Purpose

The purpose of this report is to contribute towards the effective two-way communication between Rotherham Metropolitan Borough Council's external auditors and Rotherham Metropolitan Borough Council's Audit Committee, as 'those charged with governance'. The report covers some important areas of the auditor risk assessment where we are required to make inquiries of the Audit Committee under auditing standards.

Background

Under International Standards on Auditing (UK), (ISA(UK)) auditors have specific responsibilities to communicate with the Audit Committee. ISA(UK) emphasise the importance of two-way communication between the auditor and the Audit Committee and also specify matters that should be communicated.

This two-way communication assists both the auditor and the Audit Committee in understanding matters relating to the audit and developing a constructive working relationship. It also enables the auditor to obtain information relevant to the audit from the Audit Committee and supports the Audit Committee in fulfilling its responsibilities in relation to the financial reporting process.

Communication

As part of our risk assessment procedures we are required to obtain an understanding of management processes and the Council's oversight of the following areas:

- General Enquiries of Management
- Fraud,
- Laws and Regulations,
- Related Parties, and
- Accounting Estimates.

Purpose

This report includes a series of questions on each of these areas and the response we have received from Rotherham Metropolitan Borough Council's management. The Audit Committee should consider whether these responses are consistent with its understanding and whether there are any further comments it wishes to make.

Fraud

Issue

Matters in relation to fraud

ISA (UK) 240 covers auditors responsibilities relating to fraud in an audit of financial statements.

The primary responsibility to prevent and detect fraud rests with both the Audit Committee and management. Management, with the oversight of the Audit Committee, needs to ensure a strong emphasis on fraud prevention and deterrence and encourage a culture of honest and ethical behaviour. As part of its oversight, the Audit Committee should consider the potential for override of controls and inappropriate influence over the financial reporting process.

As Rotherham Metropolitan Borough Council's external auditor, we are responsible for obtaining reasonable assurance that the financial statements are free from material misstatement due to fraud or error. We are required to maintain professional scepticism throughout the audit, considering the potential for management override of controls.

As part of our audit risk assessment procedures we are required to consider risks of fraud. This includes considering the arrangements management has put in place with regard to fraud risks including:

- assessment that the financial statements could be materially misstated due to fraud,
- process for identifying and responding to risks of fraud, including any identified specific risks,
- communication with the Audit Committee regarding its processes for identifying and responding to risks of fraud, and
- communication to employees regarding business practices and ethical behaviour.

We need to understand how the Audit Committee oversees the above processes. We are also required to make inquiries of both management and the Audit Committee as to their knowledge of any actual, suspected or alleged fraud. These areas have been set out in the fraud risk assessment questions below together with responses from Rotherham Metropolitan Borough Council's management.

Accounting estimates

Issue

Matters in relation to Related Accounting estimates

ISA (UK) 540 (Revised December 2018) requires auditors to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically the auditor may obtain an understanding of whether those charged with governance:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

We would ask the Audit Committee to satisfy itself that the arrangements for accounting estimates are adequate.
