

PART A - Initial Equality Screening Assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

If you have answered no to all the questions above, please explain the reason

The proposed traffic regulation order is being introduced to cover a 20mph speed limit that will be in place when the under construction housing development is completed. The new housing road layout has been designed to a 20mph design speed and as such, the TRO to place a 20mph limit on the roads is a legal / technical requirement only.
