

PART B – Equality Analysis Form

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

This form:

- Can be used to prompt discussions, ensure that due regard has been given and remove or minimise disadvantage for an individual or group with a protected characteristic
- Involves looking at what steps can be taken to advance and maximise equality as well as eliminate discrimination and negative consequences
- Should be completed before decisions are made, this will remove the need for remedial actions.

Note – An Initial Equality Screening Assessment (Part A) should be completed prior to this form.

When completing this form consider the Equality Act 2010 protected characteristics Age, Disability, Sex, Gender Reassignment, Race, Religion or Belief, Sexual Orientation, Civil Partnerships and Marriage, Pregnancy and Maternity and other socio-economic groups e.g. parents, single parents and guardians, carers, looked after children, unemployed and people on low incomes, ex-offenders, victims of domestic violence, homeless people etc. – see page 11 of Equality Screening and Analysis Guidance.

Aim/Scope (who the Policy/Service affects and intended outcomes if known)

This may include a group/s identified by a protected characteristic, others groups or stakeholder/s e.g. service users, employees, partners, members, suppliers etc.)

The SEND Service is an essential component of Rotherham Metropolitan Borough Council's (RMBC) delivery model for Children's Services.

The strategy will apply to all children and young people with SEND aged 0 to 25 who have an Education, Health and Care Plan or receive SEND Support. It is set within the challenging context outlined in the Department for Education's (DfE) SEND Green Paper: Right Support; Right Place; Right Time, published in March 2022 following a national SEND Review.

What equality information is available? (Include any engagement undertaken)

Quality information is already captured and used to shape priorities and deliver existing services across the Local Authority, health and education sectors.

Equality information is available through the following sources:

- Performance Practice and Learning
- CYPS performance reporting – Scorecards and Dashboards (Insight)
- Audit and QA activity
- Section 11
- DfE reporting
- Department for Health & Social Care
- Ofsted

A work plan will sit alongside the strategy with includes the capturing of data, including diversity and equality, and feedback form different children and groups which will continue to be used to monitor, scrutinise and inform the plan. This work plan is owned and delivered on by the SEND Partnership Group, a multi-agency group offering cross partnership challenge and co working.

Recruitment to staff roles considers the need for the workforce to reflect the communities in which they work.

Translation services are utilised as a range of bespoke provision is in place including specific targeted support groups for LGBT young people, BAME young people, Girls and young women, faith-based groups and provision, support for Ukraine and Afghanistan families and young people with autism.

Are there any gaps in the information that you are aware of?

No

What monitoring arrangements have you made to monitor the impact of the policy or service on communities/groups according to their protected characteristics?

A range of approaches will be used to ensure that children, young people and families play a key part in the evaluation of the strategy and that their individual needs and protected characteristics are considered.

Existing data and established methodology across the children's workforce will continue to be used to monitor impact on those groups with protected characteristics.

Service users have been involved with the development of the strategy and influence decision making and delivery as well as frontline staff, partner agencies.

- Continue engagement with the Parent Carer Forum
- Continue to ensure that consultation and engagement with the service users is embedded in all aspects of the Strategy and to engage with service users regarding their ECHP's.

4. The Analysis - of the actual or likely effect of the Policy or Service (Identify by protected characteristics)

How does the Policy/Service meet the needs of different communities and groups? (Protected characteristics of Age, Disability, Sex, Gender Reassignment, Race, Religion or Belief, Sexual Orientation, Civil Partnerships and Marriage, Pregnancy and Maternity) - see glossary on page 14 of the Equality Screening and Analysis Guidance)

The SEND Service covers a wide range of need and includes working directly with different communities and groups. However, some need is universal and not unique to protected characteristics (e.g., parenting). Delivery of the proposed Strategy will support the service to take account of cultural differences and strengths, and the unique circumstances of some young people and families in Rotherham.

The impact of changes across the protected characteristics groups that SEND works with is detailed below and is most likely to be initially experienced in the form of less frequent interventions or different models of engagement.

Does your Policy/Service present any problems or barriers to communities or Groups?

The strategy proposes continuation of the delivery of a continuum of SEND support including a more targeted service for those in need of support, it is not envisaged that the service will present any barriers to communities and groups.

Does the Service/Policy provide any positive impact/s including improvements or remove barriers?

Children and young people of Rotherham will be provided with a clear engagement process. As such, access to several engagement forums, through their schools, Voluntary organisations, school, and the Guiding Voices group will give children the opportunity to feedback into the service so that service provision can be effectively tailored to their needs.

Children and young people have already provided valuable feedback on the outcomes and the key performance indicators so that they can be easily understood by children and their families.

What affect will the Policy/Service have on community relations? (may also need to consider activity which may be perceived as benefiting one group at the expense of another)

The SEND Strategy 2024-2028 will ensure that the service continues to work with the specific specified groups identified through the Protected Characteristics and does not differentiate between different groups.

Please list any **actions and targets** that need to be taken as a consequence of this assessment on the action plan below and ensure that they are added into your service plan for monitoring purposes – see page 12 of the Equality Screening and Analysis Guidance.

5. Summary of findings and Equality Analysis Action Plan

If the analysis is done at the right time, i.e. early before decisions are made, changes should be built in before the policy or change is signed off. This will remove the need for remedial actions. Where this is achieved, the only action required will be to monitor the impact of the policy/service/change on communities or groups according to their protected characteristic - See page 11 of the Equality Screening and Analysis guidance
