

PART A - Initial Equality Screening Assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

The report to Cabinet seeks approval of an allocation of capital funding from DfE basic need allocation of £1.3m to support the building project.

3. Relevance to equality and diversity
All the Council's strategies/policies, services/functions affect service users, employees or the wider community – borough wide or more local. These will also have a greater/lesser

relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, disability, sex, gender reassignment, race, religion or belief, sexual orientation, civil partnerships and marriage, pregnancy and maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc.

Questions	Yes	No
Could the proposal have implications regarding the accessibility of services to the whole or wider community? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	X	
Could the proposal affect service users? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	X

If you have answered **yes** to any of the above please complete **section 4**.

4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals before decisions are made.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society

by meeting a group or individual's needs and encouraging participation.

Please provide specific details for all three areas below using the prompts for guidance and complete an Equality Analysis (Part B).

- **How have you considered equality and diversity?**

(think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The proposal is seeking Cabinet approval of proposals and allocation of capital funding to add capacity for an additional 150 pupils (30 x 5 year groups) to meet anticipated rising demand for places at the school.

A period of consultation has been undertaken as part of the proposals process to inform a full equalities impact assessment.

- **Key findings**

(think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The proposal has been brought forward to ensure a sufficiency of school places at Brinsworth Academy aligned to projected future cohort growth from within the schools catchment area.

Without the additional capacity being created there would be a shortage of places in secondary education, creating an adverse impact on the allocation of school places to children living in the Brinsworth area of secondary school age.

The Academy's admissions policy is fully compliant with the requirements of the DfE School Admissions code of practice 2021 and requirements of the education act.

- **Actions**

(think about how you will promote positive impact and remove/reduce negative impact)

A period of consultation has been undertaken with stakeholders. Admissions arrangements have been approved by the local admissions forum and are fully compliant with statutory requirements.
