 Code of Practice on Local Authority Accounting. Per IFRS15 income from contracts with customers is recognised when the obligation has been fulfilled, i.e. when the service has been provided. Income received in year relating to services that will be provided in the following financial year is accrued to the year that the service will be provided.

Financial Statements have always been prepared on an accruals basis as stated in the accounting policies, therefore the application of IFRS15 has resulted in no change to the recognition of income.

Other income is that which falls outside the definition of income from contracts with service recipients and is mainly non government grants/contributions.

The authorities fees, charges and other income is analysed as follows:

2019/20	2019/20	2019/20		2020/21	2020/21	2020/21
Income from contracts with service recipients £000	Other income £000	Total income £000		Income from contracts with service recipients £000	Other income £000	Total income £000
(15,602)	(5,749)	(21,351)	Adult Care and Housing	(13,623)	(10,250)	(23,873)
(82,998)	(944)	(83,942)	Local Authority Housing (HRA)	(83,041)	(712)	(83,753)
(2,426)	(1,353)	(3,779)	Children and Young People's Services excluding schools	(2,621)	(1,995)	(4,616)
(2,568)	(2,581)	(5,149)	Schools	(1,332)	(3,081)	(4,413)
(30,650)	(1,106)	(31,756)	Regeneration and Environment Services	(23,006)	(1,945)	(24,951)
(2)	(20)	(22)	Public Health	(25)	(13)	(38)
(2,374)	(25)	(2,399)	Assistant Chief Executive Office	(2,083)	(73)	(2,156)
(733)	(1,434)	(2,167)	Finance and Customer Services	(416)	(569)	(985)
0	(15,549)	(15,549)	Central Services	0	(15,423)	(15,423)
0	(1,600)	(1,600)	Other income below Cost of Service	0	(1,563)	(1,563)
(137,353)	(30,361)	(167,714)	Total Income analysed on a segmental basis	(126,147)	(35,624)	(161,771)

Major source of income from contracts with service recipients:

Adult Care and Housing:	Adult Residential Care
Local Authority Housing (HRA):	Housing Rents
Children and Young People's Services:	Educational Support Services to Academies
Schools:	Fees to parents and room lettings
Regeneration and Environment Services:	A wide range of services including School Meals, Waste Collection/Treatment, Bereavement Services, Licencing, Civic Theatre, Development Control, Registrars, Markets, Building Cleaning and Parking
Assistant Chief Executive Office:	Human Resources services
Finance and Customer Services:	IT services to academies & Schools Insurance Scheme

Note 2 Adjustments between Accounting Basis and Funding Basis

This note details the statutory adjustments for the differences between the way transactions are presented on a commercial accounting basis and the amounts which are statutorily required to be met under the Local Authority Accounting Framework from local taxpayers and housing rents to meet the cost of General Fund and HRA services.

Earmarked General Fund Reserves

This note sets out the amounts set aside from the General Fund and HRA balances in earmarked reserves to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet expenditure in 2020/21. A brief description of the purpose of each reserve is provided as follows:

(i) Transformation Reserve

This reserve is to be used to fund costs associated with transformational change in the delivery of Council services.

(ii) Insurance Fund Reserve

This reserve was set up to cover claims incurred but not yet reported to the Council and not taken account of in the Insurance Provision. The reserve is no longer needed and was therefore cleared in 2019/20.

(iii) Business Rates Reserve

This reserve is to cover residual risks relating to appeals.

(iv) Pension Reserve

The Pension Reserve was to be used to meet the Council's pension obligations across the medium term. The reserve is no longer needed and was therefore cleared in 2019/20.

(v) PFI – Schools

This PFI arrangement will last for 30 years. The reserve recognises the fact that receipts and payments into the reserve are smoothed out over the life of the contract so that the balance on the reserve at the end of the contract is nil.

(vi) Revenue Grant Reserve

The Revenue Grant Reserve represents revenue grants which have been recognised within income as the grant's terms and conditions have been met but yet to be applied. They will be used to meet future spending plans relevant to the grant.

(vii) Budget Strategy Reserve

This reserve is available to support the Council's revenue budget position for as approved within the Council's Budget Report for 2021/22. The reserve contains £2m for a Covid recovery fund to support those residents most impacted by the pandemic and a £2.4m fund to support the Council's Medium Term Financial Strategy budget gap for 2022/23 as per the Council's budget report for 2021/22.

(viii) Budget Contingency Reserve

This reserve is available to support the Council's revenue budget position over the short term whilst levels of Local Authority funding remain uncertain.

(ix) Housing Transformation Fund

This reserve is established for the management of shared savings generated through the contractual arrangement with the Council's repairs and maintenance contractors. The fund will be used to support key housing programmes and projects that require general fund support.

(x) HRA Sinking Fund Reserve

The HRA Sinking Fund reserve is used to retain contributions from Shared Ownership leaseholders that are a compulsory requirement of their lease. The reserve will be used to fund future capital repairs and replacements to their properties. The monies can only be used to fund works to their individual property or estate, they cannot be used for any other purpose.

(xi) CYPS Social Care Reserve

The Children's and Young Peoples Services Social Care Reserve has been set up to help mitigate the continued cost pressures in relation to Children's and Social Care costs.

(xii) Other Reserves

The remaining reserves have been set up to hold approved carry forwards for use in future years.

(xiii) DSG Grant Reserve

The Dedicated School Grant (DSG) is a ring fenced specific grant and it must be used in support of the schools budget as defined in the School and Early Years Finance (England) (No 2) Regulations 2018. Local authorities are responsible for determining the split of the grant between central expenditure and the individual schools budget (ISB) in conjunction with local schools forums. There is currently a deficit balance on the Dedicated Schools Grant, which in accordance with Government policy, can be carried forward for the deficit to be addressed in future years. Children's and Young Peoples Service have implemented a plan to start to recover the deficit, however this is dependent in part on future levels of government funding and approval of disapplication requests.

(xiv) Covid 19 Grant Reserve

Government allocated the Council Covid-19 emergency support funding and specific Covid-19 grants to mitigate the financial pressures as a result of the Covid-19 response. These payments were made to the Council in 2020/21 to support budget planning and cashflow management, however many of the grants are for financial implications that will require mitigation post 2020/21. The Covid-19 Grants Reserve holds these balances until they are deployed. The reserve includes £16.9m of S31 grants to support additional business rate relief provided during 20/21 that will impact on the General Fund during 2021/22.

Note 4 Other Operating Expenditure

2019/20		2020/21	
£000		£000	Notes
2,977	Parish Council precepts	3,135	
12,733	Levies payable	12,740	
1,906	Payments to the Government Housing Capital Receipts Pool	1,861	
7,545	Loss on disposal of non current assets	18,824	49
0	Loss on revaluation & disposal of Assets Held for Sale	51	22
25,161	Total	36,611	

Note 5 Financing and Investment Income and Expenditure

2019/20		2020/21	
£000		£000	Notes
31,947	Interest payable and similar charges	31,455	26

(320)	Interest receivable and similar income	(91)	26
(874)	Income and expenditure relating to Investment Properties and changes in their fair value	5,700	20
42,070	Total	47,644	

Note 6 Surplus / Deficit on Trading Services, including dividends from companies

The Council considers a trading operation exists where the service it provides is competitive i.e. the service user has the choice to use an alternative supplier than the Council and the Council charges the user on a basis other than a charge that equates to the costs of supplying the service.

The trading accounts operated by the Council during the year are as follows:

2019/20				2020/21		
Expenditure	Income	(Surplus) / Deficit		Expenditure	Income	(Surplus) / Deficit
£000	£000	£000		£000	£000	£000
15,199	(14,990)	209	Construction, Street Cleansing and Landscaping	15,070	(15,654)	(584)
961	(888)	73	Vehicle Maintenance	1,438	(1,077)	361

6,419	(5,263)	1,156	Cleaning of buildings	6,189	(5,114)	1,075
1,207	(757)	450	Markets	961	(216)	745
431	(400)	31	Building Regulations Control	396	(460)	(64)
8,533	(7,873)	660	School Support Services	6,349	(4,959)	1,390
35,176	(33,565)	1,611	(Surplus) / Deficit	32,853	(30,983)	1,870

Traded services are included in the Comprehensive Income and Expenditure Statement within the Service that they are based. The Council's traded services include:

Construction, Street Cleansing and Landscaping

Streetpride maintains over 680 miles of highways in a clean and safe condition for pedestrians, motorists, other road users and local communities.

Vehicle Maintenance

Management and policy of the Council's vehicle fleet and ensuring legislative standards are maintained.

Property Services – Fee Billing

Quantity surveyors, project managers, architects, valuers involved in the valuation and construction of new and existing Council buildings.

Engineering – Fee Billing

Streetpride provides a design, inspection, assessment service and carries out engineering works to buildings, bridges, structures and highways.

Cleaning of Buildings

Facilities Services provides a cleaning service for schools and other premises owned by Rotherham MBC. This service is also utilised by the NHS in certain buildings.

Markets

The Council operates regular markets in Wath and Rotherham town centre.

Building Regulations Control

Building Control service begins at preplanning application stage and continues throughout the entire planning and construction process. Ultimately the Council aims to provide a service that will achieve a fast and trouble-free Building Regulation approval and a rapid response inspection process that will assist a project to fully comply with the Building Regulations when complete. The Council has adopted a charging policy for Building Regulation charges in line with the Building (Local Council Charges) Regulations 2010.

School Support Services

School support services provides catering and the provision of supply staff to schools, teachers absence in-house insurance scheme and schools finance support team.

Note 7 **Taxation and Non Specific Grant Income**

2019/20 £000		2020/21 £000	Notes
112,486	Council Tax Income	115,920	
36,802	Non Domestic Rates	22,151	
41,149	Business Rates grants	46,534	
35,727	Non Ring-fenced government grants	51,142	8
19,109	Capital Grants and Contributions	35,783	8
245,273	Total	271,530	

Note 8 **Analysis of grant income credited to the CIES and capital grant received in advance**

The Council receives certain government grants which are not attributable to specific services. The amount of General Revenue Grants Credited to Taxation and Non Specific Grant Income was as follows:

2019/20 £000		2020/21 £000
14,857	Revenue Support Grant	15,100
9,822	PFI Grant	9,822
8,922	Covid19 Funding	25,033
2,126	Other Non Specific Revenue Grants	1,187
35,727	Total	51,142

Capital Grants Credited to Taxation and Non Specific Grant Income:

2019/20 £000		2020/21 £000
10,335	Department for Transport	8,882
152	Environment Agency	456
735	Education Funding Agency: LA Maintained Maintenance Grant	1,538
443	Education Funding Agency: Basic Need Pupil Places	-1,399
17	Education Funding Agency: LA Maintained Devolved Formula	96
146	Education Funding Agency: Targeted Basic Need	0
14	Department of Health	-16
3,229	S106 Contributions	4,692
882	Ministry of Housing, Communities & Local Government	3,648
323	SOAHP Grant Housing England	0
169	Other Local Authorities and Partners	286
96	Sheffield City Region	7,198
1,013	Department of the Environment	8,268
0	Department of Business, Energy & Industrial Strategy	1,137
245	European Development Fund	288
9	Forestry Commission	0
0	Heritage Asset Donations	13
1,302	CIL Contributions	696
19,109		35,783

Community Infrastructure Levy (CIL) income has been disclosed within the Capital Grants table above, in line with the Community Infrastructure Levy (CIL) regulations 2010.

Significant Revenue Grants attributable to specific services and which have therefore been credited to Cost of Services were as follows:

2019/20 £000		2020/21 £000
84,341	Dedicated Schools Grant (Note 16)	84,974
62,758	Housing and Council Tax Benefit: subsidy	58,533
0	Covid 19 Funding	25,460
587	Flood Grant	-18
121	Sixth Form Funding	10
1,338	Troubled Families & Troubled Families Co-ordinator	1,139
4,739	Pupil Premium	4,165

The Council has received a number of capital grants and contributions that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the funding body if they are not applied for their intended purpose. The balance of capital grant received in advance at the year-end is shown in the table below, this includes a debit balance in relation to the repayment of Homes England grant, the grant had to be repaid as the property it was used to fund was subjected to a Right to Buy:

31 Mar 20		31 Mar 21
£000		£000
6,589	Section 106 Developer Contributions	1,990
374	CIL Contributions	184
0	Homes England Recycled Grant	-144
6,963	Total of Capital Grants Received in Advance	2,030

Section 106 Developer Contributions

Section 106 Developer Contributions are monies paid to the Council by developers as a result of the grant of planning permission where works are required to be carried out or new facilities provided as a result of that permission. The sums are restricted to being spent only in accordance with the agreement concluded with the developer.

The major balances of Section 106 receipts held by the Council at the year end are as follows:

Income	Expenditure	2019/20		Income	Expenditure	2020/21
£000	£000	£000		£000	£000	£000
(34)	13	(21)	F&CS/ACE - General Fund	(50)	8	(63)
(265)	216	(1,144)	Regeneration & Environment – General Fund	(45)	64	(1,125)
(7,838)	3,104	(4,967)	CYPS - General Fund	(1)	4,659	(309)
(60)	0	(455)	HRA	(37)	0	(492)
(8,196)	3,332	(6,588)	Total	(133)	4,732	(1,990)

Note 9 Acquired and discontinued operations

The Council did not acquire any new operations in 2020/21.
All of the Council's income and expenditure relates to continuing operations.

Note 10 Agency Services

NHS Funded Nursing Care

The Council administers on behalf of Rotherham Clinical Commissioning Group (CCG) the financial process/procedures relating to the payment of NHS funded nursing fees to nursing care providers, under Health Act flexibilities (section 256 of the NHS Act 2006). The agreement covers the fees for NHS funded nursing care, cost of incontinence products, administration costs and nursing cost of assessments. Any overspend against the approved budget will be recharged by the Council to Rotherham CCG, any underspend will be reimbursed by the Council to Rotherham CCG.

The under spend in the current and previous year were as follows:

2019/20		2020/21
£000		£000
(2,018)	Gross income	(2,071)
2,018	Gross expenditure	2,071
0	(Under) / over spend	0

Note 11 Transport Act

Authorities are allowed to operate a road charging or workplace charging scheme under the Transport Act 2000. There is no such scheme in place in Rotherham.

Note 12 Pooled Budgets

The Council, through Adult Social Services, has a pooled budget arrangement with Rotherham Clinical and Commissioning Group (RCCG) (formerly, NHS Rotherham) in respect of the Better Care Fund to enable joint working under section 75 of the National Health Service Act 2006.

An assessment carried out by the Council recognises this as a joint operation under joint arrangements in accordance with IFRS11 which is managed through a Section 75 Framework Agreement for the commissioning of services.

The Better Care Fund is split into two Pools. RMBC host Pool 1 with income of £31.511m, which includes the former Intermediate Care and Equipment pooled budgets together with Occupational Therapy services, falls prevention, jointly commissioned integrated services and management of the Disabled Facilities grant funding. The RCCG host Pool 2 with income of £11.179m which supports Adult Mental Health Liaison, social care including residential care and keeping people in their own homes, care management and supporting discharge from hospital and support for carers.

The finance involved in the arrangements where the Council acts as host is detailed as follows:

2019/20 £000	Better Care Fund - Pool 1 RMBC	2020/21 £000
(509)	Balance B/F	(561)
(10,812)	Rotherham CCG	(12,093)

2,700	Capital Expenditure	1,341
26,704	Revenue Expenditure	26,502
29,404	Total Gross Expenditure	27,843
(405)	Overspend / (Underspend)	(3,668)
(156)	Use of balances	(115)
(561)	Net Balance as at 31 March	(3,783)

2019/20 £000	Better Care Fund - Pool 2 RCCG	2020/21 £000
(11,020)	Rotherham CCG	(11,129)
(50)	Rotherham MBC	(50)
(11,070)	Total Gross Income	(11,179)
10,914	Revenue Expenditure	11,064
10,914	Total Gross Expenditure	11,064
(156)	Overspend / (Underspend)	(115)
156	Transfer of balances	115
0	Net Balance as at 31 March	0

The Council, through Childrens and Young People's Services Youth Offending Team operates a fund, established and maintained by the local authority for expenditure incurred in the provision of Youth Justice Services in Rotherham in order to meet S38 of the Crime and Disorder Act 1998 – Local Provision of Youth Justice Services. Contributions are made from the Police and Crime Commissioner £153K, National Probation Service £5K, Leeds City Council £5k and RCCG £70K in line with subsection 2 of the Crime and Disorder Act.

The Local Authority, through Children and Young People's Services, maintains expenditure incurred in the provision of Rotherham's Local Safeguarding Children Board. This is a statutory body, established in accordance with the Children's Act 2004 and Working Together to Safeguard Children guidance 2015. Contributions are made from the Local Authority (Revenue Budget), Rotherham CCG, South Yorkshire Police, South Yorkshire Probation and CAFCASS.

2019/20 £000	YOS Pooled Budget	2020/21 £000

Note 13 Members' Allowances

Members' allowances and expenses during the year totalled £899,229 excluding Joint Council allowances (2019/20 £926,133).

Detailed information about Members' Allowances can be obtained from the Strategic Director - Finance and Customer Services, Finance and Customer Services Directorate, Riverside House, Main Street, Rotherham, S60 1AE.

2019/20 £000	Members Allowances	2020/21 £000
723	Basic allowance	691
203	Special responsibility allowances	208
0	Travel	0
926	Total Members' Allowances and Expenses	899
926	Total	899

Note 14 Staff Remuneration

The Accounts and Audit Regulations 2015 require the disclosure of certain information relating to officers' remunerations. Details of the number of employees who received remuneration of £50,000 or more based on 2020/21 payroll information, expressed in bands of £5,000 is as follows:

2019/20			2020/21	
Officers Total	Teachers Total		Officers Total	Teachers Total
34	8	50,000.00 to 54,999.99	48	10
29	17	55,000.00 to 59,999.99	24	9
15	2	60,000.00 to 64,999.99	17	10
11	5	65,000.00 to 69,999.99	21	3
4	8	70,000.00 to 74,999.99	3	2
3	2	75,000.00 to 79,999.99	2	2
2	1	80,000.00 to 84,999.99	3	1
11	1	85,000.00 to 89,999.99	3	0
1	0	90,000.00 to 94,999.99	8	1
1	0	95,000.00 to 99,999.99	1	0
1	0	100,000.00 to 104,999.99	0	0
0	0	105,000.00 to 109,999.99	0	0
0	0	110,000.00 to 114,999.99	0	0
0	0	115,000.00 to 119,999.99	0	0
0	0	120,000.00 to 124,999.99	0	0

The number of employees whose remuneration was £50,000 or more includes staff who have been given approval to leave the Council under the terms of its Voluntary Severance arrangements (that is Voluntary Early Retirement, Voluntary Redundancy, Compulsory Redundancy, Phased Retirement and Redeployment). In some cases that has resulted in these staff falling into higher banding brackets than would otherwise be the case. In 2020/21, the number of such employees was 0 (0 officer and 0 teachers).

The number of officers and teachers whose remuneration fell between £50,000 - £124,999, has increased year on year by 12 overall, in the main, due to a pay award taking a pay scale into the over £50,000 bracket. There has also been some conversion of Schools to Academies which has reduced the Teachers total.

The above table excludes senior employees whose remuneration for 2019/20 and 2020/21 are shown in the Senior Officer notes below.

The disclosure for Senior Officers remuneration includes Senior Officers who are a member of the Senior Leadership Team and in Statutory and Non-Statutory Chief Officers roles and any other officer whose salary details are required to be disclosed by the Accounts and Audit Regulations 2015, including any other employees whose salary exceeds £150,000. The table also includes the Assistant Director of Legal Services as the post holder is the Monitoring Officer.

- (i) Sharon Kemp commenced her employment as the Chief Executive on 18 January 2016.
- (ii) The previous post holder of Assistant Chief Executive officially left the Council on 18 May 2020. Additional payment related to unused leave entitlement on leaving.
- (iii) The current post holder of Assistant Chief Executive commenced their employment on 1 January 2021.
- (iv) The previous post holder of Strategic Director of Children and Young People's Services officially left the Council on 30 October 2020. Additional payment related to unused leave entitlement on leaving.
- (v) The current post holder of Strategic Director of Children and Young People's Services commenced their employment on 26 October 2020.
- (vi) The Strategic Director of Regeneration and Environment commenced their employment on 28 February 2019.
- (vii) The Strategic Director of Adult Care and Housing commenced their employment on 8 August 2016.
- (viii) The Strategic Director of Finance and Customer Services commenced their employment on the 1 April 2016.

- (ix) The role of Monitoring Officer being covered by the Head of Legal Services, on an interim basis, until a full recruitment process could be completed. Additional payment related to honorarium for being the Monitoring Officer.
- (x) The LGPS Employer Pension contributions disclosed in 2020/21 are based on the common rate of contribution set by the Actuary of 17.2 percent. This has increased from 14.9 percent in 2019/20.

Senior Officer salary costs for 2020/21 have not materially increased or decreased compared to 2019/20.

Further disclosure for exit packages

In order to bring about a structured approach to reducing staff numbers to achieve necessary budget savings, the Council has continued to operate a voluntary severance scheme during 2020/21. The table below shows the cost to the Authority of staff who have left under the voluntary scheme, together with other departures and those who have been made compulsorily redundant. These costs include, where appropriate, the full pension strain cost arising from early retirement, for which the Council is required to make an additional payment to the Pensions Authority. Since 2016/17 the Council has met this additional cost in full in the financial year that the employee's departure is accounted for.

The costs tabulated below are comprised of actual severance payments made during the year less accrued severance payments in respect of individuals who left or were approved to leave during 2019/20 but who were paid in 2020/21 and those staff whose severance was approved and agreed and to which the Council was committed at 31 March 2021 but who are planned to leave in 2021/22.

In 2020/21 no provision was made in respect of severance costs associated with the major restructuring of services (in 2019/20 no provision was made).

These charges are reflected in the total cost of termination benefits shown in Note (xiv) below.

Exit package cost band (including special payments)	Number of compulsory redundancies		Total number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2019/20	2020/21	2019/20	2020/21	2019/20	2020/21	2019/20 £000	2020/21 £000

N.B. The above figures include 1 settlement agreement entered into no settlement agreements to terminate the employment relationship with the School/Council.

(xiv) Termination Benefits

As part of the rationalisation of Council services during 2020/21 88 employees (2019/20, 145) from across the Council, including schools, have been given approval to leave the Council with an exit package (including, Compulsory Redundancies, Voluntary Early Retirement, and Voluntary Redundancy etc.).

The liabilities incurred as a result of the early termination of employees both in schools and non-schools in 2020/21 totalled £0.760m (2019/20 £1.332m) - composed of severance payments of £0.499m (2019/20 £0.793m) and £0.261m in pensions strain costs (2019/20 £0.538m).

Note 15 **External Audit Fees**

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors:

2019/20 £000		2020/21 £000
148	Fees payable for external audit services carried out by the appointed auditor	113
28	Fees payable for the certification of grant claims and returns - to external audit services	35
0	Non-audit services	0
176	Total	148

Note 16 Dedicated Schools Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Education and Skills Funding Agency, the Dedicated Schools Grant (DSG). DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools' Budget, as defined in the School Finance and Early Years (England) Regulations 2017. The Schools' Budget includes elements for a range of educational services provided on an authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2020/21 and the comparative year are as follows:

2019/20				2020/21		
Central Expenditure	ISB	Total		Central Expenditure	ISB	Total
£000	£000	£000		£000	£000	£000
		239,945	Final DSG before Academy recoupment			252,972
		(155,744)	Less Academy figure recouped			(167,769)
		84,201	Total DSG after Academy recoupment			85,203
		(15,114)	Brought forward from previous year			(19,892)
9,824	59,263	69,087	Agreed initial Budgeted Distribution	10,694	54,617	65,311

9,824	59,403	69,227	Final Budgeted Distribution	10,694	54,388	65,082
(29,752)	0	(29,752)	Less actual Central expenditure	(33,061)	0	(33,061)
0	(59,367)	(59,367)	Less actual ISB deployed to schools	0	(53,279)	(53,279)
(19,928)	36	(19,892)	Carry forward to next year	(22,367)	1,109	(21,258)

During recent years Rotherham has faced growing pressure on the High Needs Budget which has resulted in year on year deficits. In 2015/16 the High Needs in-year deficit was £1m, in the last three financial years the annual HNB deficit has been £5m, with a further deficit in 2019/20 of £4.6m and £2.1m in 2020/21 which has contributed to a net deficit in the DSG Central Reserve of £21.3m after taking into account of DSG balances in other DSG funding blocks.

The over spend is as a result of a number of factors; an increase in Education Health and Care Plans, increase in the number of post 16 young people with an EHCP who are now the responsibility of the LA to fund, potentially up until age 25 and an increase in the number of young people accessing higher cost provision.

The Department for Education (DFE) announced in July 2018 that from 2019-20 local authorities would be required to submit a recovery plan to the Department if they have a cumulative deficit of 1% or more of their Dedicated Schools Grant (DSG). A recovery plan was duly submitted by the Local Authority to the DFE. The plan explained in detail how the Local Authority intended to bring the DSG account back into balance. Officers met with DFE colleagues in February 2020 to discuss the plan in detail with a further meeting held in Spring 2021.

The DSG deficit recovery plan is predominantly linked to resolving the budget pressures in the High Needs Block which had a £2.1m overspend in 2020/21. As part of the short term strategy to address the annual pressures a disapplication request was submitted to the Secretary of State to transfer £3m from the Schools Block to the High Needs Block in 2021/22. This request was approved.

A Social and Emotional Mental Health (SEMH) Strategy for Rotherham (to deliver 125 places) is now completed with most provisions now operating, and sets out a number of partnership activities to address the needs of children with SEMH effectively and dampen the demand for higher tier services, including alternative provision. Following on from the SEMH strategy, the Special Educational Needs Sufficiency Strategy was agreed by Cabinet in May 2019, the Sufficiency Strategy aims to further

increase the number of schools places in Rotherham for children with SEND (111 places – almost completed) and reduce the need for high cost placements. Other aspects of the Sufficiency Strategy will concentrate on supporting mainstream schools and academies to become increasingly more inclusive and thus reduce pressures on special school places.

As part of the Government spending review it announced additional funding for schools and high needs, compared to 2019/20 funding rose by £2.6 billion for 2020/21, £4.8 billion for 2021/22 and £7.1 billion for 2022/23. In 2020/21 the £2.6 billion is split £1.9 billion to the Schools Block and £.7 billion to the High Needs Block, in 2021/22 the £4.8 billion is split £3 billion to the Schools Block and £.8 billion to the High Needs Block; the funding split for 2022/23 is still to be determined. For Rotherham this is an additional £5.5m for schools and £4.4m in the High Needs Block for the 2021/22 financial year.

Note 17 **Related Party Transactions**

A person or close family member is a related party of the Council if they have the potential to control or significantly influence the Council's operating or financial decisions or are key management personnel. Close family member is more narrowly defined as a child, spouse or domestic partner, and children and dependants of spouses or domestic partners.

Another body is a related party of the Council if it is a subsidiary, associate or joint venture of the Council or otherwise related, or has the ability to control or significantly influence the Council's operating or financial decisions.

The potential to control or significantly influence may come about due to member or management representation on other organisations, central government influence, relationships with other public bodies or assisted organisations to whom financial assistance is provided on terms which enable the Council to direct how the other party's financial and operating policies should be administered and applied. The fact that a voluntary organisation might be economically dependent on the Council does not in itself create a related party relationship.

Disclosure of related party transactions is made when material to either party to the extent that they are not disclosed elsewhere in the accounts.

Joint Ventures and Associates

(i) BDR Property Limited (formerly Arpley Gas Limited)

With effect from 16 March 2008 Arpley Gas Ltd became BDR Property Ltd, a company set up under the Environment Protection Act 1990 by Rotherham, Barnsley and Doncaster Metropolitan Borough Councils and the Waste Recycling Group Ltd. Waste Recycling Group was subsequently acquired by the FCC group in January 2014 with the company's immediate parent being FCC Environment (UK) Limited.

The company was set up for the purpose of carrying out waste disposal work and civic amenity site management. Its principal activity is management of the Thurcroft landfill site. It operates under a management agency agreement with FCC Recycling (UK) Limited.

The share capital of the company is as follows:

Authorised and fully paid up Share Capital	£1.850 million
--	----------------

Council's Shareholding:

- For voting purposes – the Company's shares are divided into 'A' shares and 'B' Shares. The 1,998 'A' shares comprise 20% of the total voting shares. One third of these 'A' shares are held by the Council (666 shares costing £6.66). Barnsley and Doncaster Metropolitan Borough Councils have similar share holdings, so that collectively the Councils hold 20% of the total voting shares. These are non-equity shares.
- For dividend purposes – the Council holds 3.5% (63,421 shares) of the company's £1 class 'C' shares – no voting rights are attached to these shares.
- For winding up purposes – the Council holds 12,500 £1 deferred shares which is one third of the total. These shares are ranked after the other 3 classes of shares (A, B and C) and payment will

only be made should funds remain available for distribution after meeting the entitlements of the other groups of shareholders. No voting rights are attached to these shares.

At the time of publication of this Statement, accounts for the company for the year ending 31 December 2019 were available and the details are as follows:

31 Dec 18 £000		31 Dec 19 £000
6	Turnover	34
(464)	Profit / (Loss) before taxation	(1,935)
(464)	Profit / (Loss) after taxation	(1,931)
1,272	Net Assets	(659)

(ii) Groundwork Creswell, Ashfield and Mansfield Trust

Groundwork Creswell, Ashfield and Mansfield Trust is a charity and a company limited by guarantee. The members of the company, whose liability is limited to £1, are Amber Valley Borough Council, Ashfield District Council, Bolsover District Council, Derbyshire County Council, Mansfield District Council, Newark and Sherwood District Council, North East Derbyshire District Council, Nottinghamshire County Council, West Lindsay District Council, the Federation of Groundwork Trusts, and Rotherham Metropolitan Borough Council.

The company's principal activities are the promotion of conservation, protection and improvement of the physical and natural environment, to provide facilities in the interests of social welfare and to advance public education.

At the time of publication of this Statement, accounts for the company for the year ending 31 March 2020 were available and the details are as follow:

31 Mar 19 £000		31 Mar 20 £000
1,487	Turnover	1,080
(50)	(Deficit) for the year	(112)
372	Net Assets	260

Rotherham Metropolitan Borough Council's made no contribution to the company during 2020/21 (2019/20 nil).

During the financial year ended 31 March 2021, Creswell Groundwork Trust provided no services to the Council (2019/20 nil) and incurred no charges from the Council (2019/20 nil).

A copy of the accounts of the company may be obtained from Creswell Groundwork Trust, Worksop Turbine Innovation Centre Shireoaks Triangle Business Park, Worksop S81 8AP.

(iii) Magna Trust

Magna Trust is a company limited by guarantee. The members of the company are Rotherham MBC, The Stadium Group and Rotherham Chamber of Commerce. Its principal objects are to advance education of science and technology, provide facilities for recreational and other leisure time occupation for the public at large in the interests of social welfare, and, to preserve buildings of historical importance to British industry.

At the time of publication of this Statement, accounts for the company for the year ending 29 March 2020 were available and the details are as follows:

29 Mar 19 £000		29 Mar 20 £000
2,065	Turnover	2,227
(1,054)	(Deficit) for the year	(931)
8,127	Net Assets	7,196

During the financial year ended 31 March 2021, the company provided services to the Council to the value of £21.90 (2019/20 £39,400.65) and incurred a charge of £156 from the Council (2019/20 £1,113).

A loan for £300,000 was issued to the Magna Trust in 2006/07 and of this £190,000 was still outstanding as at 31 March 2021. The Council issued to Magna a short term loan of £250,000 during 2014/15. This was outstanding as at the 31 March 2021. The Council are currently in discussions with Magna regarding a repayment plan for the outstanding balances.

A copy of the accounts can be obtained from Mr J Smith, Magna, Sheffield Road, Templeborough, Rotherham, S60 1DX.

Note 18 Pensions

The Council participates in three separate pension schemes relating to: Teachers, Local Government employees and staff performing Public Health Functions who transferred to the Council on 1 April 2013. All three schemes require contributions from both the employer and the employee, and provide members with benefits calculated by reference to pay levels and length of service.

(a) Teachers

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by the Teachers' Pension Agency (TPA). It provides teachers with defined benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries. Scheme benefits are underwritten by the Government. Since April 2015 the Teacher's Pension Scheme has been a career average scheme rather than a final salary scheme with a normal retirement age the same as that for the state pension.

Although the scheme is unfunded, the TPA uses a notional fund as the basis for calculating the employer's contribution rate paid by Local Education Authorities (LEAs). However it is not possible for the Council to identify a share of the underlying liabilities in the scheme attributable to its own employees. For the purposes of this Statement of Accounts it is therefore accounted for on the same basis as a defined contribution scheme.

During 2020/21 the Council paid employer's contributions calculated at 23.68%, amounting in total to £3.173m (2019/20 £4.320m). The total of contributions expected to be made to the Teachers' Pension Scheme by the Council in the year to 31 March 2022 is £3.690m.

(b) Public Health Staff

Under the provisions of the Health and Social Care Act 2012, Public Health functions and the staff performing these duties were transferred from the National Health Service to Local Authorities on 1 April 2013. The majority of staff transferring have the eligibility to continue membership of the National Health Service Pension Scheme (NHSPS). Since April 2015 it has been a career average scheme rather than a final salary scheme with the normal retirement age being the same as that for the State Pension.

The NHSPS is an unfunded scheme operated on a “pay as you go” basis which provides defined benefits to its members. The NHS Business service (NHSBS) which administers the scheme uses a notional fund as a basis for calculating the employer’s contribution rate paid by Local Authorities. However, it is not possible for the Council to identify its share of the underlying assets and liabilities relating to the scheme and it is therefore accounted for as if it were a defined contribution scheme with the amount charged to revenue being the employer contributions payable in the year. Employee contributions in 2020/21 are tiered from 5% to 14.5% based on salary.

During 2020/21 the Council paid employer’s contributions calculated at 16.88% (including 0.08% in respect of administration costs) amounting in total to £0.056m (£0.037m 2019/20).

The 0.08% levy for the administration of the NHS Pension scheme was introduced in March 2017 by the Department of Health. In 2021/22 the employers contribution will increase to 20.68%, the total contributions expected to be made to the new NHS Pension Scheme by the Council in the year to 31 March 2022 is £0.033m.

(c) Other Local Government Employees

As part of the terms and conditions of employment of its officers and other employees, the Council offers retirement benefits through its participation in the Local Government Pension Scheme, administered by the South Yorkshire Pensions Authority. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments and this needs to be disclosed at the time that employees earn their future entitlement.

The Council is able to identify a share of the underlying liabilities in the scheme attributable to its own employees and accordingly accounts for post-employment benefits as a defined benefit scheme in accordance with the requirements of IAS19. Consequently, the Council recognises the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Council is required to make against Council Tax is based on the cash payable in the year, so the IAS 19 cost of retirement benefits is reversed out through the Movement in Reserves Statement and replaced by the actual contributions payable in the year. The IAS 19 figures provided by the actuary in respect of 2020/21 make allowance for the reduction in liabilities falling on the Council as a result of schools acquiring academy status during the year which are shown as gains / losses on settlements.

Covid 19 – the pandemic has resulted in substantial volatility in the financial markets affecting key indicators such as inflation and corporate bond yields which influence the value of the pension liability. While the level of volatility has reduced in recent months the potential for significant future volatility which would further influence the accounting value of the pensions liability remains.

During the year the Council paid employer’s superannuation contributions calculated at 17.2% amounting to £19.551m (2019/20 £16.869m at 14.9%). In 2020/21 the Council made a prepayment of £42.958m in respect of 80% of estimated annual pension contributions for the 3 years 2020/21, 2021/22 and 2022/23 of which £14.444m relates to 2020/21.

Total ongoing contributions of £19.600m are expected to be made to the Local Government Pension Scheme by the Council in the year to 31 March 2022 based on an ongoing service contribution rate of 17.2%.

The contribution rates take account of changes to the Local Government Pensions Scheme which came into effect from April 2014. The main changes were the introduction of a career average scheme rather than a final salary scheme and a “50:50 Scheme Option” whereby members can elect to accrue 50% of the full scheme benefits and pay 50% of the normal member contribution for a period of up to 3 years. In addition the actuarial assessment included provision for the resolution of issues arising from the McCloud/Sargent case.

The contribution rates also reflect the most recent triennial actuarial valuation in March 2019 which the South Yorkshire Pensions Authority, on behalf of its member Authorities, commissioned from the actuary, Mercer Human Resource Consulting Ltd. This showed an improvement in the fund’s position with the Council’s share of the Fund deficit on the scheme reducing from £133 million at the previous actuarial valuation in 2016 to virtually fully funded. The next triennial valuation will reflect the fund position as at 31 March 2022.

As a result of this valuation revised contribution rates were determined by the actuaries – with the effect from April 2020 employers' contributions were set at 17.2% for Rotherham MBC.

Court of Appeal Ruling – McCloud. The Court of Appeal has ruled in the Sargeant/McCloud cases that the transitional protections afforded to older members when the Public Service Pension Schemes were amended constituted unlawful age discrimination. The Government has accepted that remedies relating to the McCloud judgement are needed in relation to all public service pension schemes, and a consultation was published in July 2020 including a proposed remedy for the LGPS. The figures in the accounts as provided by the actuary already include an allowance for McCloud that is substantially in line with this remedy. It has been concluded therefore, that no further adjustments to the valuation are required in relation to the McCloud ruling.

The funding level of the Pensions Fund is subject to a range of potentially material risks. The impact of small changes to key assumptions (inflation, pay awards, life expectancy, discounting of future pension liabilities) is set out in the sensitivity analysis later in this note. In assessing the potential level of liabilities the funds actuary has estimated the weighted average maturity profile of the defined benefit obligation to be 17 years.

The Pensions Authority invests the funds held by the scheme with the aim of achieving a return on these funds to pay the benefits due. If actual investment returns do not in future match the assumptions then the value of the assets will be lower and a funding shortfall could arise. To address this, South Yorkshire Pensions Authority has processes in place to monitor investment performance and the actuaries produce an annual review of the fund's performance including a comparison to other local Council funds. The Pension Fund's investment strategy is reviewed alongside each triennial valuation.

In the event that an employer is unable to pay contributions or make good deficits, the Pension Authority's focus is to ensure as far as possible that any liability can be recovered should an employer exit the Pension Fund. Where a Council acts as guarantor for an employer that defaults, the Council is responsible for meeting the liability, otherwise it falls on all employers in the Fund in relation to their size. The Council does not act as guarantor for other employers. Council contractors with access to the LGPS are required to have bonds in place (which are subject to regular review) to cover unpaid liabilities should their business fail before the end of their contract with the Council. In addition, contractors' contributions are subject to smoothing arrangements which are intended to ensure that they are fully funded by the end of the contract period.

Further information in relation to the Local Government Superannuation Scheme can be found in the South Yorkshire Pension Fund Annual Report which is available upon request from the Superannuation Manager, South Yorkshire Pensions Authority, Floor 8 Gateway Plaza, Sackville Street, Barnsley, South Yorkshire, S70 2RD.

Transactions relating to Post-employment Benefits

The amounts included in the Comprehensive Income and Expenditure statement in relation to post retirement benefit costs under IAS 19 are shown in the table below. It also shows the adjustment made through the Movement in Reserves Statement to bring the amount charged to the General Fund back to the employer contributions payable to the LGPS during the year.

Total Funded & Unfunded Local Government Pension Scheme	Unfunded Discretionary Benefits Arrangements (included in Total)		Total Funded & Unfunded Local Government Pension Scheme	Unfunded Discretionary Benefits Arrangements (included in Total)
2019/20	2019/20		2020/21	2020/21
£000	£000		£000	£000
		Net Cost of Services		
(38,360)	0	- Current Service Cost	(35,811)	0
(4,319)	0	- Past Service	(229)	0
5,997	0	- Gain / (loss) from settlements	3,170	0
		Financing and Investment Income and Expenditure		
(11,317)	(524)	- Net Interest Expense	(10,580)	(448)
		Total Post-employment Benefits charged to the Surplus or Deficit on the Provisions of Service		
(47,999)	(524)		(43,450)	(448)
		Other Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement		
		Remeasurement of the net defined benefit liability comprising:		
16,651	1,567	- Experience gain / (loss) on liabilities	33,566	457
(65,080)	0	- Return on plan assets (excluding the amount included in the net interest expense)	193,058	0
59,050	616	- Actuarial gains and (losses) arising on changes in demographic assumptions	0	0
28,230	238	- Actuarial gains and (losses) arising on changes to financial assumptions	(267,504)	(1,982)
		Total Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement		
38,851	2,421		(40,880)	(1,525)
		Movement in Reserves Statement		
		- Reversal of net charges made to the Surplus or Deficit on the Provision of Services for Post-employment benefits in accordance with the code		
22,186	(788)		22,689	(847)
		Actual amount charged against General Fund:		
		Balance for pensions in year:		
(25,813)	0	- Employer's contributions payable to Scheme	(20,761)	0
0	(1,312)	- Rechargeable Pensions	0	(1,295)

The unfunded liabilities represent Compensatory Added Years' benefits which are not a liability of the LGPS and are therefore recharged to the employer. They have been included in the liabilities figure for the purpose of IAS 19 calculations, as unfunded discretionary benefits arrangements.

Net interest expense above includes £0.568m administrative expenses in relation to investments during 2020/21 (2019/20 £0.564m).

In addition to the recognised gains and losses included in the CIES in arriving at the surplus / deficit on services, actuarial loss of £40.880m (£38.851m gain in 2019/20), has been included in Other Comprehensive Income and Expenditure in the CIES.

Pension Assets and Liabilities recognised on the Balance Sheet

The amount included in the balance sheet from the Council's obligation in respect of its defined benefit plans is as follows:

The above asset values are at bid value as required by IAS19.

Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis discounted to present value terms using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rate, salary levels, etc. The Council Fund liabilities have been assessed by Mercer Human Resources Ltd, an independent firm of actuaries, estimates for the Council Fund being based on the latest full valuation of the scheme as at 31 March 2019.

The principal assumptions used by the actuary have been:

Local Government Pension Scheme	Discretionary Benefits		Local Government Pension Scheme	Discretionary Benefits
2019/20	2019/20		2020/21	2020/21
22.4 years	22.4 years	Mortality assumptions:	22.5 years	22.5 years
25.2 years	25.2 years	Longevity at 65 for current pensioners:	25.3 years	25.3 years
		Men		
		Women		
23.9 years	23.9 years	Longevity at 65 for future pensioners:	23.9 years	23.9 years
27.1 years	27.1 years	Men (in 20 years time)	27.2 years	27.2 years
2.1%	2.1%	Women (in 20 years time)		
3.35%	-	Rate of CPI inflation	2.4%	2.4%
2.2%	2.3%	Rate of increase in salaries	3.95%	-
2.4%	2.4%	Rate of increase in pensions	2.5%	2.5%
		Rate for discounting scheme liabilities	2.3%	2.3%

Assets in the South Yorkshire Pension Fund are valued at fair value, which in line with the requirement of the Code is principally realisable or bid value for investments, and consist of the following categories, by proportion of the total assets held by the Fund.

Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined obligation are longevity, rate of inflation, expected salary increase and discount rate. The sensitivity analysis below indicates the effect on the defined benefit obligation of changes to these assumptions.

- If there were to be one year increase in the life expectancy for both men and women, the defined benefit obligation would increase by £55m if all other assumptions were held constant.
- If the rate of inflation were to be 0.1% higher, the defined benefit obligation would increase by £32m if all other assumptions were held constant.
- If the expected salary growth were to be 0.1% higher, the defined benefit obligation would increase by £3m if all other assumptions were held constant.
- If the discount rate used to discount future pension liabilities were to be 0.1% higher, the defined benefit obligation would decrease by £31m if all other assumptions were held constant.

In reality interrelationships exist between some of these assumptions, especially between discount rate and expected salary increases that both depend to a certain extent on expected inflation rates. The analysis above does not take account of any interdependence between the assumptions.

1,962	Vehicles, Plant, Furniture and Equipment	1,789
0	Assets under Construction	0
51,415	Total	53,642

b) Effects of change in estimates

There were no material changes in accounting estimates during the financial year.

c) Valuations

Capital assets are revalued on the basis of a five year rolling programme in accordance with RICS Guidance, and in the case of council dwellings in accordance with revised guidance on housing stock valuations. In 2020/21 the HRA assets were revalued by Damien Johnson BSc(Hons), Pg. Dip, MRICS (registered valuer), Principal Estates Surveyor, and General Fund assets by Mark Liversidge BSc (Hons), MRICS (registered valuer), acting as Internal Valuers within the Council's Regeneration and Environment Services. The Statement of Accounting Policies provides further information on revaluation and depreciation policies. The table below provides an analysis between the carrying value of assets carried in the balance sheet at historical cost and those carried in the balance sheet at fair value together with, in the case of the latter, when assets were revalued.

This year the Council's internal valuer was instructed to provide an assessment of those assets not revalued as part of the five year rolling programme, based upon those assets that were revalued. Where applicable valuation adjustments have then be processed against those assets not revalued in year to ensure the accounts are not materially misstated. In addition a detailed assessment of the movement of asset value in year has taken place, ie from the 1 April 2020 to the 31 March 2021, again where applicable, adjustments have been processed.

The Council's valuers have indicated within their valuation report that the Council's valuations are reported on the basis of 'material valuation estimation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. "The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on 11 March 2020, has impacted and continued to impact global financial markets. Travel restrictions remain in force for many countries. Market activity is being impacted in many sectors. Therefore, as at the valuation date, the Council's valuers consider that they can attach less weight to previous market evidence for comparison purposes, to inform opinions of value. The current response to COVID-19 means that they are faced with an unprecedented set of circumstances on which to base a judgement.

Consequently, less certainty and a higher degree of caution should be attached to the valuation than would normally be the case. Given the unknown future impact that COVID-19 might have on the real estate market, valuers have recommended that the valuation of this property is kept under frequent review.

d) Revaluations and Impairment

In 2020/21 there was a net valuation increase of £33.438m. Contained within the net figure is a £34.631m revaluation increase, mainly due to valuation increases across Council Dwellings and Schools. This was offset by (£1.193m) of impairment losses. The Council implements a rolling 5 year valuation process for Council Dwellings and Other Land and Buildings categories, picking up 20% of assets per class each year. However, the Council also considers any potential movements on the 80% not revalued and on the potential movement in year on any of these assets. If a significant adjustment is identified and processed to the asset class it effectively acts as a new valuation, by way of example in 2020/21 Council Dwellings had a movement applied to the whole asset class as such the values in the table below are all shown at 31 March 2021 rather than spread across all five years.

	Council Dwellings	Other Land & Buildings	Vehicles, Plant & Equipment	Infrastructure Assets	Community Assets	Surplus Assets	Assets Under Construction	Total
	£000	£000	£000	£000	£000	£000	£000	£000
Carried at historical cost	11,932	36,807	61,743	251,641	7,480	0	0	369,603
<u>Valued at fair value as at:</u>								
31 Mar 21	682,508	143,089	0	0	0	7,996	44,382	877,975
31 Mar 20	0	28,707	0	0	0	357	0	29,064
31 Mar 19	0	57,484	0	0	0	35	0	57,519
31 Mar 18	0	5,697	0	0	0	0	0	5,697
31 Mar 17	0	10,509	0	0	2	0	0	10,511
Total Cost or Valuation	694,440	282,293	61,743	251,641	7,482	8,388	44,382	1,350,369

e) Capital commitments

At 31 March 2021 the Council has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2020/21. The Council had significant commitments of £1 million or more budgeted to cost £121.445m (£13.811m at 31 March 2020).

	Cost £000
<u>Neighbourhood and Adult Services:</u>	
Refurbishment of Dwellings	51,206
New Build	31,842
<u>Regeneration & Environment</u>	
Parkway Widening	35,619
Holmes Tail Goit	2,778
Total	121,445

The projects above are included in the Council's Medium Term Capital Programme and appropriate funding has been committed.

f) Fair Value Hierarchy – Surplus Assets

Following the implementation of IFRS 13, Fair Value Measurement, the Council's surplus assets are revalued at fair value, annually. The Council uses appropriate valuation techniques for each circumstance and for which sufficient data is available, maximising the use of relevant known data ('observable inputs') and minimising the use of estimates or unknowns ('unobservable inputs').

Details of the Council's Surplus Assets and their fair value hierarchy, taking into account the three levels of categories for inputs to valuations, are as follows:

2020/21 Position

Recurring fair value measurements using:	Quoted prices in active markets for identical assets	Other significant observable inputs	Significant unobservable inputs	Fair value as at 31 March 2021
	Level 1 £000	Level 2 £000	Level 3 £000	£000
Land and Buildings	0	8,375	0	8,375
Total	0	8,375	0	8,375

2019/20 Comparative figures

Recurring fair value measurements using:	Quoted prices in active markets for identical assets	Other significant observable inputs	Significant unobservable inputs	Fair value as at 31 March 2020
	Level 1 £000	Level 2 £000	Level 3 £000	£000
Land and Buildings	0	10,101	0	10,101
Total	0	10,101	0	10,101

Transfers between Levels of the Fair Value Hierarchy

There were no transfers between levels during the year.

Valuation Techniques used to determine Fair Values for Surplus Assets

The fair value for the surplus assets of £8.375m (£10.101m as at 31 March 2020) has been based on the market approach using current market evidence including recent sale prices and rentals achieved and other relevant information for similar assets within the local authority area. Market conditions are such that similar properties have actively sold or let and the level of observable inputs are significant leading to properties being categorized at level 2 in the fair value hierarchy.

Note 20 Investment Property

Income and expenditure from investment property included within Financing and Investment Income and Expenditure (Note 5) was as follows:

2019/20 £000		2020/21 £000
(1,600)	Rental income from investment property	(1,516)
365	Direct operating expenses arising from investment property	450
(1,235)	Net income	(1,066)
361	Net (gain)/loss from fair value adjustments	6,576
0	(Gain)/loss on disposal	190
(874)	Total included in Finance & Investment Income	5,700

The following table summarised the movement in fair value of investment properties over the year:

2019/20 £000		2020/21 £000
27,573	Balance at 1 April	32,576
5,824	Subsequent expenditure	239
0	Disposals	(190)
(360)	Net gains / (loss) from fair value adjustments	(6,576)
0	Net gain / (loss) through Revaluation Reserve	0
(461)	Transfers from Property, Plant & Equipment	550
32,576	Balance 31 March	26,599

There are no restrictions on the Council's ability to realise the value inherent in its investment property or the Council's right to the remittance of income and the proceeds of disposal.

The Council has no major contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancement.

Due to the unprecedented situation arising from the Covid-19 pandemic and the uncertainties it presents the Council's valuations are therefore reported on the basis of 'material valuation estimation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global.

Fair Value Hierarchy

To conform with the requirements of IFRS 13, Fair Value measurement, the Council's investment properties have been revalued to fair value. The Council uses appropriate valuation techniques maximising the use of 'observable inputs' and minimising the use of 'unobservable inputs'. The fair value hierarchy for investment properties takes into account the three levels of categories for inputs to valuations for fair value assets, as follows:

2020/21 Position

Recurring fair value measurements using:	Quoted prices in active markets for identical assets	Other significant observable inputs	Significant unobservable inputs	Fair value as at 31 March 2021
	Level 1	Level 2	Level 3	
	£000	£000	£000	£000
Land and Buildings	0	26,599	0	26,599
Total	0	26,599	0	26,599

2019/20 Comparative figures

Recurring fair value measurements using:	Quoted prices in active markets for identical assets	Other significant observable inputs	Significant unobservable inputs	Fair value as at 31 March 2020
	Level 1	Level 2	Level 3	
	£000	£000	£000	£000
Land and Buildings	0	32,578	0	32,578
Total	0	32,578	0	32,578

Transfers between levels of the Fair Value Hierarchy

There were no transfers between levels during the year.

Valuation techniques used to determine Fair Values for Investment Properties

The fair value of investment property of £26.599m (£32.578m as at 31 March 2020) has been measured using a market approach, which takes into account quoted prices for similar assets in active markets, existing lease terms and rentals, research into market evidence including market rentals and yields, the covenant strength for existing tenants, and data and market knowledge gained in managing the Council's investment property portfolio. The underlying market conditions are such that similar properties are actively purchased and sold with a significant level of observable inputs. This has resulted in the Council's investment properties being categorised as level 2 on the fair value hierarchy.

Highest and Best Use of Investment Properties

In estimating the fair value of the Council's investment properties, the highest and best use of the properties is deemed to be their current use.

Valuation Techniques

There has been no change in the valuation techniques used during the year for investment properties.

Valuation Process for Investment Properties

The investment property portfolio has been valued at 31 March 2021 in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution for Chartered Surveyors. The valuations are completed by Damien Johnson BSc (Hons) Pg. Dip, MRICS (registered valuer), acting as Internal Valuer within the Council's Regeneration and Environment Services.

Note 21 **Intangible Assets**

The Council has purchased software licences that it accounts for as intangible assets, the licences are valued at cost. The Council has no internally generated intangible assets. Most of the software licences have a finite useful life of 3 years during which period they are being amortised using the straight-line method.

2019/20 £000		2020/21 £000
	Balance at 1 April:	
8,294	- Gross carrying amount	13,602
(5,260)	- Accumulated amortisation	(6,451)

- Assets sold	(380)	(9,227)	0	0
Balance at 31 March	3,019	1,115	0	0

Note 23 **Heritage Assets**

Nature and scale of heritage assets held by the Council:

Museum Exhibit

The Museum Exhibit collections hold over 90,000 items. Approximately 10% of these are on display at Clifton Park Museum in Rotherham. The remainder are held in off-site locations within the Borough. Access to the collections can be obtained during the main museum opening times. The collections can be divided into the following main categories:

- a) Social & Industrial History (around 11,000 items) - Contains objects and ephemera illustrating themes of domestic, personal and community life within the Borough from 1660 to the present day.
- b) Archaeology (around 36,000 items) - Includes large collections excavated from the Roman Fort at Templeborough, Roche Abbey and Jesus College (Rotherham).
- c) World Cultures (around 300 items) - Consists of objects originating from Africa, Asia, the Americas and Oceania. In 1981 the collection was transferred on loan to Leeds Museum.
- d) Numismatics & Philately (over 3,000 items) - Includes items dating from the 4th century BC to the 20th century AD.
- e) Fine Art (around 3,000 items) - Consists of oil paintings, water-colours, prints and a good collection of sculpture items.
- f) Decorative Art (around 5,500 items) - Predominated by ceramic items including a large collection from Yorkshire potteries, the most significant being items from the Swinton Pottery/Rockingham Works.
- g) Natural Sciences (over 30,000 items) – Including botanical and geological specimens from Yorkshire and Great Britain.

The majority of these assets have been revalued during 2018/19 and 2019/20 by an external valuer (Tennants). Though the asset class is not required to be valued every 5 years like more other categories it is felt best practice to do so and as such a further revaluation will take place 2024/25.

Civic Regalia & Plate

The Council's collection of Civic Regalia includes the Mayor and Mayoress' Chain of Office, the Diamond Pendant, the Mace and the Empire Cup. The chains and pendants are held in a safe in the Town Hall until required for civic ceremonies whilst all other items are kept in display cases and can be seen as part of a tour of the building.

The majority of these assets were revalued during 2018/19, by an external valuer (Tennants), due to the volume of items, not all assets in the category could be valued and therefore remaining assets were revalued in 2019/20.

Archives

The Council holds over 900 archive collections in secure, environmentally controlled, strong rooms and a secure, environmentally monitored store at Bailey House. These documents cover the history of the whole of Rotherham Borough from 1328 to the present day. The collection includes local Council materials, maps, plans, title deeds and family records. Access to the documents can be obtained by contacting the Archives and Local Studies Service.

The majority of these assets were revalued during 2018/19, by an external valuer (Tennants). Due to the volume of items, not all assets in the category could be valued and therefore the remaining items were revalued in 2019/20.

Historic Buildings

Two historic buildings are in the ownership of the Council: Keppel's Column, a 35.5 metre high free standing Tuscan order column listed grade II, and Catcliffe Glassworks Cone a listed grade I conical structure dating from 1740, the earliest surviving example of its type in Western Europe. These buildings are closed to the public on safety grounds.

These assets are carried at valuation rather than cost, both of them being valued on the 1 April 2012 by Damien Johnson BSc(Hons) pg.Dip, MRICS (Registered Valuer), acting as Internal Valuer. Both were regarded as having nil value as they are listed building with restrictions on their disposal, which gives them no commercial value.

Council policies for the acquisition, preservation, management and disposal of heritage assets

The Council's policies are contained in the "Collections Management policy" and the "Acquisition and Disposals policy", both of which are available on request from Heritage Services.

Heritage Assets Values

As per the CIPFA Code of Practice 2020/21, heritage assets are carried at valuation rather than current or fair value, reflecting the fact that sales and exchanges of heritage assets are uncommon. Valuations may be made by any method that is appropriate and relevant. There is no requirement for valuations to be carried out or verified by external valuers, nor is there any prescribed minimum period between valuations.

The table below provides an analysis between the carrying value of assets carried in the balance sheet at historical cost and those carried at fair value.

	Museum Exhibits held at valuation £000	Civic Regalia & Plate held at valuation £000	Archives held at valuation £000	Total £000
<u>Cost or Valuation</u>				
1 Apr 20	7,079	1,746	258	9,083
Additions	13	0	0	13
Revaluation increases/decreases to Revaluation Reserve	0	0	0	0
31 Mar 21	7,092	1,746	258	9,096
31 Mar 20	7,079	1,746	258	9,083

Disposal of Heritage Assets in 2020/21

There have been no Heritage Asset disposals in 2020/21.

Additions of Heritage Assets in 2020/21

There has been a donation of Heritage Assets valued at £0.013m in 2020/21.

Note 24 **Financial Instruments – Balances**

The financial liabilities and assets disclosed in the Balance Sheet are made up of the following categories of financial instruments:

	Long Term		Short Term	
	2019/20 £000	2020/21 £000	2019/20 £000	2020/21 £000

Total Financial Assets	1,834	1,803	97,646	158,963
Non-Financial Assets			16,339	16,406
Total	1,834	1,803	113,985	175,369

The debtor balances indicated in the table differ from that shown on the balance sheet as these balances do not include any statutory debtors, such as Council Tax or non-domestic rates.

Note 25 **Financial Instruments – Risk**

The Council's activities necessarily expose it to a variety of financial risks. The key risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council;
- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments;
- Re-financing risk – the possibility that the Council might have to renew a financial instrument on maturity at less advantageous interest rates or terms.
- Market risk - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates movements.

Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the uncertainties of financial markets, and implementing restrictions to minimise these risks. The procedures for risk management are set out in the Local Government Act 2003 and the associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. Overall these procedures require the Council to manage risk in the following ways:

- by formally adopting the requirements of the Code of Practice;
- by approving annually in advance prudential indicators for the following three years, limiting:
 - The Council's overall borrowing;
 - Its maximum and minimum exposures to fixed and variable rates;
 - Its maximum and minimum exposures in the maturity structure of its debt;
 - Its maximum annual exposures to investments maturing beyond a year.
- by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance.

These are required to be reported and approved at the Council's annual Council Tax and Budget setting meeting. These items are reported with the annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported semi-annually to Members.

These policies are implemented by a central treasury management team. The Council maintains written procedures for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash through Treasury Management Practices (TMPs). These TMPs are a requirement of the Code of Practice and are reviewed regularly.

Covid-19 As stated, Council risk management procedures are intended to minimise and mitigate the uncertainties of financial markets. Covid-19 is recognised as having increased market uncertainty, however it is not currently possible to quantify this increase in either the medium or longer term.

A review of the investments held under the Treasury Management Strategy has been undertaken and there is no evidence that these income streams are materially impaired as a result of the Covid-19 pandemic, therefore, no restatement of the 2020/21 year-end position is required.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet minimum credit criteria. The Annual Investment Strategy also considers maximum amounts and time limits in respect of each financial institution. Details of the Investment Strategy can be found on the Council's website.

The following analysis summarises the Council's potential maximum exposure to credit risk, based on experience of default assessed by the ratings agencies and the Council's experience of its customer collection levels, adjusted to reflect current market conditions.

	Amount at	Historical experience of default	Adjustment for market conditions at	Estimated maximum exposure to defaults
	31 Mar 21 £000 (a)	% (b)	31 Mar 21 % (c)	£000 (a*c)
<u>Deposits with banks and financial institutions – excluding Heritable Bank</u>				
AAA rated counterparties	47,830	0.000%	0.000%	0
AA rated counterparties	0	0.020%	0.020%	0
A rated counterparties	10,000	0.040%	0.040%	4
Bonds	0	0.000%	0.000%	0
Banks and Financial Institutions	57,830			4
<u>Debtors</u>				
Long Term Debtors	599	3.341%	3.341%	20
Loans to Third Parties	1,418	40.846%	40.846%	579
Sundry Debtors	11,461	7.905%	7.905%	906
Housing Tenants	7,612	65.107%	65.107%	4,956
Other Short-Term Debtors	22,751	3.886%	3.886%	884
Debtors	43,841			7,345

The debtor balances indicated in the table above differ from that shown on the balance sheet as these balances do not include any statutory debtors, such as Council Tax or non-domestic rates.

Except as disclosed later at Note 29 the Council has no exposure to losses from non-performance by any of its counterparties in relation to deposits and bonds.

Whilst the current economic uncertainty within international markets has raised the overall possibility of default, the Council maintains strict credit criteria for investment counterparties. As a result of these high credit criteria, historical default rates are maintained as a good indicator under these current conditions.

The Council also uses non-credit rated institutions (for instance smaller building societies or bank subsidiaries where the parent has a satisfactory rating). In these circumstances these investments would be classified as other counterparties.

The estimated maximum exposure to defaults of £7.345m represents the Council's provision for bad debts for the Financial Instruments in the table above and forms part of the provision for bad debts as disclosed within the Balance Sheet. In calculating these provisions reference is made to historical collection rates and these rates are applied to the debt raised rather than the percentages shown above.

Covid-19 A review of the investments held under the Treasury Management Strategy has been undertaken and there is no evidence that these are materially impaired as a result of the Covid-19 pandemic, therefore, no restatement of the 2020/21 year-end position is required.

External loan repayments have been reviewed and as these have been maintained as agreed in 2020/21 it is not considered that there has been any impairment arising from the pandemic.

HRA levels of tenant debt have reduced and as robust and prudent levels of bad debt provision were included in the 2020/21 HRA accounts, it is considered that the 2020/21 debtor balances have not been impaired as a result of the pandemic and that no material restatement is required for the 2020/21 Financial Statements.

The Council does not generally allow credit for its sundry debtors, such that all of the balance is past its due date for repayment. The past due amount can be analysed as follows:

31 Mar 20 £000		31 Mar 21 £000
7,839	Less than three months	8,332
1,272	Three to six months	402
1,993	Six months to one year	792
2,422	More than one year	1,935
13,526		11,461

Collateral

The Council initiates a legal charge on property where, for instance, clients require the assistance of social care services but cannot afford to pay immediately. The total collateral at 31 March 2021 was £0.649m (£0.774m as at 31 March 2020).

Liquidity Risk

The Council manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well through cash flow management procedures required by the Code of Practice. This seeks to ensure that cash is available when it is needed.

The Council has ready access to borrowings from the Money Markets to cover any day to day cash flow need, and the PWLB, which provides access to longer term funds, also acts as a lender of last resort to councils (although it will not provide funding to a council whose actions are unlawful). The Council is also required to provide a balanced Budget by the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

Limits on the maturity structure of debt and the limits on investments placed for longer than one year are the key controls used to address this risk. The Treasury Team address the operational risks within the Council approved parameters by:

- Monitoring the maturity profile of financial liabilities and amending the profile by either new borrowing or rescheduling existing debt; and
- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to longer term cash flow needs.

The maturity analysis of financial liabilities is as follows:

31 Mar 20 £000		31 Mar 21 £000
251,320	Less than one year	245,328
25,328	Between one and two years	75,571
34,982	Between two and seven years	42,163
12,326	Between seven and fifteen years	12,421
312,433	More than fifteen years	312,086
636,389		687,569

The maturity analysis of financial assets is as follows:

31 Mar 20 £000		31 Mar 21 £000
53,825	Less than one year	57,830
0	Between one and two years	0
0	Between two and three years	0
0	More than three years	0
53,825		57,830

All Sundry Debtors and other payables are due to be paid in less than one year. These Sundry Debtors of £11.461m are not shown in the above table, however, an analysis is provided in the 'Credit Risk' section above. Interest accruals are disclosed as less than one year although associated with both short and long-term financial liabilities and assets.

Market Risk

Interest Rate Risk – The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- Borrowings at fixed rates – the fair value of the borrowing liability will fall (no impact on revenue balances);
- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's prudential indicators and its expected treasury operations. It includes a statement about expectations regarding interest rate movements. From this strategy a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The Council's Treasury Team monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure long term returns. Alternatively, significantly lower temporary borrowing rates may be utilised to generate in year savings on interest payments, whilst rates fall and remain low, rather than entering into long term borrowing straight away.

The risk of interest rate loss is partially mitigated by Government grant payable on financing costs. If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

2019/20 £000		2020/21 £000
0	Impact on Surplus or Deficit on the Provision of Services	0
0	Share of overall impact debited to the HRA	0
(192,422)	Decrease in fair value of fixed rate borrowing liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	(141,055)

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed. These assumptions are based on the same methodology as used in Note 27 Fair Value of Assets and Liabilities carried at amortised cost.

Price Risk – The Council does not generally invest in equity shares but does have a number of small shareholdings in its related companies. The Council is therefore not exposed to any significant risks arising from movements in the price of these shares and the shares are not classified fair value through profit and loss.

Foreign Exchange Risk – The Council has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to risk arising from movements in exchange rates.

Note 26 Financial Instruments – Gains/Losses

Gains/Losses charged to the Comprehensive Income and Expenditure Statement and the Movement in Reserve Statement for the year to 31 March 2021 are as follows:

2019/20		Financial Liabilities	Financial Assets			2020/21
Total		Liabilities measured at amortised cost	amortised cost	fair value through profit or loss	fair value through other comprehensive income	Total
£000		£000	£000	£000	£000	£000
18,976	Interest expense	18,648	0	0	0	18,648
0	Impairment (gain)	0	0	0	0	0
104	Premium/discounts	0	0	0	0	0
12,867	Finance Lease Interest	12,807	0	0	0	12,807
31,947	Interest payable and similar Charges	31,455	0	0	0	31,455
(320)	Interest income	0	(91)	0	0	(91)
31,627	Net gain (-) / loss (+) for the year	31,455	(91)	0	0	31,364

Note 27 Financial Instruments – Fair Values

Fair Value of Financial Assets

The Authority's equity shareholdings in companies disclosed at Note 17 – Related Party Transactions are not traded in an active market and are valued at historical cost (see below).

As 31 March 2021 some of the authority's financial assets are measured at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them.

Financial assets measured at fair value				
Recurring fair value measurements	Input level in fair value hierarchy	Valuation technique used to measure fair value	As at 31/3/20 £000	As at 31/3/21 £000
Fair Value through Other Comprehensive Income				
Equity shareholding in BDR Property Ltd	Level 3	Discounted cash flow	190	190
Total			190	190

Equity shareholding in BDR Property Ltd

The authority holds shares in BDR Property Ltd a company set up under the Environment Protection Act 1990 by Rotherham, Barnsley and Doncaster Metropolitan Borough Councils and the Waste Recycling Group Ltd. As the asset is not held for trading or income generation, rather as a longer-term policy initiative, the equity has been designated as fair value through comprehensive income.

Transfers between Levels of the Fair Value Hierarchy

There were no transfers between input levels 1, 2 and 3 during the year.

The Fair Values of Financial Assets and Financial Liabilities that are not measured at Fair Value

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by amortised cost and long-term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- For loans from the PWLB payable, fair value estimates are calculated using new borrowing (certainty rate) discount rates. As the Debt Management Office provides a transparent approach to allow the exit cost of PWLB loans to be calculated.
- For non-PWLB loans payable, PWLB premature repayment rates have been applied to provide the fair value under PWLB debt redemption procedures;
- For loans receivable prevailing benchmark market rates have been used to provide the fair value;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated are as follows:

31 Mar 20			31 Mar 21	
Carrying amount £000	Fair Value £000		Carrying amount £000	Fair Value £000
		<u>Long and Short-term</u>		
185,737	239,569	PWLB debt	173,333	239,301
215,134	566,064	Non-PWLB debt	215,124	469,371
239,976	239,976	Temporary Borrowing	220,500	220,500
640,847	1,045,608	Total Debt	608,957	929,173
83,209	83,209	Short Term Creditors	112,132	112,132
125,040	125,040	Long Term Creditors	121,085	121,085
849,095	1,253,857	Total Financial Liabilities	842,174	1,162,389

The fair value for financial liabilities is greater than the carrying value because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional future loss (based on economic conditions at 31 March 2021) arising from a commitment to pay interest to lenders above current market rates.

The fair value of Public Works Loan Board (PWLB) loans of £173.333m measures the economic effect of the terms agreed with the PWLB compared with estimates of the terms that would be offered for market transactions undertaken at the Balance Sheet date. The difference between the carrying amount and the fair value (£65.968m) measures the additional interest that the Council will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

However, the Council has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. If the Council was to seek to avoid the projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption by charging a premium equivalent to the additional interest, based on the redemption interest rates (£103.577m) that would not then be paid. The exit price for the PWLB loans including this charge would therefore be £276.910m.

31 Mar 20			31 Mar 21	
Carrying amount £000	Fair Value £000		Carrying amount £000	Fair Value £000
53,825	53,825	Money Market loans less than one year	57,830	57,830
5,219	5,219	Cash & Cash Equivalents	42,666	42,666
190	190	Equity	190	190
1,493	1,493	Third Party Loans	1,418	1,418
586	586	Long-term Debtors	599	599
13,526	13,526	Sundry Debtors	11,461	11,461
8,819	8,819	Housing Rents	7,612	7,612
15,822	15,822	Other Short-Term :	9,668	9,668
(7,918)	(7,918)	Bad Debts Provision	(7,345)	(7,345)
91,564	91,564	Total Financial Assets at Amortised Cost	124,098	124,098

The fair value for financial assets is the same as the carrying value because all are carried at cost as a fair approximation of their value.

Note 28 Financial Instruments – Soft Loans and Financial Guarantees

Soft Loans – Loans granted by the Council at below market rates are accounted for on a fair value basis. This is the present value of all future cash receipts discounted using the prevailing market interest rate for a similar instrument for an organisation with a similar credit rating.

Government Regulations permit the removal of this charge through the Movement in Reserves Statement to the Financial Instruments Adjustment Account. The balance is then amortised from this account over the remaining life of the loans. At 31 March 2021 the Council no longer holds any soft loans requiring disclosure, following the conversion of the £1.5m soft loan from the Sheffield City Region to a capital grant. The loan was provided allow the Council to purchase the key strategic Forge Island site, issued a 0% rate on the basis that if SCR funds allowed in future financial years it could be converted to a capital grant, this has now been completed.

Financial Guarantees – Under the revised Regulations the Council is required to record in its balance sheet any financial guarantees that it has provided based on the likelihood of the guarantee being called.

The initial recognition of the guarantee is measured at fair value based on the probability of the guarantee being called together with the likely amount payable under the guarantee.

At 31 March 2021 the Council had no material financial guarantees requiring disclosure within the Balance Sheet.

Note 29 Impairment adjustment – Heritable Bank

Early in October 2008, the Icelandic bank Landsbanki collapsed and the UK subsidiary of the bank, Heritable, went into administration. The Council had £1.800m deposited in this institution, with a maturity date and interest rate as follows:

Bank	Date invested	Maturity Date	Amount Invested £m	Interest Rate	Carrying Amount £m	Impairment £m
Heritable	24/09/2008	24/10/2008	1.800	5.95%	0	0.004

The Council has recouped almost all of the original investment (£1.796m / 99.72%) with an outstanding balance as at 31 March 2021 of £4,404. All monies within the institution have been subject to an administration process. The amounts and timing of payments to depositors such as the Council have been determined by the administrators.

The Council received £27,858 in 2020/21. The administrators stated this to be the final payment.

Recognition in the CIES

There was impairment loss of £6,140 recognised in the Comprehensive Income and Expenditure Statement in 2020/21 combined with the previous impairment gain gives the total impairment of £4,404.

Note 30 Long-Term Investments

2019/20 £000		2020/21 £000
	<u>Investments in Associates and Joint Ventures:</u>	
190	Investment in BDR Property Limited (formerly Arpley Gas Ltd)	190
190	Balance at 31 March	190

The Council's shareholdings in BDR Property Limited (formerly known as Arpley Gas Limited) were estimated at £0.190m.

Note 31 **Inventories**

2019/20 £000		2020/21 £000
659	Balance at 1 April	761
3,644	Purchases	4,112
(3,530)	Recognised in year as expense	(3,999)
(12)	Written on / (off) in year	(29)
761	Balance at 31 March	845

Covid-19 - Inventories have been reviewed and it has been determined that no material impairment has occurred as a result of the Covid-19 pandemic.

Note 32 **Construction contracts**

The Council has not recognised any significant contract revenue in respect of construction contracts with third parties during the year, and there are no significant construction contracts in progress at 31 March 2021 (Nil 2019/20).

Note 33 **Debtors**

	Short Term		Long Term	
	2019/20 £000	2020/21 £000	2019/20 £000	2020/21 £000
Central Government Bodies	14,305	15,740	0	0
Other Local Authorities	4,258	5,710	0	0
NHS Bodies	4,778	4,922	0	0
Public corporations and trading funds	0	0	0	0
Other Entities and Individuals	35,829	55,507	1,022	993
Total	59,170	81,879	1,022	993

Covid-19

The Sundry Debtor balances within the 2020/21 Financial Statements have been reviewed to assess the impact upon them of the Covid-19 pandemic and no material impairment has been identified. As the Council has already made robust and prudent bad debt provision further adjustment to the 2020/21 accounts is not considered necessary.

There is still considerable uncertainty about the impact of Covid-19 on collection rates for Business Rates and Council Tax including arrears in 2021/22 onwards. Experience so far in 2020/21 has not suggested that the collection of prior year arrears has been significantly impacted by Covid-19. In light of this, the high level of uncertainty and as the robust and prudent bad debt provision in place, an impairment adjustment to the council Tax and Business Rates debtor balances as at 31 March 2021 is not deemed feasible or necessary at present.

Note 34 **Cash and cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

Cash and cash equivalents as shown in the statement of cash flows can be reconciled to the related items in the Balance Sheet as follows:

31 Mar 20 £000		31 Mar 21 £000
59,106	Cash and Bank balances	100,702
(7,219)	Bank Overdraft	(7)
51,888	Total Cash and Cash Equivalents	100,695

Note 35 **Creditors**

	Short Term		Long Term	
	2019/20 £000	2020/21 £000	2019/20 £000	2020/21 £000
Central Government Bodies	(8,645)	(32,096)	0	0
Other Local Authorities	(1,176)	(1,379)	(1,532)	(500)
NHS Bodies	(7,265)	(13,969)	0	0
Public corporations and trading funds	0	0	0	0
Other Entities and Individuals	(58,967)	(64,729)	(18)	(19)
Total	(76,052)	(112,173)	(1,550)	(519)

Note 36 **Provisions**

Insurance claims

The Council's liability risk is insured by QBE Insurance Group (via Risk Management Partners - RMP) whilst the property risk is insured by Travelers.

In balancing the cost of insurance against the risk of a liability arising, the Council has elected to meet the policy excess in respect of certain types of claim (Employers' Liability and Public Liability) and to co-insure or self-insure itself against other types of claim by operating an Insurance Fund. Details of the different types of claim covered by this arrangement are set out below.

The Council keeps under review the best estimate of the likely liability falling on the Insurance Fund by reference to recent claims history, repudiation rates and other relevant factors and the expert advice of the Council's legal representatives on larger more complex claims.

The provision in this year's accounts covers the estimated residual liability relating to claims settled by Municipal Mutual Insurance (MMI) which, under the terms of MMI's Scheme of Arrangement, can no longer be met in full and therefore require a proportion to be repaid by the local authorities who were members of MMI when it went into solvent liquidation in 1992. This includes the Council.

(a) Employers Liability and Public Liability

Since the demise of Municipal Mutual Insurance (MMI) in 1992, many authorities have been retaining and funding their liability losses, third party, highways third party and employers' liability, up to an agreed threshold per claim, at present this is determined at £250,000. In effect the Insurance Fund meets the majority of settlements determined by the insurers.

(b) Fire

The Fund acts as a co-insurer, up to a stop-loss limit of £350,000 in any one period of insurance. The Fund bears the first £50,000 of all claims involving education, municipal and housing property.

(c) Motor

All accidental damage to our own vehicles is self-funded. The Fund recoups the cost from user departments/services via an annual charge per vehicle. There is an excess of £500 on all claims (£1,000 for thefts) which is met initially by the Fund and recharged to owning departments. Third party risks remain with the external insurer with the Council meeting the first £150,000 of every settlement.

(d) Council Flats – Added Perils

The Fund insures blocks of flats for added perils where one or more flats have been sold under the right to buy arrangements.

(e) Schools ICT Equipment

Where requested, schools ICT equipment is insured on the Fund on an 'All-Risks' basis. This arrangement does not extend to Academy schools.

(f) Other Equipment

Where requested, schools' musical instruments, televisual and video equipment, Youth & Community equipment and office equipment are insured on the Fund on an 'All-Risks' basis. In addition schools can insure many other items if desired. This arrangement does not extend to Academy schools.

In addition to the above there are many smaller risks which are self-insured including:

- Schools PABX Equipment (switchboard equipment)
- 'Time on Risk' Cover
- The York and Lancaster Exhibition

Business Rates Appeals

Under the business rates retention regulations which came into effect on 1 April 2013, an allowance is made for the amount of business rate income it is estimated will have to be refunded to business ratepayers as a result of appeal. The provision represents the Council's share of the overall estimated liability for refunding business rate payers income recognised up to and including the end of the financial year. We anticipate the majority of refunds provided for at 31 March 2021 will be made during 2021/22 and the provision has therefore been classified as a current provision.

Other

Other provisions comprise commercially sensitive items disclosure of which would prejudice the Council's position.

Note 37 Usable Reserves

The Council's usable reserves are summarised in the table below into capital and revenue followed by a brief description of the nature and purpose of each reserve. Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement on Page 7 and Notes 2 and 3.

The Council's Reserves Strategy included a significant increase in the General Fund Minimum Balance in 2020/21 to £25m. The total cost to the Council of Covid-19 in terms of expenditure, lost income and unachieved savings and the total level of Government support available to the Council to address these costs is not fully known at present. It is not therefore possible to determine whether an additional call on the Council's reserves, above those detailed within the Council's Budget and Council Tax Report 2021/22 will be necessary in 2021/22.

31 Mar 20 £000		31 Mar 21 £000
	CAPITAL RESERVES	
(16,971)	Capital Receipts Reserve	(18,306)
(15,974)	Major Repairs Reserve	(27,918)
(16,370)	Capital Grants Unapplied Account	(22,699)
(49,315)	Sub-Total Capital Reserves	(68,923)
	REVENUE RESERVES	
(20,700)	General Fund Minimum Balance – Council	(25,000)
(13,411)	Earmarked Reserves excluding DSG and Covid-19	(28,822)
(34,111)	Sub-Total General Fund Council and Earmarked Reserves excluding DSG/Covid-19	(53,822)
(2,524)	General Fund - Schools	(3,181)
(15,274)	Earmarked Reserve Covid-19 Grant	(27,430)
19,892	Earmarked Reserve DSG	21,258
(17,116)	HRA	(10,599)
0	HRA Earmarked Reserve	(1)
(15,022)	Sub-Total Other Reserves	(19,953)
(98,448)	TOTAL USABLE RESERVES	(142,698)

(a) Capital Receipts Reserve

Income from the disposal of non-current assets is credited to the Capital Receipts Reserve. The amount credited in respect of housing capital receipts is reduced by the amount the Council is required to pay over to central government under the national pooling arrangements. The Capital Receipts Reserve can only be applied to finance new capital expenditure, repay debt or meet liabilities under credit arrangements. However under the Statutory Guidance on the Flexible Use of Capital Receipts, General Fund receipts received since 1 April 2016 can be used to fund revenue transformational costs.

(b) Major Repairs Reserve

The Council is required by regulation to establish a Major Repairs Reserve. The main credit to the account comprises the total depreciation charge for all HRA assets. This can only be used to finance new capital expenditure, repay debt or meet liabilities under credit arrangements. The arrangements ensure that subsequent funding of capital expenditure does not affect the Housing Revenue Account.

(c) Capital Grants Unapplied Account

Where a capital grant or contribution (or part thereof) has been recognised as income in the Comprehensive Income and Expenditure Statement, but the expenditure to be financed from that grant or contribution has not been incurred at the Balance Sheet date, the grant or contribution is transferred to the Capital Grants Unapplied Account within usable reserves reflecting its status as a capital resource available to finance future capital expenditure.

(d) General Fund Minimum Balance

The General Fund balance represents uncommitted revenue balances held to safeguard the Council against potential financial risks, unforeseen costs and contingencies. The balance to be held is risk assessed annually as part of the budget setting process to ensure a prudent level of resources is retained.

(e) Earmarked Reserves

Details of the earmarked reserves the Council has set aside to meet specific needs or which are ring-fenced to particular services are contained in Note 3.

Details of the earmarked reserves the Council has set aside to meet specific needs or which are ring-fenced to particular services are contained in Note 3.

(f) Covid-19 Grants Reserve

The Covid-19 reserve was established to hold the early payment and carrying balances of Government grants provided to support the Council in its response to the pandemic.

(f) Earmarked Reserve DSG

The Dedicated School Grant (DSG) is a ring fenced specific grant and it must be used in support of the schools budget as defined in the School and Early Years Finance (England) (No 2) Regulations 2018 (see note 16 for further details). Local authorities are responsible for determining the split of the grant between central expenditure and the individual schools budget (ISB) in conjunction with local schools forums. There is currently a deficit balance on the Dedicated Schools Grant which, in accordance with Government policy, must be addressed from school funding, therefore the deficit must be carried forward. Childrens' and Young Peoples Service have implemented a plan to reduce the deficit in the short term and recover the deficit over the longer term.

(g) HRA

The Housing Revenue Account (HRA) is a record of revenue expenditure and income relating to a Council's housing stock. Its primary purpose is to ensure that expenditure on managing tenancies and maintaining dwellings is balanced by rents charged to tenants. Consequently, the HRA is a statutory account, ring-fenced from the rest of the General Fund, so that rents cannot be subsidised from council tax (or vice versa).

Note 38 Unusable Reserves

The Council's unusable reserves are summarised in the table below into capital and revenue followed by a brief description of the nature and purpose of each reserve and movements thereon during the year.

31 Mar 20 £000		31 Mar 21 £000
	CAPITAL RESERVES	
(219,412)	Capital Adjustment Account	(221,381)
(186,020)	Revaluation Reserve	(211,042)
(98)	Deferred Capital Receipts	0
	REVENUE RESERVES	
450,155	Pensions Reserve	513,724
4,424	Short term accumulating absences account	4,068
305	Financial instruments adjustment account	248
(5,008)	Collection Fund adjustment account	12,404
44,346	TOTAL UNUSABLE RESERVES	98,021

(a) Capital Adjustment Account

The Capital Adjustment Account absorbs timing differences arising from the different arrangements for accounting for the consumption of non-current assets under normal accounting practices and statutory requirements for financing capital expenditure applicable to local authorities. Hence, it is debited with capital charges (depreciation, impairment, revaluation losses and amortisation) that have been made in the Comprehensive Income and Expenditure statement but which are reversed out as they are not proper charge to revenue for council tax purposes and credited with the amount which is set aside from capital resources or from revenue to finance capital expenditure under the statutory provisions (the accounting policies set out the Council's approach for determining a prudent charge to revenue for debt repayment and PFI liabilities). The Capital Adjustment Account also contains accumulated gains and losses on investment properties and on Property Plant and Equipment before 1 April 2007, the date on which the Revaluation Reserve was created.

2019/20 £000		2020/21 £000
(203,095)	Balance 1 April	(219,412)
2,749	Debt Repayment	49
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:	
1,191	Amortisation of Intangible Assets	3,012
21,712	Charges for depreciation and impairment of non-current assets	31,856
7,312	Revenue expenditure funded from capital under statute	4,561
22,825	Non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	32,459
17,442	Depreciation - Major Repairs Reserve	17,179
(1,896)	Write down of Met Debt deferred Liability	(2,085)
	Adjusting amounts written out to Revaluation Reserve:	
(2,928)	Disposal	(10,621)
(4,998)	Excess of current cost depreciation over historic cost depreciation	(5,741)
	Capital Financing Applied in the year:	
(18,973)	Use of Capital Receipts Reserve to finance capital expenditure	(10,703)
(2,749)	Use of Capital Receipts Reserve to repay debt	(49)
(15,548)	Use of Major Repairs Reserve to finance capital expenditure	(9,369)
	Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing:	
(24,473)	Application of grants to capital financing from the Capital Grants Unapplied Account	(32,370)
(6,029)	Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	(6,582)
2,913	MRP holiday	0
(14,867)	Capital expenditure charged against the General Fund and HRA balances	(13,565)
(219,412)	TOTAL	(221,381)

(b) Revaluation Reserve

The Revaluation Reserve represents the cumulative unrealised revaluation gains and losses on the Council's Property, Plant and Equipment since the reserve was created on 1 April 2007.

2019/20 £000		2020/21 £000
(166,745)	Balance 1 April	(186,020)
(28,267)	Net revaluation gains/losses not charged to the Surplus /(Deficit) on Provision of Services	(42,169)
1,066	Impairment losses and reversals thereof not charged to the Surplus / (Deficit) on Provision of Services	785
(27,201)	Sub total - net revaluation and impairment gains / losses not posted to the Surplus / Deficit on provision of Services	(41,383)
2,928	Accumulated Gains on assets sold or scrapped	10,621
4,998	Excess of fair value depreciation over historic cost depreciation transferred to Capital Adjustment Account	5,741
(186,020)	Balance at 31 March	(211,042)

(c) Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve represents amounts due from the sale of non-current assets that have still to be realised. Under statutory arrangements, this only becomes available for financing on receipt of cash at which point a transfer is made to the Capital Receipts Reserve. The balance is mainly represented by mortgages on council houses sold to (former) tenants.

2019/20 £000		2020/21 £000
(98)	Balance 1 April	(98)
0	Transfer to the Capital Receipts Reserve of cash received	98
(98)	Balance at 31 March	0

(d) Movements in Fair Value through Profit & Loss (FVPL) Financial Instruments Reserve

The Fair Value through Profit & Loss (FVPL) Financial Instruments Reserve contains the gains made by the Council arising from increases in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- disposed of and the gains are realised.

At 31 March 2021 the Council held no financial assets classified as Fair Value through Profit & Loss (FVPL)

(e) Pensions Reserve

The Pensions Reserve absorbs timing differences arising from the different arrangements for accounting for post-employment benefits under normal accounting practices and statutory requirements for funding benefits applicable to local authorities. The amount recognised as post-employment benefits under normal accounting practice reflects the benefits accrued by employees from their reckonable service, and changes to the assumptions about the liabilities that will fall on the scheme when benefits are paid out and the value of scheme assets to cover those liabilities. The amount charged under statutory provision is the amount due to be paid over by the Council as employer contributions under local government pension scheme rules.

The Pensions Reserve represents the Council's share of the underlying assets and liabilities for post-employment benefits attributable to the Council at the balance sheet date. The deficit represents the amount by which benefits earned by past and current employees currently exceeds the resources set aside by the Council to meet them. The statutory arrangements will ensure that the funding will have been set aside by the time the benefits come to be paid.

Further details of the Council's participation in the Local Government Pension Scheme (administered by South Yorkshire Pensions Authority) are detailed in Note 18.

2019/20 £000		2020/21 £000
466,820	Balance 1 April	450,155
(38,851)	Remeasurements of the net defined benefit liability/(asset)	40,880
	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	
47,999		43,450
(25,813)	Employer's pensions contributions and direct payments to pensioners payable in the year	(20,761)
450,155	Balance 31 March	513,724

(f) Short-term Accumulated Absences Account

The Accumulating Absences Accounts absorbs the timing differences arising from the different arrangements for accounting for short term compensated absences under normal accounting practices and statutory requirements for charging such absences applicable to local authorities. Under normal accounting practice, an accrual is made to charge compensated absences, for example, annual leave entitlement not yet paid, in the year in which they are earned. However, under statutory provision, these are charged to revenue in the year in which they are payable. The balance on the Accumulating Absences Account therefore represents the amount of compensated absences earned which will fall as a charge on the General Fund in the future.

2019/20			2020/21	
£000	£000		£000	£000
	3,869	Balance 1 April		4,424
(3,838)		Settlement or cancellation of accrual made at the end of the preceding year	(4,424)	
4,234		Amounts accrued at the end of the current year	4,068	
	555	Net amount charged to Comprehensive Income and Expenditure Statement in the year reversed out under regulation chargeable to revenue in the future when payments fall due		(356)
	4,424	Balance at 31 March		4,068

(g) Financial Instruments Adjustment Account

This reserve has been created to hold the accumulated difference between the financing costs included in the Income and Expenditure Account and the accumulated financing costs required in accordance with Regulations to be charged to the General Fund Balance.

General Transactions

The Code requires that unless directly attributable to a loan held at 31 March 2007 then all premium and discounts carried on the Balance Sheet at that date were required to be written off to the General Fund Balance as at 1 April 2007. Government Regulations allow for the impact to be neutralised through a transfer to the Financial Instruments Adjustment Account. The balance of premium and discounts will be amortised to revenue in line with the provisions set down in the Council's accounting policies.

The Code also requires that where the Council has provided loans at less than market rates then these should be accounted for on a fair value basis. The difference between the fair value and loan amount is accounted for as an immediate charge to the Income and Expenditure Account. Government Regulations allow for the impact to be neutralised through a transfer to the Financial Instruments Adjustment Account. The fair value increases over the period of the loan and the annual impact will be neutralised in the Income and Expenditure Account by the writing down of the balance on the Financial Instruments Adjustment Account.

2019/20 £000		2020/21 £000
425	Balance at 1 April	305
	Movement in year:	
69	Premium and discounts	(25)
(189)	Soft Loans	(32)
305	Balance carried forward at 31 March	248

(h) Collection Fund Adjustment Account

The Collection Fund Adjustment Account absorbs differences between the amount of council tax income recognised under normal accounting practice as it falls due from council tax payers and the amount due to the General Fund and preceptors under statutory provisions. The balance on the Collection Fund Adjustment Account therefore represents the amount still to be distributed to the General Fund and precepting authorities.

Covid-19 Due to current uncertainty with respect to the progress of the Covid-19 pandemic and national recovery and in light of government measures developed in relation to the Collection Fund, it is not considered that the 2020/21 year-end Fund balance is currently materially impaired by the impact of the emergency. The position is being monitored closely during 2021/22.

2019/20 CTAX £000	2019/20 NNDR £000	2019/20 Total £000		2020/21 CTAX £000	2020/21 NNDR £000	2020/21 Total £000

	(720,145)	(43,783)	(691)	(767,764)

Note 42 Capital Expenditure and Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

2019/20 £000		2020/21 £000
825,589	Opening Capital Financing Requirement Capital Investment	843,702
78,541	Property, Plant and Equipment	72,711
5,824	Investment Properties	239
5,308	Intangible Assets	3,116
0	Heritage Asset	13
7,312	Revenue Expenditure funded from Capital under Statute	4,561
922,574		924,342
	Sources of finance:	
(18,973)	Capital receipts to finance new capital expenditure	(10,703)
(24,473)	Government grants and other contributions	(32,370)
(15,548)	Major Repairs Allowance	(9,369)
	Sums set aside from revenue	
	Direct revenue contributions:	
0	General Fund	0
(14,867)	Housing Revenue Account	(13,565)
(6,839)	Minimum Revenue Provision	(7,879)
2,913	MRP holiday	
2,072	Historical correction to reflect MRP reprofiling on finance leases	0
(3,157)	Write down of finance lease liability	(787)
(78,872)		(74,673)
843,702	Closing Capital Financing Requirement	849,669

2019/20 £000	Explanation of movements in year	2020/21 £000
18,113	Increase in underlying need to borrowing (unsupported by government financial assistance)	5,967
0	Assets acquired under finance leases	0
18,113	Increase in Capital Financing Requirement	5,967

The MRP value disclosed in this note has two key differences from that disclosed in note 38a, firstly the MRP on this note includes Met Debt MRP, and secondly the W/D of finance lease MRP is shown separately within the 'write down of finance lease liability' line.

The CFR note includes an adjusting line that picks up an historical issue where adjustments for MRP on PFI contracts had not been factored into the calculation of the Councils CFR position. These values have now been factored into the CFR table above. It should be noted that this is a disclosure adjustment, the adjustment made does not impact any financial transactions posted to the Councils accounts, it is merely reporting them correctly in this CFR note.

Covid-19 There is no evidence at present that suggests any capital projects in 2020/21 continuing into 2021/22 will be abortive or suffer from removed grant funding and no issues arising in 2021/22 have been identified that will require the capital expenditure included in 2020/21 to be revised.

Note 43 Leases

The classification of all types of lease including land is assessed on who has the risks and rewards of ownership as for all other types of lease.

Contingent rents are expensed in the year in which they are incurred.

(a) Finance leases – Council as Lessee

The movements in Finance Lease liabilities during the year are as follows:

	31 Mar 20 £000	31 Mar 21 £000
Finance Lease Liability outstanding at start of year	(28,032)	(27,884)
Principal repaid in year	148	145
Less: Schools converting to academies Finance Lease Liability written off	0	0
New Liabilities arising in year	0	0
Balance outstanding at year end	(27,884)	(27,739)
Short Term Creditors	(145)	(146)
Long Term Liabilities	(27,739)	(27,593)

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	31 Mar 20 £000	31 Mar 21 £000	31 Mar 20 £000	31 Mar 21 £000
Not later than one year	(2,801)	(2,846)	(145)	(146)
Later than one year and not later than five years	(11,874)	(12,112)	(674)	(738)
Later than five years	(128,926)	(125,156)	(27,064)	(26,855)

The assets acquired under the leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

2019/20 £000		2020/21 £000
25,774	Land and buildings	25,075
62	Vehicles, Plant, Furniture and Equipment	55
25,836	Total	25,130

(b) Operating leases – Council as Lessee

The Council has the right of use over a range of assets by virtue of operating leases that it has entered into. The future minimum lease payments due under these non-cancellable leases in future years are:

2019/20 £000		2020/21 £000
833	Within one year	673
1,451	Between one year and five years	1,219
5,574	After more than five years	5,660

The expenditure charged to service in 2020/21 in the Comprehensive Income and Expenditure statement in relation to these leases was £0.731m (£1.149m 2019/20).

(c) Finance leases – Council as Lessor

The Council does not hold any finance lease lessor arrangement that generate a net investment in finance lease receivable to bring onto the balance sheet.

(d) Operating leases – Council as Lessor

Most of the property and equipment leased out by the Council meets the definition of investment property. The rental income earned from leasing out these investment properties is disclosed in Note 20.

Note 44 **Private Finance Initiative and Similar Contracts**

As at 31 March 2021, the Council has in place three long-term contracts under Private Finance Initiative (PFI) arrangements, one of which, the Waste PFI, is a joint contract with Barnsley and Doncaster Councils. In addition, it has in place one partnership agreement.

As a result of a change to the way in which PFI Schemes and Similar Contracts were accounted for in 2009/10 on transition to IFRS, assets within the PFI Schemes or Similar Contracts were brought on Balance Sheet. The movement in the carrying value of these assets is disclosed in the Property Plant and Equipment note (Note 19a).

The note below provides a brief description of each scheme and outstanding obligations.

(a) Private Finance Initiatives - Schools PFI

The contract for the provision of 8 primary and 6 secondary schools commenced on 1 April 2004 with an end date of 31 March 2034, and a capital value of £96m. All the schools were completed in line with the original programme. At the expiry of the contract the schools transfer back to the Council for nil consideration, with the exception of 9 PFI schools, 3 primary and 6 secondary schools which have converted to academy trusts and therefore transfer to the individual trusts under 125 year lease arrangements with the Council. The agreed government funding is being received and will support the Authority to manage income and expenditure over the rest of the 30 years of these arrangements. Payments during the year totalled £16.552m and are subject to availability and performance-related deductions and contractually agreed inflation adjustments. In the same period the Council received £6.223m of PFI grant in support of this project.

(b) Private Finance Initiatives – Sports and Leisure PFI

The Sport and Leisure Facilities Regeneration Programme and Maltby Joint Service Centre PFI involved the construction of 3 new combined swimming pools and dry leisure centres, one stand-alone swimming pool and a joint service centre. The contract with DC Projects (Rotherham) Ltd became operational in August 2008 and has a capital value of £38m. The contract expires on 31 October 2041, when all the assets transfer back to the Council for nil consideration. £24.954m of PFI Credits have been awarded to support the scheme. All 5 facilities are operational. Payments during the year totalled £4.673m. In the same period the Council received £1.811m of PFI grant in support of this project.

(c) Bereavement Services Partnership - Dignity

The Council signed a partnership agreement with Dignity Funerals Limited in July 2008, who now manage the Borough's Bereavement Services on the Council's behalf. The contract commenced in August 2008 and operates for a period of 35 years at which point all the assets revert back to the Council for nil consideration.

(d) Waste Management PFI

The Council's joint Waste PFI Contract, along with Barnsley and Doncaster Councils, with 3SE (Shanks, Scottish and Southern Energy) became operational in July 2015. The contract is providing residual waste and recycling facilities for the 3 boroughs. The Councils have been jointly awarded £77.4m PFI credits for this project. The Council received £1.789m of PFI grant in support of this project in 2020/21. Payments during the year totalled £6.825m.

(e) Movements in Finance Liabilities

The Table below shows the movements in the Finance Liabilities during 2020/21:

	31 Mar 20 £000	31 Mar 21 £000
Balance outstanding at start of year	(101,645)	(99,033)
Principal repaid in year	2,612	3,281
Balance outstanding at year end	(99,033)	(95,752)
Short Term Creditors	(3,281)	(2,840)
Long Term Liabilities	(95,752)	(92,912)

The minimum lease payments will be payable over the following periods:

	Payment for Services £000	Finance Lease Liability £000	Interest £000	Total £000
Not later than one year	17,185	2,840	9,671	29,696
Two to five years	72,733	14,927	36,749	124,409
Six to ten years	101,322	28,446	40,191	169,959
Eleven to Fifteen years	93,502	30,540	27,824	151,866
Sixteen to twenty years	75,344	15,984	12,408	103,736
Twenty one to twenty five years	12,581	3,013	3,459	19,053

Note 45 **Capitalised borrowing costs**

The Council had £68,522 of capitalised borrowing costs during 2020/21 (£132,602 in 2019/20) the capitalisation rate used in 2020/21 was 3.654% (4% in 2019/20).

Note 46 **Contingent Liabilities**

The Council discloses contingent liabilities in excess of £50,000 those that meet this requirement are disclosed below.

Public Liability claims

The Council has 1 outstanding public liability claim.

Motor claims

The Council has 1 outstanding motor claim.

Contract related claim

The Council has an outstanding contractual issue in relation to a refurbishment programme.

Employment Tribunals

There are a small number of outstanding tribunal cases awaiting hearing.

Note 47 **Contingent Assets**

Claims for recovery of tax and damages

As part of a national initiative protective VAT claims have been submitted to HMRC to recover VAT on Landfill Tax and Postal charges. There is also a claim for damages filed at the High Court against Royal Mail. The quantity and strength of the claims have yet to be determined by litigation.

Contract related claim

The Council has an outstanding contractual issue in relation to a refurbishment programme.

Note 48 **Trust Funds**

The Council acts as sole trustee for various legacies relating to the provision of educational supplies to specific local schools. Each fund holds investments and may use the interest derived from those investments to fund the purchase of supplies.

Accumulated interest balances and the respective balance sheets are as follows:

	Balance as at 1 Apr 2020 £	Income £	Expenditure £	Balance as at 31 Mar 21 £
Treeton Council School War Memorial	831	58	0	889
EJ Butland, Treeton Infants	737	52	0	789
Whiston Two Wars Memorial	1062	75	0	1137
Total	2,630	185	0	2,815

44	- Debtors	45
2,587	- Cash	2,770
2,981	Total Assets	3,165
	<u>Financed by:</u>	
350	- Fund Balance	350
2,630	- Accumulated Investment Interest	2,815
2,980	Total Equity	3,165

Note 49 Material items of income and expenditure

This note is used to draw attention to material items of income and expenditure not disclosed separately on the face of the CIES which need to be taken into consideration to gain a full understanding of the Council's financial performance in the year.

Schools

As shown in Note 18 of the accounts, £3.170m has been credited to the CIES in respect of settlements. This all relates to the transfer of pension liabilities from the Council when schools convert to academies and, as a consequence, has been credited in full to the "Schools" heading within the CIES.

Minimum Revenue Provision (MRP)

A change in MRP policy in 2014/15 to produce a fairer charge to revenue for present and future council tax payers in respect of pre 2007/08 debt identified that £34.783m of MRP had been overcharged in the period 2007/08 to 2014/15. The overcharge was subsequently recovered by taking an MRP holiday as set out in Accounting Policy 15.

As shown in Note 42 of the accounts, the final £2.913m of the overcharge was recovered in 2019/20.

Loss on disposal of non-current assets

The loss on disposal of non-current assets reported in Note 4 of £17.824m includes £16.910m of school property, plant and equipment transferred from the Council's balance sheet as a result of schools converting to academies.

Pensions Prepayments

The Council is liable to make annual revenue contributions in respect of its Pension Fund liabilities as specified in the actuary's certificate of rates and contributions. Agreement was reached with South Yorkshire Pensions Authority that the amounts due in respect of 2020/21, 2021/22 and 2022/23 could be settled by way of a single payment made in April 2020. The amount settled in April 2020 in respect of 2020/21 was £14.444m. The discount given for doing this has been apportioned over the three years on a pro rata basis.

Covid income and expenditure

Throughout the pandemic the Council has incurred significant additional costs in its efforts to manage and mitigate the impact of Covid-19. These financial pressures cut across three main themes,

additional costs incurred due to the pandemic, lost sales, fees and charges income as a result of closed services and delayed delivery of planned savings. The Council has been able to mitigate these pressures through the use of Government provision of emergency funding to support the Covid-19 response, sales, fees and charges income compensation claims and used in 2020/21 of specific Covid-19 government grants.

Note 50 **Other Long-term Liabilities**

31 Mar 20 £000		31 Mar 21 £000	Notes
(95,752)	PFI Liability	(92,911)	44
(27,739)	Finance Lease Liability	(27,593)	43
(450,155)	Pension Liability	(485,210)	18
0	Deferred Liabilities	0	
(573,645)	Total	(605,714)	

Note 51 **Events after the Balance Sheet date**

The draft Statement of Accounts was authorised for issue by the Judith Badger, Strategic Director of Finance and Customer Services on 30 July 2021. Events taking place after this date are not reflected in the Financial Statements or Notes.

Where events taking place before this date provided information about conditions existing at 31 March 2021, the figures in the Financial Statements and Notes have been adjusted in all material respects to reflect the impact of this information.

Covid-19 Although as at 31 March 2021 some of the financial implications of the Covid-19 pandemic were known and some actions to address the pandemic were in place by the 2020/21 reporting date, the longer term effects of Covid-19 are not fully known, with further costs and income losses expected to hit the 2021/22 financial year and beyond. It is recognised that the pandemic is potentially an Adjusting Post Balance Sheet Event in the context of the 2020/21 Financial Statements, however there is still considerable uncertainty with respect to the progress of the pandemic and of the national recovery. The 2020/21 Financial Statements have been reviewed in light of the pandemic, the expectation is that the bulk of the financial impact of Covid-19 hit 2020/21 however, as the full impact of Covid-19 and the level of government support available is not fully known it is too early to say what the impact on the Council's accounts will be.

Other Financial Statements and Notes to the Other Financial Statements

Housing Revenue Account (HRA)

The Collection Fund Income and Expenditure Account

Metropolitan Debt Administration

HOUSING REVENUE ACCOUNT INCOME AND EXPENDITURE STATEMENT

The Housing Revenue Account (HRA) shows the economic cost in the year of providing housing services in accordance with generally accepted accounting principles, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement on the HRA Statement. Format of this account has been slightly changed from CIPFA code format to make it easier for the reader to compare to the Comprehensive Income and Expenditure Statement.

At 31 Mar 20	654,917	16,973	1	29,183	7,404	708,478

Other assets including district boiler houses have been classified as intrinsic to the day to day operation of the housing estates in which they are located and as such have no asset value in their own right. Garage structures are valued based upon capitalised income streams.

Other operational property plant and equipment such as estate shops and area housing offices are held within the General Fund Asset Register.

(b) Vacant possession

	£m
Value as at 1 Apr 20	1,608

The difference between the Balance Sheet valuation of dwellings shown at (a) above and the vacant Possession value reflects the economic cost to Government of providing Council Houses at less than open market rents.

Note 4 Major Repairs Reserve

The Council is required by regulation to establish a Major Repairs Reserve. The main credit to the account comprises the total depreciation charge for all Housing Revenue Account assets. Capital expenditure is then funded from the reserve without being charged to the Housing Revenue Account.

2019/20 £000		2020/21 £000
10,596	Balance as at 1 April	15,974
17,442	Depreciation in the year	17,179
3,484	Transfer to MRR	4,134
(15,548)	Financing of Capital Expenditure	(9,369)
15,974	Balance as at 31 March	27,918

Note 5 Financing of Capital Expenditure

Capital expenditure on Land, Houses and Other Property within the HRA was financed as follows:

	2020/21 £000
Borrowing Need	0
Capital Receipts	4,449
Revenue Contributions	13,387
Government Grants/Other Capital Income	7995
Major Repairs Reserve	9,369
Total	35,200

During the year total capital receipts of £12.826m were received by the HRA, of which £10.474m was available to support capital expenditure within the Council

Note 6 Depreciation

A depreciation charge has been included in respect of dwelling houses within the Housing Revenue Account. This charge is based upon the value of the dwelling stock at the 1 April 2020 excluding the value of land. Depreciation has been calculated using the 'straight line' method over 30 years.

An additional depreciation charge has been included in the total charged to the Housing Revenue Account in respect of garages. This charge is based upon the value at 1 April 2020 and has been calculated using the 'straight line' method over 15 years.

Note 7 Impairment

A net impairment charge of (£7.561m) has been included in the HRA Income and Expenditure Account (£3.965m in 2019/20). This charge is reflected in the HRA Income and Expenditure Account in arriving at the surplus on the provision of HRA Services. In accordance with proper accounting practice the Council reversed out the impairment charge in determining the movement on the HRA balance.

Note 8 Rent Arrears & Other Provisions for Bad and Doubtful Debts

2019/20 £000		2020/21 £000
	Rent Arrears	
3,601	Current Tenants	2,974
4,876	Former Tenants	4,660
8,477	As at 31 March	7,634

As at 31 March 2021, the level of rent arrears for current tenants as a proportion of gross rent income was 3.48% (2019/20 4.25%).

2019/20 £000	Bad Debt Provision in respect of rent income	2020/21 £000
4,632	As at 1 April	5,208
610	Increase in Provision	373
(34)	Utilised in year	(625)
5,208	As at 31 March	4,956

Provision has also been made in the accounts for write-offs in respect of tenants' and former tenants' rechargeable repairs are as follows:

2019/20 £000	Bad Debt Provision in respect of the rechargeable repairs	2020/21 £000
455	As at 1 April	619
182	Increase in Provision	103
(18)	Utilised in year	(391)
619	As at 31 March	331

As levels of tenant debt have reduced and as robust and prudent levels of bad debt provision were included in the 2020/21 HRA accounts, it is considered that the 2020/21 debtor balances have not been impaired as a result of the pandemic and that no material restatement is required for the 2020/21 Financial Statements.

Note 9 Interest Payable and Other Charges

This is the cost of external interest payable together with the cost of debt redemption premium.

Note 10 Contributions to and from the Pensions Reserve

Local authorities are required to account for their pension costs on an IAS 19 basis, but to reverse the impact of IAS 19 based accounting to the Pensions Reserve to ensure that it does not impact on housing rents.

THE COLLECTION FUND

By statute, Billing Authorities are required to maintain a separate Collection Fund which shows the level of National Non Domestic Rates (NNDR), and Council Tax received by the Council during the accounting period and the distribution of these funds.

REVENUE ACCOUNT FOR YEAR ENDED 31 MARCH 2021

2019/20				2020/21			Note
Council Tax £000	Non Domestic Rates £000	Total £000		Council Tax £000	Non Domestic Rates £000	Total £000	
132,534		132,534	Council Tax Receivable	136,424		136,424	2
	77,665	77,665	National Non-Domestic Rates (excluding write-offs)		45,587	45,587

(541)	(782)	(1,323)	Surplus/(Deficit) arising during the year	(1,486)	(35,288)	(36,774)	
5,312	2,093	7,405	Surplus brought forward	4,771	1,311	6,082	
4,771	1,311	6,082	Surplus carried forward	3,285	(33,977)	(30,692)	4

Notes to the Collection Fund Statement

Note 1 Council Tax

The Council Tax system involves the categorisation of properties into bands (A-H) dependent upon their value. It is a requirement of the Local Government Finance Act 1992 that the basis on which the Council Tax is calculated should be expressed as a ratio of the Band D equivalent. Totals of properties falling into bands other than Band D therefore have to be adjusted to reflect their relationship to this band. The effect of this for 2020/21 is shown below.

Adjustments to the Council Tax base to reflect the estimated collection rate of Council Tax are also set out below:

Band	Number of Band D Equivalents properties	Ratio to Band D	Collection Rate @ 97%
A	28,305	6:9	27,456
B	15,210	7:9	14,754
C	12,214	8:9	11,848
D	8,500	9:9	8,245
E	5,323	11:9	5,163
F	2,421	13:9	2,348
G	1,155	15:9	1,120
H	63	18:9	61
	73,191		70,995

Note 2 National Non-Domestic Rates (NNDR) – Business Rates

Business Rates are levied on non-domestic premises at a rate in the pound determined by central government which is applied nationally (the national multiplier). The national multiplier in 2020/21 was 50.4 pence in the pound and a small business rating multiplier of 49.1 pence in the pound (50.4 pence and 49.1 pence respectively in 2019/20).

The NNDR income in 2020/21 after allowing for mandatory and discretionary reliefs of £45.587m (77.665m 2019/20) was based on a total rateable value of £194.2m as at 31 March 2021 (£190.2m as at 31 March 2020). The reduction from prior year income was due to additional business rates relief awarded in response to Covid-19.

Note 3 Discounts

The Council does not operate a discount scheme for the early payment of council tax.

Note 4 Collection Fund Balance

The balance on the Collection Fund at 31 March 2021 is a deficit of £30.692m (£6.092m surplus 2019/20) and consists of a £33.977m deficit (£1.311m surplus 2019/20) relating to business rates to be distributed to the billing Authority (Rotherham MBC), Central Government and South Yorkshire Fire and Civil Defence Authority, and a £3.285m surplus (£4.771m surplus 2019/20) in relation to council tax. The deficit relating to business rates was due to additional reliefs awarded in relation to Covid-19, the Council has been awarded government section 31 grant to offset it's share of the relief awarded. The section 31 grant for additional business rate relief is carried forward in reserves to offset the Council's repayment of the 2020/21 deficit to the Collection Fund in 2021/22. The balance is distributed to the billing Authority (Rotherham MBC), South Yorkshire Police and Crime Commissioner and South Yorkshire Fire and Civil Defence Authority as follows:

2019/20 Council Tax £000	2019/20 NNDR £000	2019/20 Total £000		2020/21 Council Tax £000	2020/21 NNDR £000	2020/21 Total £000
4,453	643	5,096	Billing Authority – Rotherham MBC	2,939	(16,648)	(13,709)
0	656	656	Central Government	0	(16,989)	(16,989)
			Major Precepting Authorities:			
234	0	234	- South Yorkshire Police and Crime Commissioner	251	0	251
84	12	96	- South Yorkshire Fire and Civil Defence Authority	95	(340)	(245)
4,771	1,311	6,082	Total	3,285	(33,977)	(30,692)

Covid-19 Due to current uncertainty with respect to the progress of the Covid-19 pandemic and national recovery and in light of the proposed government measures being developed in relation to the Collection Fund, it is not considered that the 2020/21 year-end Fund balance is currently materially impaired by the impact of the emergency. The position is being monitored closely during 2021.

Note 5 Parish Precepts

Precept demands are issued by the parishes on the Council as Billing Authority. In turn the Council issues a precept on the Collection Fund for the year inclusive of the parish precepts payable. The payment of the parish precepts appears as a charge in the Comprehensive Income and Expenditure Account (see Note 4 Other Operating Expenditure).

METROPOLITAN DEBT ADMINISTRATION

The Council became responsible for the administration of the former South Yorkshire County Council (SYCC) Debt from 1 April 1986. The following statements account for the administration of the Metropolitan Debt. The outstanding South Yorkshire County Council (SYCC) debt has now been fully repaid with no balances as at 31 March 2021.

2019/20 £000	Capital Account	2020/21 £000
(12,700)	Cash at bank 1 April	(7,404)
0	Transfer (from) Financial Instruments Adjustments Account	0
0	Adjustment to loans outstanding for interest accruals	0
16,500	Add: Expenditure in the year – Loans repaid	19,689
3,800		12,285
	Less Income:	
0	Loans raised	0
11,204	Repayments by Relevant Authorities	12,285
(7,404)	Cash at bank 31 March	0

2019/20 £000	Revenue Account	2020/21 £000
1,059	Interest Paid on Outstanding Loans	59
13	Management and other expenses	13
1,072		72
	Less Income:	
16	Notional Interest	6
1,056		66
1,056	Recharge to Relevant Authorities	66
0		0

2019/20 £000	Balance Sheet as at 31 March	2020/21 £000
	Capital Liabilities	
20,131	Loans Outstanding	0
(7,404)	Cash at bank	0
12,727		0
	Capital Assets	
12,727	Advances Outstanding	0
	Reserves	
0	Financial Instruments Adjustments Account (FIAA)	0
12,727		0

Note 1 **Financial Instruments – Balances**

The borrowings disclosed in the Balance Sheet are made up of the following categories of financial instruments:

	Long Term		Short Term	
	31 Mar 20 £000	31 Mar 21 £000	31 Mar 20 £000	31 Mar 21 £000
Financial liabilities (principal amount) - PWLB	0	0	19,689	0
Financial liabilities at amortised cost - PWLB	0	0	20,131	0
Loans and receivables (principal amount)	0	0	0	0
Loans and receivables at amortised cost	0	0	0	0

Note 2 **Financial Instruments – Maturity Analysis**

The maturity analysis of financial liabilities is as follows:

31 Mar 20 £000		31 Mar 21 £000
19,689	Less than one year	0
0	Between one and two years	0
0	Between two and five years	0
19,689		0

Note 3 **Financial Instruments – Fair Values**

Fair Value of Financial Assets

At 31 March 2021 the Metropolitan Administration Account had no Available for Sale financial assets measured in the Balance Sheet at fair value on a recurring basis (Nil at 31 March 2020). There were no transfers between input levels 1 and 2 during the year and there has been no change in the valuation technique used during the year for Available for Sale financial instruments.

Fair Value of Financial Assets and Financial Liabilities not measured at Fair Value

All other financial liabilities and financial assets represented by loans and receivables which are not measured at fair value but for which a disclosure is required were carried in the balance sheet at amortised cost. There was no fair value assessment to make for 2020/21 regarding loans for the Metropolitan Debt administration as the outstanding loans have been fully repaid.

The fair values of the financial instruments are as follows:

31 Mar 20			31 Mar 21	
Carrying amount £000	Fair Value at Redemption rate £000		Carrying amount £000	Fair Value at Redemption rate £000
20,131	20,170	Financial Liabilities – Debt	0	0
0	0	Loans and Receivables	0	0

The fair value for financial liabilities is greater than the carrying value because the Account's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This showed a notional future loss (based on economic conditions at 31 March 2020) arising from a commitment to pay interest to lenders above current market rates.

Note 4 Authorised Limit and Operational Boundary

For the former SYCC, the Council's operational boundary for external debt for the year was £20m and its Authorised Limit for External Debt, the statutory limit determined under section 3(i) of the Local Government Act 2003, was £20m.

Page blank – for audit opinion

GLOSSARY

This listing will help Members and other readers to understand the terminology used within the Statement of Accounts.

ACCOUNTING PERIOD

The period of time covered by the accounts, normally a period of twelve months commencing on 1 April. The end of the accounting period is the Balance Sheet date.

ACCRUALS

Sums included in the final accounts to recognise revenue and capital income and expenditure earned or incurred in the financial year, but for which actual payment had not been received or made as at 31 March.

ADDED YEARS

A discretionary award increasing the value of pensions for retiring employees aged 50 or over subject to specific conditions. Employers' must exercise this discretion in accordance with the national regulations.

ASSET

An asset is a resource controlled by the Council as a result of past events from which future economic benefits or service potential is expected to flow to the Council.

- A current asset is an amount which is expected to be realised within 12 months.
- A non-current asset is an amount which is expected to be realised after more than 12 months.

AUDIT OF ACCOUNTS

An independent examination of the Council's financial affairs.

BALANCE SHEET

A statement of the recorded assets, liabilities and other balances at the end of the accounting period.

BORROWING

Funding of capital investment by the use of loans from the Public Works Loans Board, other Local Authorities, banks or other lenders. Borrowing for which no financial support is provided by Central Government. The financing costs of which are met from the current revenue budgets.

BUDGET

The forecast of net revenue and capital expenditure over the accounting period.

CAPITAL ADJUSTMENT ACCOUNT

An account maintained to provide a balancing mechanism between the different rates at which assets are depreciated and are financed through the capital controls system.

CAPITAL CHARGE

A charge made to service revenue accounts to reflect the cost of Non-Current Assets used in the provision of services.

CAPITAL EXPENDITURE

Expenditure on the acquisition of a fixed asset, which will be used in providing services beyond the current accounting period, or expenditure which adds to and not merely maintains the value of an existing fixed asset.

CAPITAL FINANCING

Funds generated to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, leasing, direct revenue financing, usable capital receipts, capital grants, capital contributions, revenue reserves and earmarked reserves.

CAPITAL PROGRAMME

The capital schemes the Council intends to carry out over a specific period of time.

CAPITAL RECEIPT

The proceeds from the sale of capital assets which, subject to various limitations (e.g. Pooling Arrangements introduced in the Local Government Act 2003) can be used to finance capital expenditure, invested, or to repay outstanding debt on assets originally financed through borrowing. However under the Statutory Guidance on the Flexible Use of Capital Receipts, General Fund receipts received since 1 April 2016 can be used to fund revenue transformational costs.

CIPFA

The Chartered Institute of Public Finance and Accountancy

COLLECTION FUND

A separate fund that records the income and expenditure relating to Council Tax and non-domestic rates.

COMMUNITY ASSETS

Assets that the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historical buildings.

CONSISTENCY

The concept that the accounting treatment of like items within an accounting period and from one period to the next are the same.

CONTINGENT ASSET

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control.

CONTINGENT LIABILITY

A contingent liability is either:

- A possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control; or
- A present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

COUNCIL TAX

A banded property tax that is levied on domestic properties. The banding is based on assessed property values at 1 April 1991.

CREDITOR

Amount owed by the Council for work done, goods received or services rendered within the accounting period, but for which payment has not been made by the end of that accounting period.

CURRENT SERVICE COST (PENSIONS)

The increase in the present value of a defined benefits pension scheme's liabilities, expected to arise from employee service in the current period.

DEBTOR

Amount owed to the Council for works done, goods received or services rendered within the accounting period, but for which payment has not been received by the end of that accounting period.

DEFINED BENEFIT PENSION SCHEME

Pension schemes in which the benefits received by the participants are independent of the contributions paid and are not directly related to the investments of the scheme.

DEPRECIATION

The measure of the cost of wearing out, consumption or other reduction in the useful economic life of the Council's Non-Current Assets during the accounting period, whether from use, the passage of time or obsolescence through technical or other changes.

DISCRETIONARY BENEFITS (PENSIONS)

Retirement benefits, which the employer has no legal, contractual or constructive obligation to award and are awarded under the Council's discretionary powers such as the Local Government (Discretionary Payments) Regulations 1996.

DEDICATED SCHOOLS GRANT (DSG)

The Dedicated School Grant (DSG) is a ring fenced grant for the support of the Schools Budget, paid by the Department for Education and Skills (DfES) to the Local Council; it replaces the Schools Formula Spending Share (FSS).

EARMARKED RESERVE

A sum set aside in a reserve for a specific purpose.

EQUITY

The Council's value of total assets less total liabilities.

EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the audited Statement of Accounts is authorised for issue.

EXCEPTIONAL ITEMS

Material items which derive from events or transactions that fall within the ordinary activities of the Council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

FAIR VALUE

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

FEES AND CHARGES

Income arising from the provision of services e.g. the use of leisure facilities.

FINANCIAL INSTRUMENTS ADJUSTMENT ACCOUNT

This reserve was created under the SORP 2007 to hold the accumulated difference between the financing costs included in the Income and Expenditure Account and the accumulated financing costs required in accordance with Regulations to be charged to the General Fund Balance.

FINANCE LEASE

A lease that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee.

GENERAL FUND SERVICES

Comprises all services provided by the Council with the exception of services relating to the provision of local Council housing – which are accounted for in the Housing Revenue Account. The net cost of General Fund services is met by council tax, Government Grants and Business Rates.

GOING CONCERN

The concept that the Statement of Accounts is prepared on the assumption that the Council will continue in operational existence for the foreseeable future.

GOVERNMENT GRANTS

Grants made by the government towards either revenue or capital expenditure in return for past or future compliance with certain conditions relating to the activities of the Council. These grants may be specific to a particular scheme or may support the revenue spend of the Council in general.

HERITAGE ASSETS

Heritage assets are those assets that are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations.

HOUSING BENEFITS

A system of financial assistance to individuals towards certain housing costs administered by authorities and subsidised by central government.

HOUSING REVENUE ACCOUNT (HRA)

A separate account to the General Fund, which includes the income and expenditure arising from the provision of housing accommodation by the Council.

IMPAIRMENT

A reduction in the value of a fixed asset to below its carrying amount on the Balance Sheet.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT (CIES)

The revenue account of the Council that reports the net cost for the year of the functions for which it is responsible and demonstrates how that cost has been financed from precepts, grants and other income.

INFRASTRUCTURE ASSETS

Non-Current Assets belonging to the Council that cannot be transferred or sold, on which expenditure is only recoverable by the continued use of the asset created. Examples are; highways, footpaths and bridges.

INVENTORIES

Items of raw materials and stores a Council has procured and holds in expectation of future use. Examples are; consumable stores, raw materials and products and services in intermediate stages of completion.

INTANGIBLE ASSETS

An intangible (non-physical) item may be defined as an asset when access to the future economic benefits it represents is controlled by the reporting entity. This Council's intangible assets comprise computer software licences.

NET INTEREST EXPENSE (PENSIONS)

For a defined benefit scheme, the expected increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement less interest income earned on plan assets.

INVESTMENTS

A long-term investment is an investment that is intended to be held for use on a continuing basis in the activities of the Council. Investments should be so classified only where an intention to hold the investments for the long term can clearly be demonstrated or where there are restrictions as to the investor's ability to dispose of the investment.

INVESTMENTS (PENSION FUND)

The investments of the Pension Fund will be accounted for in the statements of that Fund. However, authorities are also required to disclose, as part of the disclosure requirements relating to retirement benefits, the attributable share of the pension scheme assets associated with their underlying obligations.

LIABILITY

A liability is a present obligation arising from a past event, the settlement of which is expected to result in an outflow of resources.

A liability is where the Council owes payment to an individual or another organisation.

- A current liability is an amount which is expected to be settled within 12 months.
- A non-current liability is an amount which is expected to be settled after more than 12 months.

LIQUID RESOURCES

Current asset investments that are readily disposable by the Council without disrupting its business and are either:

- Readily convertible to known amounts of cash at or close to the carrying amount; or
- Traded in an active market.

LONG-TERM CONTRACT

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken to substantially complete the contract is such that the contract activity falls into more than one accounting period.

MATERIALITY

The concept that the Statement of Accounts should include all amounts which, if omitted, or misstated, could be expected to lead to a distortion of the financial statements and ultimately mislead a user of the accounts.

MAJOR REPAIRS RESERVE

The Council is required by regulation to establish a Major Repairs Reserve. The main credit to the account comprises the total depreciation charge for all Housing Revenue Account assets. Capital expenditure is then funded from the reserve without being charged to the Housing Revenue Account.

MINIMUM REVENUE PROVISION (MRP)

Prudent provision (MRP) is made annually for the repayment of debt relating to capital expenditure financed by borrowing or credit arrangements. The amount charged is determined having regard to the relevant statutory requirements and related guidance on MRP issued by MHCLG.

NET BOOK VALUE

The amount at which property, plant and equipment are included in the Balance Sheet, i.e. their historical costs or current value less the cumulative amounts provided for depreciation.

NET DEBT

The Council's borrowings less cash and liquid resources.

NET EXPENDITURE

Gross expenditure less specific grants and income for charging for services.

NET REALISABLE VALUE

The open market value of an asset in its existing use less any expenses incurred in realising the asset.

NON-DISTRIBUTED COSTS

These are overheads for which no user directly benefits and as such are not apportioned to services

NATIONAL NON-DOMESTIC RATES (NNDR)

The National Non-Domestic Rate is a levy on businesses, based on a national rate in the pound set by the government and multiplied by the assessed rateable value of the premises they occupy. It is collected by the Council on behalf of the Council, Central Government, and South Yorkshire Fire and Rescue with surplus and deficits in the Collection Fund being shared in the ratio specified by Business Rates Retention Regulations.

OPERATING LEASE

A lease where the ownership of the fixed asset remains with the lessor.

PAST SERVICE COST (PENSIONS)

For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to retirement benefits.

PENSION SCHEME LIABILITIES

The liabilities of a defined benefit pension scheme for outgoings due after the valuation date. Scheme liabilities measured during the projected unit method reflect valuation date.

PRECEPT

The levy made by precepting authorities by billing authorities, requiring the latter to collect income from Council Tax on their behalf.

PRIOR YEAR ADJUSTMENT

Material adjustments applicable to previous years arising from changes in accounting policies or from the correction of fundamental errors. This does not include normal recurring corrections or adjustments of accounting estimates made in prior years.

PRIVATE FINANCE INITIATIVE (PFI)

A contract in which the private sector is responsible for supplying services that traditionally have been provided by the Council. The Council will pay for the provision of this service, which is often linked to availability, performance and levels of usage.

PROPERTY, PLANT AND EQUIPMENT

Tangible assets used by the Council in the provision of services that yield benefits to the Council for a period of more than one year.

PROVISION

An amount put aside in the accounts for future liabilities or losses which are certain or very likely to occur but the amounts or dates of when they will arise are uncertain.

PRUDENCE

Requires that revenue is not anticipated until realisation can be assessed with reasonable certainty. Provision is made for all known liabilities whether the amount is certain or can only be estimated in light of the information available.

PRUDENTIAL CODE

Under the prudential framework, local authorities make their own decisions how much and what capital investment to undertake, based on their judgement on affordability, prudence and strategic objectives. In making their decisions, local authorities are required to take account of the CIPFA Prudential Code.

PWLB

The Public Works Loan Board (PWLB) is a statutory body operating within the United Kingdom Debt Management Office, an Executive Agency of HM Treasury

RATEABLE VALUE

The annual assumed rental of a hereditament, which is used for NNDR purposes.

RELATED PARTIES

There is a detailed definition of related parties in IAS24. For the Council's purposes related parties are deemed to include the Council's members, the Chief Executive, its Directors and their close family and household members.

RELATED PARTY TRANSACTIONS

The Code of Practice on Local Authority Accounting requires the disclosure of any material transactions between the Council and related parties to ensure that stakeholders are aware when these transactions occur and the amount and implications of such.

RE-MEASUREMENTS

For a defined benefit pension scheme, the re-measurements comprise:

- (a) Changes in actuarial surpluses or deficits that arise because:
 - Events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses); or
 - The actuarial assumptions have changed

- (b) Return on plan assets excluding interest income which forms part of the pensions net interest expense

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits. Received other than in cash. Pension contributions payable by the employer are excluded.

RESERVES

The accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the discretion of the Council. Some capital reserves such as the fixed asset restatement account cannot be used to meet current expenditure.

RESIDUAL VALUE

The net realisable value of an asset at the end of its useful life.

RETIREMENT BENEFITS

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

REVALUATION RESERVE

Records unrealised revaluation gains arising (since 1 April 2007) from holding Non-Current Assets.

REVENUE EXPENDITURE

The day-to-day expenses of providing services.

REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE

Legislation allows some items to be funded from capital resources that under IFRS and normal accounting practice would be charged to Surplus or Deficit on Provision of Services.

REVENUE SUPPORT GRANT

A grant paid by Central Government to authorities, contributing towards the general cost of their services.

TEMPORARY BORROWING

Money borrowed for a period of less than one year.

TRUST FUNDS

Funds administered by the Council for such purposes as prizes, charities, specific projects and on behalf of minors.

USEFUL ECONOMIC LIFE (UEL)

The period over which the Council will derive benefits from the use of a fixed asset.

WORK IN PROGRESS (WIP)

The cost of work performed on an uncompleted project at the end of the financial year.
