

Climate Impact Assessment, Appendix 3, Licensing Act 2003 - Cumulative Impact Policy

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified:			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across the Borough as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	None				
Emissions from transport?	None				
Emissions from waste, or the quantity of waste itself?	None				
Emissions from housing and domestic buildings?	None				
Emissions from construction and/or development?	None				
Carbon capture (e.g. through trees)?	None				

Identify any emissions impacts associated with this decision which have not been covered by the above fields:

None.

There are no emission impacts associated with this proposal as the decision relates solely to the commencement of consultation in relation to the potential review of the policy. It is accepted that there may be impacts associated with the development of the new policy, but these will be addressed in a future report that relates to the adoption of the policy.

Will the proposal affect Council services' resilience to climate change, or the capacity of people living in the Borough to adapt to climate change?

No.

Provide a summary of all impacts and mitigation/monitoring measures:

Consultation will be online to avoid the need for travel associated with a response to the consultation (avoiding associated emissions). The use of online responses will also avoid emissions from paper waste that would otherwise be associated with the completion of physical documents.
