## Appendix 3 - Carbon Impact Assessment

	Impact	If an impact or potential impacts are identified			
Will the decision/proposal impact…		Describe impacts or potential impacts on emissions from the Council and its contractors.	Describe impact or potential impacts on emissions across Rotherham as a whole.	Describe any measures to mitigate emission impacts	Outline any monitoring of emission impacts that will be carried out
Emissions from non-domestic buildings?	No impact		Any change in use of buildings such as leisure facilities and community buildings is not expected to have an impact on overall emissions.	Places Leisure in Rotherham are currently installing solar panels to improve energy efficiency and emissions.	Energy use of Places Leisure facilities is reported via contract meetings.
Emissions from transport?	No impact			The overall impact of increasing physical activity levels is expected to increase uptake of active travel which will decrease emissions through modal shift.	
Emissions from waste, or the quantity of waste itself?	No impact				
Emissions from housing and domestic buildings?	No impact				
Emissions from construction and/or development?	No impact				

	No impact				
Carbon capture (e.g. through trees)?					
Identify any emission impacts associated with this decision that have not been covered by the above fields: None					

Please provide a summary of all impacts and mitigation/monitoring measures:	
N/A	

Supporting information:		
Completed by:	Kate Green, Public Health Specialist	
(Name, title, and service area/directorate).	Gilly Brenner, Public Health Consultant	
	Public Health Service, Adult, Care Housing and Public Health.	
Please outline any research, data, or information used to complete this [form].	None	
If quantities of emissions are relevant to and have been used in this form please identify which conversion factors have been used to quantify impacts.	N/A	
Tracking [to be completed by Policy Support / Climate Champions]	Tracking reference: Arthur King, Principal Climate Change Officer
