Operation Linden - Learning and Recommendations: Update from South Yorkshire Police

1. Background

- 1.1 Operation Linden was the name given to the Independent Office for Police Conduct (IOPC) investigation of a significant number of complaints and allegations relating to the police response to non-recent child sexual exploitation in the Rotherham area. Operation Linden began in 2014 and included 91 separate independent investigations, involving 265 separate allegations, covering the period from 1997 to 2013. There were 51 complainants, 44 of whom were survivors of abuse.

The report was published in November 2021 and identified areas for learning and made recommendations for improvement to South Yorkshire Police and other key agencies, including the Law Commission and National College of Policing. These are detailed in the IOPC report attached as Appendix 2.

The Operation Linden hearings have recently concluded and a final report from the IOPC on the findings and outcomes of the investigations is expected shortly.
