

The decision/proposal impact...	Impact	If an impact or potential impacts are identified			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	N/A				
Emissions from transport?	N/A				
Emissions from waste, or the quantity of waste itself?	N/A				
Emissions from housing and domestic buildings?	N/A				
Emissions from construction and/or development?	N/A				
Carbon capture (e.g. through trees)?	N/A				
Identify any emission impacts associated with this decision that have not been covered by the above fields:					

Please provide a summary of all impacts and mitigation/monitoring measures:

To be a signatory of the MoU is to confirm the Council's commitment to development a Joint Waste Plan with other South Yorkshire local authorities.

As the Joint Waste Plan progresses, separate carbon impact assessments will be carried out as required.

Two key issues will have especial relevance to climate change and environmental sustainability, as noted in the main text of the report: **(2.1)** the need to move from a linear waste to a circular economy model and **(2.4)** the status of seven safeguarded landfill sites in Barnsley, Doncaster and Rotherham.
