Rotherham Council: Risk Management Policy 2021

1. Introduction

- 1.1 Risk management is about managing threats and opportunities. By managing the Council's risks effectively we will be in a stronger position to deliver the Council's objectives.
- 1.2 This policy commits to the application of risk management within the Council's planning and business processes and its organisation culture. It should be read in conjunction with the Risk Management Guide, which shows in practice how effective risk management will be achieved.
- 1.3 This Risk Management Policy and Guide form a key part of the Council's Corporate Governance Assurance Framework. It is also closely linked to the Performance Management Framework and is important in supporting the delivery of effective performance and outcomes in the Council and for our citizens.

2. Approach to Managing Risks

- 2.1 Risk management is an integral part of good governance. Managing our risks effectively contributes to the delivery of the strategic and operational objectives of the authority. To do this:
 - We will incorporate the principles of effective risk management into existing planning and management processes, including major projects and partnerships, to achieve a degree of formality and consistency.
 - Risk management will be linked to and will inform decision making across the Council.
 - We will provide appropriate training and guidance for Council Members and staff so they can carry out their roles relating to risk management
 - We will promote a risk management culture throughout the organisation and with our partners.
 - The Council's Audit Committee will hold the organisation and its Members and managers to account for their management of risks by:
 - Monitoring the effective development and operation of risk management in the Authority.
 - Monitoring progress in addressing risk related issues reported to the Committee.
 - Considering the Council's framework of assurance and ensuring that it adequately addresses the risks and priorities of the Council.

3. Risk Appetite

- 3.1 Risk appetite is the degree to which the Council is willing to accept risk in the pursuit of its objectives. For the Council to achieve its objectives, some amount of risk taking is inevitable. The awareness of risk and the appropriate management of it can lead to the realisation of opportunities and, in this respect, risk is not a negative concept.

- 3.2 Decisions will depend on the nature of the risk, the potential losses or gains, and the quality of information about the risk in question. The Council may choose to accept risks that cannot be mitigated or reduced, but it should always be able to justify its decisions based on the risk information available. The Risk Management Guide includes more detail on the Council's definition of risk appetite which is key to determining which risks should be accepted and which should be mitigated or reduced.

4. Roles and Responsibilities

- 4.1 Clear roles of responsibility have been established for the successful implementation of the Council's Risk Management Policy. These roles are outlined in the Risk Management Guide.

5. Monitoring, Reviewing & Reporting Risks

- 5.1 Strategic risks are monitored at corporate level and operational risks are monitored and reviewed at directorate level through the strategic and directorate risk registers. Risks may be promoted and demoted as part of the review processes, enabling the Council to effectively react to changes in priorities and/or risks.

6. Review

- 6.1. The Risk Management Policy and Guide will be reviewed each financial year to incorporate lessons learned, to accurately reflect the Council's position and to continually improve its risk management arrangements.

Rotherham Council: Risk Management Guide 2021

7. Introduction

- 7.1 The Council recognises that risk management is a principal element of good corporate governance. Effective risk management supports and underpins achievement of the key objectives set out in the Council Plan, which in turn aims to improve the quality of life and services for all local people.
- 7.2 Members and employees are expected to play an active and positive role in embedding risk management in all activities and in the organisation's culture.
- 7.3 This Risk Management Guide provides a step-by-step approach to the Council's delivery of effective risk management. The guide should be read in conjunction with the Risk Management Policy.
- 7.4 The guide introduces the concept of risk and risk management, explains the general principles and clarifies the approach to and ownership of risk management within the Council.
- 7.5 This guide shows how risk management should be approached by each service area. It provides guidance on completing the individual stages of the risk management process to help services to identify, evaluate, manage, monitor and review risks.

8. Risk and Risk Management

- 8.1 A risk can be broadly defined as an event that, should it occur, will impact on the delivery of strategic or service objectives. Risks can be identified by posing three questions:
 - What could go wrong?
 - Would it prevent you from delivering your objectives?
 - What would the impact be on your service?

An opportunity can be defined as an uncertainty that could have a favourable impact on objectives or benefits.

- 8.2 Risk management is the process by which we identify, evaluate and manage risks and opportunities. It is a positive process that can help the Council achieve positive outcomes from the decisions it makes. All members of staff should be involved in the risk management process.
- 8.3 Risk management should not simply be a process of identifying the negatives of why a decision, action or opportunity should not be taken as this can lead to a failure to pursue opportunities. Risk management, if used effectively, can help the Council to pursue innovative opportunities with higher levels of risk because exposure to risk is understood and managed down to acceptable levels.
- 8.4 Every organisation manages risk on a daily basis but not always in a way that is visible, repeatable and consistently applied throughout the organisation. A risk management process tries to ensure that the organisation undertakes cost-effective actions to manage and control risk to acceptable levels, through everyone following a well-defined and structured process. The aim of risk management is to enable better decision making, by having the best understanding of the potential problems before they happen and to enable pre-emptive action to be taken.

9. Objectives of Risk Management

9.1 The Council's risk management objectives are to:

- Promote a culture of risk management at all levels to inform all strategic and operational decision making and planning.
- Ensure that risks are aligned to corporate objectives and priorities.
- Ensure the Council successfully managed risks and opportunities corporately, operationally and within projects and partnerships.
- Ensure that risk management makes an effective contribution to corporate governance and a satisfactory Annual Governance Statement.
- Ensure that all parties understand their roles and responsibilities in the implementation of effective risk management.
- Provide simple, intuitive processes to assist in the identification and prioritisation of risk and the appropriate allocation of resources.
- Incorporate the principles of effective risk management into all planning and management processes to achieve consistency of approach.
- Provide appropriate training and guidance for all parties involved in risk management roles, to enable them to fulfil their responsibilities and ensure the benefits of good corporate governance are realised.
- Encourage the identification and sharing of potential or emerging risks so that risk prevention measures to be formulated as necessary.
- Regularly consult with Members and officers in order to maintain a continuous review of the effectiveness of risk management processes.

9.2 The Council recognises it is not always possible, nor desirable, to eliminate risk entirely, and so has comprehensive insurance cover that protects the Council from significant financial loss following any damages or losses.

10. Approach to Risk Management

10.1 The risk management approach is based on good practice and can be applied at all levels of the organisation. It describes the key steps for identifying and managing risks within the Council. The approach intends to promote risk management as a positive process. It can bring value and benefit to each service area within the Council, by helping to identify and deal with issues before they happen.

10.2 The Council utilises a five-step approach in the identification and treatment of risks:

- **Step 1 Identify Risks:** Managers, together with their teams, identify risks and record them on the appropriate risk register.
- **Step 2 Evaluate Risks:** Assess the likelihood and severity of identified risk and their effect on the achievement of objectives or delivery of service plans.
- **Step 3 Manage Risks:** put in place control measures and allocate risk manager.
- **Step 4 Monitor Risks:** ensure the controls measures are working effectively or amend accordingly, at an ongoing basis.
- **Step 5 Review and Report:** Review risks to agreed timescales and report to appropriate bodies.

10.3 Step 1: Identify Risk – the identification of risk and its consequences.

10.3.1 Managers, together with their teams, should identify risks and record them on the appropriate risk register.

10.3.2 Managers should:

- Ensure that there is a process in place for employees to actively report risks as and when they arise, or when the profile or size of any risk changes.
- Add risk on the agenda of all team meetings at any level in the organisation.
- Include and record risk in Performance Development Review discussions.
- Obtain a list of fraud risks from the Risk Champion. Fraud risks are specifically considered in each directorate through using a tailored fraud risk list.
- Identify risks (or opportunities) that are most likely to affect the performance and delivery of the Council's and/or services' priorities and their consequences.
- Use the corporate performance management process to identify emerging risks – This should also include reference to the service plan for the service. Risks should also be referenced in performance reports.

10.3.3 Other ways of identifying risk include:

- **Risk Workshops** – involve all stakeholders and ensure that the forum allows an open and honest discussion. All initial ideas should be recorded and then reviewed one by one.
- **One to one meetings** – with staff who are involved in service delivery.
- **Learning from experiences** – compare risks from similar operations – both internally and within peer groups at other authorities. Utilise any findings from recent reports by Internal Audit, regulatory bodies or health and safety teams; accident and incident reports; complaints; insurance claims etc. Reference could also be made to the service's business continuity arrangements.

10.3.4 High impact risks could include hidden or underestimated threats that can cause serious damage such as fraud, cybercrime, social media IT failures and problems caused by third parties.

10.3.5 There are a number of different types of risks that the Council may face which form the acronym "performance". These include:

- **P**olitical Implications.
- **E**conomic Impact.
- **R**egulatory Requirements.
- **F**inancial loss.
- **O**utcomes.
- **R**eputational damage.
- **M**anagement.
- **A**sset Loss or damage.
- **N**ew Partnerships/Contracts/Projects.
- **C**ustomer/Citizen Impact.

- **Environmental Impact.**

10.3.6 When recording risks on the relevant risk register, each risk should be clearly linked to a priority in the Council Plan (if a strategic risk) or a service plan objective (for directorate or service risks). Each risk should also be allocated its own unique reference number when it is entered in the relevant risk register (see **Appendix F** for numbering conventions to be used). At this stage the risk register (an example of a risk register is included at **Appendix A**) should include:

- The unique risk number.
- A description of the outcome we are trying to achieve (preferably linked to the Council Plan).
- A description of the risk itself.

10.4 Step 2: Evaluate Risk – the assessment of the risk, based on probability of occurrence and potential impact.

10.4.1 Evaluate each risk to understand their effect on the achievement of objectives or delivery of service plans and to identify those that are most important and merit most attention.

10.4.2 Assess the risk along two dimensions, and allocate a score:

- The **likelihood** (or probability) that the risk will occur
- The **impact** (or severity) that the risk will have if it occurs.

10.4.3 First, undertake an evaluation on the ‘inherent risk’: the risk before any control measures have been put in place. This is to ensure that all significant risks are highlighted and assurance provided that these risks are being managed. Then, evaluate the ‘residual risk’ – the risk after controls have been put into place. Controls also need to be identified, monitored and reviewed.

Risk scores are calculated using the following equation:

Likelihood score x Impact score

The Council has adopted a 5 x 5 risk matrix, as defined overleaf.

LIKELIHOOD	Almost Certain 5	5	10	15	20	25
	Very Likely 4	4	8	12	16	20
	Likely 3	3	6	9	12	15
	Possible 2	2	4	6	8	10
	Unlikely 1	1	2	3	4	5
		Insignificant 1	Minor 2	Significant 3	Major 4	Catastrophic 5
IMPACT						

10.4.4 The Council’s definitions of the risk scores are included at **Appendix B**.

These definitions should be used as a guide to enable risks to be scored consistently across the Council.

10.4.5 The Council’s risk register at **Appendix A** includes the following items which should be assessed at Step 2:

- The consequences of the risk should it happen.
- The control measures that are already in place.
- The “mitigated” risk score (i.e. the score after existing controls have been applied).

Note that, in the interests of simplicity, the risk register does not currently include a space for recording the “inherent risk”.

10.5 Step 3: Management – the identification of control measures required and the allocation of appropriate action managers.

10.5.1 Once the risks have been identified and assessed, additional appropriate management action needs to be taken. The ‘Four Ts’ is the generic approach that can be used when planning how to manage a risk or opportunity:

- **Tolerate** - The risk is accepted making limited, if any, efforts to mitigate it or reduce its likelihood / impact. This may be because the cost of mitigation exceeds the consequences of the risk.
- **Transfer** - The risk rating is reduced by transferring the risk to a third party by changing contractual terms. Typically, this would mean the Council discontinuing the activity that gives rise to the risk, and sub-contracting / outsourcing that activity to another organisation. Alternatively, the Council can

limit the consequences by obtaining insurance cover above acceptable levels of risk.

- **Treat** - Actions will be taken to reduce the risk, possibly by putting in additional controls.
- **Terminate** - The activity that gives rise to the risk will cease, be avoided or altered, thus eliminating the risk.

10.5.2 The Council determines the appropriate approach to addressing identified risk with reference to its risk appetite. The Council's current expression of risk appetite is included at **Appendix C**. Risks that have a score equal to or lower than the appropriate risk appetite will be tolerated and monitored. Risks that exceed the risk appetite will be subject to further controls/action (either transferred, treated or tolerated).

- Each risk should be allocated an owner who has ultimate responsibility (accountability) for the risk. The owner should be included in the risk register by both name and job role. The role of the owner involves regularly monitoring the risk status and adjusting risk ratings accordingly, based on current information/intelligence and knowledge.
- Mitigating actions (control measures) need to be developed to effectively manage the risk, allocated to appropriate managers and monitored regularly for compliance / implementation by the risk owner. Additional actions should include a timescale for their completion/implementation and this should be included on the risk register.

10.5.3 It is also possible that risks in one service area can have an impact on other areas of the organisation. It is important to be aware that actions to manage a risk in one area may create or increase a risk in another area. Consideration and communication of any possible impacts on other areas is essential.

At this stage the risk register will have in addition:

- The additional management action planned to bring the risk within the Council's appetite.
- Target score once the additional action is included.
- Cost of the risk and the cost of the controls.
- The name and job role of the designated risk owner.

10.6 Step 4: Monitor Risk – ensure the controls measures are working effectively or amend accordingly.

10.6.1 Risk owners should monitor risks on an ongoing basis to ensure that the identified control measures are working effectively. In doing so, it may be useful to ask the following questions:

- **Have the chosen control measures been implemented as planned?**
 - Are the identified control measures in place?
 - Are these measures being used properly?

- **Are the chosen control measures working?**
 - Have the changes made to manage exposure to the assessed risks resulted in what was intended?
 - Has exposure to the assessed risks been eliminated or adequately reduced?
 - Have there been any 'near misses' and have any 'lessons learned' been applied?
 - Do any new controls need to be introduced?
- **Are there any new problems?**
 - Have the implemented control measures introduced any new problems?
 - Do the existing controls need to be reviewed and updated?

10.6.2 It is necessary to monitor the progress in managing risks so that the achievement of objectives is maximised and losses are minimised. In addition, the effectiveness of risk management controls to reduce the likelihood/impact of adverse risks occurring needs to be assessed and alternative controls introduced if the identified controls are proving ineffective.

10.6.3 When monitoring registers/risks, risk scores should be checked to ensure they are still accurate e.g. are the red rated risks still red and the green rated risks still green? The focus should always be on all risks and not just on red or amber rated risks with the aim of identifying and preventing any risks from becoming a high (red) risk issue.

10.7 Step 5: Review & Report – regular review of risks by risk owners to ensure continued validity. Report risks to the appropriate level of management and/or forum.

10.7.1 Additionally to the ongoing monitoring of risks, there are timelines in place to review and report risks at the relevant levels (see timeline triangle below).

10.7.2 Changes, including those in corporate and service priorities, may affect risks and opportunities which, therefore, need to be reviewed regularly by asking the following questions:

- Are my risks still the same?
- Are there any new risks arising?
- Has the risk been controlled effectively by the action taken to reduce or eliminate it?
- Has the action (or lack of actions) affected the overall impact (score) of the risk?
- Are there any other controls required? If so, what are they?

10.7.3 The risk register form at **Appendix A** includes a column to record to the next planned review date. Any risk with a rating of 'amber' or 'red' should be reviewed at least monthly. Risk management should be included as an agenda item on every Directorate Leadership Team meeting so that the team is able to reflect on the risks that they have discussed and amend the risk register if appropriate.

10.7.4 The Strategic Risk Register is reviewed at least quarterly. Increasing or emerging risks may also be elevated to strategic level from directorate risk registers so that the Council can react effectively to changes in priorities. Risks that might normally be considered for "escalation" to the Strategic Risk Register include those that need to be managed by more than one directorate, as well as those that have a 'red' risk score. Risks that should not normally be escalated to the Strategic Risk Register include those risks assessed as 'amber' or 'green' or those with an impact score of three or less.

10.7.5 Risk Champions play a key role in supporting directorates to maintain and review both the Strategic Risk Register and directorate risk registers.

10.7.6 The review process includes annual "deep dives" of each directorate's risk register by the Council's Audit Committee. The Strategic Risk Register itself is periodically considered by the Audit Committee and is also assessed at the Council's quarterly 'performance spotlight' SLT/AD sessions.

10.7.7 The review process will inform the contents of reports to the Strategic Leadership Team and the Audit Committee.

10.7.8 Risk management is a continuous cycle designed not only to identify, evaluate, manage, monitor and review risks, but also to support the strategic planning process. The strategic planning process and risk registers should be used as part of the budgetary decision-making process.

11. Documentation

- 11.1 Risks will be recorded on standard documentation and held on the central SharePoint site, which can provide access to all risk owners and managers and ensure one version of each risk is maintained and can be easily updated. It is up to each directorate to decide who should have access to their own risk register.
- 11.2 Risks will be presented in a consistent and uniform way. An example of a summary risk register is attached at **Appendix D**. It is open to each directorate to decide whether it uses **Appendix A** or **Appendix D** as the basis for its risk register. However, if a directorate uses **Appendix D** – the shorter form – it should ensure that every risk is supported by a completed risk form containing the detail included at **Appendix A** on the SharePoint site, such as a review date.

12. Leadership, Roles and Responsibilities

- 12.1 Risk management should not be perceived as the responsibility of a small number of people. Where risk management is fully integrated into the culture and day to day working, everyone has a role to play and this is what the Council aims to achieve.
- 12.2 The expectations of members and officers are as follows:

See diagram (next page)

AUDIT COMMITTEE

Approve the Council's Risk Management Policy and Guide.
Approve an annual statement on the effectiveness of the Council's risk controls as part of the Annual Governance Statement.
Monitor the effective development and operation of risk management in the authority.
Monitor progress in addressing risk related issues reported to the committee.
Consider the Council's framework of assurance and ensuring that it adequately addresses the risks and priorities of the Council.

CABINET

Overall responsibility for ensuring the Council has in place effective risk management arrangements.
Lead in promoting a risk management culture within the Council and, where appropriate, with partners and stakeholders.

CORPORATE RISK MANAGER

Provide facilitation and support to promote and embed a proactive risk management culture throughout the Council, including clear guidance and processes and annual training programme.
Assist SLT and Assistant Directors in identifying, mitigating and controlling risks.
Maintain the Strategic Risk Register.
Ensure that risk management records and procedures are properly maintained, decisions are recorded and an audit trail exists.
Review external and internal audit recommendations relating to risk management to ensure these dealt with by Services.

SLT

Champion risk management arrangements and issue direction.
Lead and manage the identification of significant strategic risks and quarterly review of the Strategic Risk register.
Ensure that there is a robust framework in place to identify, monitor and manage the Council's strategic risks and opportunities.
Ensure that measures to mitigate these risks are identified, managed and completed within agreed time-scales, ensuring that they bring about a successful outcome.
Promote a risk management culture within the Council and, where appropriate, with partners and stakeholders.
Ensure risk is considered as an integral part of service planning; performance management; financial planning; and the strategic policy-making process.
Consider risk management implications in reports, business cases and major projects, including completion of risk assessments where required.
Ensure that appropriate advice and training is available for all Members and staff.
Ensure that resources needed to deliver effective risk management are in place.

DLTs AND ASSISTANT DIRECTORS

Lead and manage the identification of significant operational risks from all service areas through monthly review of Directorate Risk Registers.
Ensure that the measures to mitigate these risks are identified, managed and completed within agreed timescales, ensuring that they bring about a successful outcome.
Escalate risks/issues to the relevant Strategic Directors, where appropriate.
Consider risk management implications in reports, business cases and major projects, including completion of risk assessments where required.
Lead in promoting a risk management culture within the directorate and embed within service areas.
Ensure compliance with corporate risk management standards and corporate risk management processes.
Ensure that all employees, volunteers, contractors and partners are made aware of their responsibilities for risk management and are aware of the lines of escalation of risk related issues needed to deliver effective risk management are in place.

ALL COUNCILLORS

Consider and challenge risk management implications as part of their roles and areas of responsibility.

RISK CHAMPIONS

Raise awareness and promote the development of risk management.
Support the development and monitoring of directorate risk register and any others within the directorate.
Provide updates in line with the reporting timetable.
Support the Corporate Risk Manager in the development of risk management across the Council.
Promote consistency across directorates.

ALL EMPLOYEES

Have an understanding of risk and role in managing risks in daily activities, including the identification and reporting of risks and opportunities.
Support and undertake risk management activities as required.
Attend relevant training courses focussing on risk and risk management.

13. Risk Assurance, Monitoring and Reporting

- 13.1 Rotherham's risk management function is routinely exposed to full scrutiny and validation:
- In the Annual Governance Statement that is signed off by the Leader and managing director and endorsed by the Audit Committee.
 - Elected Members hold the Strategic Leadership Team (SLT) accountable for the effective management of principal risks.
 - SLT, and the Audit Committee monitor the delivery of the Risk Management Policy by receiving regular reports and/or presentations. As part of this process SLT and Assistant Directors review their own risks and update them accordingly.
 - Risk management arrangements across the Council are independently reviewed for effectiveness on an annual basis by Internal Audit in order to inform the signing off of the Annual Governance Statement.
- 13.2 Service and operational risks are monitored and reviewed at directorate level and may be elevated to corporate level if deemed necessary (see paragraph 10.7.4)
- 13.3 There is a formal reporting structure for advising SLT and elected Members of any risk management implications. The Council's report template requires the completion of a risks and uncertainties section in every report. Managers completing formal reports for Cabinet, Council (and its Committees) as well as SLT should ensure that risks included in this section are reflected on their risk register and that those risks are referenced in the report.

14. Communication

- 14.1 Effective communication is integral to the identification of new threats and opportunities or changes in existing risks.
- 14.2 It is important for strategic leaders and managers to engage with staff across the Council to ensure that:
- Everyone understands the Council's risk policy, risk appetite and risk process in a way that is appropriate to their role. If this is not achieved, effective and consistent embedding of risk management will not be realised and risk priorities may not be addressed.
 - Everyone understands the benefits of effective risk management and the potential implications if it is not done or is done badly.
 - Each level of management actively seeks and receives appropriate and regular assurance about the management of risk within their control. Effective communication provides assurance that risk is being managed within the expressed risk appetite, and that risks exceeding tolerance levels are being escalated.
 - Any organisation providing outsourced services to the Council has adequate risk management skills and processes. Gaining assurance that a partner organisation has embedded risk management processes in place, and that responsibilities are clearly defined from the start, should help to avoid misunderstandings and any serious problems.

15. Performance Management

- 15.1 Risk management forms an integral part of the Council's Performance Management Framework. Awareness of potential risks that could impact the achievement of Council priorities and objectives, and planning for such possibilities, will contribute to the successful delivery of the objectives. The narrative element of the Council's Quarterly Performance Report includes a section covering ongoing risks and challenges. This section should link back to the completed Strategic Risk Register or to the Directorate Risk Register.
- 15.2 Risks associated with the delivery of the Council Plan are included in the Strategic Risk Register where relevant.

16. Corporate Governance

- 16.1 Managing risk is integral to the Council's Corporate Governance processes. It is a key feature in the production of the Annual Governance Statement that is signed by the Leader and Chief Executive.
- 16.2 There is high level risk management representation on the SLT and at Member level. The Assistant Chief Executive and the Cabinet Member for Corporate Services and Finance are the leads for risk management at their respective levels.
- 16.3 The Corporate Risk Manager and the Head of Internal Audit are responsible for drafting the Annual Governance Statement and evaluating risk management assurances and supporting evidence. In this role they report to the Governance Group who have oversight of the process for the statement's production.
- 16.4 Each directorate has at least one Risk Champion who promotes and supports the development and monitoring of risks within the directorate. The Risk Champions, Assistant Chief Executive and the Corporate Risk Manager form the Risk Management Group. This group is responsible for co-ordinating risk management across the Council.

17. Guidance and Training

- 17.1 The Council's Corporate Risk Manager is responsible for providing advice and training in respect of the Council's risk management arrangements.
- 17.2 All members of SLT and their management teams should receive training in risk identification, analysis and control of risk. Risk management training (including refresher training) is compulsory for all staff of M2 grade and above. Periodic "mop up" sessions will be held to pick up staff new to the M2 or M3 grade. Risk workshops can be used as a prime method of educating and training managers in identifying and managing risks to their objectives. This approach can assist in creating a 'risk aware' culture.
- 17.3 Bespoke risk management training from external providers (Gallagher Bassett; Zurich Municipal) can be provided free of charge via risk control days for targeted areas of risk.
- 17.4 A risk management E-Learning package is accessible to all staff and Members on the Intranet.

18. Further Information

- 18.1 For further information on the Risk Policy and Guide or any risk management arrangements please contact either the Corporate Risk Manager or your local Risk Champion. For contact details click [here](#).
- 18.3 The risk management template and scoring guide are available on the intranet page, click [here](#).

Appendix A: Risk Register template

EXAMPLE Finance & Corporate Services - Risk Assessment/Register													
Risk Register Owner: Named SLT member					Date completed: 24/10/2018								
Business Objective <i>What is it you would like to achieve/need to deliver</i>	Risk <i>What is the problem/hazard? What is it that will prevent you from meeting your objectives?</i>	Consequence /effect: <i>what would actually happen as a result? How much of a problem would it be? To whom and why?</i>	Existing actions/controls <i>(What are you doing to manage this now?)</i>	Risk Score with existing measures <i>(See Scoring Table)</i>			Further management actions/controls required. <i>(What would you like to do in addition to your existing controls?)</i>	Target Score with further management actions/controls <i>(See Scoring Table)</i>			Cost (of Impact; of current controls; of further controls)	Risk Owner <i>(Officer responsible for managing risk and controls)</i>	Risk Review Date
				Impact	Probability	Risk Rating (I x P)		Impact	Probability	Risk Rating (I x P)			
To deliver free and fair elections in which all participants are satisfied that the result is accurate and which allows no opportunity for challenge.	Inability to comply with legislative and statutory election duties.	Election Failure - legal challenge in high court and associated costs of re-running the election and reputational damage. Business continuity issues such as loss of ICT function and /or office accommodation / count venue and /or polling stations	Strong links with internal ICT teams to ensure ICT systems are restored immediately. Training and awareness programme for staff. BCP in Place.	5	3	15	Alternative manual systems have been developed as a back up and can be implemented at short notice. Training and awareness programme for staff. BCP in Place.	3	3	9	There are no costs associated with the controls. Costs will be incurred when actioned.	Manager	Dec-18

	IMPACT	SCORE	BENCHMARK EFFECTS
CRITERIA	CRITICAL/ CATASTROPHIC	5	<ul style="list-style-type: none"> • Multiple deaths of employees or those in the Council's care • Inability to function effectively, Council-wide • Will lead to resignation of Chief Operating Officer and/or City Mayor • Corporate Manslaughter charges • Service delivery has to be taken over by Central Government • Front page news story in National Press • Financial loss over £10m
	MAJOR	4	<ul style="list-style-type: none"> • Suspicious death in Council's care • Major disruption to Council's critical services for more than 48hrs (e.g. major ICT failure) • Noticeable impact in achieving strategic objectives • Will lead to resignation of Strategic Director and/ or Executive Member • Adverse coverage in National Press/Front page news locally • Financial loss £5m - £10m
	MODERATE	3	<ul style="list-style-type: none"> • Serious Injury to employees or those in the Council's care • Disruption to one critical Council Service for more than 48hrs • Will lead to resignation of Assistant Director/ Project Director • Adverse coverage in local press • Financial loss £1m - £5m
	MINOR	2	<ul style="list-style-type: none"> • Minor Injury to employees or those in the Council's care • Manageable disruption to internal services • Disciplinary action against employee • Financial loss £100k to £1m
	INSIGNIFICANT/ NEGLIGIBLE	1	<ul style="list-style-type: none"> • Day-to-day operational problems • Financial loss less than £100k

Appendix B: Risk Scoring Guidance

LIKELIHOOD	SCORE	<i>EXPECTED FREQUENCY</i>
ALMOST CERTAIN	5	Reasonable to expect that the event WILL undoubtedly happen/recur, possibly frequently and in the current year (next 12 months)
PROBABLE/LIKELY	4	Event is MORE THAN LIKELY to occur. Will probably happen in the current year and be likely to recur in the longer term.
POSSIBLE	3	SOME LIKELIHOOD of event occurring. Not likely in the current year, but reasonably likely in the medium/long term.
UNLIKELY	2	Event NOT EXPECTED . Do not expect it to happen in the current year, but possible in the longer term.
VERY UNLIKELY/RARE	1	EXCEPTIONAL event. This will probably never happen/recur. A barely feasible event.

Appendix C: The Council's Risk Appetite

The Council has a general policy to “accept” and monitor risk that is currently scored as less than “8” on the scoring matrix. Action should be taken on any risk with a score of more than “8” in line with the table shown below:

LEVEL OF RISK	OVERALL RATING	HOW THE RISK SHOULD BE TACKLED/ MANAGED
High Risk	15-25	IMMEDIATE MANAGEMENT ACTION
Medium Risk	9-12	Plan for CHANGE
Low Risk	1-8	Continue to MANAGE

In effect, the Council has an appetite to accept “Low” risk – with any other type of risk being planned to be addressed with additional controls or management action.

Appendix D: Example Summary Risk Register template

EXAMPLE Summary Risk Register: Strategic Risks								
Business Objective	Risk Detail	Consequence / Effect	Impact	Likelihood	Risk Rating	Risk Owner	Further Mitigating Actions	Current Risk Rating Heat Map
Social care payments cap	Introduction of £72k lifetime social care payments cap from 01/04/16 will place additional workload burden on service and may increase costs.	Authority may have to meet a higher percentage of care costs; level of risk still unknown as additional funding from central government unknown at present.	5	4	20	Named Officer 1	Monitor situation with finance until further information is known.(Deadline 30/9/18)	<p>Likelihood</p> <p>Impact</p>
Dealing effectively with high profile media issues.	Council do not respond to media issues correctly or appropriately.	Failure to deal with media issues may damage the reputation of the authority and the Communications Team; possibility of slander claims and associated financial risk.	5	4	20	Named Officer 2	Continue to monitor cases and introduce revised ways of working as appropriate.(Ongoing)	<p>Likelihood</p> <p>Impact</p>
Act appropriately to maintain required levels of performance with respect to data protection and confidentiality issues	Sensitive and confidential information/data is not properly protected.	Failure to deal with media issues may damage the reputation of the authority and the Communications Team; possibility of slander claims and associated financial risk.	5	4	20	Named officer 3	Continue to monitor breaches and near misses and introduce revised ways of working accordingly. (Ongoing) Consider an authority-wide training programme. (Deadline 30/9/18)	<p>Likelihood</p> <p>Impact</p>

Appendix E Risk Numbering Protocol

This protocol sets out how the numbering requirements in the Risk Policy and Guide are to be applied in practice.

- 1) Risk numbers should never be “reused”. If a risk is deleted from a risk register, the number should not be allocated a new risk
- 2) All risks should follow an alpha numeric numbering system which should be set out as follows:
 - risks included on the Strategic Risk Register will be numbered sequentially in the following format – SLTxx – where xx is a sequential number
 - risk included on Directorate Risk Registers should follow the following formats:

Directorate	Numbering format
CYPS	CYPSxx
FaCS	FCSxx
Regen	R&Exx
ACX	ACXxx
ACHPH	ACHxx/PHxx

- 3) Directorates may vary the alphabetical descriptor for risks that only appear on service risk registers if that eases operation of the risk register. However, the format should always be alpha numeric following the format above.
- 4) Directorate risk registers should also include an indication of whether a risk is also on the Strategic Risk Register. This can be achieved either by including on the directorate risk register the “SL”xx” number or by including strategic risks on a separate tab in the directorate risk register. Directorates can choose which approach is used as long as the relevant register clearly shows which risks are on the register.
