

BCF Scheme:	BCF 11a: Community End of Life Care Pilot	
Lead Officer:	RCCG	Robin Carlisle
	RMBC	TBC

Description

Commission and evaluate a community EPLC service that will augment existing specialist EOLC services provided by Rotherham hospice and generalist services provided by hospital, general practice and community care providers. The service will include a patient held care record, a project to encourage electronic record sharing for End of life care patients across Rotherham, 24/7 support for existing patients and a community EOLC team that provides specialist support to patients in their own homes.

Key Milestones	Expected Completion
Continue to evaluate impact on patients, carers and hospital admissions via End Of Life Care Steering group	October 14
Continue to roll out electronic register and record sharing for EOLC patients	October 14
Prepare an evaluation for October 22 Stakeholder evaluation event	October 14
Make recommendations on whether to change, expand or decommission the pilot informed by the October evaluation	November 14

Outcomes

Avoidable emergency admissions
Emergency re-admissions
Admissions to residential and care homes
Patient/service user experience
