## SCHEDULE 3 RISK SHARING

The areas of risk Identified with in the Partnership framework agreement are as follows:

- Under or overspending of budgets within Better Care Fund budget lines
- Risk of not achieving the Performance element of the Better Care Fund
- Risk of exceeding affordable levels of care outside the Better Care Fund

The following details proposals for the sharing of risks relating to the Better Care Fund.

### 1. Under or overspending of budgets with Better Care Fund budget lines

As part of the initial development of the BCF pooled budget a number of risks were identified where the individual schemes would potentially result in additional demand for services and/or additional costs, or the required efficiencies and reductions do not materialise to the extent planned. The pooled budget in total includes an amount of £1,416k as a risk pool, against a number of specific schemes. These schemes and therefore the risk pool falls within each of the two pools as follows:

	<b>Risk Pool</b>
	<b>£000</b>
RCCG hosted pool	805
RMBC hosted pool	611
<b>Total</b>	<b>1,416</b>

In applying the risk pool funding it is important to have a jointly agreed approach and the following provides a proposal for consideration across both pools and by both partners.

### 2 Risk sharing proposal

#### General principles

It is proposed that the BCF Executive Group is the forum where decisions on the application of risk pool funding from either pool, is made.

Risk is attributable to the scheme commissioner pro rata to the proportion of that scheme commissioned. This is to reflect where the levers for change and control sit.

Similarly, where the scheme is joint and there is one lead commissioner, the risk should be shared pro-rata to the proportion of that scheme commissioned.

### 3 Overspend / Underspend treatment

If an overspend is identified the following approach will be taken:

- Seek to cover the overspend from areas of underspend identified within either pool;
- Utilise the risk pool funding;
- Reduce uncommitted scheme allocations;
- Cover from resources outside the pool.

If an underspend is identified the following approach will be taken:

- Underspends remain within the pooled arrangement to support overspends elsewhere in the pool;
- Further joint schemes within budget lines to be proposed in year which can utilise the resources in year.

In all of these scenarios the BCF Executive Group is the forum where decisions would be made.

#### **4 Risk of not achieving the Performance element of the Better Care Fund**

The risk of not achieving the Performance element of the Better Care Fund may restrict the ability of the CCG to reinvest within the BCF if not achieved. NHS England guidance suggests that failure to achieve the targeted reduction in non-elective admissions would require a business case justifying its continued investment into Rotherham priorities.

Should this risk materialise the pooled budget would reduce in total. The suggested approach for managing this is as follows:

- Seek to cover the reduction from areas of underspend identified within either pool;
- Utilise risk pool funding;
- Reduce uncommitted scheme allocations;
- Cover from resources outside the pool.

As with the proposed treatment of over or underspends outlined above, the BCF Executive Group is the forum where decisions would be made regarding risk.

#### **5 Risk of exceeding affordable levels of care outside the BCF**

The use of the BCF pooled budget is anticipated to deliver greater outcomes for patients and the public, as well as anticipated reductions in non-elective spend. In the event that demand for acute non-elective care exceeds affordable levels it is proposed that the approach suggested above is taken.

- Seek to cover the reduction from areas of underspend identified within either pool;
- Utilise risk pool funding;
- Reduce uncommitted scheme allocations;

Where issues arising under this category arise the Partners shall meet and discuss the appropriate means of addressing the problem through the Health and Wellbeing Board or such other forum as the Partners may decide.

## **SCHEDULE 9- SPECIFICATION FOR GOVERNANCE AND FINAL ACCOUNTS REQUIREMENT**

### **Specification for Governance and Final Accounts Requirement for LA and CCG hosting pools**

#### **Introduction and key principles for the operation of the pooled arrangements**

The Better Care Fund was introduced by the Government to facilitate transformation in integrated health and care and is allocated to local areas to be operated through pooled budget arrangements under Section 75 (2) of the National Health Service Act 2006. Section 75 allows partners to make contributions to a common fund to be spent on agreed functions. To enable the effective operation of the pooled arrangements:

- Partners must sign a joint funding agreement before starting to operate the pool.
- One agreement can cover multiple pools
- Pooled budgets must follow the appropriate accounting arrangements
- The host partner is responsible for producing the year end accounts
- The accountable body is the organisation from where the money originated
- Conditions attached to individual funding streams are required to be met, e.g. disabled facilities grants
- The arrangements for operation of the pooled arrangements are required to ensure that the requirements of all partners to achieve economy, efficiency and effectiveness in their use of resources are met
- The arrangements for operation of the pooled arrangements are required to ensure that the regulatory requirements for each party are met, e.g. CCG has significant monthly reporting requirements to NHS England with nationally driven deadlines, as well as the requirement for the external auditors to express an explicit opinion on the regularity of their transactions.
- NHS Bodies are subject to a short timeframe for the preparation and audit of their accounts, Local Authorities currently have longer. By hosting, the parties must take ownership in ensuring that all accounts issues are progressed so as not to compromise the NHS timetable.

#### **Specific requirements**

##### **On-going arrangements**

1. Each partner will reference the pool to the organisational scheme of delegation and how this will operate in practice.
2. The coding arrangements in place within the ledger of the host organisation will need to ensure that the accounting requirements of the other partner are met.
3. The host can ensure that accurate and timely reporting of financial and non-financial information meets its own requirements but will need to ensure that information is available to meet the requirements of the other party also.

4. Budget monitoring updates will be provided quarterly to the Health and Wellbeing Board or its nominated sub group. Quarterly reports to be submitted to the CCG governing body and the Local Authority executive outlining the following:
  - The level of contribution to the pooled budget
  - Spend to date
  - Performance to date
  - How the pooled budget is performing overall
5. CCG will require monthly financial and non-financial reporting within the timescales of the CCG Reporting Timetable, in order to inform its internal management accounting, external reporting to NHS England and the identification of risk throughout the financial year. Reporting should also reflect CCG requirements and the reporting environment of the CCG.
6. The CCG will need to be able to work within the reporting and management environment of the Local Authority for elements of the pool and therefore multiple processes may need to be implemented.
7. The host partner will ensure that where elements of the pooled budget are ring-fenced for a particular purpose, the necessary supporting information is available to provide assurance that those elements have been used appropriately and to support the accounting arrangement applied.
8. The host will need to ensure that the VAT arrangements are compliant with both NHS and LA VAT regimes. Currently Local Authorities can reclaim VAT on purchases so if the CCG hosted the pool, it would need to retain records and administer the share for which VAT is reclaimable.
9. There must be a clear mechanism for alerting Governing Bodies as well as the Health and Wellbeing Board of concerns relating to delivery of projects, in line with the arrangements set out in Schedule 3 (Risk management).
10. In order to avoid difficulties in the consolidation of accounts, all the accounts should be maintained on a gross basis. Should accounts information be required on a net basis this can then be calculated.
11. The host organisation to provide access to relevant aspects of the ledger and accounts to enable internal audit monitoring as part of agreed Audit plans in-year.

### **Year End Closure of Accounts**

12. The partners should consider the nature of each pooled budget in accounting terms and in particular whether the pool is a joint operation in accordance with IFRS11. If the arrangement is not a joint operation then its substance should determine the accounting. It may be a lead commissioning or aligned commissioning arrangement.
13. To meet requirements in relation to the preparation of annual accounts SI 2000/617 paragraph 7(6) the host must prepare and publish a full statement of spending signed by the accountable officer or section 151 officer, to provide assurance to all other parties to the pooled budget. This is required to meet the specified timescales for the publication of accounts and should include:
  - Contributions to the pooled budget, cash or kind
  - Expenditure from the pooled budget

- The difference between expenditure and contributions
  - The treatment of the difference
  - Any other agreed information
14. All partners to discuss and agree with their external auditors the assurances required in order to sign off the year end accounts and particular requirements where the partner is not the pool host.
  15. An annual return detailing a full statement of expenditure and linked to Annual Governance Statement Requirements must be received by the CCG in line with NHS Annual Accounts Reporting Timescales (noon 21<sup>st</sup> April 2016)<sup>1</sup> subject to confirmation by NHS England. This must be signed by the Section 151 officer.
  16. A memorandum account would need to be produced for the Local Authority at closedown. CCG would be responsible for preparation of annual statements of account and Audit to the requirements of the Local Authority in relation to the pool it hosts.
  17. The Annual Governance statement (CCG) will be required to report on internal control and risk management within the pool. This is part of the final accounts documentation which is subject to audit at the year end.
  18. The CCG will have responsibility for ensuring that the Local Authority's statutory duties including financial reporting are met. This includes form of accounts, gross and net as well as ensuring that the required timescales are achieved.
  19. Would require joint agreement of Internal and External Audit of the pooled arrangement to inform Annual Governance Statement and to provide the required level of assurance to respective Audit Committees, Governing Bodies and the External Audit. This includes reviewing whether information received is accurate and correct.
  20. The LA capital accounting regime for Disabilities Facilities Grant and other capital will need to be followed and accounts closure timescales adopted.
  21. As the CCG will be required to report on its share of assets, liabilities, income and expenditure in accordance with IFRS 11, all reporting must be done in line with this accounting standard and enable the CCG to account for the pooled budget as outlined in the DH Manual for Accounts.
  22. For its own assurance and to satisfy the requirement for delivery of value for money, each partner should set out clear requirements for evidence of how the resources provided to the pool have been utilised and how value for money has been achieved.
  23. Information may be required to support Agreement of Balances exercises although further guidance for NHS England is awaited.
  24. Where the better care fund is material (this is the case for the CCG) disclosure in the annual accounts will be necessary, in the format required by NHS England guidance to be issued.
