

PART A - Initial Equality Screening Assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an Equality Analysis (Part B).

Further information is available in the Equality Screening and Analysis Guidance – see page 9.

2. Please provide a brief description of what you are screening
The Social Value Mid-Year Report provides an update to scrutiny on progress made following the detail in the annual report to Cabinet in March 2022.

3. Relevance to equality and diversity
All the Council's strategies/policies, services/functions affect service users, employees or

the wider community – borough wide or more local. These will also have a greater/lesser relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, disability, sex, gender reassignment, race, religion or belief, sexual orientation, civil partnerships and marriage, pregnancy and maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc.

Questions	Yes	No
Could the proposal have implications regarding the accessibility of services to the whole or wider community? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>		No
Could the proposal affect service users? <i>(Be mindful that this is not just about numbers. A potential to affect a small number of people in a significant way is as important)</i>		No
Has there been or is there likely to be an impact on an individual or group with protected characteristics? <i>(Consider potential discrimination, harassment or victimisation of individuals with protected characteristics)</i>		No
Have there been or likely to be any public concerns regarding the proposal? <i>(It is important that the Council is transparent and consultation is carried out with members of the public to help mitigate future challenge)</i>		No
Could the proposal affect how the Council's services, commissioning or procurement activities are organised, provided, located and by whom? <i>(If the answer is yes you may wish to seek advice from commissioning or procurement)</i>	Yes	
Could the proposal affect the Council's workforce or employment practices? <i>(If the answer is yes you may wish to seek advice from your HR business partner)</i>		No

If you have answered no to all the questions above, please explain the reason

The Social Value Framework allows for annual reporting on several key equalities issues such as the number of people with disabilities that have gained employment. The Framework has identified several key disadvantaged groups that should be supported through Social Value outcomes. As such the policy is having a positive impact regarding equalities. For each individual procurement and commissioning activity there is full consideration of the impact on equality outcomes. This is carried out by the officers involved in the procurement and commissioning activities.

If you have answered **no** to all the questions above please complete **sections 5 and 6**.

If you have answered **yes** to any of the above please complete **section 4**.

4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals before decisions are made.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society by meeting a group or individual's needs and encouraging participation.

Please provide specific details for all three areas below using the prompts for guidance and complete an Equality Analysis (Part B).

- **How have you considered equality and diversity?**

A consideration of equality and diversity was a key element in the development of the Social Value Policy. The policy's central aim is to support the employment (and education and training) of several disadvantaged groups including disabled people who are currently disadvantaged in the labour market.

- **Key findings**

Supporting these groups is central to the Social Value outcomes that have been identified – these include a wide range of groups who will be supported through increased training, school visits, employment, apprenticeships, and other training opportunities. In addition, the policy is also about changing the way the council commissions – adopting new principles will place new emphasis on co-designing services and involving service users throughout the process. This will increase the role and voice and seldom heard groups.

- **Actions**

The policy is being monitored on an annual basis. Individual officers will be responsible for considering the impacts and outcomes of each individual procurement or commissioning process. Further actions are being developed to embed Social Value in the working of the Council and develop forward looking actions. For 2022/23, specific actions have been agreed by Cabinet to advance progress against the policy:

- Launch of the Social Value Commissioning Toolkit to be held in May.
- Focus on increasing social value commitments for skills and employment.
- Engagement with the South Yorkshire Mayoral Combined Authority in development and delivery of social value in the sub-region.
- Building on anchor network development as part of the Rotherham Together Partnership Social Value Charter.
- Further research to build local market intelligence.

The social value toolkit, has been launched and provides for “Social Value by Design” through commissioning and linked directly to services which now include specific equalities detail.

Date to scope and plan your Equality Analysis:

The Social Value Policy is being reviewed and monitored on an annual basis. This will capture the impacts of the policy.

Date to complete your Equality Analysis:	To be completed by officers for individual procurement and commissioning processes.
Lead person for your Equality Analysis (Include name and job title):	Individual officers are responsible for each procurement and relevant priority developments. The officer responsible for the overall analysis of the impact of Social Value will be Steve Eling, Policy and Equalities Manager.
