

## Initial Equality Screening Assessment (Part A)

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality and diversity.

A **screening** process can help judge relevance and provide a record of both the process and decision. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality and diversity
- whether or not equality and diversity is being/has already been considered, and
- whether or not it is necessary to carry out an equality analysis.

<b>Directorate: Finance and Customer Services</b>	<b>Service area: Finance</b>
<b>Lead person: Rob Mahon</b>	<b>Contact number: 01709 254518</b>

### 1. Title:

Is this a:

**Strategy / Policy**       **Service / Function**       **Other**

**If other, please specify**

### 2. Please provide a brief description of what you are screening

The Council is required to set a balanced budget for 2025/26 and present that balanced budget at Cabinet in February 2025 and March Council 2025. The budget report outlines the Council's available resources from core government funding, grants and those resources generated through local taxation, and how those resources will be utilised across the Councils services.

The Budget and Council Tax Report 2024/25 noted that £9.9m of agreed budget savings and cost reductions were required to be delivered across the medium term. As per our Medium Term Financial Strategy (MTFS) update to Cabinet December 2024 the Council remains confident that these savings will be achieved but will require a longer period to deliver the CYPs Placement savings, with an estimated £4.4m delivered by the end of 2024/25.

For 2025/26 the Council has to consider the following in order to set a balanced budget for 2025/26 to 2027/28;

- Impact of Provisional Financial Settlement
- Council Tax increases
- Fees and Charges increases
- Further use of reserves.
- Potential Savings
- Potential Capital and Revenue Investments

As outlined in the Budget and Council Tax Report 2025/26 the Council has to a degree used all these options to create a balanced budget position for 2025/26. However, due to uncertainty in the funding environment for Local Authorities and the financial settlement only being for one year (2025/26), the Council is reporting Budget gap of £3m in 2027/28. The Council will monitor this position closely and take further actions as required as greater clarity around the longer term Local Authority Financial Settlements are provided.

The delivery of new savings and investments as part of this Budget and Council Tax report will need to be worked through with their own EIA and following the Council's Human Resource policies and procedures to ensure that appropriate engagement, consultation and support is provided to impacted staff. In addition, any likely impacts on residents will need to be assessed to ensure that any that are disproportionate in relation to protected groups, are mitigated where possible.

In addition to the revenue budget, the Council's revised Capital Programme will be approved as part of the budget report. The Council's Capital Programme will be approved as part of the Capital Strategy section of the budget report.

Finally, the budget report will approve the Council's Treasury Management Strategy, and prudential indicators. This report covers how the Council intends to manage its debt, borrowing for new investments, cashflow and banking procedures and risk. The prudential indicators provide the key framework for how that strategy will be managed.

**The Budget sets the framework within which Cabinet makes its decisions. Therefore, detailed impact assessments of proposals within the budget will be undertaken at the earliest opportunity as they are developed, in order to inform decision-making.**

**In addition, services will consider equality implications that arise from the implementation of the Council's Budget through service planning process.**

### 3. Relevance to equality and diversity

All the Council's strategies/policies, services/functions affect service users, employees or the wider community – borough wide or more local. These will also have a greater/lesser relevance to equality and diversity.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation and any other relevant characteristics (for example socio-economic status, social class, income, unemployment, residential location or family background and education or skills levels).

Questions	Yes	No
Could the proposal have implications regarding the accessibility of services to the whole or wider community?	X	
Could the proposal affect service users?	X	
Has there been or is there likely to be an impact on an individual or group with protected characteristics?	X	
Have there been or likely to be any public concerns regarding the proposal?	X	
Could the proposal affect how the Council's services, commissioning or procurement activities are organised, provided, located and by whom?	X	
Could the proposal affect the Council's workforce or employment practices?	X	

If you have answered **no** to all the questions above please complete **sections 5 and 6**.

If you have answered **yes** to any of the above please complete **section 4**.

### 4. Considering the impact on equality and diversity

If you have not already done so, the impact on equality and diversity should be considered within your proposals prior to carrying out an **Equality Analysis**.

Considering equality and diversity will help to eliminate unlawful discrimination, harassment and victimisation and take active steps to create a discrimination free society by meeting a group or individual's needs and encouraging participation.

Please provide specific details for all three areas below and use the prompts for guidance.

The budget report provides an indication of the key challenges that the Council faces, and the specific challenges faced by each directorate along with an indication of the aims and objectives of those directorates.

The ongoing financial challenges faced by the Council are similar to those of other local

## Appendix 11 - Initial Equality Screening Assessment (Part A)

authorities. The financial pressures faced by local authorities are largely as a result of inflation, rising demand and complexity of care packages as a result of a growing population, and market cost pressures within the provision of social care.

These budget pressures mean that the Council must be responsible in its budget setting approach, prioritising investment and savings proposals that best contribute to the Council's priorities as identified within the Council Plan to best meet the needs of Rotherham's residents and ensure that best value is demonstrated across the breadth of Council services.

The Council Plan was approved at Council on the 12 January 2022, and all directorates have been working together to achieve the commitments set out within each of the plan's themes. The Equality Analysis document accompanying the Council Plan report to Council set out that within the five themes of the Council Plan there would be a series of universal offers aimed at all of Rotherham's residents, while several actions were specifically aimed at tackling inequalities and issues of access. These were set out in more detail within the Equality Analysis accompanying the Council Plan report considered at full Council on 12<sup>th</sup> January 2022. Since the approval of the Council Plan, progress reports have been presented to Cabinet. The latest progress update was presented on 20 January 2025, which included an accompanying Equality Analysis.

The budget proposals for 2025/26 include provision for £17m additional costs for adult social care. Children's Services budget factors in the savings delivery that was re-profiled as part of the 2024/25 Budget plans, to ensure that service levels can be maintained whilst a longer period of time is taken to deliver the service transformation plans and associated cost reductions. Good progress has been made during 2024/25 towards delivery of those savings plans however, the Council has extended a corporate budget provision in 2025/26 to provide for the risk that placement savings planned for 2024/25 are not delivered at the required pace or are impacted by further market cost pressures. A budget increase is provided for ongoing cost and demand pressures within Home to School Transport, a national issue and pressure.

The budget proposals also prioritise £2m revenue budget investment across the following themes, mirroring the Council Plan priorities:

- Every neighbourhood thriving
- People are safe, healthy and live well
- Every child able to fulfil their potential
- Expanding economic opportunity
- A cleaner, greener local environment
- One Council approach

The Council is aware that many residents will be facing rising household costs. In recognition of this the Council proposes to provide a further Local Council Tax Support Top Up scheme across the financial year 2025/26. Based on current caseloads this is expected to provide additional support to approximately 14,000 households. The Council's Local Council Tax Support Scheme was fully reviewed in 2018 and has now been reviewed again in 2024 along with a formal consultation process on any potential changes to the scheme. It is proposed that only the taper used on the CTS scheme is adjusted, from 30% to 20%. Careful analysis within the review confirmed that it is the

*Appendix 11 - Initial Equality Screening Assessment (Part A)*

most vulnerable claimants of support who are reliant on the maximum level of CTS of 91.5% support for a working age household. It is these claimants who will benefit most from the proposed CTS top-up.

The Capital Programme section of the report will seek approval for a series of new investment proposals, prioritised following a process of review and scrutiny of options. The linked financial revenue implications of the capital programme have been factored into the Council's revenue budget.

A public consultation on the Budget ran from 18<sup>th</sup> November 2024 to January 10<sup>th</sup> 2025 and responses have been considered in finalising the budget proposals. A report reflecting the consultation is appended to this report. No specific equality implications were raised as part of the consultation. However, within the consultation responses there were:

- The most frequently mentioned spending priorities were maintenance of roads and pavements (23 mentions), street cleanliness/waste management (17 mentions) and regeneration of the town centre (17 mentions).
- Also mentioned frequently were priorities relating to community safety and tackling crime/ASB (10), improving housing, including repairs (8) education/schools (7 mentions with a further 3 respondents specifically referencing SEND provision), children's social care (7), adult social care (6) and general mention of social care (6).

**• How have you considered equality and diversity?**

Please see section above.

**• Key findings**

Please see section above.

**• Actions**

As indicated in Section 3, the specific equality implications that arise from the Council's Budget will be addressed through Directorate and service budgets aligned to service plans that now include an equalities section. Within this process, all Directorates will complete or will have already completed an equality screening or analysis to ensure due regard has been given and that there is an understanding of the effects of a strategy, policy, service on those from a protected characteristic group. In addition, it is an expectation that appropriate mitigations are considered and put in place to manage any disproportionate impacts.

Date to scope and plan your Equality Analysis:	Upon development of proposals
Date to complete your Equality Analysis:	Upon completion of proposals
Lead person for your Equality Analysis (Include name and job title):	Relevant directorate leads as appropriate

### 5. Governance, ownership and approval

Please state here who has approved the actions and outcomes of the screening:

Name	Job title	Date
Judith Badger	Strategic Director – Finance and Customer Services	23 January 2025

### 6. Publishing

This screening document will act as evidence that due regard to equality and diversity has been given.

If this screening relates to a **Cabinet, key delegated officer decision, Council, other committee or a significant operational decision** a copy of the completed document should be attached as an appendix and published alongside the relevant report.

A copy of **all** screenings should also be sent to [equality@rotherham.gov.uk](mailto:equality@rotherham.gov.uk) For record keeping purposes it will be kept on file and also published on the Council's Equality and Diversity Internet page.

<b>Date screening completed</b>	23 January 2025
<b>If relates to a Key Delegated Decision, Executive Board, Council or a Significant Operational Decision – report date and date sent for publication</b>	
<b>Date screening sent to Performance, Intelligence and Improvement</b> <a href="mailto:equality@rotherham.gov.uk">equality@rotherham.gov.uk</a>	23 January 2025
