

**Climate Impact Assessment, Appendix 4, DELEGATED OFFICER DECISION REPORT - Proposed revocation of disabled residents' designated parking places at various locations, Rotherham**

| Will the decision/proposal impact...                   | Impact   | If an impact or potential impacts are identified:                                                                                                                                                                                                                   |                                                                                                                                                                           |                                                                                                                                                                                                                                         |                                                                                               |
|--------------------------------------------------------|----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
|                                                        |          | Describe impacts or potential impacts on emissions from the Council and its contractors.                                                                                                                                                                            | Describe impact or potential impacts on emissions across the Borough as a whole.                                                                                          | Describe any measures to mitigate emission impacts                                                                                                                                                                                      | Outline any monitoring of emission impacts that will be carried out                           |
| Emissions from non-domestic buildings?                 | None     | Not applicable in this instance                                                                                                                                                                                                                                     | Not applicable in this instance                                                                                                                                           | Not applicable in this instance                                                                                                                                                                                                         | Not applicable in this instance                                                               |
| Emissions from transport?                              | Decrease | A small, short-term increase in emissions will arise from contractor travel and operational activities associated with the removal of road markings and signage. Due to the limited scale and duration of the works, these emissions are expected to be negligible. | The removal of designated disabled parking bays is not expected to result in any measurable change in traffic patterns or transport-related emissions across the borough. | Works will be planned and delivered efficiently to minimise vehicle movements and associated emissions.                                                                                                                                 | Not applicable in this instance, due to the minimal scale and temporary nature of the impact. |
| Emissions from waste, or the quantity of waste itself? | None     | Limited waste will be generated from the removal of signage and any associated materials. No excavation or significant material disposal is required.                                                                                                               | Not applicable in this instance                                                                                                                                           | The Council's Direct Services Organisation will be expected to work with contractors to ensure carbon emissions are minimised as far as practicable, including actively seeking opportunities to cut emissions from existing operation. | Not applicable in this instance                                                               |

|                                                                                                               |                   |                                                                                                                                                                                                                                                             |                                                                           |                                                                                                                                                                                                                                         |                                 |
|---------------------------------------------------------------------------------------------------------------|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| Emissions from housing and domestic buildings?                                                                | None              | Not applicable in this instance                                                                                                                                                                                                                             | Not applicable in this instance                                           | Not applicable in this instance                                                                                                                                                                                                         | Not applicable in this instance |
| Emissions from construction and/or development?                                                               | Increase (Slight) | Minor emissions will be generated through the removal or burning off of existing road markings, removal of signage, and associated contractor activities. The scale of these works is small and localised, therefore emissions are expected to be very low. | No impact expected beyond the contribution from RMBC and its contractors. | The Council's Direct Services Organisation will be expected to work with contractors to ensure carbon emissions are minimised as far as practicable, including actively seeking opportunities to cut emissions from existing operation. | Not applicable in this instance |
| Carbon capture (e.g. through trees)?                                                                          | None              | The proposed scheme does not include Carbon Capture measures due to the nature of works involved                                                                                                                                                            | No impact expected.                                                       | Not applicable in this instance                                                                                                                                                                                                         | Not applicable in this instance |
| Identify any emissions impacts associated with this decision which have not been covered by the above fields: |                   |                                                                                                                                                                                                                                                             |                                                                           |                                                                                                                                                                                                                                         |                                 |
| None                                                                                                          |                   |                                                                                                                                                                                                                                                             |                                                                           |                                                                                                                                                                                                                                         |                                 |

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change?

There will be no effect on the Council's services or residents' resilience to climate change or their ability to adapt to climate change in the future.

Provide a summary of all impacts and mitigation/monitoring measures:

Increases associated with the development, construction, maintenance, and operation reflect the systemic nature of the carbon emissions problem; whilst the energy and construction systems are emitters of carbon, any additional activity utilising these systems can be expected to result in no increases in emissions.

The proposal relates to the removal/revocation of a number of disabled residents' designated parking places at various locations, Rotherham. Rotherham. There could be one off minor increase as a result of contractor transport and the removal of signs road markings road markings. The changes are thought likely to be very small in the context of overall transport emissions in Rotherham, and very small in the context of the NZ2030 and NZ2040 targets, and remaining carbon budgets.
