Subject: Disabled parking space at 12 Wesley Rd

For the attention of Marc

As a childminder I find the proposal of this parking permit unacceptable. Firstly it will restrict my clients access to my property which will have a huge impact on my business. I also feel that the person does not have a need to require a disabled permit, parking is difficult at peak times such as school times drop off & pick up. I look forward to receiving a response from you
Many thanks

Dear Marc,

Thanks for replying to my email, I would still like to object to the proposed parking space.... If it goes ahead and has space outside her house and my neighbour at the other side parks directly outside there house (no.16) then I am not going to be able to park my own car outside my own house which will have an impact on my business and the families who use my service. It would be difficult and unsafe to put children in my car whether these be my own children or mindee children if I have to park away from my house.

Many thanks

Subject: Parking permit for Wesley road

Follow Up Flag: Follow up
Flag Status: Blue

Hello I am writing in regards to the parking permit for 12 Wesley Road. As a business owner on this street I have deliveries to our property from time to time as well as being able to unload my van at night.

I feel that this will have a huge impact on the parking on the street it is bad enough with out this being granted. A lot of people on the street have two cars which makes it hard as everyone likes at least one car in front of there property. If this permit is passed this will make this impossible there are a lot of parents on the road an they need to be able to park out side there house for safety of the children.

This will cost the tax payer to install which is wrong when there is nothing wrong with this person she does not pay tax and will be getting this for free which I find sickening.

There are other people on the street who would benefit more from this space.

Yours sincerely
