

Climate Impact Assessment, Appendix 4, Rotherham Music Fees and Charges

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified:			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across the Borough as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	None				
Emissions from transport?	Unknown	Increased delivery of lessons could necessitate more travel by staff between schools	Slight increase in emissions	Efficient timetabling to minimise the number of trips taken by staff between schools	Mileage claims will be monitored for an increase in travel miles
Emissions from waste, or the quantity of waste itself?	None				
Emissions from housing and domestic buildings?	None				
Emissions from construction and/or development?	None				
Carbon capture (e.g. through trees)?	None				

Identify any emissions impacts associated with this decision which have not been covered by the above fields:

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change?

Provide a summary of all impacts and mitigation/monitoring measures:

Some potential increase in travel by staff if more teaching takes place. To mitigate the service will work on timetabling teachers into schools that are close to each other. The new proposals for the restructure also stops the potential rewarding of travelling to multiple locations.
