

Appendix 3

Will the decision/proposal impact...	Impact	If an impact or potential impacts are identified			
		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	None				
Emissions from transport?	None				
Emissions from waste, or the quantity of waste itself?	None				
Emissions from housing and domestic buildings?	None				
Emissions from construction and/or development?	None				
Carbon capture (e.g. through trees)?	None				
Identify any emission impacts associated with this decision that have not been covered by the above fields:					

Please provide a summary of all impacts and mitigation/monitoring measures:

This CIA considers the Rotherham 'Place Based Investment Strategy' (PBIS). The PBIS has been developed to set out Rotherham's investment priorities for the first tranche of the South Yorkshire Renewal Fund which is made available through the South Yorkshire Mayoral Combined Authority. This Strategy will be presented to Cabinet seeking endorsement and subsequent presentation to the SYMCA.

There are not considered to be any direct carbon implications arising from the endorsement of this strategy. The PBIS assembles the outcomes and priorities of various cross-service strategies and policies. Carbon implications have been considered during the formation of these individual strategies and thus informs the direction of the PBIS.

The PBIS also summarises investment opportunities in the form of a Project Matrix which sets out Rotherham's priority Place-Based projects and investments. Some projects are developed and the subject of individual FBCs and therefore their own CIAs, those which require further development will have Carbon impact considered individually as part of that process.

Supporting information:	
Completed by: (Name, title, and service area/directorate).	Lorna Vertigan, Strategic Regeneration Manager, RIDO, R&E
Please outline any research, data, or information used to complete this [form].	
If quantities of emissions are relevant to and have been used in this form please identify which conversion factors have been used to quantify impacts.	
Tracking [to be completed by Policy Support / Climate Champions]
