

## PART A - Initial Equality Screening Assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

<b>If other, please specify</b> The Council is working with partners to promote the development of Rotherham Gateway Station. To ensure the Station opportunity brings the greatest benefit to Rotherham communities, the Council undertook masterplanning; exploring how development in the vicinity of the station could contribute to wider regeneration and growth objectives across the Borough. The resulting scheme, 'Innovation Gateway', delivers a longer-term vision for Rotherham with a phase-by-phase approach (phases 1 to 4) and a twenty-year timescale. The Council has drawn down Gainshare funding in order to progress the priority projects for Phase 1 of Innovation Gateway.	

## 2. Please provide a brief description of what you are screening

We are screening the decision to exercise the delegation to approve the specific allocations of the Gainshare grant funding and any variations required through the delivery of the Innovation Gateway priority projects development. This will enable the Council to allocate the drawn down Gainshare funding to the Innovation Gateway Phase 1 projects including feasibility and design of:

- The Station floormat (public realm)
- An Active Travel route from the Town Centre to the Station along Effingham Street
- A Station Anchor building on the floormat incorporating Station facilities on the ground floor

## 3. Relevance to equality and diversity

All the Council's strategies/policies, services/functions affect service users, employees or the wider community – borough wide or more local. These will also have a greater/lesser relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, disability, sex, gender reassignment, race, religion or belief, sexual orientation, civil partnerships and marriage, pregnancy and maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc.

Questions	Yes	No
Could the proposal have implications regarding the accessibility of services to the whole or wider community? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	X	
Could the proposal affect service users? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>	X	
Has there been or is there likely to be an impact on an individual or group with protected characteristics? <i>(Consider potential discrimination, harassment or victimisation of individuals with protected characteristics)</i>		X
Have there been or likely to be any public concerns regarding the proposal? <i>(It is important that the Council is transparent and consultation is carried out with members of the public to help mitigate future challenge)</i>	X	
Could the proposal affect how the Council's services, commissioning or procurement activities are organised, provided, located and by whom? <i>(If the answer is yes you may wish to seek advice from commissioning or procurement)</i>		X

<p>Could the proposal affect the Council’s workforce or employment practices?  <i>(If the answer is yes you may wish to seek advice from your HR business partner)</i></p>		X
<p>If you have answered no to all the questions above, please explain the reason</p>		

If you have answered **no** to all the questions above please complete **sections 5 and 6**.

If you have answered **yes** to any of the above please complete **section 4**.

#### 4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals before decisions are made.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society by meeting a group or individual’s needs and encouraging participation.

Please provide specific details for all three areas below using the prompts for guidance and complete an Equality Analysis (Part B).

- **How have you considered equality and diversity?**

Early consultation was carried out in the preparation of the Town Investment Plan and the Levelling Up fund (now Pathfinder programme), submissions to Government and equality assessments were carried out, however further detailed consultation and communication is being planned in the run up to the Station Full Business Case.

A review of demographic data relating to the Station and the wider Borough has taken place to identify groups with protected characteristics that may be impacted by this decision and also the wider Station development.

- **Key findings**

At this stage, the decision just enables the Council to explore the Station and Masterplan development in more detail. It does not approve physical construction work or any changes in the area.

Widespread consultation and engagement with communities, including protected characteristic groups, directly informed the TIP, and equality implications were considered at this stage.

In the process of developing full business cases, equality implications will be considered in more detail and worked into the projects.

The Station and wider masterplan will generally have a positive impact on groups with protected characteristics and the Borough as a whole – improving accessible transport

links, Active Travel links, and access to wider employment opportunities.
