Dear Sir,

My residents and myself would like to ask if it's possible for someone to come and have a look at the state of Heighon View's gardens.

We once had rose hedges, now we only have weeds, we once got our hedges cut, not any more!!

We cannot get past the hedges round the centre for nettles and blackberry branches, which are both very keen and dangerous to the legs.

My residents would like to know where their gardening money that they pay in with their rent is going. Apart from grass cutting there has been nothing done in here for years.

Thanking You.

Mrs. J. Barratt

I am enclosing a petition all signed from my residents, because they are fed up with having to cut their own hedges and tidying up their own gardens. They are all big ages and should not be having to do this.
