Dear Councillor Carter

Council Meeting – 26th February 2020

With regards to your supplementary question at last week's council meeting where you asked for the "Council's opinion on the suitability of the holding gates on the River Rother and what improvements, if any, were proposed".

I can confirm that the Environment Agency manage the holding gates on the River Rother and therefore you may wish to re-direct your question to them to allow a response to be provided.

Yours sincerely,

Councillor Emma Hoddinott

Cabinet Member for Waste, Roads and Community Safety
