PART A - Initial Equality Screening Assessment

Rotherham Metropolitan Borough Council

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

2. Please provide a brief description of what you are screening

The Health and Safety Policy sets out the health and safety commitments of the organisation, alongside how these will be managed and implemented to ensure compliance with health and safety legislation, guidance and best practice.

3. Relevance to equality and diversity

All the Council's strategies/policies, services/functions affect service users, employees or the wider community – borough wide or more local. These will also have a greater/lesser relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, disability, sex, gender reassignment, race, religion or belief, sexual orientation, civil partnerships and marriage, pregnancy and maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc.

Could the proposal have implications regarding the accessibility of services to the whole or wider community? (Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)xCould the proposal affect service users?x(Be mindful that this is not just about numbers. If you have answered no to all the questions above, please explain the reason	

If you have answered \underline{no} to \underline{all} the questions above please complete sections 5 and 6.

If you have answered <u>yes</u> to any of the above please complete section 4.

4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals before decisions are made.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society by meeting a group or individual's needs and encouraging participation.

Please provide specific details for all three areas below using the prompts for guidance and complete an Equality Analysis (Part B).

• How have you considered equality and diversity?

Yes – EDI, and the consideration of reasonable adjustment is inherent in assessing risks and identifying proportionate and reasonable adjustments. Protected characteristics are referenced in section 4.14 and required to be identified as part of the risk assessment process (i.e. as persons affected by the work activity).

Key findings

A Health and Safety policy is a legal requirement – aimed at ensuring a safe and health work environment for employees and those affected by the Council work activities. These work activities should recognised and reflect EDI implications and any associated reasonable adjustments required.

Actions

Continue to maintain up to date guidance and template risk assessments to ensure work activities are considered in their fullest, including impact on all persons – ensuring equality and recognition of protected characteristics, as well as supporting guidance notes for specific risk areas
