

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	Unknown	Any acquisition which adds to the Council's portfolio, even temporarily, could have an impact on its overall emissions. This report seeks approval for the use of the Strategic Acquisitions Fund. The way in which the buildings to be acquired will be used is not yet sufficiently detailed e.g. retention, demolition, refurbishment to allow impact assessments to be carried out. The future use and impact of buildings will be detailed in separate assessments.			
Emissions from transport?	Unknown				
Emissions from waste, or the quantity of waste itself?	Unknown				

Emissions from housing and domestic buildings?	N/A				
Emissions from construction and/or development?	Unknown				
Carbon capture (e.g. through trees)?	Unknown				
<p>Identify any emission impacts associated with this decision that have not been covered by the above fields: All projects will involve the construction of new buildings and infrastructure which will inherently have an impact on Carbon emissions. In the design and construction of these projects endeavours will be taken to minimise negative impacts and increase positive.</p> <p>This report relates to the acquisition of property and therefore the full impacts will be explored once the redevelopment proposals for the property have been scoped.</p>					

Please provide a summary of all impacts and mitigation/monitoring measures:
Overall the development of each project will consider how emissions can be reduced in the design, development and delivery of each project.

Supporting information:	
Completed by: (Name, title, and service area/directorate).	Lorna Vertigan, Strategic Regeneration Manager, RIDO, R&E
Please outline any research, data, or information used to complete this [form].	
If quantities of emissions are relevant to and have been used in this form please identify which conversion factors have been used to quantify impacts.	
Tracking [to be completed by Policy Support / Climate Champions]
