

## Appendix 3a

### PART B – Equality Analysis Form

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

This form:

- Can be used to prompt discussions, ensure that due regard has been given and remove or minimise disadvantage for an individual or group with a protected characteristic
- Involves looking at what steps can be taken to advance and maximise equality as well as eliminate discrimination and negative consequences
- Should be completed before decisions are made, this will remove the need for remedial actions.

Note – An Initial Equality Screening Assessment (Part A) should be completed prior to this form.

When completing this form consider the Equality Act 2010 protected characteristics Age, Disability, Sex, Gender Reassignment, Race, Religion or Belief, Sexual Orientation, Civil Partnerships and Marriage, Pregnancy and Maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc. – see page 11 of Equality Screening and Analysis Guidance.

**3. What is already known? - see page 10 of Equality Screening and Analysis Guidance**

**Aim/Scope (who the Policy/Service affects and intended outcomes if known)**

The Council's ongoing commitment to the transformation of learning disability services continues with this adult care and housing delivery programme which will provide much needed housing and social care provision.

This assessment is specifically in relation to the adult social care provision of Castle View Day Centre, for people with complex needs, which was initially approved in October 2022

The delivery programme takes into account the views and comments of all those who took part in the public consultation process during 2022. This included the people who are directly affected by the changes and those who have a protected characteristic. These key stakeholders are people with disabilities who are currently accessing services and who are funded by Adult Care and/or the ICB.

All of those who will be impacted by the changes have had the opportunity to take part in the consultation process.

The Consultation was delivered and designed in such a way that the stakeholders had contributed effectively and was tailored to individual's particular circumstances and understanding. Special attention was paid to the design of supporting information, questions about choice, and the tools used to convey messaging, so it was understood and accessible by all.

Advocacy support was available throughout and at every meeting

The findings from the consultation have enabled the Council to take due consideration of people's views, concerns, and preferences when deciding on the future service model and location.

**What equality information is available? (Include any engagement undertaken)**

Extensive discussions have taken place with service users, carers, relatives and staff and the consultation exercise that took place between 31<sup>st</sup> January 2022 and 30<sup>th</sup> April 2022 enabled all parties to express their views about what a new service should look and feel like.

**Are there any gaps in the information that you are aware of?**

The services are available to all who have an assessed need regardless of the protected characteristics.

Data in relation to Gender Reassignment, Pregnancy and Maternity and Sexual Orientation has not been captured.

**What monitoring arrangements have you made to monitor the impact of the policy or service on communities/groups according to their protected characteristics?**

The Adult Care and Housing Delivery Programme takes into consideration the outcome and findings of the 2022 consultation exercise which included people with protected characteristics. This represents a benchmark of the potential impact within the LD community and a route to determining people’s thoughts about the look and feel of a new day opportunities service. This will be monitored throughout the programme phase.

Equality information re protected characteristics is routinely collected as part of the referral and assessment process for individuals accessing the service and recorded on LAS, which is the adult social case management system. These processes also afford an opportunity for feedback to be provided by the cared for person and staff to Adult Social Care staff on the quality-of-service provision they receive.

People using the services and their families also have the option to make a formal complaint regarding the quality of the care or pertaining to issues with systems and processes aligned to it through the Council’s or the Provider’s complaints process.

For more serious concerns, Safeguarding and Whistle Blowing policy and procedures are in place and followed.

**Engagement undertaken with customers. (date and group(s) consulted and key findings)**

90-day consultation and engagement exercise between 31<sup>st</sup> January 2022 and 30<sup>th</sup> April 2022

**Engagement undertaken with staff (date and group(s) consulted and key findings)**

90-day consultation and engagement exercise between 31<sup>st</sup> January 2022 and 30<sup>th</sup> April 2022 see above attachment

In addition – presentation and discussions at staff meetings

**4. The Analysis - of the actual or likely effect of the Policy or Service (Identify by protected characteristics)**

**How does the Policy/Service meet the needs of different communities and groups?**

The Adult Care and Housing Delivery Programme will directly impact the users of REACH Day services. The proposals will meet the needs of the LD community and those with

protected characteristics by directly involving them, their families, and staff in a process of engagement and coproduction as the new service is designed, built, and becomes operational.

**Does your Policy/Service present any problems or barriers to communities or Groups?**

The consultation findings will help determine if the new proposals present any problems to the LD community, families, and RMBC staff.

**Does the Service/Policy provide any positive impact/s including improvements or remove barriers?**

By undertaking the Consultation, it is hoped that relationships between staff, council, service users, relatives and carers are strengthened. It will help demonstrate that the council places service users, their families, and the LD community at the heart of their decision-making process and so promote mutual trust.

**What affect will the Policy/Service have on community relations?**

It is anticipated that the recommendations will have a positive impact on the community and the relationship between the Council and the Learning Disability Community in particular.

Please list any **actions and targets** that need to be taken as a consequence of this assessment on the action plan below and ensure that they are added into your service plan for monitoring purposes – see page 12 of the Equality Screening and Analysis Guidance.

## 5. Summary of findings and Equality Analysis Action Plan

If the analysis is done at the right time, i.e. early before decisions are made, changes should be built in before the policy or change is signed off. This will remove the need for remedial actions. Where this is achieved, the only action required will be to monitor the impact of the policy/service/change on communities or groups according to their protected characteristic - See page 11 of the Equality Screening and Analysis guidance
