Identify any emission impacts associated with this decision that have not been covered by the above fields:

This is not a decision report, but a progress report to OSMB for information.

Where savings in CO2 emissions are covered in the report, they are not broken down into the categories covered at this level of reporting.

Please provide a summary of all impacts and mitigation/monitoring measures:

Savings in CO2 emissions on contracts achieved through de-carbonisation is National Themes, Outcomes and Measure 31 of the social value framework. It is one of the measures agreed for social value commitment and delivery in the Council's Social Value Policy through the letting of Council contracts.

To date, 2,880.48 tCO2e with a proxy value of £200,968.31 is committed to be saved through Council contracts. Delivery to date confirms 1090.80 tCO2e has been saved with a proxy value of £75,646.44.

Completed by: (Name, title, and service area/directorate).	Steve Eling Policy and Equalities Manager Assistant Chief Executive's Directorate
Please outline any research, data, or information used to complete this [form].	The data on commitments and delivery is provided and verified through the National Social Value Portal.

<p>If quantities of emissions are relevant to and have been used in this form please identify which conversion factors have been used to quantify impacts.</p>	<p>The measures for commitments and delivery are tCO2e as included in the Council's relevant contracts. For the purpose of measuring social value as a percentage of a contract value, a proxy value is used, currently set at £69.44 per tCO2e.</p>
