

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	Small Increase in emissions	The events supported by the programme will take place in All Saints Square where event impact isn't currently monitored. Events are likely to use minimal electricity provided from an existing power source.	N/A	Event organisers will be told not to use any generators and to use the electricity power provided.	Due to the time-limited nature of the events it is not considered proportionate to monitor their electricity use.
Emissions from transport?	Small increase in emissions	N/A	The events are expected to increase visitors to the town centre. This will have a carbon impact which will depend on how visitors choose to travel.	Any communications or promotional material which includes information on travelling to events could highlight walking, cycling and public transport to travel to events (i.e., in preference to advertising car parking).	As above.
Emissions from waste, or the quantity of waste itself?	Small increase in emissions	N/A	Some events will generate waste such as food, banners and general litter which will have an emissions impact.	All event organisers are encouraged to manage their waste appropriately (i.e., to reduce the amount of waste they create and to recycle where possible).	As Above.

Emissions from housing and domestic buildings?	N/A	N/A	N/A	N/A	N/A
Emissions from construction and/or development?	N/A	N/A	N/A	N/A	N/A
Carbon capture (e.g. through trees)?	N/A	N/A	N/A	N/A	N/A

Identify any emission impacts associated with this decision that have not been covered by the above fields:

There are no further carbon impacts associated with this programme.

Please provide a summary of all impacts and mitigation/monitoring measures:

The Town Centre Event Grants programme does not provide a large impact in respect of carbon emissions. Events are to be supported within All Saints Square in Rotherham Town Centre. These activities are relatively small in scale and therefore their impact is considered to be low, however there may be opportunities to reduce emissions by highlighting lower-carbon travel options in any promotional communications and requesting event organisers to ensure that waste is minimised and recycled where possible.
