Identify any emissions impacts associated with this decision which have not been covered by the above fields: n/a

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change? No. The report seeks approval of a revised timetable for Local Plan documents. It does not cover the detailed content of these documents. In due course, the emerging Local Plan documents will be subject to detailed carbon impact assessment which can consider resilience and adaptation.

Provide a summary of all impacts and mitigation/monitoring measures: The Local Development Scheme specifies the documents which are to be development plan documents, the subject matter and geographical area to which each relate, and the timetable for the preparation and revision of the documents. It does not cover the detailed content of these documents nor the process for preparing and consulting on them. Any future Local Plan documents will be subject to separate reports requiring Cabinet or Council approval prior to consultation, submission and adoption, and will also be subject to detailed carbon impact assessment.
