Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified:			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across the Borough as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	None	N/A	N/A	N/A	N/A

Emissions from waste, or the quantity of waste itself?	None	N/A	N/A	N/A	N/A

Identify any emissions impacts associated with this decision which have not been covered by the above fields:

Not applicable. The report is procedural only, seeking authority to use the Local Plan reserve to commission evidence base for the new Local Plan. It does not directly propose any actions that would impact climate change. The draft new Local Plan will be subject to future reporting, at which time a carbon impact assessment will be prepared.

Though the decision to delegate authority for use of the Local Plan Reserve, the report does refer to other activities as part of Appendix 2 which could result in increased emissions including delivery of consultation activities (namely waste and transport emissions) and increasing the number of staff working on the Local Plan. These are likely to be short lived and are considered necessary for the delivery of the Local Plan.

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change?

N/A, as above.

Provide a summary of all impacts and mitigation/monitoring measures:

N/A, as above.
