Appendix 5 : Carbon Impact Assessment

	Impact	If an impact or potential impacts are identified			
Will the decision/proposal impact…		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	No Impact				
,	No Impact				
Emissions from transport?					
Emissions from waste, or the quantity of waste itself?	No Impact				
Emissions from housing and domestic buildings?	Impact unknown	Potential increase in emissions from new Council properties to be funded by the resources to be approved under the recommendations. Increases in district heating charges may potentially reduce emissions by encouraging tenants to be more efficient in their energy usage.	N/A	Increase the use of bio-fuel on Council district heating schemes. Community Energy Support scheme launched in March 2021.	N/A

	No Impact				
Emissions from construction and/or development?					
	No Impact				
Carbon capture (e.g. through trees)?					
Identify any emission impacts associated with this decision that have not been covered by the above fields:					

The report focuses on the proposed increases in charges for rents and service charges but also covers the charges for tenants who are part of the Council's District Heating schemes. There are 18 separate District Heating Schemes throughout the borough, 2 of which are currently operate partly with bio-fuel which generates Renewable Heat Incentive (RHI) income depending on the amount of heat generated.

Please provide a summary of all impacts and mitigation/monitoring measures:

See impact table

Supporting information:				
Completed by:	Mark Scarrott			
(Name, title, and service area/directorate).	Finance Manager – Adult Care, Housing and Public Health			
Please outline any research, data, or information used to complete this [form].				
If quantities of emissions are relevant to and have been used in this form please identify which conversion factors have been used to quantify impacts.				
Tracking [to be completed by Policy Support / Climate Champions]
