

## **SHAFTESBURY HOUSE – PARKING PERMITS**

“Many residents have purchased several fobs for their children to have parking access to see their aged parents which has worked very well until a survey brought chaos to us all. We feel that most of the residents were unaware that it would affect them so badly or even in anyway at all. On realising the full scale of the situation they have now signed a petition in favour of no parking permits.”

Signed by 45 residents.
