

Climate Impact Assessment, Appendix 2, Plan for Neighbourhoods Consultation

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified:			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across the Borough as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	None	N/A	N/A	N/A	N/A
Emissions from transport?	Increase	Minor increase of vehicle emissions during distribution of consultation leaflets around the ward areas and travel to and from consultation venues.	N/A	Consider officers using public transport to distribute leaflets and attend consultation events where possible. Consultation will take place at a local level with local community groups within their wards, which encourages walking for smaller journeys rather than travelling by car.	Council officer travel is monitored and included with the Council's Net Zero 2030 greenhouse gas emissions accounting.
Emissions from waste, or the quantity of waste itself?	None	N/A	N/A	N/A	N/A
Emissions from housing and domestic buildings?	None	N/A	N/A	N/A	N/A

Emissions from construction and/or development?	None	N/A	N/A	N/A	N/A
Carbon capture (e.g. through trees)?	None	N/A	N/A	N/A	N/A

Identify any emissions impacts associated with this decision which have not been covered by the above fields:

The consultation itself is expected to have minimal emissions impacts, however the wider project is expected to have emissions impacts. These will be considered at a later date as the project develops.

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change?

Provide a summary of all impacts and mitigation/monitoring measures:

Minor increase of vehicle emissions during distribution of consultation leaflets around the ward areas and travel to and from consultation venues. Mitigated by officers to consider using public transport to distribute leaflets and attend consultation events where possible. Furthermore, consultation to take place at a local level with local community groups within their wards, encouraging walking for smaller journeys rather than travelling by car.
